Cadarnhawyd bod yr ymweliad wedi rhoi cyfle i AaGIC arddangos llawer o waith da'r sefydliad, yn enwedig felly o ran y cynnydd yn ôl Strategaeth y Gweithlu ar gyfer Iechyd a Gofal Cymdeithasol. Talodd y Cadeirydd deyrnged i'r holl staff yn AaGIC a gyfrannodd at y gwaith.</p>	

English Catherine  
11/24/2021 14:21:18

	<p>Esboniodd y Cadeirydd, yn dilyn Ymweliad y Gweinidog, ei fod wedi mynychu cyfarfod gyda Chadeiryddion Cymru Gyfan, y Gweinidog Iechyd a Gofal Cymdeithasol, a'r Dirprwy Weinidog Iechyd. Bu i'r cyfarfod hwn dynnu sylw at y safle canolog sydd gan y fenter 'Cymru Iachach' ar agenda'r llywodraeth o hyd. Ffocysau trafod eraill oedd y Ddyletswydd Economaidd-gymdeithasol, yr agenda amgylcheddol gynyddol a'r ymgyrch 'Mwy na Geiriau/More than Words'.</p> <p>Gofynnodd y Cadeirydd i'r Bwrdd gadarnhau Gweithred y Cadeirydd yr ymgwymerwyd â hi ar 11 Awst i gymeradwyo'r risg weithredu parthed codiad cyflog staff y GIG o 3% fel y manylir arnynt ar dudalen 3 yr adroddiad. Yn unol â Rheolau Sefydlog AaGIC, ymgwymerodd y Cadeirydd a'r Prif Weithredwr â Gweithred y Cadeirydd ar ôl ymgynghori yn gyntaf â dau Aelod Annibynnol.</p> <p>Argymhellwyd y dylid ymestyn y trefniadau ar gyfer cynnal cyfarfodydd rhithwir y Bwrdd a'r Pwyllgor hyd at ddiwedd Ionawr 2022.</p>	
<b>Penderfynwyd</b>	<p>Y Bwrdd:</p> <ul style="list-style-type: none"> <li>• <b>nodi'r</b> adroddiad er gwybodaeth.</li> <li>• <b>cadarnhau</b> Gweithred y Cadeirydd yr ymgwymerwyd â hi ar 11 Awst yn erchi ar i'r Bwrdd gymeradwyo codiad cyflog o 3% i'w weithredu ar gyfer staff y GIG;</li> <li>• <b>cymradwyo</b> ymestyn cynhaliad cyfarfodydd rhithwir Bwrdd a Phwyllgorau hyd at ddiwedd Ionawr 2022.</li> </ul>	<b>DB</b>
<b>3009/2.1.2</b>	<b>Gosod y Sêl Gyffredin</b>	
	<p>Bu i'r Bwrdd <b>dderbyn</b> yr adroddiad.</p> <p>Cadarnhaodd y Cadeirydd fod AaGIC wedi ymrwymo i 49 o weithredoedd dan Gam 1 yr Adolygiad Strategol o Addysg Gweithwyr Iechyd Proffesiynol a bod dau gopi gwreiddiol o bob gweithred wedi'u selio yn unol ag Adran 7 o'r Rheolau Sefydlog. Cofnodwyd pob gweithred ar Gofrestr Selio AaGIC, fel y manylir yn Atodiad 1 yr adroddiad.</p> <p>Cadarnhaodd Eifion Williams fod un contract heb ei glirio ac eglurodd y byddai diweddariad llafar yn cael ei ddarparu i bwyllgor mewnol y Bwrdd.</p>	
<b>Penderfynwyd</b>	<b>Nododd y Bwrdd yr adroddiad er gwybodaeth.</b>	
<b>3009/2.1</b>	<b>Adroddiad y Prif Weithredwr</b>	
English Catherine 11/24/2021 14:21:18	<p><b>Derbyniodd y Bwrdd yr adroddiad.</b></p> <p>Gan amlinellu ei hadroddiad yn gryno, ailddatganodd Alex Howells yr heriau sy'n wynebu'r GIG a'r rôl bwysig mae'n rhaid i AaGIC ei chwarae o ran cefnogi'r system. Esboniodd, er bod llawer o waith AaGIC yn strategol ac yn canolbwyntio ar newid</p>	

	<p>cynaliadwy tymor hir, bod sgysiau yn parhau ynghylch pa fodd arall y bydd AaGIC yn cefnogi'r system.</p> <p>Rhoddwyd diweddariad ar y rhyngwyneb â Gofal Cymdeithasol, gan dynnu sylw at bwysigrwydd y gwaith hwn yn enwedig yng nghyd-destun yr heriau gweithlu cyfredol.</p> <p>Cadarnhawyd bod AaGIC wedi mynychu cyfarfod tîm gweithredol ar y cyd â Bwrdd Iechyd Powys ym mis Awst i drafod meysydd o ddiddordeb cyffredin, gwneud cysylltiadau ar draws timau, a sicrhau bod AaGIC yn cefnogi eu hagenda heb ddyblygu ymdrechion. Bu'r cyfarfod yn addysgiadol, yn enwedig o ran deall amgylchiadau'r Bwrdd Iechyd a safbwynt ehangach y gweithlu o fewn gofal cymdeithasol a'r sector gwirfoddol.</p> <p>Cynhaliwyd sesiwn debyg gyda chydweithwyr o Iechyd Cyhoeddus Cymru, a bu hyn yn ddefnyddiol o ran cael gwell dealltwriaeth o'u safle unigryw oddi mewn i sefydliadau GIG Cymru. Cadarnhawyd y byddai sesiwn gyda chydweithwyr o Bartneriaeth Cydwasanaethau GIG Cymru yn cael ei chynnal yr wythnos nesaf ac y byddai'n gyfle i sicrhau bod AaGIC yn datblygu ei gynlluniau mewn ffordd ganmoliaethus.</p> <p>Cadarnhaodd Alex Howells ei bod wedi ailgyflwyno cyfarfodydd chwarterol gyda Phrif Weithredwyr cyrff tebyg eraill yng Ngogledd Iwerddon, yr Alban a Lloegr. Esboniodd y byddent yn darparu fforwm i drafod meysydd gwaith, blaenoriaethau, a'r cyfleoedd a'r heriau sy'n wynebu sefydliadau tebyg ym mhob un o'r gwledydd.</p> <p>Yn olaf, cadarnhaodd fod AaGIC wedi noddi gwobr yng Ngwobrau Chwarae Teg Womenspire, a oedd yn cydnabod ac yn dathlu cyfraniad menywod.</p> <p>Croesawodd y Bwrdd ymdrechion AaGIC i gefnogi system y GIG ac roedd yn falch o nodi'r ymdrech barhaus i weithio ar y cyd â thimau gweithredol o sefydliadau eraill y GIG.</p>	
<b>Penderfynwyd</b>	<b>Nododd y Bwrdd yr adroddiad.</b>	
<b>RHAN 3</b>	<b>MATERION STRATEGOL</b>	
<b>3009/3.1</b>	<b>Diweddariad ar y Fframwaith Addysg a Hyfforddiant Aml-Broffesiynol mewn Gofal Sylfaenol a Chymunedol</b>	
<p>English Catherine 11/24/2021 14:21:18</p>	<p><b>Derbyniodd y Bwrdd yr adroddiad.</b></p> <p>Rhoddodd Alex Howells ddiweddariad ar ddatblygiad Fframwaith Addysg a Hyfforddiant Aml-Broffesiynol mewn Gofal Sylfaenol a Chymunedol (Fframwaith). Amlygwyd bod ymgysylltiad helaeth wedi dynodi bod cefnogaeth i ddatblygu fframwaith cynaliadwy ag adnoddau priodol ar gyfer addysgu a hyfforddi'r tîm aml-broffesiynol mewn gofal sylfaenol. Roedd yr achos dros newid a gweledigaeth ar gyfer Fframwaith wedi'i ddatblygu gyda mewnbwn gan ystod o randdeiliaid, ac mae dulliau tebyg wedi'u datblygu ledled y DU.</p>	

	<p>Esboniwyd mai cydran allweddol o'r Fframwaith oedd sefydlu seilwaith craidd wedi'i ariannu'n gynaliadwy ar gyfer addysg a hyfforddiant ar lefelau cenedlaethol a lleol. Ar lefel genedlaethol, cynigiwyd y dylid sefydlu Uned Addysg a Hyfforddiant Aml-Broffesiynol mewn Gofal Sylfaenol a Chymunedol yn AaGIC fel cyfrwng ar gyfer datblygiad addysgol a swyddogaeth llywodraethu ansawdd y sefydliad. Cynigiwyd ei bod yn cael ei lleoli yn un o'r Deoniaethau presennol hyd nes y byddai trafodaethau pellach ar ddatblygiad posibl Deoniaeth Aml-Broffesiynol. Rhannwyd bod y buddsoddiad a oedd ei angen i sefydlu'r seilwaith yn cael ei gwblhau ar hyn o bryd, ond amcangyfrifwyd y byddai'r gost oddeutu £1.75 miliwn y flwyddyn.</p> <p>Cadarnhawyd bod asesiad sylfaenol wedi'i gynnal o'r holl raglenni addysg a hyfforddiant perthnasol sydd ar gael ar hyn o bryd ar sail Cymru-gyfan i'r tîm aml-broffesiynol mewn gofal sylfaenol. Tanlinellai themâu allweddol yr asesiad sylfaenol yr achos gwreiddiol dros newid.</p> <p>Roedd y Bwrdd yn gefnogol i'r cynnig ac yn ystyried y cwmphas ar gyfer adolygiad system gyfan. ## ADRODDIAD Y CADEIRYDD

### 1. PWRPAS YR ADRODDIAD

Pwrpas yr adroddiad hwn yw rhoi diweddariad i'r Bwrdd ar yr ystod o weithgareddau a chyfarfodydd yr ymgymherwyd â hwy gan Gadeirydd AaGIC, Is-gadeirydd a Chadeiryddion y Pwyllgor Archwilio a Sicrwydd a'r Pwyllgor Addysg, Comisiynu ac Ansawdd ers cyfarfod diwethaf y Bwrdd.

### 2. ADRODDIAD Y CADEIRYDD

Mae'r wythnosau diwethaf yn parhau i danlinellu'r materion cymhleth a heriol sy'n wynebu ein system iechyd a gofal yng Nghymru – o barhau i reoli pandemig Covid-19, pwysau ar Iechyd a Gofal Cymdeithasol Brys ac Achosion Brys, ôl-groniadau mewn gofal wedi'i gynllunio. Mae'r effeithiau ar y boblogaeth ac ar y GIG a'r gweithlu Gofal yn rhy amlwg. Mae'r un heriau hyn yn cael eu hadlewyrchu ar draws y Deyrnas Unedig. Gwelwn ailymddangos pedwerydd ton yn Awstria a nifer o sbeisys ledled Ewrop. O safbwynt AaGIC, rydym yn parhau i gefnogi cydweithwyr ar draws iechyd a gofal cymdeithasol i fodloni gofynion heddiw ac yfory a chefnogi lles staff. Fel sefydliad, mae angen i ni hefyd barhau i benderfynu a chanolbwyntio ar ddyfodol y gweithlu ac yn arbennig ansawdd yr hyfforddiant a'r addysg sy'n angenrheidiol i sicrhau bod gweithwyr proffesiynol sydd wedi'u hyfforddi'n dda yn ddiogel. Mae'r rhain yn heriau arweinyddiaeth go iawn Ar draws y system iechyd a gofal cymdeithasol.

Mae'r broses o benodi dau aelod newydd o'r bwrdd yn mynd rhagddo'n dda, ac mae cyfweiliadau wedi'u trefnu ar gyfer dechrau mis Rhagfyr.

Mae Aelodau Annibynnol yn cyfarfod gyda'i gilydd yn anffurfiol bob pythefnos i sgwrsio.

Mae John Hill-Tout a minnau'n cynnal sgysiau ddwywaith yr wythnos.

Rwy'n parhau i gwrdd yn ffurfiol ag Alex fel Prif Swyddog Gweithredol yn wythnosol ac aelodau o'r Tîm Gweithredol bob pythefnos. Mae Alex a minnau wedi cynnal trafodaeth adolygu canol blwyddyn.

Mae trefniadau ar waith i gynnal adolygiadau canol blwyddyn gydag aelodau annibynnol yn ystod mis Ionawr.

Yn Sesiwn Ddatblygu'r Bwrdd a gynhaliwyd ar 28 Hydref, cawsom gyflwyniad ar gynhwysiant, cydraddoldeb ac amrywiaeth gan Abu-Bakr Madden. Rhoddodd Helen Thomas gyflwyniad ar y Prosiect 'Harp Speed'. Rhoddodd Charlette Middlemass y wybodaeth ddiweddaraf am yr hyn y mae AaGIC yn ei wneud i gefnogi'r Rhaglen Genedlaethol ar gyfer Gofal Brys ac Argyfwng.

Yn ystod mis Tachwedd, rydym wedi cyflwyno yn y sesiynau Datblygu Bwrdd yn YMDIRIEDOLAETH GIG Felindre, Bwrdd Iechyd Prifysgol Caerdydd a'r Fro a Bwrdd Iechyd Prifysgol Aneurin Bevan. Mae'r sesiynau hyn wedi bod yn gyfrwng ardderchog

ar gyfer rhannu gwybodaeth, cyfnewid syniadau a datblygu perthnasoedd. Edrychaf ymlaen yn fawr at y sesiynau gyda'r sefydliadau iechyd eraill dros yr wythnosau nesaf. Ar 8 Hydref, cadeiriais ein sesiwn Briffio Gwleidyddol gyntaf gydag Aelodau'r Senedd ac Aelodau Seneddol Cymru. Credaf ei fod yn sesiwn ddefnyddiol ac addysgiadol ac edrychaf ymlaen at sesiynau pellach yn 2022.

Yn ystod mis Tachwedd, rwyf wedi cyfarfod i gael y wybodaeth ddiweddaraf gan Dîm y Gymraeg a'r Tîm Digidol. Mynychais lansiad Y Tŷ Dysgu a'r Gynhadledd Staff. Mae wedi bod yn wych gweld a chlywed (er yn rhithwir) staff ar draws y sefydliad. Mae llawer iawn o waith yn digwydd ac rwy'n ddiolchgar am yr ymroddiad a'r proffesiynoldeb a ddangosir ar draws y sefydliad.

Mae cadeiryddion holl sefydliadau iechyd Cymru yn parhau i gwrdd yn fisol. Yn ein cyfarfod ar 5 Hydref, roedd yr agenda'n cynnwys - diweddariad gan brif weithredwyr, pwysau'r GIG, cyflwyniad gan John Bolton o Improvement Cymru, trafodaethau ar sefydlu Aelodau Annibynnol a pharatoi ar gyfer ymholiad cyhoeddus Covid-19. Yn ein cyfarfod ar 2 Tachwedd, roedd yr agenda'n cynnwys diweddariad gan brif weithredwyr a chawsom gyflwyniad ar y Chwre Nod ar gyfer gofal brys ac achosion brys. Cafodd cadeiryddion drafodaethau eang ynghylch blaenoriaethau iechyd a gofal cymdeithasol a pherfformiad a phwysau'r GIG a Gofal Cymdeithasol.

Cynhaliodd Cadeiryddion ac Is-gadeiryddion holl sefydliadau GIG Cymru gyfarfod ar y cyd ar 11 Tachwedd i drafod amcanion a blaenoriaethau allweddol

Yn olaf, hoffwn fynegi ein diolchgarwch a'n dymuniadau gorau i Eifion, a fydd yn ymddeol fel ein Cyfarwyddwr Cyllid ac aelod o'r Bwrdd ddiwedd mis Rhagfyr. Mae ei brofiad, ei ddoethineb a'i fewnwelediad wedi bod yn amhrisiadwy ym mlynedd ffurfiannol AaGIC. Yr wyf yn siŵr y bydd pawb yn ymuno â mi i ddymuno iechyd a hapusrwydd iddo yn y dyfodol.

## **Adroddiad yr Is-gadeiryddion**

Ym mis Medi, mynychais y gyfres Gynadledda ragorol a drefnwyd gan Gydffederasiwn y GIG. Roedd sesiwn o ddiddordeb arbennig yn ymdrin â phwysigrwydd technoleg ddigidol o ran hwyluso'r adferiad o Bandemig Covid, ac wrth yrru'r ffocws tuag at les ac atal. Roedd sesiwn arall yn canolbwyntio ar benderfyniadau cymdeithasol iechyd ac iechyd fel mesur o lwyddiant cymdeithasol.

Ar ran Is-gadeiryddion yng Nghymru, rwy'n mynychu'r grŵp Gorchwyl a Gorffen Gweinidogol ar ddull system gyfan o ymdrin â lles emosiynol ac iechyd meddwl. Mae hyn yn canolbwyntio'n arbennig ar anghenion Plant a Phobl Ifanc, ac yn y cyfarfod diweddar cawsom ganlyniadau canfyddiadau ymchwil i'r Dull Ysgol Gyfan, a oedd yn pwysleisio pwysigrwydd dull gweithredu ar y cyd rhwng ysgolion ac iechyd a gofal cymdeithasol.

Cafodd cyfarfod diweddar Is-gadeiryddion y GIG gyflwyniad rhagorol gan Angie Oliver o AaGIC a Jim Widdet o Ofal Cymdeithasol Cymru, ar Strategaeth y Gweithlu Iechyd

Meddwl. Roedd hyn yn nodi ein dull integredig o ddatblygu'r gweithlu iechyd meddwl ym maes iechyd a gofal cymdeithasol. Croesawodd yr Is-gadeiryddion y strategaeth a chododd nifer o bwyntiau pwysig. Mae Is-gadeiryddion hefyd yn canolbwyntio sylw ar y pwysau difrifol ar wasanaethau sy'n cael eu profi ar hyn o bryd gan wasanaethau'r GIG. Rhoddais wybodaeth am y cyfarfod ar y camau y mae AaGIC yn eu cymryd i gefnogi gwasanaethau rheng flaen yn ystod y cyfnod anodd hwn, yn enwedig mewn gofal brys a brys.

## **Gweithredu Cadeirydd – Cynnydd mewn Swyddi Hyfforddiant Craidd ac Arbenigol ar gyfer Meddygol**

### **Cefndir**

Ar 4 Tachwedd, gofynnodd AaGIC am 80 o swyddi ychwanegol ar gyfer y rownd nesaf o Recriwtio Cenedlaethol ar gyfer swyddi meddygol gan ddechrau yn 2022. **Cadarnhawyd, os** nad oedd AaGIC wedi ymuno â hwy yn y broses Recriwtio Genedlaethol ar hyn o bryd, ein bod mewn perygl o golli cyfle i benodi i swyddi newydd a gynhwyswyd yn y Cynllun Hyfforddi a Chomisiynu Addysg Blynyddol ac a oedd yn cefnogi ehangu llawer o raglenni gwaith.

Cytunwyd i fwrw ymlaen 'mewn perygl' gyda'r cyflwyniad i Recriwtio Cenedlaethol y cynnydd arfaethedig yn y niferoedd o 80 mewn perthynas â'r swyddi craidd ac arbenigol ar gyfer Hyfforddiant Meddygol. Mae'r ffigur hwn yn cyd-fynd â'n cynigion a gyflwynwyd i Lywodraeth Cymru yn y Cynllun Hyfforddi a Chomisiynu Addysg Blynyddol ar gyfer 2022 lle rydym yn aros am gymeradwyaeth ffurfiol.

### **Gweithred y Cadeirydd**

Cymerwyd Camau'r Cadeirydd ar 5 Tachwedd i'r Bwrdd gymeradwyo symud ymlaen 'mewn perygl' gyda chyflwyniad i National Recruitment o'r cynnydd arfaethedig mewn niferoedd erbyn 80 mewn perthynas â'r swyddi craidd ac arbenigol ar gyfer Hyfforddiant Meddygol. Yn unol â Rheolau Sefydlog AaGIC, ymgwymerodd y Cadeirydd a'r Prif Weithredwr â Gweithred y Cadeirydd ar ôl ymgynghori yn gyntaf â dau Aelod Annibynnol.

Yn dilyn Cam Gweithredu'r Cadeiryddion, mae'r risg wedi'i rheoli i 11 swydd hyfforddi o'r adeg hon.

### **Cadarnhad**

Gofynnir i'r Bwrdd gadarnhau Camau'r Cadeirydd a gymerwyd ar 5 Tachwedd i'r Bwrdd gymeradwyo bwrw ymlaen 'mewn perygl' trwy gyflwyno'r cynnydd arfaethedig mewn niferoedd i 80 i Recriwtio Cenedlaethol mewn perthynas â'r swyddi craidd ac arbenigol ar gyfer Hyfforddiant Meddygol.

## **ADRODDIAD Y PRIF WEITHREDWR – TACHWEDD 2021**

### **1. CYFLWYNIAD**

Mae'n bwysig bob amser ein bod yn edrych ar y gweithgareddau sydd yn yr adroddiad hwn yng nghyd-destun y system iechyd a gofal ehangach. Mae'r sefyllfa yn dal i fod yn anodd iawn, yn enwedig i'n cydweithwyr sy'n darparu gwasanaethau rheng flaen i gleifion a defnyddwyr gwasanaeth. Mae effaith barhaus achosion COVID, y rhaglen frechu, a'r galw sydd wedi crynhoi i gyd yn cael eu rheoli ochr yn ochr â'r pwysau presennol sydd ar wasanaethau gofal brys ac argyfwng, gofal sylfaenol ac iechyd meddwl. Mae'r gaeaf yn agosáu, a bydd hyn yn fwy fyth o brawf ar system sydd eisoes dan bwysau. Gallai hyn olygu rhagor o oblygiadau o safbwynt addysg a hyfforddiant, ac rydym yn monitro'r sefyllfa'n ofalus. Bydd unrhyw amharu ar addysg a hyfforddiant yn arwain at fwy fyth o broblemau yn y dyfodol, felly mae angen i ni weithio mewn cysylltiad agos â'n cydweithwyr er mwyn diogelu ein hyfforddeion a'n myfyrwyr lle bo modd, cynnal eu dysgu a sicrhau eu bod yn ddiogel ac yn cael eu cefnogi.

### **2. GWEITHGAREDDAU ALLWEDDOL**

#### **Cynhadledd Staff**

Cynaliasom gynhadledd staff yr Hydref ar 15 Tachwedd, ac roedd yn wych gweld tua 170 o staff yn ymuno ar gyfer agenda wych o siaradwyr allanol a mewnol. Cawsom gyfle i ddal i fyny â Strategaeth y Gweithlu a'n cynnydd presennol â'n Cynllun Tymor Canolig Integredig, yn ogystal â chlywed am strategaeth BIP Caerdydd a'r Fro gan Abi Harris, y Cyfarwyddwr Cynllunio Strategol. Roedd diddordeb mawr yn y sesiwn gyda Dr Bnar Talibani ar y dull arloesol y mae hi wedi'i arwain o fynd i'r afael â gwybodaeth gamarweiniol am frechu mewn rhai cymunedau yng Nghymru. Enillodd Bnar ein categori a oedd yn cael ei noddi yn ddiweddar yng ngwobrau Womenspire, a chymaint oedd y parch i'w gwaith nes iddi fynd ymlaen i dderbyn gwobr y prif enillydd.

#### **Careersville a Tregyrfa**

Cafodd Careersville, ein plattform ar-lein sy'n arddangos gyrfaoedd yn y GIG ac ym maes gofal cymdeithasol, ei lansio'n llwyddiannus y mis diwethaf, ac un o'r prif siaradwyr oedd y Gweinidog Iechyd a Gwasanaethau Cymdeithasol, Eluned Morgan.

Mae'r plattform yn gwbl ddwyieithog ac mae'n rhith-bentref lle gall defnyddwyr archwilio gwahanol yrfae iechyd a gofal drwy fynd i mewn i wahanol adeiladau. Derbyniodd Careersville bron i 3,000 o edrychiadau ar y diwrnod lansio. Roedd 27.7% o'r holl edrychiadau yn ystod yr wythnos gyntaf yn ymweliadau â'r safle Cymraeg, Tregyrfa, ac roedd hyn yn llawer mwy na'r disgwyl.

#### **Pwyllgor Iechyd a Gofal Cymdeithasol y Senedd**

Bu AaGIC a Gofal Cymdeithasol Cymru mewn sesiwn llafar o Bwyllgor Iechyd a Gofal Cymdeithasol y Senedd ar 4 Tachwedd i ddarparu tystiolaeth am gynnydd wrth weithredu'r Strategaeth Gweithlu Iechyd a Gofal Cymdeithasol. Rydym yn falch fod hyn yn dal yn flaenoriaeth uchel i'r Pwyllgor, ac mae wedi bod yn ddiddorol adolygu'r 50 a mwy o gyflwyniadau a dderbyniwyd fel sail i'w ymchwiliad. Byddwn yn cyflwyno'r

wybodaeth ddiweddaraf i'r Bwrdd ynglŷn â'r camau nesaf â Strategaeth y Gweithlu yn y sesiwn ar y cyd rydym yn ei gynllunio gyda Gofal Cymdeithasol Cymru ar 16 Rhagfyr.

### **Tîm Cymru**

Gofynnwyd i AaGIC ailgyflwyno digwyddiadau Tîm Cymru, a fu'n gyfle rheolaidd i dimau gweithredol y GIG a chydweithwyr yn Llywodraeth Cymru ddatblygu tîm a rhwydweithio cyn COVID. Cynhaliwyd y sesiwn cyntaf ar 11 Tachwedd - sesiwn "gwibfachu" ar gyfer pob un o'r 13 sefydliad i hybu un arloesiad sy'n cael ei ddefnyddio i fynd i'r afael â'r pwysau presennol. Dilynwyd hyn gan sesiwn canolbwyntio ar y dyfodol yn ymdrin â'r dechnoleg ddigidol a thrafodaeth i ysgogi pobl i feddwl sut rydym yn cynnwys y dechnoleg ddigidol yn ein gwaith arweinyddiaeth. Siaradwyd yn y digwyddiad hefyd gan y Gweinidog a'n Cyfarwyddwr Cyffredinol newydd/Prif Weithredwr GIG Cymru, Judith Paget.

### **Datblygu'r Cynllun Tymor Canolig Integredig**

Mae papur sy'n cyflwyno'r wybodaeth ddiweddaraf am ddatblygiad Cynllun Tymor Canolig Integredig tair blynedd AaGIC ar gyfer 2022-25 ar yr agenda. Cytunwyd ar y dull o ddatblygu'r Cynllun gan y Bwrdd ym mis Medi, â diweddariad o'r chwe Nod Strategol fel Fframwaith y Cynllun. Mae'r cam cynllunio gweithredol yn mynd rhagddo yn awr er mwyn datblygu cynlluniau manwl ar gyfer pob Amcan Strategol a sicrhau bod y rhain yn ymateb i ganllawiau cynllunio Llywodraeth Cymru a gyhoeddwyd yn gynharach y mis hwn. Mae'n hanfodol bod ein cynlluniau yn gyson â blaenoriaethau'r Gweinidog a'r pwyslais ar adfer y system iechyd a gofal. Mae hyn yn golygu ei bod yn bosibl y bydd angen i ni roi rhai o'n hamcanion mwy strategol a dyheadol o'r neilltu am y tro.

### **Cynllun Cydraddoldeb Strategol**

Cafodd y Cynllun Cydraddoldeb Strategol ar gyfer 2020-24 ei gymeradwyo gan y Bwrdd y llynedd. Roedd y Cynllun yn amlinellu sut y byddai AaGIC, yn ystod cyfnod pedair blynedd y cynllun, yn cryfhau ein dull o hybu cydraddoldeb, dileu gwahaniaethu a meithrin cysylltiadau da.

Mae'r papur sydd ar yr agenda heddiw yn darparu'r wybodaeth ddiweddaraf am y cynnydd sydd wedi'i wneud mewn cysylltiad â'r Cynllun Cydraddoldeb Strategol y llynedd.

### **Diweddariad ar Iechyd Meddwl**

Mae papur sy'n cynnwys yr wybodaeth ddiweddaraf am ddatblygu'r Cynllun Gweithlu Strategol ar gyfer Iechyd Meddwl hefyd ar yr agenda heddiw. Mae'r Cynllun hwn yn ymrwymiad allweddol yn 'Law yn Llaw at Iechyd Meddwl' sy'n amlinellu'r angen i Lywodraeth Cymru weithio gydag AaGIC, Gofal Cymdeithasol Cymru (GGC) a phartneriaid i lunio cynllun gweithlu ar gyfer iechyd meddwl erbyn mis Mawrth 2022. Mae'r ymrwymadau sydd yn Law yn Llaw at Iechyd Meddwl yn cael eu goruchwyllo gan Fwrdd Cyflawni a Goruchwyllo Gweinidogol sy'n cael ei gadeirio gan y Dirprwy Weinidog.

English  
11/24/2022 14:21:18

Mae'r ymgysylltiad a'r dadansoddiad cychwynnol a fydd yn sail i'r Cynllun yn eu camau terfynol, ac mae'r broses yn cael ei goruchwyllo gan Fwrdd Prosiect sy'n cynnwys AaGIC, GCC a chydweithwyr yn Llywodraeth Cymru.

Bydd cynnwys y Cynllun yn cael ei ddrafftio erbyn diwedd mis Rhagfyr, a chynhelir proses ymgynghori ddau fis ym misoedd Ionawr a Chwefror. Darperir diweddariad ar gynnwys y Cynllun yn y sesiwn ar y cyd â Gofal Cymdeithasol Cymru ym mis Rhagfyr.

### **Fframwaith Ansawdd a Diogelwch Cenedlaethol**

Mae papur sy'n darparu gwybodaeth am Fframwaith Ansawdd a Diogelwch Cenedlaethol Llywodraeth Cymru ar yr agenda. Mae'r fframwaith cenedlaethol hwn yn cynnwys camau gweithredu amrywiol a fydd yn darparu gwybodaeth ac yn dylanwadu ar agweddau allweddol ar ein Fframwaith Rheoli Ansawdd, gan gynnwys profiad myfyrwyr a hyfforddeion.

Nod y fframwaith cenedlaethol yw darparu arweiniad i sefydliadau'r GIG ar gael system rheoli ansawdd gref ar bob lefel yn arwain at lai o amrywiad mewn ansawdd.

Mae'n amlwg bod angen addasu ychydig ar y fframwaith er mwyn diwallu anghenion penodol AaGIC ac mae gwaith yn cael ei wneud hefyd er mwyn sefydlu fframwaith ansawdd ar gyfer gwahanol broffesiynau.

### **Grŵp Cyfeirio Rhanddeiliaid**

Fel rhan o'r broses o ddiweddarau ein gwaith cyfathrebiadau ac ymgysylltu rydym wedi trafod, yn Sesiwn Datblygu'r Bwrdd ym mis Hydref, yr angen i sefydlu Grŵp Cyfeirio Rhanddeiliaid i gefnogi'r Bwrdd yn ei holl swyddogaethau gan ganolbwyntio'n benodol ar gynlluniau a datblygiadau. Mae papur yn egluro hyn ynghyd â Chylch Gorchwyl Drafft wedi'i gynnwys ar yr agenda.

### **Adroddiad Perfformiad – Chwarter 2**

Mae ein Hadroddiad Perfformiad, sy'n darparu sicrwydd ynglŷn â pherfformiad y sefydliad yn Chwarter 2 yn erbyn Cynllun Blyneddol 2021/22 wedi'i gynnwys ar yr agenda heddiw.

Yn gyffredinol, mae'r adroddiad yn dangos bod AaGIC wedi dal i wneud cynnydd da wrth gyflawni ein Hamcanion Strategol a'i fod wedi perfformio'n effeithiol yn ystod hanner cyntaf 2021/22. Yn ogystal â chyflawni ein cynlluniau strategol a gweithgareddau busnes fel arfer rydym yn dal i gefnogi Llywodraeth Cymru a phartneriaid yn y GIG mewn ymateb i COVID-19 drwy ailosod ac adfer.

Rydym newydd gwblhau'r adolygiadau canol blwyddyn gyda Chyfarwyddiaethau AaGIC er mwyn darparu cyfle i drafod cyflawni yn ystod y flwyddyn ac unrhyw heriau sy'n gysylltiedig â pherfformiad.

### **Cyfarfodydd gyda sefydliadau'r GIG**

Mae gennym nifer o wahanol weithgareddau ymgysylltu ar y gweill ar hyn o bryd gan gynnwys; mynychu Sesiynau Datblygu'r Bwrdd; cyfarfodydd Tîm Gweithredol a chyfarfodydd ymgysylltu ar y cyd ar y Cynllun Tymor Canolig Integredig. Mae'r rhain

wedi bod yn fuddiol iawn er mwyn sicrhau bod ein cynlluniau yn gysylltiedig â gweddi y GIG ac maent hefyd wedi helpu i hyrwyddo ac egluro ein rôl a'n swyddogaethau. Un o'r prif faterion sy'n codi o'r trafodaethau hyn oedd gweithredu polisi bwrsariaeth Llywodraeth Cymru sy'n dal i beri pryder i rai sefydliadau a phroffesiynau.

## **Penodiad newydd**

Rwy'n falch o gadarnhau bod Rhiannon Beckett wedi'i phenodi fel y Cyfarwyddwr Cyllid Interim newydd o 1 Ionawr 2022 ymlaen. Rhiannon yw ein Dirprwy Gyfarwyddwr Cyllid ar hyn o bryd. Rydym bob amser yn awyddus i annog datblygiad ein staff ein hunain ac mae'n wych gallu cynnig y cyfle hwn i Rhiannon.

Bydd Rhiannon yn cymryd drosodd gan Eifion Williams ar 1 Ionawr 2022. Rydym yn ddiolchgar iawn i Eifion am y profiad a'r ymrwymiad a roddodd i'r rôl yn ystod y blynyddoedd diwethaf. Rwy'n siŵr y byddai'r Bwrdd yn hoffi ymuno â mi i ddiolch i Eifion am ei arweiniad ac am ddatblygu'r swyddogaeth gyllid.

Bwriadwn hysbysebu ar gyfer swydd barhaol Cyfarwyddwr Cyllid ym mis Ebrill 2022.

## **Rôl Cyfarwyddwr y Gweithlu a Datblygu Sefydliadol**

Mae arnaf eisiau dweud wrthyf hefyd ein bod yn hysbysebu swydd Cyfarwyddwr y Gweithlu a Datblygu Sefydliadol yr wythnos hon. Fel y gwyddoch, mae Julie Rogers wedi bod yn cyflawni'r rôl hon ar drefniant secondiad gan Lywodraeth Cymru ers sefydlu AaGIC, felly mae arnom eisiau sicrhau bod trefniadau parhaol yn cael eu gwneud ar gyfer y rôl cyn i'r trefniadau secondiad ddod i ben. Mae proses benodi lawn wedi'i chynllunio, gan gynnwys cyfweiliadau yn gynnar ym mis Rhagfyr.

## **Cyllid**

Mae papur yn amlinellu sefyllfa mis tri ar yr agenda. Sefyllfa ariannol AaGIC ym mis tri yw tanwariant o £838,852. Bydd y Bwrdd yn cael ei ddiweddarau ynglŷn â chynlluniau i reoli unrhyw danwariant o ganlyniad i'n gweithgareddau comisiynu.

## **Risg**

Mae'r Gofrestr Risg Gorfforaethol yn cael ei hystyried ar gyfer ei nodi yng nghyfarfod y Bwrdd heddiw. Ar hyn o bryd mae naw risg ar y Gofrestr Risg Gorfforaethol ac un yn cael ei hasesu'n goch: Seiberddiogelwch. Mae'r Bwrdd hefyd yn ymwybodol o'r risgiau rydym wedi bod yn eu rheoli o ran y Trefniadau Un Cyflogwr Arweiniol mewn cysylltiad â hyfforddeion meddygol, deintyddol a fferyllol. Mae'r risg wedi lleihau yn y mis diwethaf gan fod cynlluniau gweithredu wedi cael eu rhoi ar waith.

## Y WYBODAETH DDIWEDDARAF AM DDATBLYGIAD Y IMTP 2022-25

### 1. CYFLWYNIAD

Mae'r papur hwn yn rhoi'r wybodaeth ddiweddaraf i'r Bwrdd am ddatblygiad yr IMTP 2022-25 a'r camau nesaf.

### 2. CEFNDIR

Cytunodd y Bwrdd ar y dull o ddatblygu'r Cynllun ym mis Medi, gyda adnewyddu'r chwe Nod Strategol fel Fframwaith y Cynllun (gweler y diagram) a thema o atgyfnerthu a chyflawni.

Yn dilyn cytundeb y Fframwaith, mae'r cam cynllunio gweithredol wedi bod ar y gweill i ddatblygu'r cynlluniau manwl ar gyfer pob Amcan Strategol drwy gwblhau'r Cynlluniau drafft cyntaf ar Dudalen a llunio'r Cynllun gan y Tîm Gweithredol a'n SLT estynedig. Mae gwaith hefyd wedi cael ei gwneud yng nghyd-destun ariannol y Cynllun a thrafodir hyn yn Adran 4.

Mae'r gwaith o lunio'r Cynllun wedi'i gwneud yng nghyd-destun y paramedrau a osodwyd mewn llythyr a dderbyniwyd gan y Cyfarwyddwr Cyffredinol blaenorol (Atodiad 1), y Blaenoriaethau Gweinidogol (sydd wedi'u cadarnhau yn Fframwaith Cynllunio GIG Cymru) a Strategaeth y Gweithlu. Mae gan y sefydliad hanes da o gynllunio a darparu fel y gwelir yn yr Adroddiad Perfformiad canol blwyddyn, ac yr ydym yn mynd ar ddysgu hyn ymlaen yn y cylch cynllunio hwn.

Cyhoeddwyd Fframwaith Cynllunio'r GIG 2022-25 ar yr 8fed o Dachwedd (Atodiad 2) ac mae wedi'i osod yng nghyd-destun y pwysau eithafol sydd ar y system iechyd a

gofal a'r gaeaf mwyaf heriol sydd i ddod. Mae'r Fframwaith yn edrych ymlaen at y tair blynedd nesaf i ddarparu gwasanaethau cynaliadwy i gleifion yng Nghymru wrth i ni ddysgu byw gyda Covid ac yn tynnu sylw at yr effaith ar ieuchyd meddwl a lles ein poblogaeth. Mae'r ddogfen yn cadarnhau Blaenoriaethau Gweinidogol ac yn cydnabod bod technoleg ddigidol ac arloesedd wedi bod yn allweddol yn ystod y pandemig ac mae'n rhaid parhau i gyflymu'r newidiadau hyn. Mae Gofal Iechyd yn Seiliedig ar Werth ac egwyddorion darbodus mewn ymarfer yn themâu o fewn y ddogfen yn ogystal â dod o hyd i gydbwysedd rhwng cefnogi'r Ymateb ac Adfer Covid parhaus gyda disgwyliadau am gynllunio rhanbarthol. Bydd y set ddata sylfaenol yn debyg i'r blynyddoedd blaenorol, a bydd yr elfennau perthnasol yn cael eu cwblhau ar gyfer ein Cynllun.

Mae Fframwaith Cynllunio GIG Cymru yn ei gwneud yn ofynnol i bob sefydliad gyflwyno eu cynlluniau erbyn diwedd Mis Chwefror 2022. O flaen llaw, mae'n ofynnol i'r Prif Weithredwr gyflwyno Llythyr Atebolrwydd erbyn yr 15fed o Ionawr ar allu'r sefydliad i gyflwyno IMTP y gellir ei gymeradwyo. Yn seiliedig ar ragdybiaethau ac ymgysylltu presennol, bydd IMTP terfynol AaGIC yn cael ei gyflwyno i Fwrdd mis Ionawr i'w gymeradwyo gyda'r cyflwyniad terfynol i Lywodraeth Cymru erbyn diwedd Ionawr 2022.

Mae'r Gofrestr Risgiau Corfforaethol hefyd wedi cael ei hadolygu i sicrhau bod ein Cynllun yn mynd i'r afael â'n prif risgiau a bydd Seiberddiogelwch yn parhau i gael eu cynnwys fel Amcan Strategol ar wahân. O ran Cyflogwr Arweiniol Sengl, bydd y materion presennol yn cael eu datrys erbyn diwedd y flwyddyn ariannol hon a disgwylir i lefel y risg leihau, er y bydd y rhaglen waith yn parhau. Mae hyn yn cael ei adolygu i'w benderfynu ym mis Rhagfyr a oes angen Amcan Strategol penodol.

### 3. CYNLLUNIAU MANWL

Mae Arweinwyr Gweithredol a SROs wedi adnewyddu eu cynlluniau manwl ar gyfer 2022-25 ac wedi darparu drafftiau cyntaf yn seiliedig ar gyflawniad cadarn a cherrig milltir ar gyfer blwyddyn 1, cyflawniadau dangosol ar gyfer blwyddyn 2 ac amlinellu'r hyn y gellir ei gyflawni ar gyfer blwyddyn 3. Yn seiliedig ar adolygiad cyntaf, mae'r Tîm Gweithredol wedi cytuno mewn egwyddor y gall nifer o'r Amcanion Strategol yn y Cynllun Blynyddol presennol gau ar ddiwedd 2021/22 (gweler y tabl isod).

6.4	Swyddfa'r Prif Swyddog Digidol	Bydd yn cael ei gwblhau erbyn Mehefin 2022
-----	--------------------------------	--------------------------------------------

Er mai thema'r Cynllun yw cyfuno a chyflawni, mae nifer o Amcanion Strategol newydd wedi'u cynnig yng nghyd-destun y Cynllun cyfan a'r cyd-destun strategol. Mae'r rhain fel a ganlyn;

- Ein Strategaeth Gweithlu ar gyfer Iechyd a Gofal Cymdeithasol
- Cwmpasu datblygu Cynllun Gweithlu Deintyddol
- Cwmpasu datblygiad Cynllun Gweithlu Fferylliaeth
- Datblygu'r System Darparu Addysg (EDS)
- Meddyg y Dyfodol
- Safonau addysg a hyfforddiant cychwynnol ar gyfer fferyllwyr a thechnegwyr fferyllol
- Datblygiad o Gymdeithion Anesthetig
- Cefnogi GIG Cymru i ymgorffori Ymarfer Uwch
- Dull amlbroffesiynol o ddatblygu Lleoliadau Clinigol
- Rhoi'r Athrofa Therapiau Lleiaf Ymyrrol Cymru (WIMAT) ar sylfaen gynaliadwy
- Datblygu'r gweithlu optometreg a gofal llygaid
- Moderneiddio modelau gweithlu mewn Canser
- Datblygu Strategaeth Ddigidol a Data ar gyfer AaGIC

Cynhaliwyd gweithdy gyda'r SLT estynedig ar 18 Tachwedd i hwyluso ymgysylltu ar gyfer cyflawni a sicrhau cydberchnogaeth a chysondeb ar draws ein cynlluniau manwl. Yn dilyn y gweithdy hwn, bydd Arweinwyr Gweithredol a SROs yn llunio'r cynlluniau drafft terfynol i'r Tîm Gweithredol ystyried ffurf derfynol y Cynllun a'r cynlluniau cyflawni manwl.

Ceir crynodeb o'r cynllun datblygedig yn Atodiad 3.

Mae'r cynllun adnoddau i gefnogi'r gwaith cyflawni yn cael ei ddatblygu yn seiliedig ar y Cynlluniau ar y Dudalen drwy drafod gyda thimau cyflawni a chynrychiolwyr o'r timau corfforaethol. Gwneir hyn yn gymharol, o fewn y thema cyfuno a defnyddio adnoddau sy'n bodoli eisoes yn ddoeth. Bydd hyn yn cael ei ystyried gan y Tîm Gweithredol gyda'r Cynlluniau drafft terfynol ar dudalen ddechrau mis Rhagfyr.

Bydd manylion terfynol y gwaith hwn ar ffurf y cynllun, yr Amcanion Strategol manwl a chynllunio adnoddau yn cael eu trafod gyda'r Bwrdd yn sesiwn Datblygu'r Bwrdd ym mis Rhagfyr. Cefnogir y drafodaeth hon drwy ddsbarthu'r ddogfen IMTP ddrafft gyntaf i'r Bwrdd roi sylwadau.

#### 4. Y CYNLLUN ARIANNOL

Cynhyrchwyd drafft cyntaf y cynllun ariannol ar gyfer 2022-23 i 2026-27 yn adlewyrchu'r newidiadau i gyllidebau comisiynu a gynhwyswyd yn y papur Comisiynu Addysg a Hyfforddiant; cyflogau staff yn modelu'r dyfarniadau cyflog tybiedig a newidiadau cynyddrannol dros y cyfnod cynllunio a diffyg cyflog ac adolygiad o ofynion

gyda deiliaid cyllidebau. Mae'r cynllun drafft dangosol yn gyfanswm o £307m ac mae'r camau nesaf yn cynnwys gwirio a dilysu ansawdd a fydd yn cael ei gwblhau erbyn diwedd mis Tachwedd.

Bydd y Cynllun Ariannol yn:

- Adlewyrchu cynnydd mewn cyllidebau comisiynu dros y llwybr cynllunio ariannol pum mlynedd y cytunwyd arno fel rhan o Gynllun Comisiynu Addysg a Hyfforddiant GIG Cymru 2022-23.
- Cwblhau modelu cyflogau yn seiliedig ar ddata ESR, swyddi gwag hysbys ac unrhyw newidiadau y cytunwyd arnynt yn y sefydliad oherwydd achosion busnes y cytunwyd arnynt gyda mewnbwn gan ddeiliaid y gyllideb i gadarnhau cywirdeb. Adlewyrchu'r gost ychwanegol o ddyfarniadau cyflog a gytunwyd gan y GIG a chynnydd cyflog.
- Cynnal adolygiad manwl gyda deiliaid cyllideb unigol o'r sefyllfa yn ystod y flwyddyn a'r rhagolwg yn erbyn cyllidebau 2021-22 a bennwyd yn dilyn cytundeb Cynllun Blyneddol 2021-22.
- Cynnwys unrhyw fuddsoddiad mewn achos busnes Llywodraeth Cymru neu newid strategol y cytunwyd arno, gan gynnwys timau neu swyddogaethau newydd sydd wedi trosglwyddo i AaGIC.
- Datblygu Cynllun Cyfalaf tair blynedd, a Rhaglen Gyfalaf flynyddol.

## **5. Cyfathrebu ac Ymgysylltu**

Fel yr amlygwyd yn adroddiad mis Medi, nid oeddem yn gallu ymgymryd ag ymgysylltiad wyneb yn wyneb â sefydliadau'r GIG yn 2020/21 oherwydd COVID-19. Eleni, rydym wedi dechrau cyfres o gyfarfodydd ymgysylltu rhithwir, dan arweiniad y timau cynllunio, gyda phob un o'r Byrddau Iechyd a sefydliadau'r GIG yng Nghymru. Bydd crynodeb o'r themâu sy'n deillio o'r ymgysylltiad yn cael ei gynhyrchu a'i rannu gyda'r Bwrdd fel rhan o'r pecyn ar gyfer y BDS ym mis Rhagfyr. Ar hyn o bryd mae'r themâu yn cyd-fynd yn agos â rhai'r Strategaeth Gweithlu.

Mae gwaith ar y gweill hefyd i adnewyddu ein trefniadau ar gyfer ymgysylltu â'n grŵp ehangach o randdeiliaid a bwriedir gwneud hyn er mwyn hwyluso trafodaeth ar ein Cynllun Addysg a Hyfforddiant nesaf cyn Bwrdd mis Ionawr.

Yn ogystal, fel rhan o'r ymgysylltiad â'n staff, trafodwyd drafft y IMTP yn y Gynhadledd Staff a gyda'r Fforwm Partneriaeth Lleol ym mis Tachwedd. Bydd y drafodaeth gyda'r LPF yn dilyn ym mis Ionawr gyda gwybodaeth fanylach am y cynllun terfynol a'n hymgysylltiad â staff a rhanddeiliaid.

Byddwn hefyd yn rhannu'r themâu allweddol o'r IMTP a chyfarfodydd ymgysylltu gyda'r tîm Cyfathrebu ac Ymgysylltu trwy'r Bwletin Rhanddeiliaid.

## **6. ALINIO'R IMTP GYDA'R CYNLLUN ADDYSG A HYFFORDDIANT**

Bydd y papur Gwersi a Ddysgwyd ar y Cynllun Addysg a Hyfforddiant yn cael ei gyflwyno i'r Tîm Gweithredol i'w ystyried ym mis Tachwedd. Bydd gwaith manwl yn cael ei wneud drwy fis Rhagfyr a mis Ionawr i fapio'r ddwy broses i alluogi'r staff dan sylw i ddeall y ddwy broses ac i gynllunio proses i ddatblygu un cynllun yn 2022. Dyma'r cylch olaf y bydd y ddau gynllun yn cael eu datblygu ar wahân.

## 7. CAMAU NESAF

- Cadarnhau canlyniad y broses o flaenoriaethu a llunio Cynlluniau ar Dudalen gan y Tîm Gweithredol a'r SLT.
- Cynlluniau Terfynol ar Dudalen i'w cyflwyno yn gynnar ym mis Rhagfyr.
- Ystyried y cynlluniau manwl terfynol a gofynion adnoddau gan y Tîm Gweithredol ar yr 8fed o Ragfyr
- Bydd y cynllun terfynol, y risgiau a'r materion a'r ddogfen ddrafft IMTP yn cael ei gyflwyno i'r Bwrdd ar gyfer sylwadau ac adborth yn Sesiwn Datblygu'r Bwrdd ar yr 16eg o Ragfyr.
- Y Prif Weithredwr i ysgrifennu Llythyr Atebolrwydd at Lywodraeth Cymru ynghylch cyflwyno IMTP y gellir ei gymeradwyo erbyn y 15fed o Ionawr.
- Yn seiliedig ar ragdybiaethau ac ymgysylltiad presennol, bydd yr IMTP terfynol yn cael ei gyflwyno i Fwrdd mis Ionawr i'w gymeradwyo gyda chyflwyniad terfynol i Lywodraeth Cymru erbyn 31 Ionawr 2022.

Dear Alex

### **Annual Plans 2021/22 - Parameter Letter**

Thank you for submitting your Board approved Annual Plan 2021/22 in response to the Annual Planning Framework issued in December 2020. It was encouraging that the plan was clearly set out and there are clear mechanisms in place to review and monitor your plan.

My letter of 9 July set out the Ministerial priorities and the wider Welsh Government expectations that will inform the delivery of your annual planning as well as the development your integrated medium term plan for 2022-2025.

The review of NHS plans highlighted a range of generic areas that all organisations must develop and these have been communicated to Chief Executives and Directors of Planning. In addition the following were identified as part of the collective reviews as areas of accountability that your Board will want to continue to strengthen and be assured about as part of the monitoring of the delivery of your plan:

#### **Plan delivery:**

- Review the extent to which the organising is supporting national/ regional work
- Seek to ensure milestones are accurate and deliverable against existing resources
- Seek to further support NHS organisations with core workforce planning advice and expertise
- Clarify role of HEIW in hosting Director of Digital and working relationships with Digital Healthcare Wales

**Finance:** Allocations for additional COVID funding are being worked through and forecasts will continue to be reviewed and tested as part of the mid-year review process.

**Recovery:** - the Board must assure itself that:

plans continue to optimise delivery and that innovative and transformational approaches are being implemented to achieve this

Your Joint Escalation and Intervention Arrangements letter issued on 9<sup>th</sup> August confirms your escalation level remains at 'Routine Arrangements' and there will continue to be alignment in the usual plans and governance arrangements with Welsh Government.

Welsh Government will continue to seek assurance against all the aspects of your plans through routine monitoring meetings and through JET. Plans will be reviewed on a quarterly basis and I recognise that your Boards has set out processes to support monitoring arrangements including where appropriate fully completed Minimum Data Set to inform progress and commissioning of services. Please update us on the outcome of these discussions with your Board in relation to Q2.

Finally I attach the interim Delivery Framework that organisations have requested to further assist you with your planning arrangements.

Thank you for your ongoing commitment. If you have any questions please contact the planning team on [HSS-planningteam@gov.wales](mailto:HSS-planningteam@gov.wales)

Yours sincerely

**NHS Delivery Framework 2021-2022**

The NHS Delivery Framework for 2021-2022 is an interim document whilst further work is undertaken to identify outcome focused measures that deliver the priorities of the Outcomes Framework for Health and Social Care. As the Outcomes Framework for Health and Social Care is a recommendation of A Healthier Wales: Long Term Plan for Health and Social Care, all of the measures in the NHS Delivery Framework for 2021-2022 have been mapped to A Healthier Wales’ quadruple aims.

English Catherine  
11/24/2021 14:21:18

## NHS Delivery Measures:

### **Quadruple Aim 1: People in Wales have improved health and well-being with better prevention and self-management.**

People will take responsibility, not only for their own health and well-being, but also for their family and for people they care for, perhaps even for their friends and neighbours.

There will be a whole system approach to health and social care, in which services are only one element of supporting people to have better health and well-being throughout their whole lives. It will be a 'wellness' system, which aims to support and anticipate health needs, to prevent illness, and to reduce the impact of poor health.

- Percentage of babies who are exclusively breastfed at 10 days old
- Percentage of children who received 3 doses of the hexavalent '6 in 1' vaccine by age 1
- Percentage of children who received 2 doses of the MMR vaccine by age 5
- Percentage of adult smokers who make a quit attempt via smoking cessation services
- European age standardised rate of alcohol attributed hospital admissions for individuals resident in Wales (episode based)
- Percentage of people who have been referred to health board services who have completed treatment for alcohol misuse
- Uptake of influenza vaccination among: 65 year olds and over; under 65s in risk groups; pregnant women and; health care workers
- Percentage of eligible people aged 25-49 will have participated in the cervical screening programme within the last 3.5 years and eligible people aged 50-64 within the last 5.5 years
- Percentage of eligible people will have participated in the bowel screening programme within the last 2.5 years
- Percentage of women resident and eligible for breast screening at a particular point in time will have been screened within the previous three years
- Percentage of health board residents in receipt of secondary mental health services who have a valid care and treatment plan (for those age under 18 years and 18 years and over)
- Percentage of people in Wales at a GP practice (age 65 years and over) who are estimated to have dementia that are diagnosed

**Quadruple Aim 2: People in Wales have better quality and more accessible health and social care services, enabled by digital and supported by engagement.**

There will be an equitable system, which achieves equal health outcomes for everyone in Wales. It will improve the physical and mental well-being of all throughout their lives, from birth to a dignified end.

Services will be seamless and delivered as close to home as possible. Hospital services will be designed to reduce the time spent in hospital, and to speed up recovery. The shift in resources to the community will mean that when hospital based care is needed, it can be accessed more quickly.

- Qualitative report detailing evidence of advancing equality and good relations in the day to day activities of NHS organisations
- Qualitative report detailing the achievements made towards the implementation of the all Wales standard for accessible communication and information for people with sensory loss
- Qualitative report detailing the progress against the 6 actions contained in the Learning Disability – Improving Lives Welsh Government Programme
- Qualitative report detailing progress against the 5 standards that enable health and well-being of homeless and vulnerable groups to be identified and targeted
- Percentage of GP practices that have achieved all standards set out in the National Access Standards for In-hours GMS
- Percentage of children regularly accessing NHS primary dental care within 24 months
- Percentage of adults regularly accessing NHS primary dental care within 24 months
- Percentage of Out of Hours (OoH)/111 patients prioritised as P1CHC that started their definitive clinical assessment within 1 hour of their initial call being completed
- Percentage of emergency responses to red calls arriving within (up to and including) 8 minutes
- Number of ambulance patient handovers over 1 hour
- Percentage of patients who spend less than 4 hours in all major and minor emergency care (i.e. A&E) facilities from arrival until admission, transfer or discharge
- Number of patients who spend 12 hours or more in all hospital major and minor emergency care facilities from arrival until admission, transfer or discharge
- Median time from arrival at an emergency department to triage by a clinician
- Median time from arrival at an emergency department to assessment by a senior clinical decision maker
- Percentage of survival within 30 days of emergency admission for a hip fracture
- Percentage of patients (age 60 years and over) who presented with a hip fracture that received an orthogeriatrician assessment within 72 hours
- Percentage of patients who are diagnosed with a stroke who have a direct admission to a stroke unit within 4 hours of the patient's clock start time
- Percentage of daily compliance with 2.375 (WTE) band 6 and 7 nurses per 10 stroke beds
- Percentage of stroke patients who receive mechanical thrombectomy

**Quadruple Aim 2: People in Wales have better quality and more accessible health and social care services, enabled by digital and supported by engagement.**

There will be an equitable system, which achieves equal health outcomes for everyone in Wales. It will improve the physical and mental well-being of all throughout their lives, from birth to a dignified end.

Services will be seamless and delivered as close to home as possible. Hospital services will be designed to reduce the time spent in hospital, and to speed up recovery. The shift in resources to the community will mean that when hospital based care is needed, it can be accessed more quickly.

- Percentage of stroke patients that receive at least 45 minutes of speech and language therapy input in 5 out of 7 days
- Percentage of patients starting first definitive cancer treatment within 62 days from point of suspicion (regardless of the referral route)
- Number of patients waiting more than 8 weeks for a specified diagnostic
- Number of patients waiting more than 14 weeks for a specified therapy
- Percentage of patients waiting less than 26 weeks for treatment
- Number of patients waiting more than 36 weeks for treatment
- Percentage of stage 4 referral to treatment pathways with a priority code recorded on the Patient Administration System
- Percentage of patients on the P2 assigned pathway waiting over 4 weeks
- Number of patients waiting for a follow-up outpatient appointment
- Number of patients waiting for a follow-up outpatient appointment who are delayed over 100%
- Percentage of ophthalmology R1 appointments attended which were within their clinical target date or within 25% beyond their clinical target date
- Rate of hospital admissions with any mention of intentional self-harm for children and young people (age 10-24 years) per 1,000 population
- Percentage of patients waiting less than 28 days for a first appointment for Child and Adolescent Mental Health Services (CAMHS)
- Percentage of mental health assessments undertaken within (up to and including) 28 days from the date of receipt of referral (for those age under 18 years and 18 years and over)
- Percentage of therapeutic interventions started within (up to and including) 28 days following an assessment by LPMHSS (for those age under 18 years and 18 years and over)
- Percentage of children and young people waiting less than 26 weeks to start an ADHD or ASD neurodevelopment assessment
- Percentage of patients waiting less than 26 weeks to start a psychological therapy in Specialist Adult Mental Health
- Cumulative rate of laboratory confirmed bacteraemia cases per 100,000 population: E-coli; S.aureus bacteraemias (MRSA and MSSA); C.difficile
- Cumulative number of laboratory confirmed bacteraemia cases: Klebsiella sp; Aeruginosa

### **Quadruple Aim 3: The health and social care workforce in Wales is motivated and sustainable.**

New models of care will involve a broad multi-disciplinary team approach where well-trained people work effectively together to meet the needs and preferences of individuals.

Joint workforce planning will be in place with an emphasis on staff expanding generalist skills and working across professional boundaries. Strategic partnership will support this with education providers and learning academies focused on professional capability and leadership.

English Catherine  
11/24/2021 14:21:18

- Percentage of adults (age 16+) who reported that they were very satisfied or fairly satisfied about the care provided by their GP/family doctor
- Qualitative report providing evidence of implementing actions to deliver the Welsh language objectives as defined in the More Than Just Words Action Plan
- Overall staff engagement score
- Percentage of headcount by organisation who have had a Personal Appraisal and Development Review (PADR)/medical appraisal in the previous 12 months (excluding doctors and dentists in training)
- Percentage compliance for all completed level 1 competencies of the Core Skills and Training Framework by organisation
- Qualitative report providing evidence of learning and development in line with the Good Work – Dementia Learning and Development Framework
- Percentage of sickness absence rate of staff
- Percentage of staff who report that their line manager takes a positive interest in their health and well-being

**Quadruple Aim 4: Wales has a higher value health and social care system that has demonstrated rapid improvement and innovation, enabled by data and focused on outcomes.**

Delivering higher value in health and social care will focus on outcomes that matter to the individual and making our services safe, effective, people-centred, timely, efficient and equitable. This will bring the individual to the fore and consider the relative value of different care and treatment options, in line with Prudent Health.

Research, innovation and improvement activity will be brought together across regions – working with RPBs, universities, industries and other partners. Alignment of funding streams and integrated performance management and accountability across the whole system will be in place to accelerate transformation through a combination of national support, incentives, regulation, benchmarking and transparency.

- Average rating given by the public (age 16+) for the overall satisfaction with health services in Wales
- Evidence of how NHS organisations are responding to service user experience to improve services
- Percentage of complaints that have received a final reply (under Regulation 24) or an interim reply (under Regulation 26) up to and including 30 working days from the date the complaint was first received by the organisation
- Percentage of Health and Care Research Wales non-commercial portfolio studies recruiting to target
- Percentage of Health and Care Research Wales portfolio commercially sponsored studies recruiting to target
- Crude hospital mortality rate (74 years of age or less)
- Percentage of in-patients with a positive sepsis screening who have received all elements of the 'Sepsis Six' first hour care bundle within 1 hour of positive screening
- Percentage of patients who presented as an emergency with a positive sepsis screening who have received all elements of the 'Sepsis Six' first hour care bundle within 1 hour of positive screening
- All new medicines recommended by AWMSG and NICE, including interim recommendations from cancer medicines, must be made available where clinically appropriate, no later than 2 months from the publication of the NICE Final Appraisal Determination and the AWMSG appraisal recommendation
- Total antibacterial items per 1,000 specific therapeutic group age-sex related prescribing units (STAR-PUs)
- Percentage of secondary care antibiotic usage within the WHO Access category
- Number of patients age 65 years or over prescribed an antipsychotic
- Number of women of child bearing age prescribed valproate as a percentage of all women of child bearing age
- Opioid average daily quantities per 1,000 patients
- Quantity of biosimilar medicines prescribed as a percentage of total 'reference' product including biosimilar (for a selected basket of biosimilar medicines)
- Percentage of critical care bed days lost to delayed transfer of care (ICNARC definition)
- Agency spend as a percentage of the total pay bill
- Percentage of episodes clinically coded within one reporting month post episode discharge end date

# NHS Wales Delivery Framework Guidance Document for 2021-2022

---

English Catherine  
11/24/2021 14:21:18

## Introduction

This guidance outlines how the delivery measures in the NHS Delivery Framework 2021-2022 are to be reported. For each measure, it provides the:

- Data source
- Frequency of reporting
- The policy area in Welsh Government that is responsible for driving improvement
- Status (i.e. whether the measure is new or revised)
- A rationale, explaining why the measure is being monitored

The measures in this guidance supersede all measures that were issued in the NHS Delivery Framework, NHS Outcomes Framework and AOF for previous years.

## Quantitative Measures

All quantitative measures in the Delivery Framework are to undergo an information standards assurance process to ensure that the analysis method is appropriate and formally defined. Analysis methods that have been approved will be available to NHS organisations on the Planning, Delivery and Performance section of HOWIS' intranet site.

To reduce the burden of measurement, measures that have an established data source have been used wherever possible. Where existing data is not available, data collection templates have been developed to enable organisations to submit data from their local systems.

## Qualitative Measures

For some measures, a qualitative approach to measuring service delivery is required. These measures require NHS organisations to provide an update on the activity that has been undertaken during the operational year. Templates have been designed to enable health boards and trusts to evidence the activity that they have delivered and to enable Welsh Government to assess the progress that has been made. The qualitative measures in the Framework for 2021-2022 are as follows:

- Evidence of advancing equality and good relations in the day to day activities of the NHS organisations
- Achievements made towards the implementation of the all Wales standard for accessible communication and information for people with sensory loss

- Progress against the 6 actions contained in the Learning Disability – Improving Lives Welsh Government Programme
- Progress against the 5 standards that enable health and well-being of homeless and vulnerable groups to be identified and targeted
- Evidence of implementing actions to deliver the Welsh language objectives as defined in the More Than Just Words Action Plan
- Evidence of learning and development in line with the Good Work – Dementia Learning and Development Framework
- Evidence of how NHS organisations are responding to service user experience to improve services

The reporting templates for all the aforementioned measures are available on pages 46 to 65. Electronic versions of the qualitative reporting templates outlined in this document are available to NHS organisations on the Planning, Delivery and Performance section of HOWIS' intranet site.

The templates outlined in this document are to be used for reporting activity for the period 1 October 2020 to 31 March 2022, as revisions have been made to the reporting templates from the previous year. The reporting period for 2021-2022 has been adapted to accommodate peaks in service pressures during the response to the COVID-19 pandemic.

## **New Measures**

To reflect priority areas, ten new measures have been included in the framework for 2021-2022. These measures are:

- Percentage of adults regularly accessing NHS primary dental care within 24 months
- Median time from arrival at an emergency department to triage by a clinician
- Median time from arrival at an emergency department to assessment by a senior clinical decision maker
- Percentage of daily compliance with 2.375 (WTE) band 6 and 7 nurses per 10 stroke beds
- Percentage of stroke patients who receive mechanical thrombectomy
- Percentage of stage 4 referral to treatment pathways with a priority code recorded on the Patient Administration System
- Percentage of patients on the P2 assigned pathway waiting over 4 weeks
- Percentage of staff who report that their line manager takes a positive interest in their health and well-being

- Percentage of secondary care antibiotic usage within the WHO Access category
- Percentage of episodes clinically coded within one reporting month post episode discharge end date

## **Revised Measures**

Since the publication of last year's NHS Delivery Framework, a number of the existing delivery measures have been revised for 2021-2022. The main reasons for these revisions are: to reflect changes in delivery targets to promote and encourage continuous improvement and; to capture changes in data information sources.

The delivery measures that have been re-defined are highlighted in the status column of this guidance as 'revised'. In addition, a brief description of the revision to the delivery measure is outlined in a separate summary table entitled 'Summary of Revisions to Delivery Measures' (pages 42 to 45).

## **Removed Measures**

Following a review of the 2020-2021 edition of the NHS Delivery Framework, a number of delivery measures have not been carried forward into this year's document. The decision to remove them from the Framework was made following advice from Welsh Government's policy leads. The main reasons for removing these measures include: the quality of the data is not robust enough; the measure is no longer applicable due to changes in service delivery; the measure is operationalised through an alternative reporting mechanism or; an alternative measure has been identified.

For ease of reference, all the outcome indicators and performance measures that have not been carried forward into the 2021-2022 edition of the framework are noted on pages 66 and 67.

## **Monitoring and Reporting Performance**

All quantitative data will be monitored and reported in accordance with the reporting frequency outlined in the guidance tables. These measures will be reported via Welsh Government to the following groups for consideration and, where appropriate, corrective action:

NHS and Welsh Government Meetings:

- NHS Wales Leadership Board
- Integrated Quality, Planning and Delivery\*
- Joint Executive Team\*

## Welsh Government Meetings:

- Executive Directors Team
- Quality Delivery Board\*

All measures that have a more qualitative approach to measuring service delivery will also be reported to the aforementioned groups. To ensure a consistent approach to reporting these delivery measures, all submissions will be reviewed by the appropriate policy lead and given a RAG rating based on an agreed set of criteria. This RAG rating will be supplemented by a summary report that will outline any areas of focus to improve delivery.

\*These groups form part of the NHS performance management framework.

## Reporting of COVID-19 Measures

Delivery measures monitoring the response to the COVID-19 pandemic (e.g. hospital admissions, vaccination rates etc.) are to be reported via established mechanisms that fall outside of the NHS Delivery Framework. COVID-19 measures will continue to be monitored and discussed at the NHS and Welsh Government meetings as outlined above.

# NHS Wales Delivery Measures for 2021-2022

---

English Catherine  
11/24/2021 14:21:18

## Quadruple Aim 1: People in Wales have improved health and well-being with better prevention and self-management

Delivery Measure		Target	Information Source	Reporting	Policy Area	Status
1	Percentage of babies who are exclusively breastfed at 10 days old	Annual Improvement	National Community Child Health Database	Annually	Nursing	
		<b>Rationale:</b> Evidence shows that breastfed babies will have better physical and mental health compared to those who are fed on formula milk. Breast milk provides all the nutrients that a baby will need in the first six months of life and contains antibodies that help to protect a baby from infections and illnesses. In addition, a child who has been breastfed as a baby is less prone to obesity, high blood pressure and heart disease. Breastfeeding can also make a difference to a mother's health, as it can reduce the risk of breast cancer, ovarian cancer and osteoporosis.				
2	Percentage of children who received 3 doses of the hexavalent '6 in 1' vaccine by age 1	95%	Public Health Wales	Quarterly	Public Health	
		<b>Rationale:</b> Vaccines are responsible for the control of many infectious diseases that were once common in this country and around the world. Diphtheria, Hepatitis B, Haemophilus Influenza Type B Tetanus and Whooping Cough can all be prevented by a highly safe and effective vaccine. A complete course of 3 doses will protect children from these diseases and prevent them from circulating in the community.				
3	Percentage of children who received 2 doses of the MMR vaccine by age 5	95%	Public Health Wales	Quarterly	Public Health	
		<b>Rationale:</b> Vaccines are responsible for the control of many infectious diseases that were once common in this country and around the world. Measles, Mumps and Rubella can be prevented by a highly safe and effective vaccine. A complete course of 2 doses will protect children from these diseases and prevent them from circulating in the community.				

English Catherine  
11/24/2021 14:21:18

Delivery Measure		Target	Information Source	Reporting	Policy Area	Status
4	Percentage of adult smokers who make a quit attempt via smoking cessation services	5% annual target	Smoking Cessation Services Data Collection (Welsh Government)	Quarterly	Public Health	
		<b>Rationale:</b> Smoking is the number one cause of avoidable premature death, linked to a range of serious and often fatal conditions, such as lung cancer, emphysema and a heart attack. To improve people's health and life expectancy and to reduce the pressures on the NHS, health boards are required to encourage their local smoking population to attend an NHS funded service to stop smoking. Evidence shows that smokers who make a quit attempt using cessation services (offering evidence based behavioural support combined with medication/nicotine replacement therapy) are more likely to quit than those who try unaided.				
5	European age standardised rate of alcohol attributed hospital admissions for individuals resident in Wales (episode based)	4 quarter reduction trend	Patient Episode Database for Wales (PEDW)	Quarterly	Substance Misuse	
		<b>Rationale:</b> Drinking above weekly guidelines and binge drinking is highly prevalent in Wales. Alcohol consumption is a significant public health concern. It may cause an immediate threat to life (e.g. violent crime, drink driving accident and acute alcohol poisoning) and has longer term health consequences, such as liver disease, heart disease and cancer. To reduce alcohol consumption, actions are taking place across Wales to reduce the availability and affordability of alcohol (such as the introduction of the Public Health (Minimum Price for Alcohol) (Wales) Act 2018, which comes into force on the 2 March 2020), to ensure people are aware of the impact of alcohol related harm and to support behavioural change. Work is also being undertaken across Wales to support people with substance misuse issues. An indication of whether these initiatives are having a positive impact is to monitor the standardised rate of hospital admissions that are attributed to alcohol.				

English Catherine  
11/24/2021 14:21:18

Delivery Measure		Target	Information Source	Reporting	Policy Area	Status
6	Percentage of people who have been referred to health board services who have completed treatment for alcohol misuse	4 quarter improvement trend	Welsh National Database for Substance Misuse	Quarterly	Substance Misuse	
		<p><b>Rationale:</b> Alcohol misuse in Wales is a major public health issue, impacting upon individual lives, communities, workplaces and public sector services (such as health, social care and the criminal justice system). Effective alcohol treatment - which is delivered in accordance with best practice and reflecting the client's choice in terms of intervention and treatment outcomes - can reduce alcohol related harm, improve the individual's health and social functioning and save the NHS (and other public sector services) money.</p> <p>Although specialist alcohol services in Wales are provided by the NHS, voluntary sector and local authority, this measure reports on the treatment services that are delivered by NHS teams.</p>

		<p><b>Rationale:</b> Influenza is a respiratory illness that circulates in the UK during the winter months. Most people who are fit and well will recover from influenza, but complications may occur amongst the elderly, pregnant women and people with certain medical conditions. The best way to protect against catching and spreading influenza is to increase the uptake of immunisation amongst the vulnerable groups and health care workers.</p>

8	<b>Cancer screening coverage for:</b> <ul style="list-style-type: none"> <li>Percentage of eligible people aged 25-49 will have participated in the cervical screening programme within the last 3.5 years and eligible people aged 50-64 within the last 5.5 years</li> <li>Percentage of eligible people will have participated in the bowel screening programme within the last 2.5 years</li> <li>Percentage of women resident and eligible for breast screening at a particular point in time will have been screened within the previous three years</li> </ul>	<b>Standards:</b> 60% (bowel) 70% (breast) 80% (cervical)	<b>Public Health Wales Informatics System</b> <b>Screening Division Informatics System</b>	Annually	Public Health	Revised
		<b>Rationale:</b> Population screening programmes for bowel, breast and cervical cancer are important in detecting cancer early and before symptoms appear. Diagnosing cancer early allows for less aggressive treatments to be used, resulting in a better experience for the patient, an improved quality of life and, crucially, better survival. For screening programmes to reach their full potential, coverage rate (focusing on eligible people having a test within the specific time period) needs to improve. A combination of awareness raising and more acceptable testing will help to achieve this.

		<b>Rationale:</b> This indicator measures compliance with Part 2 of the Mental Health (Wales) Measure 2010 which places duties on health boards and local authorities to provide all patients in secondary mental health services with a valid care and treatment plan. A care plan, providing a range of support, is crucial to improving mental health and to assist recovery and re-ablement.

		<b>Rationale:</b> One of the key priorities of the Dementia Action Plan 2018-2022 is early diagnosis so that people can live well with dementia. Early identification allows individuals and their families to plan for the future, provides early contact with support services and to start treatment at an appropriate point. To ensure that people living with dementia get the support that they need, it is important that their condition is identified and recorded on the GP register.

11	Qualitative report detailing evidence of advancing equality and good relations in the day to day activities of NHS organisations	NA	Advancing Equality & Good Relations Monitoring Return (Welsh Government)	Bi-annually	Workforce & Organisational Development	Revised
		<b>Rationale:</b> The Public Sector Equality Duty requires public organisations to consider how its decisions and activities will impact on different people. By advancing equality and good relations in day to day activities and ensuring equality considerations are built into the design of policies and service delivery, NHS Wales can positively contribute to a fairer society and better outcomes for all.				
12	Qualitative report detailing the achievements made towards the implementation of the all Wales standard for accessible communication and information for people with sensory loss	NA	Accessible Communication & Information Monitoring Return (Welsh Government)	Bi-annually	Workforce & Organisational Development	
		<b>Rationale:</b> Effective and appropriate communication ensures that services are delivered in a way that promotes dignity and respect and minimises the risk of poorer health outcomes. The All Wales Standards for Accessible Communication and Information for People with Sensory Loss ensures that the communication and information needs of people who are deaf, deafened, hard of hearing, blind, partially sighted or deafblind are met when accessing healthcare services.				
13	Qualitative report detailing progress against the 6 actions contained in the Learning Disability – Improving Lives Welsh Government Programme	NA	Learning Disabilities – Improving Lives Programme Monitoring Return (Welsh Government)	Bi-annually	Nursing	
		<b>Rationale:</b> People with a learning disability suffer a disproportionately higher level of health inequalities and mortality at a younger age in comparison with the general population. To address this, the Learning Disability – Improving Lives Programme outlines a series of recommendations that will strengthen NHS services and subsequently improve the lives of people with a learning disability.

14	Qualitative report detailing progress against the 5 standards that enable health and well-being of homeless and vulnerable groups to be identified and targeted	NA	Improving the Health & Well-being of Homeless & Specific Vulnerable Groups Monitoring Return (Welsh Government)	Bi-annually	Mental Health, Vulnerable Groups & Offenders	
		<b>Rationale:</b> Homeless people and specific vulnerable groups (i.e. asylum seekers, refugees, gypsies and travellers, substance misusers and EU migrants who are homeless or living in circumstances of insecurity) have a poorer physical and mental health than the general population and often have problems obtaining suitable health care. Health boards are expected to have assessments and plans in place that improve the health of homeless and vulnerable groups and ensure that they have equitable access to a full range of health and specialist services.				
15	Percentage of GP practices that have achieved all standards set out in the National Access Standards for In-hours GMS	100%	Access Standards Reporting Template (Primary Care Portal)	Annually	Primary Care	
		<b>Rationale:</b> GPs are usually the first point of contact for the majority of citizens accessing health services. During 2018-19, the National Survey for Wales (2018-19) reported that 40% of respondents found it difficult to make a convenient GP appointment. Evidence shows that difficulties in accessing a GP appointment adds pressure to other health services, in particular accident and emergency and out of hours. Improving access to GP surgeries is a key commitment of Taking Wales Forward. To drive this improvement forward GP services are expected to meet the National Access Standards for In-Hours GMS.				
16	Percentage of children regularly accessing NHS primary dental care within 24 months	4 quarter improvement trend	NHS Business Services Authority	Quarterly	Primary Care Dental Services	
		<b>Rationale:</b> Looking after a child's oral health from an early age is important. It minimises the risk of the child developing conditions such as tooth decay and erosion and encourages the healthy development of permanent adult teeth. By the age of one, children should be taken to an NHS dentist and be routinely seen thereafter. Although access to an NHS dentist has improved, there are still some localised problems. To address this, health boards have been encouraged to establish long term support for practices in areas of low access and high need.

Delivery Measure		Target	Information Source	Reporting	Policy Area	Status
17	Percentage of adults regularly accessing NHS primary dental care within 24 months	4 quarter improvement trend	NHS Business Services Authority	Quarterly	Primary Care Dental Services	New
		<b>Rationale:</b> Although access to an NHS dentist has improved across Wales, there are still some localised problems, and due to COVID-19, the number of patients accessing NHS dental services is below previous years. To address this, a focus is being placed on the recovery of dental services (following the pandemic), which will include increased access, particularly for those most at risk. This will involve encouraging NHS dental practices to take on new patients.				
18	Percentage of Out of Hours (OoH)/111 patients prioritised as P1CHC that started their definitive clinical assessment within 1 hour of their initial call being completed	90%	Out of Hours/111 Data Collection (Welsh Government)	Monthly	Delivery & Performance	Revised
		<b>Rationale:</b> NHS Wales is committed to providing services 24 hours a day seven days a week. Outside of normal GP surgery hours, patients with an urgent medical problem may need to contact an out-of-hours service or 111 for advice and guidance. To ensure that the most urgent callers get timely advice and/or the medicine required, a nurse, emergency dentist, pharmacist or GP should provide a clinical assessment within one hour of the initial call being answered.				
19	Percentage of emergency responses to red calls arriving within (up to and including) 8 minutes	65%	Welsh Ambulance Service NHS Trust (WAST)	Monthly	Delivery & Performance	
		<b>Rationale:</b> The speed of response is an important characteristic of a responsive ambulance service. A faster response time by emergency medical services and supporting partners to a patient who is suffering an immediate life threatening condition can reduce the risk of death and increase the potential for a positive health outcome.

Delivery Measure		Target	Information Source	Reporting	Policy Area	Status
20	Number of ambulance patient handovers over 1 hour	0	Welsh Ambulance Service NHS Trust (WAST)	Monthly	Delivery & Performance	
		<p><b>Rationale:</b> When ambulances take patients to hospital, it is essential that patients are released promptly from the vehicles so that they can receive the best care in the correct environment. A swift patient handover also ensures that the ambulance crew can continue to provide a safe and efficient service to the local community.</p> <p>Delays in ambulance patient handover are frequently associated with blockages in patient flow across the whole of the health and social care pathway. To address this, health boards need to ensure that staffing arrangements and patient flow systems are safe, efficient and effective.</p>				
21	Percentage of patients who spend less than 4 hours in all major and minor emergency care (i.e. A&E) facilities from arrival until admission, transfer or discharge	95%	Emergency Department Data Set (EDDS)	Monthly	Delivery & Performance	
		<p><b>Rationale:</b> Patients attending A&amp;E expect to be seen and treated, transferred or discharged in a timely manner. To ensure that patients spend less than 4 hours in A&amp;E, health boards need to provide efficient and effective services, whilst educating patients to make the best use of alternative NHS services.</p>				
22	Number of patients who spend 12 hours or more in all hospital major and minor emergency care facilities from arrival until admission, transfer or discharge	0	Emergency Department Data Set (EDDS)	Monthly	Delivery & Performance	
		<p><b>Rationale:</b> Waiting over 12 hours is an indication of the resilience of the wider unscheduled care system and a key measure of patient experience (patients attending A&amp;E expect to be seen in a timely manner). To avoid patients waiting over 12 hours, health boards are required to implement actions to continuously improve the flow of patients through A&amp;E whilst maintaining services that are effective and safe.</p>				
23	Median time from arrival at an emergency department to triage by a clinician	12 month reduction trend	Emergency Department Data Set (EDDS)	Monthly	Delivery & Performance	New
		<p><b>Rationale:</b> This triage measure identifies the length of time people wait for triage once they arrive at an emergency department. It enables the public and health boards to better understand the level of clinical priority of patients attending emergency departments, and how quickly they are triaged (a wait of 15 minutes or less is considered to be good practice). The data is split by triage/acuity category to understand the timeliness of triage for the most acutely ill to those with non-urgent conditions. This measure will eventually be published as a 'median' value for each emergency department in Wales.</p>

24	Median time from arrival at an emergency department to assessment by a senior clinical decision maker	12 month reduction trend	Emergency Department Data Set (EDDS)	Monthly	Delivery & Performance	New
		<b>Rationale:</b> This measure identifies the length of time people wait for a clinical decision maker assessment when arriving at an emergency department (as assessment within 60 minutes is considered to be good practice). This measure enables time-critical conditions to be identified and interventions to be delivered rapidly.				
25	Percentage of survival within 30 days of emergency admission for a hip fracture	12 month improvement trend	CHKS	Monthly	Major Health Conditions	
		<b>Rationale:</b> A hip fracture is the most common serious injury in older people. Combined with the trauma of the fall and surgery and the age and frailty of the patient (due to existing health conditions), a hip fracture is associated with an increased risk of death. To improve a patient's outcome, a co-ordinated multidisciplinary care team should deliver a full programme of care, prompt surgery and rehabilitation. As mortality occurring after 30 days is usually associated with the patient's frailty rather than directly attributed to the injury, hospitalisation or surgery, this measure focuses on survival within 30 days of an emergency admission.				
26	Percentage of patients (age 60 years and over) who presented with a hip fracture that received an orthogeriatrician assessment within 72 hours	12 month improvement trend	National Hip Fracture Database	Monthly	Major Health Conditions	
		<b>Rationale:</b> An orthogeriatrician assessment is central to NICE's clinical guideline and quality standard for the management of hip fracture care for adults who are 60 years of age or over. An orthogeriatrician assessment is part of a multi-disciplinary programme that aims to improve the care for those admitted to hospital with a hip fracture. This assessment, in conjunction with a continuous rehabilitation programme and support, has been found to help people recover faster, regain their mobility and reduce mortality.

27	Percentage of patients who are diagnosed with a stroke who have a direct admission to a stroke unit within 4 hours of the patient's clock start time	The most recent SSNAP UK national quarterly average	Sentinel Stroke National Audit (SSNAP)	Monthly	Delivery & Performance	
		<b>Rationale:</b> To ensure treatment begins as quickly as possible and to prevent complications, all patients who have had a stroke should be directly admitted to a stroke unit within 4 hours of arrival at A&E. Due to having specialist equipment and a multidisciplinary team that provides specialist treatment, a stroke unit is associated with improved patient safety and better outcomes (such as reduced disability and mortality).				
28	Percentage of daily compliance with 2.375 (WTE) band 6 and 7 nurses per 10 stroke beds	100%	NHS Delivery Unit	Monthly	Workforce & Organisational Development	New
		<b>Rationale:</b> Minimum nursing staffing levels on stroke units have been defined in hyper-acute stroke service reconfigurations, and observational evidence is accumulating from national registries about acute care processes that are associated with substantial benefits, including outside office hours and at weekends (Rudd 2014, Ramsay et al, 2015, Turner et al, 2016). In view of this evidence, the minimum recommended staffing levels are expressed in the Sentinel Stroke Audit Programme (SSNAP) as 2.375 band 6 and 7 nursed per 10 beds. (SSNAP Criterion: Sum of band 6 and 7 (WTE) nurses per 10 stroke unit beds is equal/to above 2.375 per 10 beds for all stroke beds).				
29	Percentage of stroke patients who receive mechanical thrombectomy	10%	Sentinel Stroke National Audit (SSNAP)	Monthly	Delivery & Performance	New
		<b>Rationale:</b> Mechanical thrombectomy is a relatively new procedure to treat ischaemic stroke patients. When it is used in conjunction with other medical treatments, it can significantly reduce the severity of disability that a stroke can bring. Due to the need to perform the procedure as soon as stroke symptoms begin, approximately 10% of all stroke patients could be eligible for this treatment every year.

30	Percentage of stroke patients that receive at least 45 minutes of speech and language therapy input in 5 out of 7 days	50%	Sentinel Stroke National Audit (SSNAP)	Monthly	Delivery & Performance	Revised
		<b>Rationale:</b> Communication and swallowing problems are common after a stroke. To minimise the impact of these difficulties and to improve the patient's well-being, speech and language therapy is a key part of the patient's recovery programme. The aim is to help the patient to recover as much of their speech as possible and/or find alternative ways of communication and to provide advice on safe ways to eat and drink. Due to the affect a stroke has on the patient's concentration and energy, speech and language therapy is delivered in frequent short sessions. To measure compliance with the NICE quality standard for stroke rehabilitation, all health boards are expected to deliver an average of 16.1 minutes of speech and language for all patients.				
31	Percentage of patients starting first definitive cancer treatment within 62 days from point of suspicion (regardless of the referral route)	75%	Suspected Cancer Pathway Data Set (NDR – DHCW)	Monthly	Delivery & Performance	Revised
		<b>Rationale:</b> An early diagnosis and treatment of cancer will increase an individual's chance of survival and reduce the likely harm to the individual's health and quality of life. Therefore, there is a need to diagnose and treat patients with cancer as promptly as possible.  This measure includes all suspected cancers and starts from the point a patient is suspected of having cancer, rather than when the cancer is diagnosed (as currently happens on the 31 day pathway).				
32	Number of patients waiting more than 8 weeks for a specified diagnostic	0	Diagnostic & Therapies Waiting Times Dataset	Monthly	Delivery & Performance	
		<b>Rationale:</b> Diagnostic tests and investigations are used to identify a patient's condition, disease or injury. Diagnostic testing provides essential information to enable clinicians and patients to make the right clinical decisions. Early detection and diagnosis can prevent the patient suffering unnecessary pain and it can reduce the scale and cost of treatment.

Delivery Measure		Target	Information Source	Reporting	Policy Area	Status
33	Number of patients waiting more than 14 weeks for a specified therapy	0	Diagnostic & Therapies Waiting Times Dataset	Monthly	Delivery & Performance	
		<b>Rationale:</b> Patients receiving timely access to a specified therapy should experience improved outcomes. Reducing the time that a patient waits for a therapy service reduces the risk of the condition deteriorating and alleviates the patient's symptoms sooner. This measure provides greater transparency and encourages improvement in the timeliness of accessing NHS therapy services.				
34	Percentage of patients waiting less than 26 weeks for treatment	95%	Referral to Treatment (combined) Dataset	Monthly	Delivery & Performance	
		<b>Rationale:</b> Patients receiving timely access to high quality elective treatment and care should experience improved outcomes. Reducing the time that a patient waits for treatment reduces the risk of the condition deteriorating and alleviates the patient's symptoms, pain and discomfort sooner. This measure provides greater transparency and encourages improvement in the timeliness of treatment across NHS services.				
35	Number of patients waiting more than 36 weeks for treatment	0	Referral to Treatment (combined) Dataset	Monthly	Delivery & Performance	
		<b>Rationale:</b> Patients receiving timely access to high quality elective treatment and care should experience improved outcomes. Reducing the time that a patient waits for treatment reduces the risk of the condition deteriorating and alleviates the patient's symptoms, pain and discomfort sooner. This measure provides greater transparency and encourages improvement in the timeliness of treatment across NHS services.

		<b>Rationale:</b> Patients receiving timely access to high quality elective treatment and care should experience improved outcomes. Reducing the time that a patient waits for treatment reduces the risk of the condition deteriorating and alleviates the patient's symptoms, pain and discomfort sooner. 		<b>Rationale:</b> Patients receiving timely access to high quality elective treatment and care should experience improved outcomes. Reducing the time that a patient waits for treatment reduces the risk of the condition deteriorating and alleviates the patient's symptoms, pain and discomfort sooner. This measure encourages improvement in the timeliness of treatment by ensuring that patients on the P2 pathway (due to being a high clinical priority and requiring essential care) are seen within 4 weeks of assessment.				
38	Number of patients waiting for a follow-up outpatient appointment	Health Board specific target: a reduction of 55% against a baseline of March 2019	Outpatient Follow-Up Delay Monitoring Return (Welsh Government)	Monthly	Delivery & Performance	Revised
		<b>Rationale:</b> The number of patients waiting for a follow-up outpatient appointment has increased year on year whilst capacity has been unable to meet demand. NHS organisations are required to improve service planning and clinical pathways to deliver sustainable planned care services, where waiting lists are reduced to a manageable level.				
39	Number of patients waiting for a follow-up outpatient appointment who are delayed by over 100%	Health Board specific target: a reduction of 55% against a baseline of March 2019	Outpatient Follow-Up Delay Monitoring Return (Welsh Government)	Monthly	Delivery & Performance	Revised
		<b>Rationale:</b> Delaying a follow-up outpatient appointment not only gives the service user a negative impression of NHS services, but it can be a clinical risk if the patient's condition deteriorates whilst waiting for the appointment. Through service re-design, health boards are required to reduce the number of patients waiting long delays for a follow-up outpatient appointment, with a particular focus on ENT, Trauma and Orthopaedic, Urology and Ophthalmology services (Planned Care Programme).

40	Percentage of ophthalmology R1 appointments attended which were within their clinical target date or within 25% beyond their clinical target date	95%	Eye Care Measures Monitoring Return (Welsh Government)	Monthly	Delivery & Performance	Revised
		<b>Rationale:</b> For particular eye conditions, patients need regular reviews and ongoing treatment to ensure that their sight is improved and the risk of avoidable blindness is minimised. A patient 'target date' for both new and existing appointments was introduced in 2018 to reduce the number of ophthalmology patients with a high clinical risk (R1) waiting 25% over their agreed date for their clinical appointment.				
41	Rate of hospital admissions with any mention of intentional self-harm for children and young people (age 10-24 years) per 1,000 population	Annual reduction	Patient Episode Database for Wales	Annually	Mental Health, Vulnerable Groups & Offenders	
		<b>Rationale:</b> The highest rates of self-harm (intentional non-fatal self-poisoning or self-injury) is amongst children and young people age 11-19. Apart from the economic burden of treating the injury or overdose, there is also the psychological and social impact on the individual, family and friends and the risk that those who repeatedly self-harm will complete suicide. As part of the Suicide and Self Harm Prevention Strategy for Wales various approaches are being taken to reduce the incidence of self-harm, including: tackling stigma; improving public and professional awareness; improving community resilience; encouraging help seeking behaviours; the identification and management of mental health conditions and; the prevention and treatment of substance misuse. By monitoring the rate of hospital admissions for intentional self-harm, we can understand if these interventions are successfully reducing the incidence of self-harm amongst children & young people.				
42	Percentage of patients waiting less than 28 days for a first appointment for Child and Adolescent Mental Health Services (CAMHS)	80%	SCAMHS Waiting Times Data Collection (Welsh Government)	Monthly	Mental Health, Vulnerable Groups & Offenders	Revised
		<b>Rationale:</b> Improving the mental health and the well-being of children and young people is a priority of Welsh Government's 10 year strategy Together for Mental Health. To ensure that children and young people experiencing mental ill health get better sooner, it is important that they have early access to intervention and treatment services (CAMHS).

		<b>Rationale:</b> This indicator measures compliance with Part 1 of the Mental Health (Wales) Measure 2010 which places duties on Local Primary Mental Health Support Services to assess the nature of a patient's mental health needs within 28 days from the receipt of referral. A readily accessible assessment (that is provided when it is needed), is essential if interventions and treatments for mental health problems are to be delivered as early as possible.

		<b>Rationale:</b> This indicator measures compliance with Part 1 of the Mental Health (Wales) Measure 2010 which places duties on Local Primary Mental Health Support Services to provide patients with therapeutic interventions within 28 days of their assessment. 		<b>Rationale:</b> Antimicrobial resistance (AMR) is a global problem that impacts all countries and all people, regardless of their wealth or status. The scale of the AMR threat, and the need to contain and control it, is widely acknowledged and addressed in the <u>UK AMR Strategy</u> . The UK AMR National Action Plan (NAP) published alongside the strategy outlines the 5 year plan from 2019 – 2024 for tackling AMR in the UK. In order to reduce AMR, there is a need to lower the burden of infection and a key part of this work is to lower the burden of healthcare associated infections (HCAI) through improvements in Infection Prevention and Control across our health and social care systems. The impact of HCAs is felt by patients and by the health service. Within the UK AMR NAP there is a delivery target to reduce healthcare associated Gram negative bacteraemia by 50% by 2024. Monitoring the Gram negative bacteraemia cases/100,000 population in Wales will assist in monitoring progress against this 5 year plan. Surveillance of <i>S.aureus</i> bacteraemia (MRSA and MSSA) and; <i>C.difficile</i> continues and through better application of existing knowledge of IP&C measures and lessons learnt from the COVID pandemic, HCAs can be further reduced.  <i>Note: The COVID-19 pandemic has impacted greatly on services during 2020, therefore comparisons for April 2021 to March 2022 will be made with 2019-20 rather than 2020-21. 		<b>Rationale:</b> Every person in Wales who uses GP services has the right to receive excellent care as well as advice and support to maintain their health. 		<b>Rationale:</b> Ensuring the safety, dignity and respect of Welsh speakers is at the heart of providing health and care in Welsh. Many people can only communicate and participate in their care through the medium of Welsh, especially young children who only speak Welsh and those who have lost their second language due to dementia or stroke. To ensure the care needs of Welsh speakers, their families and carers are being met, leadership must be demonstrated across every level of NHS organisations in implementing actions that will deliver the objectives outlined in Welsh Government's strategic framework for Welsh language services in health and social care - More Than Just Words.				
51	<b>Overall staff engagement score</b>	<b>Annual improvement</b>	<b>Staff Survey</b>	<b>Annually</b>	<b>Workforce &amp; Organisational Development</b>	<b>Revised</b>
		<b>Rationale:</b> The people who work for the NHS are integral to delivering a high quality, person centred and safe service. To maximise this resource, all NHS services should have key employment practices and actions in place to support and engage staff so that they are fully aligned and committed to delivering excellent care and support. The success of these mechanisms is monitored via the NHS Wales Staff Survey.

Delivery Measure		Target	Information Source	Reporting	Policy Area	Status
52	Percentage of headcount by organisation who have had a Personal Appraisal and Development Review (PADR)/medical appraisal in the previous 12 months (excluding doctors and dentists in training)	85%	Electronic Staff Record (ESR) Medical Appraisal & Revalidation System (MARS)	Monthly	Workforce & Organisational Development	
		<b>Rationale:</b> The people who work for the NHS are integral to delivering high quality, person centred and safe services. A key employment practice that supports and engages staff in delivering the vision of NHS Wales is the provision of an annual personal appraisal and development review. This allows staff at all levels to have clear performance objectives, with an agreed development plan, that supports them to deliver their roles.				
53	Percentage compliance for all completed level 1 competencies of the Core Skills and Training Framework by organisation	85%	Electronic Staff Record (ESR)	Monthly	Workforce & Organisational Development	
		<b>Rationale:</b> To ensure that NHS Wales has a skilled workforce, there is a need to educate and train new staff and help others to learn and develop. The Core Skills Training Framework is the recognised minimum standard for statutory and mandatory training for all staff working for NHS Wales.				
54	Qualitative report providing evidence of learning and development in line with the Good Work – Dementia Learning and Development Framework	NA	Good Work - Dementia Learning and Development Framework Monitoring Return (Welsh Government)	Bi-annually	Nursing	
		<b>Rationale:</b> NHS staff who have a solid awareness of dementia and the issues that surround it are best equipped to support people with dementia to live well. The provision of learning and development to all NHS staff is a priority of the Dementia Action Plan for Wales 2019-22.

55	Percentage of sickness absence rate of staff	12 month reduction trend	Electronic Staff Record (ESR)	Monthly	Workforce & Organisational Development	
		<b>Rationale:</b> Reducing sickness absence rates, via effective management processes, can create significant savings and improve the quality of the services provided by NHS Wales.				
56	Percentage of staff who report that their line manager takes a positive interest in their health and well-being	Annual improvement	Staff Survey	Annually	Workforce & Organisational Development	New
		<b>Rationale:</b> The workforce is the NHS' greatest asset and it is important that their health and well-being is prioritised and supported. This indicator measures staff's perception of the support provided by their line manager to maintain their health and well-being. Following the impact of COVID-19 and the many challenges that are likely to follow, it is important that NHS Wales continues to improve the working life and well-being of staff working in the NHS.

## Quadruple Aim 4: Wales has a higher value health and social care system that has demonstrated rapid improvement and innovation, enabled by data and focused on outcomes

Delivery Measure		Target	Information Source	Reporting	Policy Area	Status
57	Average rating given by the public (age 16+) for the overall satisfaction with health services in Wales	Improvement	National Survey for Wales	Every 2 years	Nursing	
		<b>Rationale:</b> Every person in Wales who uses health services or supports others to do so, has the right to receive excellent care as well as advice and support to maintain their health. Key determinants of good service user experience may include people: having a positive first and lasting impression of health services; receiving care in a safe and supportive environment and; having an understanding and involvement in their care. To determine whether these contributory factors are being met and to identify areas for local improvement, the National Survey for Wales monitors public's perception on the overall health service in Wales (GPs, pharmacies, NHS dentists, NHS opticians, community health services and hospitals) irrespective of whether they have used these health services or not.				
58	Evidence of how NHS organisations are responding to service user experience to improve services	N/A	Responding to Service User Experience Feedback to Improve Services Monitoring Return (Welsh Government)	Annually	Nursing	Revised
		<b>Rationale:</b> As outlined in the NHS Framework for Assuring Service User Experience gathering service user feedback and assessing it for themes and trends is a valuable opportunity for NHS organisations to make improvements. It is important that organisations have a variety of feedback methods in place and that service users feel that their views are welcomed, that notice is being taken of their feedback and improvements are being made where necessary. All NHS organisations are required to evidence that service user feedback is gathered and acted upon in all care settings.

59	Percentage of complaints that have received a final reply (under Regulation 24) or an interim reply (under Regulation 26) up to and including 30 working days from the date the complaint was first received by the organisation	75%	Complaints Data Collection (Welsh Government) & NHS Welsh Risk Pool	Quarterly	Healthcare Quality	Revised
		<b>Rationale:</b> Although NHS Wales aims to provide the very best care and treatment, sometimes things can go wrong. In this instance, the patient, relative, friend or carer needs to raise their concern so that the organisation can look at what may have gone wrong and try to make it better. NHS Wales will try to resolve concerns immediately and aims to respond within 30 working days of receiving the concern. For concerns that are more complex, NHS Wales will provide an interim reply explaining why they cannot reply in 30 days and when a response should be expected. This measure will monitor NHS Wales' compliance with standard, ensuring the timely resolution of concerns and identification of lessons learnt.				
60	Percentage of Health and Care Research Wales non-commercial portfolio studies recruiting to target	100% of studies	Health & Care Research Wales	Quarterly	Social Care & Health Research	Revised
		<b>Rationale:</b> Welsh Government is committed to funding a research infrastructure and capacity that will facilitate improvements to the health and well-being of people of Wales. This measure looks to improve the efficient set up of studies which in turn increases the opportunity for NHS patients to participate in and benefit from research.

62	<b>Crude hospital mortality rate (74 years of age or less)</b>	<b>12 month reduction trend</b>	<b>CHKS</b>	<b>Monthly</b>	<b>Healthcare Quality</b>	
		<b>Rationale:</b> Although there will always be deaths in hospital, in general, people aged under 75 years should be less likely to die than people aged 75 and over. With the implementation of the Medical Examiner Service, all non-coronial deaths will be reviewed so that identified themes can inform learning and improvements. To understand whether improvements are being made, this measure quantifies hospital mortality by comparing the number of inpatient deaths with the number of hospital inpatient spells to produce crude mortality expressed as a percentage.				
63	<b>Percentage of in-patients with a positive sepsis screening who have received all elements of the 'Sepsis Six' first hour care bundle within 1 hour of positive screening</b>	<b>12 month improvement trend</b>	<b>Sepsis Six Bundle Monitoring Return (Welsh Government)</b>	<b>Monthly</b>	<b>Healthcare Quality</b>	
		<b>Rationale:</b> Sepsis is a life threatening condition and is one of the most common, least recognised illnesses in the developed world. NHS Wales has introduced a number of initiatives to reduce hospital mortality, including patients being treated with the sepsis six care bundle within one hour of positive screening. This bundle consists of three diagnostic tests for the condition and three treatments that have proven to combat sepsis.  This indicator measures compliance with the sepsis six first hour care bundle for in-patients.				
64	<b>Percentage of patients who presented as an emergency with a positive sepsis screening who have received all elements of the 'Sepsis Six' first hour care bundle within 1 hour of positive screening</b>	<b>12 month improvement trend</b>	<b>Sepsis Six Bundle Monitoring Return (Welsh Government)</b>	<b>Monthly</b>	<b>Healthcare Quality</b>

65	All new medicines recommended by AWMSG and NICE, including interim recommendations for cancer medicines, must be made available where clinically appropriate, no later than 2 months from the publication of the NICE Final Appraisal Determination and the AWMSG appraisal recommendation	100%	All Wales Therapeutic & Toxicology Centre DHCW Medusa System	Quarterly	Pharmacy & Prescribing	Revised
<b>Rationale:</b> To address one of the key commitments of Taking Wales Forward, the Programme for Government 2016-21, the New Treatment Fund was launched in January 2017 to help health boards and Velindre University NHS Trust to introduce new, recommended medicines faster and more consistently across Wales. This will enable patients across Wales to get faster access to a full range of new medicines that will improve and prolong their lives.

The scale of the AMR threat, and the need to contain and control it, is widely acknowledged and addressed in the <a href="#">UK AMR Strategy</a> . Optimal use of antibiotics is key to reducing the overall burden of antimicrobial usage driving antimicrobial resistance. 68	Number of patients age 65 years or over prescribed an antipsychotic	Quarter on quarter reduction	All Wales Therapeutic & Toxicology Centre	Quarterly	Pharmacy & Prescribing	
		<b>Rationale:</b> Evidence shows that antipsychotic medicines only have a limited benefit in treating the behavioural and psychological symptoms of dementia, whilst carrying a significant risk of harm. The Dementia Action Plan for Wales 2018-22 directs health boards to reduce the prescription of antipsychotic medication for people with a diagnosis of dementia, whilst the National Assembly for Wales' Health, Social Care and Sports Committee has provided recommendations on the prescription of antipsychotics to patients who are 65 years of age or over who reside in a care home. This measure will contribute to monitoring the effectiveness of actions to ensure the safe and appropriate use of antipsychotic medicines in those age 65 and over.				
69	Number of women of child bearing age prescribed valproate as a percentage of all women of child bearing age	Quarter on quarter reduction	All Wales Therapeutic & Toxicology Centre	Quarterly	Pharmacy & Prescribing	
		<b>Rationale:</b> There is a high risk a baby will develop malformations and developmental problems if medicines containing valproate are taken during pregnancy. The Medical and Healthcare Regulatory Agency (MHRA) published a Drug Safety Update (September 2018) stating that valproate should no longer be used in women or girls of child bearing age unless she has a Pregnancy Prevention Programme in place. This measure will contribute to monitoring the effectiveness of actions to ensure the safe and appropriate use of valproate containing medicines.				
70	Opioid average daily quantities per 1,000 patients	4 quarter reduction trend	All Wales Therapeutic & Toxicology Centre	Quarterly	Pharmacy & Prescribing Substance Misuse	
		<b>Rationale:</b> Attempts to reduce the pain of patients by using opioids have led to overuse and adverse outcomes, without a noticeable impact on lowering of the chronic pain burden at a population level. Opioids have well established side effects and their repeated administration can cause tolerance and dependence. Between 2007 and 2017 the number of prescriptions for opioid analgesic dispensed across Wales increased by 50% whilst the number of opioid related deaths increased by 59.4%. As opioids are not the most appropriate or effective treatment option for many patients with chronic pain, the aim of this measure is to encourage health professionals to adopt a prudent approach to prescribing opioid analgesics, taking into account the risks and the benefits.

71	Quantity of biosimilar medicines prescribed as a percentage of total 'reference' product including biosimilar (for a selected basket of biosimilar medicines)	Quarter on quarter improvement	All Wales Therapeutic & Toxicology Centre	Quarterly	Pharmacy & Prescribing	
		<p><b>Rationale:</b> A biosimilar medicine is a biological medicine that is developed to be highly similar and clinically equivalent to an existing biological medicine (a 'reference' medicine). Biological medicines account for a significant expenditure within the NHS. The use of biosimilar medicines instead of a reference biological medicine could be associated with cost savings.</p> <p>The purpose of this measure is to ensure the prescribing of biological medicines supports cost efficient prescribing in primary and secondary care, by increasing the appropriate use of cost-efficient medicines, including biosimilar medicines.</p>				
72	Percentage of critical care bed days lost to delayed transfer of care (ICNARC definition)	Quarter on quarter reduction towards the target of no more than 5%	Ward Watcher Critical Care Return (Welsh Government)	Monthly	Delivery & Performance	
		<p><b>Rationale:</b> The number of delayed discharges from critical care across Wales is significant and can be associated with inefficient hospital flow. Delayed discharge from critical care can prevent patients who are critically ill from accessing the treatment they need and can have a detrimental effect on the rehabilitation of patients whose transfers are delayed. Furthermore, delays can be harmful to the patient's safety as they can result in out of hours discharge, cancelled operations and non-clinical transfers (which are all known to increase morbidity and mortality). A delayed transfer of care also has a financial implication, as a critical care bed is the most costly type of bed in a hospital.</p> <p>This measure looks to improve patient flow through the critical care unit by encouraging health boards to reduce the number of critical care bed days lost due to the delayed transfer of care.</p>

Delivery Measure		Target	Information Source	Reporting	Policy Area	Status
73	Agency spend as a percentage of the total pay bill	12 month reduction trend	Financial Monitoring Returns (Welsh Government)	Monthly	Workforce & Organisational Development	Revised
		<b>Rationale:</b> To ensure safe and sustainable NHS services across Wales, there is need to drive down agency and locum deployment and encourage people to return to the NHS labour market. This will provide a regular supply of staff who can provide a quality and consistent approach to patient care, whilst reducing overall spend.				
74	Percentage of episodes clinically coded within one reporting month post episode discharge end date	12 month improvement trend towards achieving the 95% target	Patient Episode Database Wales	Monthly	Technology & Digital	New
		<b>Rationale:</b> It is essential that clinical coding is accurately recorded as it informs the analysis of key statistics. Information from clinical coding is used to monitor clinical outcomes, mortality rates, effectiveness of treatment and clinical governance; it informs patient and service level costings and; is used to examine public health trends.

11/24/2021 14:21:18

Delivery Measure		Detail of Revision
8	Cancer screening coverage for: bowel; breast and; cervical	The wording and calculation of this measure has changed. The previous measure focused on the 'uptake' of the screening for bowel, breast and cervical cancer.
11	Qualitative report detailing evidence of advancing equality and good relations in the day to day activities of NHS organisations	The list of relevant strategies and guidance (at the end of the template) has been updated.
18	Percentage of Out of Hours (OoH)/111 patients prioritised as P1CHC that started their definitive clinical assessment within 1 hour of their initial call being completed	The wording of this measure has changed. The previous measure focused on the initial call being 'answered'.
30	Percentage of stroke patients that receive at least 45 minutes of speech and language therapy input in 5 out of 7 days	The wording of this measure has changed. The previous measure focused on compliance against the therapy target of an average of 16.1 minutes of Speech and Language Therapist input per stroke patient. The target has been revised to 50% from a 12 month improvement trend.
31	Percentage of patients starting first definitive cancer treatment within 62 days from point of suspicion (regardless of the referral route)	The target has been revised to 75% from a 12 month improvement trend. The information source has been revised from Single Cancer Pathway Monitoring Return (Welsh Government) to Suspected Cancer Pathway Dataset (NDR - DHCW).
38	Number of patients waiting for a follow-up outpatient appointment	The target for 2021-22 has been revised to: Health Board specific target – a reduction of 55% against a baseline of March 2019. It was previously a 35% reduction.
39	Number of patients waiting for a follow-up outpatient appointment who are delayed by over 100%	The target for 2021-22 has been revised to: Health Board specific target – a reduction of 55% against a baseline of March 2019. It was previously a 35% reduction.
40	Percentage of ophthalmology R1 appointments attended which were within their clinical target date or within 25% beyond their clinical target date.	The wording of this measure has been revised. The measure for 2021-22 reports on ophthalmology R1 appointments attended. The previous measure focused on R1 patients who were waiting within their clinical target date for care and treatment.
42	Percentage of patients waiting less than 28 days for a first appointment for Child and Adolescent Mental Health Services (CAMHS)	The wording of the measure has been revised. The measure for 2021-22 reports on the 'first appointment'. The previous measure focused on the 'first outpatient appointment'.

Delivery Measure		Detail of Revision
		The information source has been revised from CAMHS Management Information Data Collection (Welsh Government) to sCAMHS Waiting Times Data Collection (Welsh Government)
50	Qualitative report providing evidence of implementing actions to deliver the Welsh language objectives as defined in the More Than Just Words Action Plan	Revision to the reporting template. The following has been added to the evidence required for 'Planning, Commissioning and Contracting': Actions taken to improve Welsh language provision in mental health services.
51	Overall staff engagement score	Revision to the calculation. The results for 2020-21 onwards are calculated as a percentage rather than as a whole number.
58	Evidence of how NHS organisations are responding to service user experience to improve services	The following fields have been added to the reporting template: Mental Health and Learning Disability Services; Children's Services; Caring for People with COVID-19 and; Women and Maternity Services.
59	Percentage of complaints that have received a final reply (under Regulation 24) or an interim reply (under Regulation 26) up to and including 30 working days from the date the complaint was first received by the organisation	The information source has changed from Complaints Data Collection (Welsh Government) to Complaints Data Collection (Welsh Government) and NHS Risk Pool.
60	Percentage of Health and Care Research Wales non-commercial portfolio studies recruiting to target	The wording of the measure has been revised. The previous measure focused on the number of patients recruited in Health and Care Research Wales clinical research portfolio studies. The target for 2021-22 has been revised to: 100% of studies. It was previously a 10% annual improvement.
61	Percentage of Health and Care Research Wales portfolio commercially sponsored studies recruiting to target	The wording of the measure has been revised. The previous measure focused on the number of patients recruited in Health and Care Research Wales commercially sponsored studies. The target for 2021-22 has been revised to: 100% of studies. It was previously a 5% annual improvement.
65	All new medicines recommended by AWMSG and NICE, including interim recommendations for cancer medicines, must be made available where clinically appropriate, no later than 2 months from the publication of the NICE Final Appraisal Determination and the AWMSG appraisal recommendation	The information source has changed from NWIS to DHCW.

Delivery Measure		Detail of Revision
66	Total antibacterial items per 1,000 specific therapeutic group age-sex related prescribing units (STAR-PUs)	The target for 2021-22 has been revised to: a quarterly reduction of 5% against a baseline of 2019-20. It was previously a reduction against a baseline of 2018-19.
73	Agency spend as a percentage of the total pay bill	The target for 2021-22 has been revised to: 12 month reduction trend. It was previously a NHS organisation specific target.

## Advancing Equality and Good Relations

<b>Organisation</b>	
<b>Date of Report</b>	
<b>Report Prepared By</b>	

The Public Sector Equality Duty seeks to ensure that equality is properly considered within the organisation & influences decision making at all levels. To meet the requirements of the Equality Act 2010 (Statutory Duties) (Wales) Regulations 2011 Health Boards & NHS Trusts must consider how they can positively contribute to a fairer society through advancing equality & good relations in their day-to-day activities. The equality duty ensures that equality considerations are built into the design of policies & the delivery of services and that they are kept under review. This will achieve better outcomes for all.

**Reporting Schedule:** Progress against the organisation's plan is to be reported bi-annually. This form is to be submitted on 31 October and 30 April. **Completed form to be returned to:**  
[hss.performance@gov.wales](mailto:hss.performance@gov.wales)

Please attach a copy of the organisation's Strategic Equality Plan (SEP) which should set out how tackling inequality and barriers to access improves the health outcomes and experience of patients, their families and carers. Your SEP should also include equality objectives to meet the general duty covering the following protected characteristics: age, disability, gender reassignment, pregnancy and maternity, race (including ethnic or national origin, colour or nationality), religion or belief (including lack of belief), marriage and civil partnership, sex, sexual orientation.

**Update on the actions implemented during the current operational year to advance equality & good relations in the health board's day to day activities**

	<b>Key Actions Planned</b> 1 Oct 2020 – 31 Mar 2022	<b>Risks to Delivery</b> <b>Corrective Actions &amp;</b> <b>By When</b>	<b>What was Achieved</b> <b>during</b> 1 Oct 2020 – 30 Sept 2021	<b>What was Achieved</b> <b>during</b> 1 Oct 2021 to 31 Mar 2022
<b>Planning &amp; Performance Management</b>				
IMTPs clearly demonstrate how the NHS organisation meets the duties associated with equality & human rights and the arrangements for equality impact assessment.				
Steps have been taken, where possible, to align equality impact & health needs assessments to ensure they take account of the 'protected characteristics' & utilise specific data sets & engagement activity.				
Equality impact assessment is embedded into service change/transformational programmes and service delivery plans and informed by the findings from the engagement and consultation and other evidence.				

	Key Actions Planned 1 Oct 2020 – 31 Mar 2022	Risks to Delivery Corrective Actions & By When	What was Achieved during 1 Oct 2020 – 30 Sept 2021	What was Achieved during 1 Oct 2021 to 31 Mar 2022
<b>Governance</b>				
The Health Board/NHS Trust receives assurance that processes are in place to identify Equality impact, undertake engagement and that mitigating actions are clearly set out. Committee or sub-committees confirm that equality impact assessments inform decision making.				
The Health Board/NHS Trust ensures that equality considerations are included in the procurement commissioning and contracting of services.				
<b>Quality &amp; Safety</b>				
Links are made between equality and the quality initiatives set out in the Quality Improvement Strategy and Annual Quality Statement.				
<b>Workforce</b>				
There is evidence that employment information informs policy decision making and workforce planning.				
Numbers of staff who have completed mandatory equality and human rights training 'Treat Me Fairly' (TMF)

## Accessible Communication and Information for People with Sensory Loss

<b>NHS Organisation</b>	
<b>Date of Report</b>	
<b>Report Prepared By</b>	

The All Wales Standard for Accessible Communication and Information for People with Sensory Loss sets out the standards of service delivery that people with sensory loss should expect when they access healthcare. These standards apply to all adults, young people and children. The Accessible Information Standard requirements sit alongside the 'Standards' as an enabler to implementing them.

**Reporting Schedule:** Progress against the organisation's action plan for the current operational year is to be reported bi-annually. This form is to be submitted on 31 October and 30 April.

## Learning Disabilities – Improving Lives Programme

<b>NHS Organisation</b>	
<b>Date of Report</b>	
<b>Report Prepared By</b>	

The learning disability transformation programme 'Improving Lives' <https://gov.wales/sites/default/files/publications/2019-03/learning-disability-improving-lives-programme-june-2018.pdf> outlines the priority areas that will strengthen services and subsequently improve the lives of people with learning disabilities. The delivery of these priority areas involves collaborative working across NHS Wales, Regional Partnership Boards, Public Service Boards, Local Authorities and the third and private sectors. NHS organisations are required to evidence how they are contributing towards the priority areas of the 'Improving Lives' programme and in particular, the recommendations/actions outlined in this reporting template.

**Reporting Schedule:** Progress for the current operational year is to be reported bi-annually. This form is to be submitted on 31 October and 30 April. **The completed form is to be returned to: [hss.performance@gov.wales](mailto:hss.performance@gov.wales)**

**Recommendation:** Implementation of evidence based interventions e.g. Positive Behavioural Support (PBS) and active support training programmes and awareness sessions across services and the lifespan. Starting with guidance for children and parents and carers and linking to the ACE awareness training and learning from the English STOMP (STop Over Medicating People) programme.

**Key Action:** Promote the use of PBS in all settings and raise awareness of the appropriate and safe use of restraint.

**Recommendation:** Primary Health Care: Improve the take up and quality of annual health checks to monitor and identify health needs (target: 75% of all individuals registered with their GP practise who have a diagnosed learning disability are to have an annual health check).

**Key Action:** (1) Review the role of community learning disability teams to support delivery of the annual health checks (primary care cluster level), supporting step-down and children and young people's services. (2) Establish a community learning disability link nurse for every primary care cluster.

Achievements	Risk to Delivery	Corrective Actions
Reporting Period: 1 October 2020 to 30 September 2021		
Reporting Period: 1 October 2021 to 31 March 2022		

**Recommendation:** Secondary Health Care: To ensure reasonable adjustments are made for people with a learning disability through using care bundles, having learning disability champions, system flagging and increasing the number of learning disability liaison nurses across Wales. To ensure traffic light systems/health passports are put in place. Roll out of the health equalities framework.

## Evidence Checklist: Improving the Health and Well-being of Homeless & Specific Vulnerable Groups

<b>General:</b> The Health Board leads the development, implementation and monitoring of the HaVGHAP (as an element of the Single Integrated Plan & regional commissioning strategies) in partnership with the Local Authority, service users, third sector & other stakeholders.	
	<b>Questions to consider when completing the reporting template</b>
<b>Risks to Delivery</b>	<ul style="list-style-type: none"> <li>Has there been an increase in the numbers of people within specific vulnerable groups you are supporting or is there an element of increased complexity?</li> <li>Has there been a change in funding allocated to the vulnerable groups from either a health, local authority or third sector perspective; which effects how the Health Board may support the group?</li> <li>Are there sufficiently skilled staff to deliver services and meet the needs of the homeless and vulnerable groups?</li> <li>Despite there being identified needs across the whole population, the Health Board is only currently providing a service within one region.</li> </ul>
<b>Leadership</b>	<ul style="list-style-type: none"> <li>Does the Health Board have a lead/named person who has responsibility for the strategic direction and service delivery for homelessness and vulnerable groups?</li> <li>Do the single integrated plan and regional commissioning strategies include information on homelessness and vulnerable groups or is there a separate strategic plan which specifically focuses on this area? If not what are the governance arrangements?</li> </ul>
<b>Joint Working</b>	<ul style="list-style-type: none"> <li>How do the Local Authority, Third Sector and people who use services inform the strategic plan and shape service delivery?</li> </ul>
<b>Health Intelligence</b>	<ul style="list-style-type: none"> <li>Does the Health Board identify the needs of homeless and vulnerable groups within their community through their population needs assessment?</li> <li>Is any additional information collected to inform how services are developed and or delivered? (For example National Rough Sleeper count, Stats Wales, Home office data, information from GPs and Local Authorities).</li> </ul>
<b>Access to Healthcare</b>	<ul style="list-style-type: none"> <li>How does the Health Board ensure that vulnerable groups with different language, culture and communication needs are supported to access health services? How widely is the language line used, are other translation services used within the Health Board, do people have access to a clinician or staff who speak their language and have staff attended cultural competency training?</li> <li>How does the Health Board support all vulnerable groups to access generic health services? The response should consider GPs, dental care and whether information is available to signpost people about the services available?</li> <li>Has the Health Board got any specialist services/support for the different vulnerable groups?</li> </ul> <p>(e.g. homelessness in x region is a significant issue and research tells us that this group has poorer health and accesses health services far less than the general population. We have developed a specialist team which includes a lead GP, nurse specialist and mental health worker. We work closely with charities and undertake outreach work in the community).</p>

## Responding to Service User Experience to Improve Services

<b>NHS Organisation</b>	
<b>Date of Report</b>	
<b>Report Prepared By</b>	

The NHS Framework for Assuring Service User Experience explains the importance of gaining service user experience feedback in a variety of ways using the four quadrant model (real time, retrospective, proactive/reactive and balancing). It outlines three domains to support the use and design of feedback methods and is intended to guide and complement service user (patient) feedback strategies in all NHS Wales organisations. NHS organisations are required to evidence that service user experience feedback is gathered and acted upon in all care settings (as applicable).

**Reporting Schedule:** Evidence of how NHS organisations are responding to service user experience feedback to improve/redesign their services is to be reported annually. This form is to be submitted on 30 September to cover the period April 2020 to March 2021. **Return form to:** [hss.performance@gov.wales](mailto:hss.performance@gov.wales)

Diben yr adroddiad hwn yw rhoi diweddariad ar ddatblygiad Cynllun Strategol y Gweithlu ar gyfer lechyd Meddwl a'r blaenoriaethau tymor byr sy'n cael eu datblygu ochr yn ochr.

### **2. CEFNDIR**

Mae Law yn Llaw at lechyd Meddwyl yn gosod allan y gofyniad i Lywodraeth Cymru weithio gyda Addysg a Gwella lechyd Cymru (AaGIC), Gofal Cymdeithasol Cymru (GCC) a phartneriaid i gynhyrchu cynllun gweithlu ar gyfer iechyd meddwl. Gwneir hyn mewn dau gam:

**Cam 1:** cynllun gwaith i ymateb i flaenoriaethau brys y gweithlu. Bydd hyn yn anelu at danategu'r gwaith o gyflawni *Cynllun Cyflawni Law yn Llaw at lechyd Meddwl 2019-22* ac ymateb i flaenoriaethau uniongyrchol, naill ai mewn ymateb i newidiadau deddfwriaethol neu anghenion a ddynodwyd mewn adroddiadau sicrwydd/arolygu.

**Cam 2:** cynllun mwy hirdymor ar gyfer y gweithlu iechyd meddwl yn seiliedig ar Strategaeth y Gweithlu ar gyfer lechyd a Gofal Cymdeithasol, yn canolbwyntio ar gyfoethogi rôl y gweithlu ehangach, recriwtio a dargadw staff mewn rolau allweddol a datblygu gweithlu ystwyth i ymateb i anghenion iechyd meddwl newidiol.

Dechreuodd y gwaith yn ystod COVID ac felly cyfyngwyd ar gamau cynnar datblygiad y cynllun gan yr angen i bob rhan o'r system ailffocysu ymdrechion ac adnoddau ar yr ymateb argyfyngus. Fodd bynnag, cynhaliwyd ymarferiad ymgysylltu helaeth yn ystod Hydref 2020, gan ddarparu man cychwyn gwerthfawr ar gyfer datblygu'r cynllun. Roedd hyn yn destun Papur Briffio bwrdd anffurfiol ym mis Chwefror 2021.

Sefydlodd Llywodraeth Cymru Fwrdd Cyflawni a Goruchwylio Gweinidogol ar gyfer lechyd Meddwl yn y Gwanwyn i oruchwylio nifer o ymrwymadau Law yn Llaw at lechyd Meddwl gan gynnwys y Cynllun Gweithlu. Cefais wahoddiad i fod yn aelod o'r Bwrdd hwn ar ran ein gweithlif.

Er mwyn sicrhau bod trefniadau rheoli prosiect priodol ar waith i hybu'r gwaith cymhleth hwn yn ei flaen, sefydlwyd Bwrdd Prosiect ym mis Mai 2021, yn cynnwys AaGIC, GCC a chydweithwyr Llywodraeth Cymru, y bu i mi ei gadeirio. Mae grwpiau gorchwyl hefyd ar waith i ganolbwyntio ar feysydd penodol, yn ogystal â Grŵp Cyfeirio Rhanddeiliaid.

Darparwyd cyllid o £130,592 gan Lywodraeth Cymru yn ystod y flwyddyn i gefnogi'r capasiti sydd ei angen i ymgymryd â'r gwaith uchod. Mae'r cyllid hwn ar hyn o bryd yn cefnogi 3 swydd.

### 3. CYNNYDD

#### Cynllun y gweithlu:

Rydym wedi cwblhau'r dadansoddiad cychwynnol o feysydd a lleoliadau gwasanaeth lefel uchel (Plant a Phobl Ifanc, Oedolion ac Oedolion Hŷn, (gyda Dementia wedi'i gynnwys mewn cynllun gweithredu ar wahân) a chyd-destun/ lleoliad (Cymuned neu Gleifion Mewnol), gan adeiladu ar yr ymgysylltiad â rhanddeiliaid a'u hadborth, a'r wybodaeth gaffaeladwy am y gweithlu. Mae hyn yn amlygu themâu a thueddiadau diddorol y mae angen iddynt lywio'r cynllun.

Rydym wedi gofyn am gasgliad data pellach ar y niferoedd o swyddi gwag a chostau asiantaethau. Mae casgliad data Gofal Cymdeithasol Cymru wedi'i gwblhau, gan gynnwys data 2021 a gasglwyd yn ddiweddar iawn.

Mae cynllun cyfathrebu wedi'i ddatblygu ac mae'r broses ymgysylltu wedi parhau er mwyn rhannu'r cwrdd a'r themâu sy'n dod i'r amlwg yn y Cynllun. Mae hyn wedi cynnwys rhanddeiliaid allweddol drwy Fwrdd y Rhwydwaith Iechyd Meddwl, y Colegau Brenhinol perthnasol, Grŵp Cymheiriaid yr Is-gadeiryddion a'n Huwch Dîm Arweinyddiaeth mewnol. Bydd hyn yn parhau cyn y broses ymgynghori a bydd yn codi ymwybyddiaeth ac yn galluogi sylwadau/ymatebion cychwynnol mewn perthynas â thueddiadau, cyfeiriad strategol posibl ac atebion arfaethedig y gweithlu.

Rydym bellach yn canolbwyntio ar ddefnyddio'r wybodaeth a'r data hyn i ddatblygu cynnwys drafft y cynllun a'r atebion gweithlu posibl. Bydd hyn yn defnyddio lensiau proffesiynol a gwasanaeth ond bydd hefyd yn defnyddio 7 thema allweddol Strategaeth y Gweithlu i sicrhau aliniad a chysondeb.

Rydym yn paratoi ar gyfer y cyfnod ymgynghori gyda chyhoeddiad cylchlythyr yn ystod mis Tachwedd i atgoffa rhanddeiliaid, partneriaid a defnyddwyr gwasanaethau am y broses a gychwynnwyd yn 2020 ac i roi blas o'r hyn a fydd yn y cynllun drafft. Bydd y cylchlythyr yn tynnu sylw at ffyrdd o gyfrannu at yr ymgynghoriad, gyda chynnig o gynnal trafodaethau a sesiynau briffio ar y cyd rhwng AaGIC/GCC fel y gwnaethom ar gyfer Strategaeth y Gweithlu.

Byddwn yn rhoi diweddariad ar y cynnwys sy'n dod i'r amlwg o fewn y cynllun yng Nghyd-sesiwn y Bwrdd a Gofal Cymdeithasol Cymru fis Rhagfyr (Rhagfyr 13<sup>eg</sup>).

#### Amenedigol:

Mae addysg a hyfforddiant newydd, wedi'u hanelu at holl aelodau staff iechyd a gofal cymdeithasol sy'n gweithio gyda rhieni a theuluoedd yn y cyfnod amenedigol, wedi deillio o Addysg GIG yr Alban (NES) a bydd yn cael ei letya ar lwyfan 'Learning@Wales'. Bydd hyn yn cael ei adolygu at bwrpas y cyd-destun Cymreig a bydd cyfieithiad yn cael ei gwblhau cyn ei ryddhau ar brawf.

Mae pecyn modiwlau hyfforddi'r Sefydliad Ymwelwyr Iechyd (IHV) yn cael ei gyflwyno ar draws Byrddau Iechyd gydag ymatebion cadarnhaol â derbyniadau gan ymwelwyr iechyd, bydwagedd, ymarferwyr cyffredinol, a gweithwyr proffesiynol amlddisgyblaethol ehangach o fewn y gwasanaethau amenedigol. Mae hyn wedi'i

anelu at staff sy'n gweithio'n uniongyrchol gyda theuluoedd fel sesiwn hyfforddi fwy trylwyr. Mae'r nifer sy'n manteisio arnynt yn amrywio felly mae ffocws ar ymgysylltu.

Mae cwrmpasiad cyfnod cynnar wedi'i gychwyn gyda rhanddeiliaid gofal sylfaenol ynghylch hyfforddiant iechyd meddwl amenedigol i feddygon teulu yng Nghymru. Gallai hyn ddefnyddio dull 'hyrwyddwyr fel hyfforddwyr' Addysg Iechyd Lloegr (HEE) i alluogi lledaeniad dysgu ledled practisau meddygon teulu Cymru.

Mae dysgu Lefel 7 yn cael ei adolygu a maint y pecyn dysgu lefel 7 yn cael ei asesu (opsiynau Meistr Llawn neu Dystysgrif Ôl-raddedig). Byddai hyn wedi'i anelu at ddilyniant gyrfa ar gyfer ymarferwyr arbenigol a allai fod yn awyddus i gwblhau dysgu uwch. Mae angen archwilio cwrmpas llawn y potensial ar gyfer dull dysgu seiliedig ar waith.

Mae'r fframweithiau cymhwysedd amenedigol o Loegr a'r Alban yn cael eu holrhain i gwmpasu cynnwys a dymunoldeb i Gymru. Mae HEE a NES wedi cynnig argaeledd cynnwys i alluogi defnydd yng Nghymru. Ar hyn o bryd mae Lloegr yn adolygu eu fframwaith cymhwysedd ac yn croesawu'r awgrym i gynnwys dull teiran o lunio fframwaith cenedlaethol (rhanddeiliaid HEE, NES a Chymru).

Crëwyd dogfennaeth ganllaw Llwybrau Amenedigol (clinigol a llai technegol) gan Gydweithfa GIG Cymru i safoni arferion, i ddarparu eglurder ynghylch rolau a chyfrifoldebau ac i adlewyrchu dull ataliol, cynharach o ymyrryd sy'n seiliedig ar dystiolaeth.

### **Plant a Phobl Ifanc:**

Rydym yn parhau â datblygiad sgiliau ac arbenigeddau arbenigol i gefnogi gwasanaethau CAMHs. Mae ein gwaith mapio addysg a'n hymarferiad fframwaith CAMHS bellach wedi'u cwblhau a daethpwyd i gytundeb i gynnal cynllun peilot o'r modiwlau NES fel Rhaglen CYPMH Hanfodol yng Nghymru. Nod hyn yw hyfforddi'r hyfforddwr a diweddarau cynnwys yn ystod dosbarthiad y peilot. Mae'r darn hwn o waith yn gofyn am ymarferiad caffael sydd ar y gweill. Rhagwelir y gellir dyfarnu'r tendr er mwyn i waith ddechrau at ddiwedd mis Tachwedd 2021. Gall hyn achosi estyniad i'r amserlenni arfaethedig gwreiddiol ar gyfer cwblhau carfan beilot erbyn diwedd Mawrth 2022 hyd at fis Mai 2022.

Rydym yn gweithio'n agos gydag is-grŵp Gorchwyl a Gorffen Cydweithredol Cynllun Gweithlu Iechyd Meddwl CAMHS i sicrhau bod goblygiadau'r Fframwaith Gwella Gwasanaeth a'r Gweithlu Adolygiad gan Gymheiriaid yn cael eu hystyried.

Mae datblygiadau addysg Iechyd Meddwl Babanod (IMH) i gael eu symud ymlaen ar fyrder drwy gyfrwng darn o waith, a arweinir gan ymgynghorydd, i gwmpasu anghenion addysgol y sector, adolygu'r pecynnau dysgu presennol sydd ar gael, arfarnu effaith argaeledd pecyn o'r fath ar y sector i ddarparu gwasanaethau ac i ymgysylltu â datblygiad cymhwyster ar lefel 7.

### **Therapiau Seicolegol:**

Mae gwaith i ddatblygu'r gweithlu therapiau seicolegol wedi nodi'r potensial i ddatblygu rôl newydd ar gyfer Cydymaith Clinigol mewn Seicoleg Gymhwysol (CAAP) i lenwi

bwlch sgiliau sy'n hysbys rhwng *seicolegwyr cynorthwyol* a *seicolegwyr clinigol* cymwysedig.

- Graddedigion seicoleg yw CAAP sydd ar hyn o bryd yn dilyn rhaglen hyfforddiant MSc llawn am flwyddyn er mwyn dod yn seicolegwyr cymhwysol proffesiynol medrus, gan weithio o fewn eu cwrmpas ymarfer, dan oruchwyliaeth uniongyrchol seicolegydd clinigol.
- Mae hyd at hanner eu hyfforddiant yn cael ei dreulio ar leoliad clinigol gan ddefnyddio'r model hyfforddi Seicoleg Glinigol o gydamseru lleoliadau addysgu fel y gall hyfforddeion CAAP roi eu haddysg academiaidd ar waith.
- Er bod rôl CAAP o ddefnydd mewn ystod eang o leoliadau, a bod modd hyfforddi CAAP i weithio gydag amrywiaeth eang o boblogaethau clinigol, yn ymarferol caiff unigolion CAAP eu hyfforddi i weithio gydag un boblogaeth [i ddechrau].
- Mae hyfforddeion yn cael eu hamlygu i gwricwlwm sy'n pwysleisio hanfodion ymarfer seicolegol proffesiynol ar draws y rhychwant oes ac yn defnyddio dull o ddysgu'n seiliedig ar [ddatrys] broblemau a lleoliad clinigol dan oruchwyliaeth i ddatblygu cymhwysedd o ran gweithio gyda phoblogaeth glinigol benodol.
- Mae hyfforddeion CAAP yn ymgymryd â blwyddyn lawn o ymarfer clinigol dan oruchwyliaeth, o fewn gwasanaeth a thîm clinigol, cyn iddynt raddio i ddod yn CAAP.
- Ar hyn o bryd mae'r Byrddau Iechyd yn cyflogi bron i 300 o seicolegwyr cynorthwyol mewn amrywiaeth o fandiau o fewn eu gweithluoedd.
- Mae Lloegr (CAP) a'r Alban (CAAP) eisoes wedi dechrau ymgorffori hyn o fewn eu gweithlu.

Er mwyn datblygu cynnig ar gyfer y system iechyd a gofal yng Nghymru, mae AaGIC wedi cefnogi 2 ddigwyddiad rhithwir i randdeiliaid, wedi'i drefnu gan arweinydd rhaglen seicoleg glinigol De Cymru, er mwyn trafod datblygiad rôl CAAP ar gyfer GIG Cymru.

O'r trafodaethau hyn, mae cynnig yn cael ei ddatblygu gyda dyddiad cau ddiwedd mis Tachwedd. Nid oes cyllid yn ei le ar hyn o bryd i gefnogi hyn, byddai angen buddsoddiad ychwanegol naill ai drwy'r Broses Gomisiynu Addysg a Hyfforddiant neu'n seiliedig ar achos busnes cychwynnol.

Ochr yn ochr â'r uchod rydym yn parhau i adolygu trefniadau ar gyfer y Ddoethuriaeth Seicoleg Glinigol drwy Gam 2 ein Hadolygiad Strategol o Addysg er mwyn galluogi contractau o ansawdd uchel sy'n darparu'r addysg y mae ar y gwasanaeth a'r gweithlu ei hangen. Rydym yn gweithio'n agos gyda grwpiau cenedlaethol sefydledig gan gynnwys rhaglenni NPTMC, APHNSAG a MCLIP, yn ogystal â chynnal digwyddiadau ymgysylltu â byrddau iechyd. Mae hyn yn cynnwys cwrmpasu'r gwaith o ddatblygu fframwaith hyfforddi ochr yn ochr â datblygu seilwaith ar gyfer therapïau seicolegol yng Nghymru. Yn y cyfamser rydym wedi cynyddu'r niferoedd a gaiff eu comisiynu drwy'r broses bresennol.

## **Mesur Iechyd Meddwl Rhan 1**

Mae AaGIC a Gofal Cymdeithasol Cymru, gyda chymorth Cydweithfa GIG Cymru, wedi cychwyn ymgymryd ag ymarferiad ymgysylltu, rhwng 18<sup>fed</sup> Hydref a 12<sup>fed</sup>

Tachwedd 2022, i gael adborth ynghylch a ddylid ysgogi newid i Reoliadau Mesur Iechyd Meddwl (Cymru) 2010. Mae tri opsiwn wedi'u cyflwyno fel dewisiadau amgen i sefyllfa bresennol gweithwyr proffesiynol sy'n cynnal yr asesiad. Bydd canlyniad yr ymgysylltu'n cael ei borthi'n ôl i Lywodraeth Cymru erbyn diwedd mis Tachwedd 2021 i hysbysu unrhyw newidiadau y gellid bod eu hangen drwy ddeddfwriaeth.

#### 4. MATERION LLYWODRAETHU A RISG

Mae trefniadau llywodraethu cadarn ar waith i oruchwylio cynnydd parthed yr ymrwymïadau hyn. Y prif risgiau o hyd yw gallu sefydliadau iechyd a gofal/gweithwyr proffesiynol i gymryd rhan yn y broses gynllunio o ystyried y pwysau parhaus ar wasanaethau.

#### 5. GOBLYGIADAU ARIANNOL

Derbyniwyd cyllid gan Lywodraeth Cymru i gefnogi'r capasiti sydd ei angen i ddatblygu'r gwaith.

Bydd angen buddsoddiad ychwanegol o ran datblygu'r rôl Cydymaith Clinigol mewn Seicoleg ac o bosibl mewn cysylltiad â chamau gweithredu eraill o fewn y Cynllun Gweithlu Strategol.

#### 6. ARGYMHELLIAD

Gofynnir i Aelodau'r Bwrdd nodi'r diweddariad ar y gwaith i ddatblygu Cynllun Strategol y Gweithlu ar gyfer Iechyd Meddwl, gyda chyflwyniad manylach ar gynnwys datblygol y Cynllun i'w ddarparu ym mis Rhagfyr.

## **BRIFF AR Y FFRAMWAITH ANSAWDD A DIOGELWCH CENEDLAETHOL Trefniadau Cenedlaethol Newydd ar gyfer Adrodd am Ansawdd – Yn Disodli'r Datganiad Ansawdd Blynyddol**

### **1. CYFLWYNIAD/CEFNDIR**

Mae'r Fframwaith Ansawdd a Diogelwch a gyhoeddwyd gan Lywodraeth Cymru yn "cynnig canllawiau a chyfarwyddyd i holl sefydliadau'r GIG, ac mae'n canolbwyntio ar sicrhau bod system rheoli ansawdd gref ar waith ar bob lefel, rhywbeth a fydd, yn ei dro, yn lleihau amrywiad o ran ansawdd".

Fel y mae'r Bwrdd yn ymwybodol, mae AaGIC wedi cychwyn rhaglen waith i ddatblygu fframwaith rheoli ansawdd integredig sy'n cynnig eglurder ar gydrannau craidd system rheoli ansawdd, gan gydnabod swyddogaethau unigryw ac arbenigol y sefydliad. Mae'n ceisio adeiladu ar yr arferion da sy'n bodoli'n barod mewn pocedi a datblygu dull mwy cyson ac integredig sy'n gyson â'n swyddogaethau statudol a'n huchelgais aml-broffesiynol.

Pwrpas y papur hwn yw **tynnu sylw'r Bwrdd at oblygiadau posibl y Fframwaith cenedlaethol y bydd angen i ni eu hadlewyrchu yn ein gwaith lleol.**

Mae dogfen y Fframwaith cenedlaethol hefyd yn nodi bod angen i sefydliadau gyhoeddi adroddiad blynyddol ar y camau a gymerwyd er mwyn gwella ansawdd mewn gwasanaethau a chanlyniadau. **Bydd yr adroddiad newydd hwn yn disodli'r gofyniad presennol am Ddatganiad Ansawdd Blynyddol.**

### **2. CAMAU GWEITHREDU'R FFRAMWAITH CENEDLAETHOL**

Mae'r Fframwaith yn cynnwys camau gweithredu amrywiol a amlinellir yn y tabl isod, ag ychydig o sylwadau cychwynnol ynglŷn â'u goblygiadau a sut y maent yn berthnasol i AaGIC. Fel sy'n digwydd yn aml, bydd angen addasu'r camau gweithredu hyn er mwyn iddynt fod yn gymwys i sefydliad arbenigol fel ni nad yw'n dod i gysylltiad uniongyrchol â chleifion.

English Catherine  
11/24/2021 14:21:18

	<b>Camau Gweithredu'r Fframwaith</b>	<b>Goblygiadau i AaGIC</b>
Cam Gweithredu 1	Dylai sefydliadau'r GIG sicrhau bod y niwed (uniongyrchol yn ogystal ag anuniongyrchol) sy'n gysylltiedig â'r pandemig COVID-19 yn cael ei leihau. Dylai sefydliadau weithredu dull sy'n canolbwyntio ar risgiau a buddion wrth adfer gwasanaethau eraill, gan fesur, monitro a dysgu yn sgil unrhyw niwed.	<p>Mae ein hymateb i niwed COVID-19 yn canolbwyntio ar 3 maes:</p> <ol style="list-style-type: none"> <li>1. Cefnogi'r system – er enghraifft ein gwaith ar atal a rheoli heintiau, sgiliau asesu clinigol o bell, gweithlu gofal critigol, cefnogaeth i'r gweithlu brechu.</li> <li>2. Diogelu addysg a hyfforddiant – dal i ganolbwyntio ar gynnal safonau, newid i ddarpariaeth ddigidol, cyflwyno'r rôl newydd ar gyfer lleoliadau clinigol i fyfyrwyr iechyd proffesiynol</li> <li>3. Cefnogi myfyrwyr – cyngor ar frechu, llesiant, rhestr o adnoddau cefnogi, rheoli cynnydd/ estyniadau/gohiriadau unigolion.</li> </ol> <p>Rydym wedi cyflwyno adroddiad i'r Bwrdd yn ddiweddar ar ein gwaith parhaus o fonitro goblygiadau COVID o safbwynt addysg a hyfforddiant.</p> <p>Gofynnwyd i Gyfarwyddwr PPCS ymgymryd ag ymarfer 'gwersi a ddysgwyd' mewn cysylltiad â'n hymateb i COVID i'w ymgorffori mewn cynlluniau yn y dyfodol.</p>
Cam Gweithredu 2	Dylai Llywodraeth Cymru weithio gyda rhanddeiliaid allweddol i adolygu a diweddarau'r safonau lechyd a Gofal, gan adlewyrchu'r ddyletswydd ansawdd gryfach.	<p>Nid oedd llawer o gynnwys yn ymwneud ag addysg a'r gweithlu yn y safonau blaenorol. Rydym yn awyddus i ymwneud â hyn er mwyn sicrhau bod y safonau hyn yn adlewyrchu ac yn cydymffurfio â'r safonau rheoleiddio a'r safonau rydym yn eu defnyddio i gomisiynu addysg a hyfforddiant, gan sefydliadau addysg uwch a phartneriaethau cyflogaeth lleol</p>
Cam Gweithredu 3	Dylai Llywodraeth Cymru weithio gyda rhanddeiliaid allweddol ar roi'r dyletswyddau ansawdd a gonestrwydd ar waith er mwyn galluogi sefydliadau'r GIG i ymbaratoi erbyn y daw'r dyletswyddau i rym.	<p>Rydym yn sicrhau bod hyn yn cael ei ymgorffori mewn addysg a hyfforddiant i weithlu newydd y GIG (myfyrwyr a hyfforddeion) gan gydymffurfio unwaith eto â safonau a bennwyd gan reoleiddwyr.</p> <p>Bydd angen i'n Fframwaith Rheoli Ansawdd fod yn glir ynglŷn â phrosesau uwchgyfeirio pryderon, a llifoedd gwybodaeth gyda chyrff rheoleiddio ac arolygiaethau, e.e. 	Electronig ar gyfer Rhagnodi a Gweinyddu Meddyginiaethau, Sganio er Diogelwch a'r System Wybodaeth ar gyfer Dyfeisiau Meddygol.	
Cam Gweithredu 8	Dylai sefydliadau'r GIG ddangos trwy gyfrwng eu cynlluniau fod gofal a phrofiad cleifion yn ganolog i'w dull a'u prosesau cyflawni, a bod eu trefniadau llywodraethu'n ategu'r gofyniad hwn.	<p>Mae hwn yn faes sylweddol i'w ddatblygu yng nghyd-destun AaGIC – sydd ar gyfer profiad myfyrwyr, hyfforddeion a dysgwyr ac adborth.</p> <p>Mae hwn yn elfen sylweddol o ddatblygiad ein Fframwaith Rheoli Ansawdd, gan gynnwys dull mwy ffurfiol o dderbyn adborth o arolwg cenedlaethol a sicrhau bod mecanweithiau ymgysylltu ac adborth priodol wedi'u rhoi ar waith.</p>
Cam Gweithredu 9	Dylai sefydliadau gofal iechyd sicrhau bod ganddynt y capasiti a'r gallu i wella a dysgu'n barhaus.	Mae ein swyddogaeth QIST fewnol eisoes yn darparu addysg a hyfforddiant hanfodol ym maes gwella ansawdd i hyfforddeion ac mae hefyd yn cyflwyno ein sgiliau gwella ansawdd yn raddol ar draws ein gweithlu AaGIC. Byddwn yn ystyried cynlluniau i adeiladu ar y gwaith hwn yn ystod y flwyddyn.
Cam Gweithredu 10	Dylid mynd i'r afael â gwaith cenedlaethol ar y cyd â rhanddeiliaid allweddol i ddatblygu Fframwaith Sicrhau Ansawdd er mwyn helpu i grynhoi holl elfennau system rheoli ansawdd. Bydd hyn yn cynnwys diweddaru'r Fframwaith Sicrhau Profiadau Defnyddwyr Gwasanaethau, a bydd yn helpu i baratoi'r ffordd ar gyfer y dyletswyddau ansawdd a gonestrwydd.	<p>Fel y nodwyd yn gynharach, mae angen i ni gysoni'r gwaith o ddatblygu system rheoli ansawdd AaGIC lle bo modd, ond sicrhau bod ein swyddogaethau unigryw ac arbenigol yn cael eu hadlewyrchu.</p> <p>Mae angen ystyried ein perthynas â Chorff Llais Dinasyddion yn ein fframwaith AaGIC.</p>

Cam Gweithredu 11	Dylid gwneud gwaith yn genedlaethol ac yn lleol i ddatblygu fframwaith mesur ar gyfer llywio system rheoli ansawdd, a ategir gan well gwybodaeth am ansawdd gofal.	Byddwn yn ceisio sicrhau bod mesurau ar waith i gefnogi rheoli ansawdd a gwella ansawdd, fel rhan greiddiol o'n fframwaith rheoli perfformiad, ond gallai'r rhain edrych yn wahanol i'r rhai a ddefnyddir ar gyfer sefydliadau sy'n dod i gysylltiad uniongyrchol â'r cyhoedd.
Cam Gweithredu 12	Dylai sefydliadau'r GIG adolygu ac ystyried yr elfennau y mae angen iddynt fod ar waith er mwyn datblygu system rheoli ansawdd gwbl weithredol, yn cynnwys sicrhau bod y Bwrdd yn meddu ar y sgiliau a'r wybodaeth briodol i arwain y system yn effeithiol.	Fel y nodwyd yn flaenorol, mae'r gwaith hwn yn mynd rhagddo fel amcan strategol allweddol yn ein cynllun blynyddol.  Bydd sesiynau datblygu'r Bwrdd yn canolbwyntio ar gyfuno'r sgiliau sy'n ofynnol ar gyfer arweinyddiaeth a sicrwydd.
Cam Gweithredu 13	Dylid gwneud gwaith cenedlaethol i ddatblygu pecyn cymorth y gall sefydliadau ei ddefnyddio i gael sicrwydd ynglŷn â System Rheoli Ansawdd effeithiol.	Nodwyd.
Cam Gweithredu 14	Dylai sefydliadau iechyd ennyn diddordeb eu gweithlu yn yr agenda gofal a grymuso pawb i gymryd rhan er mwyn helpu i wneud y GIG yng Nghymru yn system sy'n cael ei harwain gan ansawdd.	Bydd angen llawer o gyfathrebu ac ymgysylltu â'n gweithlu AaGIC er mwyn sicrhau dealltwriaeth lawn o'r agenda ansawdd, ac effaith hollbwysig ein swyddogaethau ar ddiogelwch ac ansawdd gofal cleifion.  Mae ymwreiddio gwella ansawdd yn ein rhaglenni arweinyddiaeth yn hanfodol er mwyn cefnogi'r system yn yr amcan hwn.
Cam Gweithredu 15	Bydd rhaglen Ansawdd a Diogelwch yn cael ei sefydlu i fwrw ymlaen â'r camau gweithredu	Amlinellir hyn yn fanylach yn yr adran nesaf.  Mae'n bosibl y bydd hyn yn galw am adolygiad o'n trefniadau llywodraethu mewnol er mwyn

	<p>cenedlaethol a nodir yn y Fframwaith hwn. Bydd Bwrdd Ansawdd a Diogelwch newydd, a hwylusir gan swyddogaeth Gweithrediaeth y GIG yn goruchwyllo'r rhaglen hon. Bydd y bwrdd hwn yn mynd ati i ysgogi'r agenda ansawdd a diogelwch a bydd yn cael ei arwain mewn partneriaeth â'r GIG. Bydd ganddo ddull amlddisgyblaethol a bydd grwpiau proffesiynol gwahanol yn cymryd rhan ynddo.</p>	<p>sicrhau eu bod yn addas i'r diben o safbwynt a) gweithredu a b) goruchwyliaeth barhaus.</p>

CYNNIG AR GYFER GRŴP CYFEIRIO RHANDDEILIAID AaGIC

## 1. CYFLWYNIAD

Pwrpas yr adroddiad hwn yw gofyn i'r Bwrdd ystyried a chefnogi'r cynnig i sefydlu Grŵp Cyfeirio Rhanddeiliaid (SRG). Gofynnir i'r Bwrdd hefyd gefnogi'r Cylch Gorchwyl arfaethedig ar gyfer yr SRG sydd ynghlwm yn Atodiad 1.

## 2. CEFNDIR

Mae angen i AaGIC ymgysylltu ag ystod eang o randdeiliaid ar draws ei holl swyddogaethau fel y nodir yn ein Strategaeth Cyfathrebu ac Ymgysylltu. Cafodd peth o'r gwaith hwn ei oedi, ei ail-lunio neu ei ohirio yn ystod yr ymateb i'r pandemig ond nawr mae angen ei ailosod i sicrhau ymgysylltiad effeithiol â rhanddeiliaid mewn ystod o gynlluniau a datblygiadau pwysig.

Mae dull y sefydliad hyd yma wedi cynnwys gweithdai wedi'u targedu, digwyddiadau sioe deithiol a bwletinau amrywiol. Ar ôl ystyried y modelau ymgysylltu sydd ar waith mewn sefydliadau GIG eraill, mae'r Tîm Gweithredol wedi cynnig bod angen ategu'r gweithgareddau hyn gyda fforwm rheolaidd ar gyfer ymgysylltu'n barhaus â rhanddeiliaid ar draws yr holl swyddogaethau. Byddai'r Grŵp Cyfeirio Rhanddeiliaid yn disodli'r angen am y Grŵp Cynghori Allanol cyfredol, sy'n bodoli fel is-bwyllgor i'r Pwyllgor Addysg, Comisiynu ac Ansawdd.

## 3. Cynigion

### Pwrpas yr Adroddiad

Pwrpas yr SRG fydd hwyluso ymgysylltiad, deialog a chyngor gan randdeiliaid i lywio cynllunio strategol a gwneud penderfyniadau ar gyfer AaGIC. Bydd hyn yn cynnwys yr holl gynlluniau mawr a rhaglenni trawsnewid, gan gynnwys y Cynllun Tymor Canolig Integredig a'r Cynllun Comisiynu Addysg a Hyfforddiant.

Mae'r Cylch Gorchwyl ynghlwm yn Atodiad A.

Rhagwelir y bydd y SRG yn cwrdd ar gamau allweddol yn y cylch cynllunio dair i bedair gwaith y flwyddyn. Y nod fydd i'r SRG ategu'r gweithgareddau ymgysylltu presennol a pheidio â'u disodli.

Adroddir trafodaethau'r SRG i'r Bwrdd trwy Adroddiad y Cadeirydd.

Cynigir y bydd aelodaeth y SRG yn adeiladu ar aelodaeth gyfredol EAG ac yn seiliedig ar randdeiliaid a phartneriaid cenedlaethol.

## 4. MATERION LLYWODRAETHU A RISG

Bydd yr SRG yn gwella effeithiolrwydd a pharhad ymgysylltu â rhanddeiliaid ac o ganlyniad yn gwella ansawdd cynllunio AaGIC.

Bydd sefydlu'r SRG yn dileu'r gofyniad am EAG ar wahân fel is-bwyllgor i'r Pwyllgor Addysg, Comisiynu ac Ansawdd.

## 5. GOBLYGIADAU ARIANNOL

Nid oes unrhyw gostau ychwanegol yn gysylltiedig â'r diwygiadau arfaethedig i gylch gorchwyl y SRG.

## 6. ARGYMHELLIAD

Gofynnir i'r Bwrdd nodi:

- sefydlu Grŵp Cyfeirio Rhanddeiliaid AaGIC (SRG) ynghyd â'r cylch gorchwyl sydd ynghlwm yn Atodiad 1;
- bod yr SRG yn disodli rôl gyfredol y Grŵp Cyngori ar Addysg (EAG) a bod yr EAG yn cael ei ddiddymu.

## **Adroddiad Perfformiad Integredig Chwarterol AaGIC C2 2021/22**

### **1. CYFLWYNIAD**

Mae'r papur hwn ac Atodiad 1 yn rhoi'r wybodaeth ddiweddaraf i'r Bwrdd am berfformiad hyd at ddiwedd Medi 2021 (Chwarter 2) yn unol ag amserlenni adrodd y Fframwaith Perfformiad.

### **2. CEFNDIR**

Mae'r adroddiad hwn a'r atodiadau yn crynhoi'r cynnydd ar ganol y flwyddyn gan gynnwys perfformiad yn erbyn yr Amcanion Strategol yng Nghynllun Blyneddol 2021/22 a mesurau perfformiad gweithredol allweddol.

### **3. TROSOLWG O BERFFORMIAD**

Mae AaGIC wedi gwneud cynnydd da o ran cyflawni'r 59 Amcan Strategol yng Nghynllun Blyneddol 2021/22 ac wedi perfformio'n effeithiol yn ystod y cyfnod a gwmpesir gan yr adroddiad hwn. Yn ogystal â chyflawni ein cynlluniau strategol a'n busnes fel gweithgareddau arferol, rydym yn parhau i gefnogi Llywodraeth Cymru a phartneriaid y GIG mewn ymateb i COVID-19 drwy ailosod ac adfer.

Mae'r adroddiad perfformiad integredig canol blwyddyn fanwl yn amlinellu'r uchafbwyntiau perfformiad o Chwarter 1 ac yn manylu ar berfformiad AaGIC ar gyfer y cyfnod rhwng 1 Gorffennaf a 30 Medi 2021 (Chwarter 2) yn erbyn y cerrig milltir a nodir yn ein Cynllun Blyneddol a'r mesurau allweddol a adroddwyd yn y dangosfwrdd perfformiad.

Cytunwyd ar gyfres uchelgeisiol o amcanion a chymau gweithredu ar gyfer eleni i sicrhau ein bod yn gallu chwarae ein rhan yn agenda ymateb ac adfer Covid, yn ogystal â pharhau i wneud cynnydd mewn perthynas â'n Nodau Strategol a chyflawni swyddogaethau craidd.

Yn gyffredinol, mae AaGIC wedi gwneud cynnydd da o ran cyflawni ein Hamcanion Strategol y cytunwyd arnynt ac wedi perfformio'n effeithiol yn ystod hanner cyntaf 2021/22.

#### **Uchafbwyntiau Chwarter 1**

- Daeth ymarfer caffael addysg broffesiynol gofal iechyd cyn cofrestru Cymru gyfan i ben, sef y broses gaffael gomisiynu addysg fwyaf cymhleth yr ydym wedi'i chynnal, gwerth dros £10bn dros y 10 mlynedd nesaf.
- Cymeradwywyd Cynllun Addysg a Hyfforddiant 2022-23 gan y Bwrdd i'w gyflwyno i Lywodraeth Cymru.
- Lansiodd ein matrices cynllunio gweithlu drwy Rwydwaith Cynllunio'r Gweithlu a gwnaethom symud ymlaen â'r fersiwn rhyngweithiol ar-lein.

English Catherine

- Lansiodd ein Hegwyddorion Arweinyddiaeth Tosturiol yn llwyddiannus a lansiodd ein llyfr arweinyddiaeth dosturiol gyda'r Athro Michael West ym mis Gorffennaf 2021.
- Fe wnaeth naw myfyriwr o Brifysgol Caerdydd ein cefnogi i ddylunio ein rhaglen interniaeth gyntaf.
- Fe wnaethom benodi Pennaeth Profiad a Gwellu Lleoliadau newydd a llwyddwyd i fudo staff Canolfan Addysg Ôl-raddedig Optometreg Cymru (WOPEC) i AaGIC o Brifysgol Caerdydd, o dan arweinyddiaeth Pennaeth Trawsnewid Optometreg.
- Cynhaliwyd ein digwyddiad Therapiâu Celfyddydol cyntaf yn ystod mis Ebrill; ar draws sawl diwrnod, canolbwyntiwyd ar wahanol feysydd; dawnys a symud, cerddoriaeth, celf a therapi drama, sy'n dangos sut maen nhw'n gweithio i gefnogi gwasanaethau.

## Cyflawniadau Chwarter 2

Mae rhestr lawn o gyflawniadau wedi'i chynnwys yn yr adroddiad manwl ond mae'r meysydd allweddol i'w nodi ar gyfer y cyfnod yn cynnwys:

- Gwnaethom lansio Tregyrfa yn ffurfiol ym mis Hydref gyda digwyddiad llwyddiannus iawn wedi'i anelu at ysgolion.
- Mae ein modiwl Arweinyddiaeth Dosturiol mewn Ymarfer wedi dechrau mewn partneriaeth â Phrifysgol Glyndŵr ar lefel Meistr.
- Roedd 22 o Hyfforddeion Rheoli Graddedigion wedi'u cynnwys a chwblhau eu proses sefydlu.
- Roeddem yn falch iawn o groesawu ein Cymrodwr Arweinyddiaeth Broffesiynol Perthynol i lechyd cyntaf yng Nghymru.
- Llofnodwyd yr Achos Amlinellol Strategol ar gyfer y Rhaglen Weithredu Safonau Addysg a Hyfforddiant Cychwynnol 5 mlynedd ar gyfer Fferylliaeth (IETP) gan y Bwrdd ym mis Gorffennaf a'i gyflwyno wedyn i Lywodraeth Cymru.
- Yn dilyn ymgysylltu mewnol ym mis Ebrill 2021, cymeradwywyd Strategaeth Bioamrywiaeth a Datgarboneiddio AaGIC, 2021-24 gan y Tîm Gweithredol yn Chwarter 1 ac fe'i cymeradwywyd gan y Bwrdd ym mis Gorffennaf.
- Ar gyfer swyddi hyfforddiant meddygol a oedd yn dechrau ym mis Awst 2021, gwelodd y sefyllfa derfynol ar gyfer recriwtio Cylchoedd 1 a 2 ein bod yn cyflawni cyfradd recriwtio o 93% ar gyfer hyfforddiant Arbenigedd (ac eithrio meddyg teulu) (hysbysebwyd 400 o 429 o swyddi) a 100% ar gyfer rhaglenni Sylfaen.
- Casglwyd cyfraddau llenwi o bob prifysgol ar gyfer cylch recriwtio Mis Medi 2021 ar gyfer Addysg Broffesiynol lechyd. Ar ddiwedd C2, y gyfradd llenwi ar gyfer Cymru yw 99.4%. Dyma'r gyfradd llenwi gyffredinol uchaf y mae derbyniad mis Medi wedi'i chyflawni yn ystod y 10 mlynedd diwethaf a gall fod yn effaith gadarnhaol ar y pandemig.
- At ei gilydd, mae'r gyfradd cydymffurfio statudol a gorfodol ar gyfer staff craidd AaGIC yn 86%. Mae AaGIC wedi rhagori ar y targed o 85% am y tro cyntaf ers creu'r sefydliad.

Ar ddiwedd y cyfnod, o'r 59 Amcan Strategol a'r is-amcanion sy'n cael eu datblygu, mae 2 (4%) wedi'u graddio gan Uwch Swyddogion Cyfrifol ac Arweinwyr Gweithredol fel statws Coch sy'n nodi bod yr amcan oddi ar y trywydd iawn i'w gyflawni o fewn y flwyddyn. Mae'r rhain yr un fath ag yn C1 ac maent yn:

- **Amcan Strategol 4.6: cefnogi'r broses o drosglwyddo** gweithwyr gofal iechyd proffesiynol o addysg i'r gweithlu— arweinir hyn gan y Deon Deintyddol ac mae'r amcan oddi ar y trywydd oherwydd diffyg capasiti gan na fu'n bosibl eto i ôl-osod rôl flaenorol y Deon.
- **Amcan Strategol 6.1: Adnewyddu Strategaeth Gyfathrebu ac Ymgysylltu AaGIC** – cadarnhawyd bod y cwmpas a'r cerrig milltir wedi'u hadolygu oherwydd absenoldeb hirdymor aelod allweddol o staff.

#### 4. MATERION LLYWODRAETHU A RISG

Darperir yr adroddiad perfformiad canol blwyddyn hwn i'r Bwrdd i'w sicrhau yn unol â Fframwaith Perfformiad AaGIC a lle bo hynny'n berthnasol mae wedi ymgorffori argymhellion archwilio blaenorol i wella ein hadroddiadau.

Lluniwyd yr adroddiad gyda chefnogaeth ac ymgysylltiad Uwch Swyddogion Cyfrifol ac Arweinwyr Gweithredol i ddilysu cynnydd a mesurau perfformiad yn unol â disgwyliadau'r Fframwaith Perfformiad.

Nodwyd risgiau i gyflawni Amcanion Strategol neu fusnes fel gweithgareddau arferol yn adran 3.0 uchod yn unol â'n dull o ymdrin â sgorio RAG a chamau lliniaru. Esbonnir y rhain yn fanylach yn yr adroddiad manwl.

## CONTENTS

Introduction & Overview

Section 1: Performance Against HEIW Annual Plan 2021/22

Section 2: Organisational Performance

Annex 1: HEIW Performance Dashboard

## INTRODUCTION & OVERVIEW

This mid-year integrated performance report outlines the performance highlights from Quarter 1 and details HEIW performance for the period from 1<sup>st</sup> July to 30<sup>th</sup> September 2021 (Quarter 2) against the milestones indicated within our Annual Plan and the key measures reported in the performance dashboard (Annex 1).

We have identified an ambitious set of objectives and actions for this year to ensure that we are able to play our part in the Covid response and recovery agenda, as well as to continue to make progress in relation to our Strategic Aims and delivery of core functions.

Overall HEIW has made good progress on delivering our agreed Strategic Objectives and performed effectively during the first half of 2021/22.

### Quarter 1 Highlights

- Our workforce planning matrix was launched via the Workforce Planning Network and we progressed the interactive on-line version.
- We successfully launched our Compassionate Leadership Principles and our compassionate leadership book with Professor Michael West was launched in July 2021.
- Nine students from Cardiff University supported us to design our first internship programme.
- We appointed a new Head of Placement Experience and Improvement and we successfully migrated the Wales Optometry Postgraduate Education Centre (WOPEC) staff into HEIW from Cardiff University, under the leadership of a Head of Optometry Transformation.
- We held our first Arts Therapies event during April; across several days we focussed on different areas; dance and movement, music, art and drama therapy, showing how they are working to support services.

## Quarter 2 Highlights

### Widening Career Access

We formally launched Careersville in October with a highly successful event aimed at schools. The take-up by Welsh schools has been very positive, leading to an unusually high 'hit rate' for the Welsh-language version of the platform.

### Leadership Developments

During the Quarter our Compassionate Leadership in Practice module has commenced in partnership with Glyndwr University at Masters level. All of the Welsh Clinical Leadership Fellows have been enrolled with positive feedback received to date.

### NHS Wales Graduate training scheme

Twenty-one graduates were onboarded and completed their induction process. Orientation and work experience schedules have also been completed.

### Allied Health Professional Leadership Network

We were delighted to welcome our first Welsh Leadership Fellows. Building on our first engagement event for AHPs at the end of Quarter 1 which was attended by over 150 delegates, the second has been held in October 2021 with further events planned up to the end of Quarter 4 2023. There are now 340 members in the AHP Leadership networks in Gwella.

### Simulation Based Education

The HEIW Simulation annual event was held at the end of Q1 and an internal evaluation of the meeting has been completed, with excellent results.

### Pharmacy Developments

The Strategic Outline Case for the 5-year Initial Education and Training Standards for Pharmacy (IETP) Implementation Programme was signed off by the Board in July and subsequently presented to Welsh Government. Alongside this we continued aligning the Pre-Registration Foundation curriculum to align to the IETP for the 2022/23 intake.

Foundation Pharmacist training in Wales continues to pave the way by being the first wholly multi-sector programme in the UK, offering rotational experience in hospital, primary care, and community pharmacy. The Foundation Pharmacist Team have been recognised in the Chemist and Druggist Training Development Award for the second year running. A total of 33 community pharmacy professionals have enrolled on the protected development time pilot with 22 having started advanced practice developments with HEIs or begun development against professional frameworks as early as September.

### Supporting the pandemic response

We produced a comprehensive service evaluation report detailing the pilot Care Home Education Facilitator (CHEF) role implementation in Hywel Dda UHB. After 10 months there are extremely positive impacts and we have extended this funding support until April 2022.

Four regional Integrated Collaborative Decision Making (ICDM) leads have commenced in post and training has started alongside identifying appropriate health board contacts.

### Supporting Recovery

We continued our work across the first half of the year to develop national strategic workforce plans for nursing, mental health, imaging and cellular pathology. During the Quarter, work

commenced to support the Critical Care Clinical Network to develop a draft workforce model by the end of this year.

The second cohort of Clinical Endoscopists have now all commenced the clinical aspects of their training, although list availability has been less than expected due to the recovery backlog coverage which is limiting training delivery.

#### Biodiversity and Decarbonisation

Following internal engagement in April 2021, the HEIW Biodiversity and Decarbonisation Strategy, 2021-24 was approved by the Executive Team in Quarter 1 and was approved by the Board in July.

#### Embedding of Strategic Equality Plan

Building on work commenced in January 2021, 84 workshops have been delivered to 1500 delegates on various aspects of equality and diversity and the forward work programme is prepared until July 2022. We have been awarded Level 2 Disability Confident Employer status and our Stonewall Diversity Champion membership was renewed alongside maintaining other accreditation pledges.

#### Medical Education & Training Recruitment

For posts commencing in August 2021, the final position for recruitment Rounds 1 and 2 saw us achieving a recruitment rate of 93% for Speciality (excluding GP) training (400 of 429 posts advertised) and 96.3% for Foundation programmes.

We continue to build capacity for GP training in each Scheme in Wales, with another 3 modules of the GP Prospective Trainers Course started in September 2021. The number of new trainers and new practices that successfully complete the approval process will be reported in the Q3 report in March 2022.

#### Dental Education & Training Recruitment

In Dental Foundation Training (DFT), 67 posts were available for the 2021/22 cohort and submitted to the National Recruitment Office and all 67 posts were filled at the end of August. The excellent fill rate is due to significant additional work by the Deanery and nationally to expedite the recruitment processes to mitigate the effects of the pandemic on undergraduate education.

In Dental Core Training (DCT), as a result of the national recruitment process that concluded in June 2021, we have the following:

- DCT1 - All posts have been filled with official trainees, giving a recruitment rate of 100% for DCT1 for 2021/22. There are 31 posts including 3 new General Dental Services Core Trainee (GDSCT) posts and 1 former Clinical Fellow post converted to DCT1.
- DCT2 – There are 26 official DCT2 trainees, 6 locally appointed trainees (LATs) and 2 posts are vacant. The recruitment rate is 94%.
- DCT3 – There are 8 official DCT3 trainees, 1 LAT and no vacancies. The recruitment rate is 100%.

#### Health Professional Education Commissioning & Recruitment

The all-Wales pre-registration healthcare professional education procurement exercise was concluded which was the most complex education commissioning procurement process we have undertaken, worth in excess of £10bn over the next 10 years.

The Education and Training Plan 2022-23 was approved by the Board for submission to Welsh Government.

Fill rates have been collated from all universities for the September 2021 recruitment round. At the end of Q2, the Health Professional fill rate for Wales is 99.4%. This is the highest overall fill rate that September intakes have achieved in the last 10 years and may be a positive effect of the pandemic.

### GMC National Training Surveys

The GMC National Training Surveys were undertaken between 20<sup>th</sup> April and 25<sup>th</sup> May 2021 with a shorter completion window than usual. However, despite this, HEIW's response rates were still strong with an 85.39% response rate for the trainee survey and a 51.7% response rate for the trainer survey, both significantly higher than the UK average response rates.

### Statutory and Mandatory Training Compliance and Equality Data

Overall, the statutory and mandatory training compliance rate for HEIW core staff is at 86%. HEIW have exceeded the 85% target compliance for the first time since the creation of the organisation. Compliance in recording equality data is 70% at the end of Q2, compared to 68% at the end of Q1 indicating a continuing positive trend of improvement.

### Welsh Language

In Q2, we translated nearly 1.5 million words, taking the total at the mid-year point to 2.5 million words. We expect to exceed 5 million words in 2021/22.

## **Performance Issues**

### Midwifery Education

On analysing the recent Student Survey concerns were raised surrounding the midwifery programme in one University. This has been "exception reported" and the University prepared a separate report in which it acknowledged all the issues, plus those raised by HEIW from their stakeholder interviews and engagements. A robust plan to improve the course has been produced.

### Trainee Pharmacists (current cohort)

As reported in Q1, the initial recruitment number was 124 of 160 places. Following 10 withdrawals, there are currently 115 trainees enrolled on the programme, including one additional deferral, which joined this cohort. A delayed start has been granted for 4 of these trainees due to their individual circumstances.

The 10 withdrawals since recruitment is, however, less than the previous year (22). These are due to a combination of factors including university exam failures and some impacts of the pandemic, including reluctance to relocate after university to commence training. It is also possible that students may receive an additional offer (of a more personally suitable location closer to home) in England, outside of the Oriel process, which may also lead to withdrawals

### Aneurin Bevan UHB Service Reconfiguration

The most significant and complex concern being managed by the Medical Deanery Quality Unit is the impact that the service reconfiguration model within Aneurin Bevan University Health Board is having on education and training with implications for patient safety. Although there are significant concerns, the threshold has not yet been met for Enhanced Monitoring. Following the recent Royal College of Physicians report, the Quality Unit has agreed a strategy with the Health Board that will include targeted visits aimed at reviewing and, if necessary, improving the quality of postgraduate training. In addition, a Postgraduate Medical Education and Training Oversight Group for this area has been established.

## Performance Management

We have continued to embed the Performance Framework across the organisation, establishing the internal Performance Management Network as a forum to support Responsible Owners of Performance Dashboard data and Key Performance Indicators (KPIs), as well as a means for sharing information and evaluating performance management process and practice in the organisation.

The Performance Dashboard Steering Group is overseeing work to develop improvements to the Dashboard, with the priorities for 2021/22 agreed as Strategic Aims 2 (the education to employment pipeline) and 3 (Leadership). Work on Strategic Aim 4 (Quality) will take place in 2022/23. The Performance team has ensured that the Executives and Board are informed of progress on a regular and timely basis.

The Quarter 2 performance report is the only report of the year that includes the published Medical ARCP performance which is annual. In addition, it is the first report of the year where we are able to report recruitment and fill rates for the first annual cohort of Healthcare Professional Education.

### SECTION 1: PERFORMANCE AGAINST HEIW ANNUAL PLAN 2021/22

In our 2021/22 Annual Plan we agreed to progress 46 Strategic Objectives across our 6 Strategic Aims. Milestones and deliverables were identified for each Objective for the period to the end of Q2. The 46 overall Objectives included a number of sub-objectives (under Strategic Aim 4) relating to specific areas of work. As such we are monitoring the progress of 59 Objectives in total.

At the end of Q1 we reported that Objective 4.5f which aimed to develop an All-Wales foundation/mandatory learning offer for Learning Disability services would not be progressing due to a change in approach indicated by Welsh Government, and we have therefore reported it as closed.

At the end of Q1, including objective 4.5f 3 strategic objectives were assessed as Red (off track for delivery and unlikely to recover), 23 strategic objectives were Amber (off track but able to recover) and 33 were Green (complete or on track to deliver at the end of the quarter). The following progress status has been reported for Q2 milestones and this is very similar to the progress in Q1:

	Quarter 1		Quarter 2	
Off track for delivery at the end of the Quarter and is unlikely to recover	3	5%	2	4%
Off track for delivery at the end of the Quarter but will be able to recover	23	39%	25	42%
Complete or on track to deliver at the end of the Quarter.	33	56%	31	52%
Closed	0	0%	1	1%

This shows there is good progress with delivery of the Annual Plan.

In Q2 the two remaining Red Objectives are the same as previously reported in in Q1. There are 31 Objectives (52%) that have been rated as Green and 25 Objectives (42%) that have been rated as Amber, most of which are due to a minority of milestones being off-track and which will recover in the remaining 6 months. The off-track milestones have been highlighted in the respective sections and the mitigations described. These will be monitored appropriately to support them to get back on track and progress will be flagged accordingly in future reports

**Strategic Aim 1 -To lead the planning, development and wellbeing of a competent, sustainable and flexible workforce to support the delivery of 'A Healthier Wales'**

0	Off track for delivery at the end of the Quarter and is unlikely to recover
4	Off track for delivery at the end of the Quarter but will be able to recover
4	Complete or on track to deliver at the end of the Quarter.

	<b>Objective 1.1:</b> <i>Lead and develop a sustainable national workforce plan for nursing to achieve a better match between demand and supply in Wales</i>
--	--------------------------------------------------------------------------------------------------------------------------------------------------------------

During the Quarter a 'thinkpiece' was completed regarding current nursing workforce strategies and identifying future priorities. Nurse shortages have been identified as central to workforce issues in healthcare systems globally and although interventions to increase the nursing workforce have been implemented, nurses leaving their roles, particularly in the first year after qualification, present a significant barrier to building the nurse workforce.

The culture has also been identified as a contributing factor to our nursing workforce. Changing the culture of an organisation is a significant challenge which is reliant upon engaging with stakeholders to review and appraise the existing culture, beliefs, and ways of working, with identification of new and innovative approaches and models which are not always welcomed.

Recruitment and retention have also been identified as a potential trigger limiting our nursing workforce, with a particular focus on those leaving during training or the first year following qualification. Nursing and Midwifery Council acknowledge the number leaving the profession is increasing.

Engagement has commenced with Executive Directors of Nursing on the workforce plan developments and more will be required over the remainder of the period of this plan alongside taking forward collaborative work with Welsh Government and the Royal College of Nursing.

#### Milestone Delays

- *Recruit to programme manager*
- *Work with Workforce Analytics to scope current nursing workforce from band 2 to 8 speciality and level of practice.*

Further work is required to understand and scope the work required before a decision on investing in a Programme Manager is approved by the Executive team. This has been reprofiled to Q3 to allow progress to be monitored and reviewed accordingly but will impact on the delivery of this in year. There has been a delay with scope and PID development, this is now progressing at pace and expected to be achieved by Q3. The resource required will have been finalised and analytic support achieved to scope high level current workforce.

English Catherine  
11/24/2021 14:21:18

	<b>Objective 1.2:</b> <i>Lead the development of a multi-professional Continuous Professional Development (CPD) strategy and drive improvements in current CPD activity to ensure that the existing NHS Wales workforce has the skills and capabilities required for the future</i>
--	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

The CPD Strategy group has progressed with the development of the CPD Strategy through the development of a Project Initiation Document and Action Plan. Early in Q2 a stakeholder event took place with over 60 attendees to discuss the initial Vision Paper and support the development of the strategy. Discussions supported the identification of what the HEIW offer should be and provided greater insight into the current barriers to accessing CPD and the format of CPD being undertaken.

#### Milestone Delays

- Completed roll out of Education Delivery System (EDS) across the organisation.
- Communications with users, learners and all stakeholders involved with the EDS complete.

Last Quarter we reported the procurement process for the EDS was in progress with the intention to finalise contracts and award in August. However there has been a delay in the procurement process for the EDS which has impacted on the roll-out across the organisation. Following further Board consultation, it is intended that the award can be made during Q3. A dedicated Project Manager has been recruited to support the implementation and roll out. There has been ongoing communication with teams in HEIW but the delay in the procurement process has prevented us communicating with our stakeholders.

	<b>Objective 1.3:</b> <i>Lead, develop and embed a range of actions to support workforce and workplace wellbeing and colleague experience.</i>
--	------------------------------------------------------------------------------------------------------------------------------------------------

A reference group has been established, involving partners across NHS Wales in support of the development of the Health and Wellbeing framework with a Project Initiation Document in development which will be completed in Q3 to allow for alignment with the Social Care Wales Wellbeing framework.

The first stage engagement on the staff governance framework is complete and we are currently developing the draft document. This is also being developed in consultation with our Trade Union partners, before a second and final consultation in early 2022.

HEIW responsibilities in relation to the Occupational Health review have been completed. The recommendations to Executive Team for the work to now be taken forward by service representatives was agreed.

#### Milestone Delays

- *Completed Project Initiation Document for the development of the Health and Wellbeing Framework.*
- *Started the engagement/consultation of the development of the NHS Wales Health and Wellbeing Framework.*
- *Completed the Project Initiation Document for the development of the Wellbeing in Work Impact Resource (WiWIR).*

Capacity issues required a review of the scope of the objective and the support required to facilitate its delivery. The work in relation to our Wellbeing in Work Impact Resource and the

PID for the Health and Wellbeing Framework has been delayed and milestones have been reprofiled to Q3.

**Objective 1.4:** *Improve recruitment and access to careers in the health and care sector in partnership with Social Care Wales (SCW).*

The digital build of Careersville has been completed in the Quarter and was launched formally on the 20th October 2021 with a highly successful event aimed at schools. The take-up by Welsh schools has been very positive, leading to an unusually high 'hit rate' for the Welsh-language version of the platform.

We launched the joint health and social care careers network in July 2021. This is a bilingual network, involving partners from health and social care, and wider partners including education, Department of Work and Pensions and Careers Wales. There have been limited careers events due to Covid restrictions, but the careers team have contributed where appropriate.

There has been limited ability to host events to support the development of the Careers and Widening Access Strategy. Progress has been limited to virtual work with the careers network and individual meetings have been held with widening access partners. A wider stakeholder event is planned for early in the new year subject to Covid restrictions.

**Objective 1.5:** *Lead the development and implementation of 'Made in Wales' to improve career pathways and education opportunities for the current and potential future workforce*

During the Quarter work to scope our current activity aligned to the Made in Wales approach (i.e., Band 4 nursing programmes allowing direct access to Year 2 of a degree) has been completed and the results are being developed into a visual aid for future use. Furthermore, progress has been made with scoping to underpin the development of the three-year programme due to be agreed during Q3.

We are currently carrying out the scoping exercise which will underpin a 3 year work programme. Particular areas of interest include part time routes to registration with recognised prior learning ability across more professions. Work is also underway to develop pathways for pharmacy assistants to gain the necessary qualifications to train as a pharmacy technician.

**Objective 1.6:** *Develop our workforce intelligence functions to improve the quality of workforce data, planning and modelling for NHS Wales.*

In support of our intention to establish a Centre of Excellence we have engaged with a number of key partners and have more external partners to engage with to inform the purpose, function, detail and design. Discussions have commenced to review and agree the appropriate alignment of data-related roles/activity with statutory functions.

The team has created a minimum dataset for workforce profiling and modelling. This has been produced to support the Mental Health Strategic Workforce Plan and will be used to support the Nursing Strategic Workforce Plan.

Significant work has been undertaken across HEIW in the development of the Education Pipeline work. All areas of HEIW have engaged with the work and new ways of reporting and working have been established.

Close working relationships have continued with Social Care colleagues with regards to understanding their workforce with regards to their mental health workforce.

**Objective 1.7:** *Develop education and training to support NHS organisations to improve the quality of workforce planning expertise and capability across the system.*

Outstanding training in respective health board settings was delivered by Skills for Health within the extended contract which ended on 30th September 2021. Going forward training will be delivered locally supported by a training package which has been developed in partnership with workforce planners across NHS Wales and is currently in pilot testing and planned for formal launch in Quarter 1 2022.

The two toolkits based on the Six-Step Model, one General and one for Primary Care have together with the workforce planning matrix been made fully accessible, translated and made into on-line versions which will be made more widely available during Quarter 3 via the re-shaped workforce planning internet pages for general and primary care to further build capacity capability.

A project plan has been developed and work commenced with engagement on the scope and shape of a workforce planning digital platform.

**Objective 1.8:** *Develop effective and reciprocal international/global mechanisms to enhance education and training arrangements (overseas recruitment)*

During the Quarter the Train Work Live (TWL) governance structure was established with a Programme Board, Steering Group and an Operational Group. The TWL website is currently on the HEIW platform in test mode prior to the official transfer of website details. A Temporary TWL site is being hosted on the Welsh Government platform to support Burst 2 of the Pharmacy Campaign which finishes 29th October, and we will support TWL at the Royal College of General Practitioners.

During the Quarter the Medical Campaign 2021 was developed including Specialty adverts and social media advertising. A Specialty Training advert was prepared and social media adverts will also be used.

#### Milestone Delays

- *Ensure all collateral from TWL is with HEIW from Welsh Government.*
- *Develop Stage 2 TWL campaign which will commence on completion of the current 5 year agreed programme.*
- *Progress GMC sponsorship arrangements for International Medical Graduates.*

The TWL digital collateral transfer has been delayed due to server capacity within HEIW. Each TWL image needs to be of high resolution and digital colleagues are exploring potential solutions to support campaigns during Q3.

Work in relation International Medical Graduates has been delayed. An internal HEIW event is scheduled for Q3 and a Summit is anticipated to take place early in Q4. A Campaign Programme Manager post had to be readvertised which has impacted capacity to delivery on future planning but will be progressed following appointment in Q3.

## Strategic Aim 2 -To improve the quality and accessibility of education and training for all healthcare staff ensuring that it meets future needs

5	Off track for delivery at the end of the Quarter but will be able to recover
9	Complete or on track to deliver at the end of the Quarter.

	<b>Objective 2.1:</b> <i>Develop a multi professional Education, Learning and Development Strategy designed to deliver future roles.</i>
--	------------------------------------------------------------------------------------------------------------------------------------------

### Milestone Delays

- *Engage with key stakeholders in respect of the outline principles to support a multi professional Education, Learning and Development Strategy designed to deliver future roles*

The Medical Deanery activity relating to objectives outlined in the Future Doctor has been mapped and collated and will continue to be progressed over the coming quarters. Further activity within HEIW relating to the future doctor has been identified and engaged on to support the development of principles. This includes the Research Careers Pathways group, CPD strategy group and rural medicine. An update report has been completed.

	<b>Objective 2.2:</b> <i>Implement Phase 1 of the Strategic Review of the commissioning of health professional education through a successful procurement process.</i>
--	------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Following the award of contracts in Q1, no challenges to the awards process were made. The implementation stage has commenced, and a range of publicity has been shared on the outcomes of the process. Courses have been marketed and student engagement days have commenced. HEIW has a seat on each University's mobilisation board.

	<b>Objective 2.3:</b> <i>Plan for Phase 2 of the Strategic Review of the commissioning of health professional education.</i>
--	------------------------------------------------------------------------------------------------------------------------------

Two areas of work (L4 Healthcare Support Worker (HCSW) and Genomics education) are underway with procurement plans in place and a September 2022 contract award date anticipated.

A PIN notice has been issued for HCSW and Genomics education procurement and work has continued to progress the drafting of an Invitation to Tender document.

	<b>Objective 2.4:</b> <i>Embed the new ways of education and training that have been put in place in response to the Covid-19 pandemic, including digitally enabled learning, assessment and quality assurance.</i>
--	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

### Milestone Delays

- *Review MDT scoping exercise.*

English Catherine  
11/24/2021 14:21:18

The Multi-Disciplinary Team scoping exercise has been delayed and is expected to be completed in Q3. This will now go beyond initial intentions to ascertain what moved online and what benefits there have been. This data will be included along with the trainee survey of teaching changes that has provided some evidence of what has and has not been effective and will provide considerations for future educational programmes. This objective will be widened for the next IMTP to evidence the impact of reduced travel on our Carbon Footprint.

**Objective 2.5:** *Support the modernisation of the pharmacy workforce, plan for and implement the Initial Education and Training Standards for Pharmacists (IETP).*

During the Quarter, the Strategic Outline Case for the 5-year IETP Implementation Programme was presented to Welsh Government. Alongside this we continued aligning the Pre-Registration Foundation curriculum to align to the IETP for the 2022/23 intake.

Work has been undertaken to finalise the tender documentation in relation to the Post-Registration Pathway. The tender was published in August 2021 for award in November 2021 with the 1st cohort of a post-registration foundation programme for new registrants in September 2022.

In relation to the development of a roadmap for HEI/MPharm changes, an Experiential Learning project has been instigated as part of the IETP Implementation Programme and initial meetings have been held. It is intended for the roadmap and options to be presented to the IETP Implementation Board in Quarter 3.

It has been decided not to take forward the Post-Registration foundation pilot and therefore the respective milestones have not been progressed. During our scoping with providers it was indicated that they would not be able to provide a cohesive package in time for an August/September start this year so the focus was moved to getting a new programme in for September 2022 and supporting the managed sector by offering an extension to the Diploma programme.

### Milestone Delays

- *Negotiations concluded with HEIs to start enhanced funded Clinical Placements in Wales (3-4 year Cardiff MPharm students).*

This is being taken forward in Q3 with proposal to be presented to the Implementation Board in November.

**Objective 2.6:** *Lead and promote a reduction in differential attainment in education and training in line with the Strategic Equality Plan.*

Building on work commenced in January 2021, workshops have been delivered on differential attainment, unconscious bias, active bystander training, managing imposter syndrome, being a mentor and mentee, holding crucial conversations and examination preparation and the forward work programme is prepared until July 2022. Since January 2021, 84 workshops have been delivered to over 1500 delegates and a new workshop is available from November 2021 on Civility in the Workplace.

Furthermore, work is ongoing to consider the development of a mentorship pilot alongside considering allyship and developing networks.

**Objective 2.7:** *Maximise opportunities for work-based learning (WBL) and apprenticeships in health to promote the 'Made in Wales' ethos.*

During the Quarter, a scoping exercise commenced regarding current Healthcare Support Worker education and identification of core units at levels 2 and 3. The Strategic Review Phase 2 Project Board agreed the recommendation that HEIW takes responsibility for the registration of all learners undertaking post registration WBL qualifications.

We have developed a commissioning plan for Level 4 Nursing Support Worker Education and work has also progressed with Made in Wales colleagues to assess the demand for part time routes to registration and to illustrate current existing routes.

**Objective 2.8:** *Improve opportunities for learners to undertake education and training through the medium of Welsh*

During the Quarter we have ensured reporting mechanisms are firmly embedded into the final contracts following the completion of the Strategic Review. A Welsh Induction module has been developed and this is being presented in Quarter 3, with pilot cohorts to test it thereafter.

**Objective 2.9:** *Develop and implement a multi-professional education and training quality assurance framework and supporting infrastructure.*

During the Quarter, the scoping of cross-profession requirements for the placement management software quality elements continues as built into the Head of Placement Experience and Improvement project plan.

We have commenced collating the baseline data on the current utilisation of primary care placements by nursing and allied health professional students. Furthermore, the alignment of the Multi-professional Quality Framework elements with commissioned programmes is continuing.

HEIW has produced a comprehensive service evaluation report detailing the pilot Care Home Education Facilitator (CHEF) role implementation in Hywel Dda UHB. After 10 months there are extremely positive impacts and HEIW has extended this funding support until April 2022. A reporting mechanism for periodic review is established and interviews for CHEF roles are scheduled for Quarter 3.

**Objective 2.10:** *Implement improvements to ensure equitable access to education and training for Speciality and Associate Specialist (SAS) and locally employed doctors*

Following extensive discussions between the SRO, Executive Lead and Postgraduate Medical Dean we have agreed that a more strategic approach in this area is necessary as a first step to have a maximum impact for all SAS doctors in Wales as opposed to considering additional staffing resource. The principle aim is to begin the process of educational levelling up for all SAS doctors across Wales.

English Catherine  
11/24/2021 14:21:18

Our HEIW Certificate of Eligibility for Specialist Registration (CESR) advice line enables SAS doctors embarking upon the CESR route to make contact with us and be paired with a doctor who has previously achieved CESR in that specialty to offer advice and informal support.

Since its launch in July we have had over twenty doctors reach out take advantage of this opportunity. In addition specialty schools have opened up some of their online educational opportunities to SAS colleagues across Wales and we continue to work with our specialty schools to make these opportunities increasingly accessible to SAS colleagues.

Furthermore, we are currently in the process of setting up an International Medical Graduate//SAS induction and support expert Advisory Group to develop our approach to more effectively supporting these groups of doctors. This group will have representatives from HEIW, IMG & SAS colleagues, GMC and Medical Directors alongside collaborating with the GMC to run a CESR support conference for all SAS doctors in November.

**Objective 2.11:** *Lead the development and management of a multi-professional infrastructure and strategy for Simulation Based Education*

The draft simulation strategy has been shared with key stakeholders and feedback is to be considered in Q3. The HEIW Simulation annual event was held at the end of Q1 and an internal evaluation of the meeting has been completed and yielded excellent results.

Feedback showed that at least 80% of delegates who completed the evaluation survey found the sessions either Useful or Extremely Useful. 96% rated the event programme as either Excellent or Good. Delegates reported that the event provided an opportunity to share knowledge and raise awareness of simulation with some noting a renewed enthusiasm for simulation. Feedback indicates that attendees found the sessions inspirational and beneficial for individual and team development.

Furthermore, faculty development plans with a tiered approach to training have been developed.

**Objective 2.12:** *Lead the development and implementation of a digital capability framework for the healthcare workforce in partnership with Digital Health and Care Wales (for staff who are not digital specialists).*

During the Quarter we were able to appoint a dedicated Programme Manager to support us in driving forward our approach to this Objective. Following the appointment, we have been able to define and agree our programme approach, complete a landscape review and establish an appropriate community of practice. In addition, we have agreed our stakeholders and identified the Allied Health Professions as our first phase partner, building on the pilot undertaken with colleagues in HEE. Our first phase project planning is now underway.

**Objective 2.13:** *Improve career pathways and education opportunities for the clinical academic and research workforce*

HEIW is working in partnership with Health and Care Research Wales and Social Care Wales to produce a report in relation to opportunities to support clinical academics and research staff available in December 2021. The report will include recommendations to inform future planning.

Milestone Delays

- *Develop specific competencies at advanced and consultant level against first pillar i.e., development of self and others.*

Further work is required to establish coherent alignment with HCRW/HEIW's report and the recommendation HEIW will have responsibility for. Following this work, it is expected this strategic objective will be on track to deliver by the end of Q4.

**Objective 2.14:** *Develop and implement modernised funding models to incentivise training and education in NHS Wales.*

Following the identification of options to improve the efficiency of the bursary system an options paper has been shared with Welsh Government and feedback is awaited. In addition, a review of study leave funding arrangements has commenced to aid future discussions including work with the General Practice specialty team to understand the mechanisms of claiming and approval of study leave.

Milestone Delays

- *Work with NWSSP and others to implement a revised approach including the potential implementation of individual flexible study leave accounts for postgraduate medical and dental trainees*

Discussions on the potential approach have not progressed at the close of Quarter 2 and options will be reconsidered in Quarter 3. The approach has been discussed within the Study Leave policy group to enhance the approach for trainees in accessing expenses relating to Study Leave with an initial positive response.

**Strategic Aim 3 - To work with partners to influence cultural change within NHS Wales through building compassionate and collective leadership capacity at all levels**

4	Off track for delivery at the end of the Quarter but will be able to recover
2	Complete or on track to deliver at the end of the Quarter.

**Objective 3.1:** *Lead the implementation of the Health and Care Leadership Strategy through the NHS Wales Compassionate and Collective Leadership Framework for action*

During the Quarter our Compassionate Leadership in Practice module has commenced in partnership with Glyndwr University at Masters level. All of the Welsh Clinical Leadership Fellows have been enrolled with positive feedback received to date.

The development of the Compassionate Leadership Principles Framework has also commenced with the launch of the first Spotlight sessions and accompanying Podcasts. A range of resources have been harnessed and digitised to support organisational leadership programmes. However, the development of the Framework resources will be revised and more inclusive to incorporate organisational stakeholder engagement over the remaining 2 Quarters to ensure we are co-designing the materials needed by the service and ensure adoption of the resources across the system.

	<b>Objective 3.2:</b> <i>Lead the implementation and management of the NHS succession planning framework for Tiers 1-3 and monitor progress</i>
--	-------------------------------------------------------------------------------------------------------------------------------------------------

#### Milestone Delays

- *Talent management digital solution implemented.*

The Talent Management digital solution has not been fully embedded within the Gwella Leadership Portal due to additional compliance requirements in relation to Information Governance and cyber security. Although some software has been deployed, the majority of software will be deployed in the November development release. The software will then undergo system and user testing.

	<b>Objective 3.3:</b> <i>Lead the implementation and management of the Digital Leadership portal</i>
--	------------------------------------------------------------------------------------------------------

During the Quarter, we continued to enhance our range of publications on the Gwella resource library.

#### Milestone Delays

- *Complete TM functional and user testing*
- *Achieve accessibility level AA for Gwella Leadership Portal.*
- *Integrate and deploy Talent Management (TM) software into Gwella*

As indicated in SO 3.2 our talent management functionality has been delayed to Quarter 3. The AA accessibility standard has not as yet been achieved. This was due to delays of up to 3 months by the supplier to complete the testing and finalise the report. The Digital Team are supporting the Leadership Team to get this back on track with the supplier Shaw Trust.

	<b>Objective 3.4:</b> <i>Lead the adaptation, development and implementation of leadership programmes and resources for clinical leaders from a range of professional backgrounds</i>
--	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

#### Milestone Delays

- *Scope and Develop the HEIW clinical leadership offer.*
- *Market and engage clinical leadership offer across NHS Wales.*
- *Commence clinical leadership module 1.*
- *Scope and Develop the HEIW clinical leadership offer*

The clinical leadership model has been drafted and marketing can commence in Quarter 3 with the programme commencing Q4.

The Welsh Clinical Leadership programme has successfully commenced and the programme will officially move to the Leadership and Succession Team in Quarter 3.

	<b>Objective 3.5:</b> <i>Lead the review, improvement and re-launch of the NHS Wales Graduate training scheme</i>
--	-------------------------------------------------------------------------------------------------------------------

English Catherine  
11/24/2021 14:21:18

Originally it was planned to have 13 graduate trainees but due to the calibre of candidates some organisations requested extra graduate trainees increasing the number to 22. However, the number was then reduced to 21 graduates as one organisation subsequently requested a reduction in their additional placements.

During the Quarter our 21 graduates were onboarded and completed their induction process. Orientation has also been completed and work experience schedules have been Completed.

Furthermore, we launched Phase 2 of our internship programme and developed and established our Graduate Management Trainee framework.

	<b>Objective 3.6:</b> <i>Lead the development, implementation and management of the new NHS Executive Collective and Compassionate Leadership programme.</i>
--	--------------------------------------------------------------------------------------------------------------------------------------------------------------

### Milestone Delays

- *Analysis of Executive development needs (determined from Development Centre evaluation).*

During the period, Executive development needs have been determined from initial conversations and evaluations. To further support this, the establishment of the Development Centre will require a procurement and tendering process which will now be undertaken in Quarter 3.

## Strategic Aim 4 - To develop the workforce to support the delivery of safe, high quality care

1	Off track for delivery at the end of the Quarter and is unlikely to recover
6	Off track for delivery at the end of the Quarter but will be able to recover
11	Complete or on track to deliver at the end of the Quarter.
1	Objective Deferred

**Objective 4.1** *Maintain an agile response to the specific workforce needs of the COVID-19 pandemic response and recovery.*

	<b>Objective 4.1a Care Homes</b>
--	----------------------------------

Work has progressed with TEC Cymru and Health Board leads to identify key areas for training. Links have also been made with National Collaborative Commissioning Unit (NCCU) and opportunities for remote delivery of training identified.

The successful candidates for Postgraduate Certificate in Advancing care home practice have enrolled and established a network.

As described earlier, we have produced a comprehensive service evaluation report detailing the pilot Care Home Education Facilitator role implementation in Hywel Dda UHB.

	<b>Objective 4.1b: Infection, Prevention &amp; Control (IP&amp;C)</b>
--	-----------------------------------------------------------------------

Activity has progressed in the Quarter through the establishment of an IP&C steering group including representation from Health Boards, Trusts and education providers. A reporting governance structure has also been developed alongside scoping existing service provision and structures across Wales. Two Task and Finish Groups have also been established to consider a workforce model and career path and education requirements.

	<b>Objective 4.1c: Integrated Collaborative Decision Making (ICDM)</b>
--	------------------------------------------------------------------------

Four regional leads have commenced in post and training has started alongside identifying appropriate health board contacts. A review of previous training is being assessed to support future developments and the identification of appropriate indicators.

	<b>Objective 4.2:</b> <i>Support the development and implementation of multi-professional workforce models for primary and community care, in line with the Strategic Programme for Primary Care and Regional Partnership Board plans.</i>
--	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

The Workforce Planning Toolkit for Primary Care has been further developed to be fully accessible and has been translated into Welsh and will be made more widely available via the re-shaped workforce planning page for Primary Care. In addition, three pre-recorded training sessions have been developed aligned to the approach to workforce planning in primary care clusters and will be available via the workforce planning pages on the internet to help to build capability. The training is available bilingually and fully accessible with formal launch planned for Q3 2021/22.

#### Milestone Delays

- *Review of RPB transformation fund proposals to assess workforce implications and models.*

Dialogue with Regional Partnership Boards (RPB) has commenced in some areas but RPB's have not developed workforce plans so this has been difficult to progress further.

	<b>Objective 4.3:</b> <i>Develop a mental health workforce model and plan in collaboration with Welsh Government and Social Care Wales to support the implementation of Together for Mental Health (this includes CAMHS).</i>
--	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

A review of education for Children and Young People practitioners has been completed and is due to be moved into the pilot stage. The Bangor University level 7 online course has been oversubscribed and options for additional cohorts are being considered.

Englis  
11/24/2021 14:21:18  
Catherine

Furthermore, a Level 6 and 7 Children and Adolescent All Wales course has been commissioned via Bangor University.

#### Milestone Delays

- *All Wales MH workforce data collection from ESR and Social Care Wales data collection for baseline analysis. Undertake data analysis (from gathering exercise in Q4 20-21)*
- *Set up focus groups relation to part 1 assessment.*
- *Gather data on non-mental health coded supporting staff via Health Board Mental Health Service Leads, Chief Pharmacists and national AHP group WAHPC. This is for the purpose of gathering evidence for consideration of future Mental Health workforce solutions to include the wider Health workforce.*
- *Produce an All Wales base level mental health first aid resource.*

Following a data gathering exercise in Q4 2020-21 of all Mental Health workforce data, a baseline data analysis is underway alongside reviewing data gathered and reports being written by wider professions on their roles to support mental health services and influence future workforce solutions. This is an extensive piece of work that will conclude in Q3 and overall, the workforce plan for mental health remains on track to be completed by the end of year, in line with the Ministerial priority.

Changes to the Part 1 Mental Health Assessment are on track for consultation mid-October 2021 (currently being translated) with recommendations to be submitted for scrutiny before the end of November 2021.

To date, no progress has been made on the All-Wales base level mental health first aid resource. Discussions surrounding the appropriateness of this are ongoing.

**Objective 4.4:** *Modernise workforce models to deliver service transformation arising from the NHS Wales Collaborative strategic programmes for imaging, pathology, endoscopy and major trauma as well as other national programmes and networks, including urgent and emergency care and critical care.*

	<b>Objective 4.4a: Imaging</b>
--	--------------------------------

#### Milestone Delays

- *Work with the Imaging Academy to develop digital resources for CT Colonography for Radiographers and other registrants.*
- *Undertake engagement through the IWEG to capture workforce opportunities, gaps and barriers.*
- *Review clinical placements for Radiographer trainees to maximise training capacity.*

During the Quarter, the development of digital resources has started on the CT Colonography. Work is being taken forward with the Imaging Academy to train Radiographers to become assessors. The resources are being developed by subject experts who are experiencing capacity issues due to current service pressures.

The engagement phase in support of imaging workforce planning commenced in the period and will run to December 2021 following establishment of the governance and engagement structures. We have undertaken a series of workshops, with good attendance and

engagement at the events; Workshop 2 included presentations of good practice from Great Ormond Street Hospital, Manchester University Hospital and Occupational Therapy Assistant Practitioner to stretch thinking. Workshop summaries have been completed and circulated to the Imaging Workforce and Education Group (IWEG).

A review of clinical placements has commenced. HEIW has 3 Radiography Practice Education Facilitators funded in North Wales. The Head of Placement Experience and Improvement has now been appointed and Radiography has been identified as a priority area to review in the project plan.

	<b>Objective 4.4b: Pathology</b>
--	----------------------------------

The development of a pathology career map has progressed during the Quarter. With the two routes to registration and RCPATH and Institute of Biomedical Sciences (IBMS) qualifications available in addition to clinical scientist training or equivalence, Pathology is the most complex of the Healthcare Science career pathways. By working with the Made in Wales team and the newly appointed Learning Technologist in Healthcare Science Transformation, a draft map has been created. Wording has been shared with the profession to clarify and summarise and interactive content is also being considered.

The first meeting of the Cellular Pathology Workforce subgroup of PWEG took place on 1st October to establish the governance of this piece of work. We will continue to follow the Imaging work methodology.

Milestone Delays

- *Sign off the Level 3 Healthcare Science qualification (Pathology).*
- *Develop the Healthcare Science equivalence route all levels.*

The Level 3 healthcare science qualification (pathology) is being finalised by the Health Apprenticeship Steering Group and will be followed by review of the Healthcare Science Apprenticeship pathway.

In relation to Pathology equivalence routes, two forms of registration are available in Pathology, Clinical Scientist (CS) and Biomedical Scientist (BMS). For the CS, equivalence pathways are available and HEIW support these with funding and information – a healthcare science programme webinar is planned on equivalence for Nov 2021. Challenges exist where modular or work-based education is not in place and we are working with the Made in Wales team to look at the demand for part time routes to registration, which will also enable equivalence routes to registration in an accessible form. Equivalence has recently been introduced for one scenario of BMS registrants, and we are therefore meeting with institute of Biomedical Sciences regards extending this approach more widely.

	<b>Objective 4.4c: Endoscopy</b>
--	----------------------------------

The second cohort of Clinical Endoscopists have now all commenced the clinical aspects of their training, however list availability has been less than expected due to the backlog coverage and this is limiting training delivery. This means that predicted 40 new Clinical Endoscopists (March 2019 – March 2023) now will be maximised at 24.

The Endoscopy Training Management Group (ETMG) meetings have been ongoing with agreement for extended action plan dates submitted via the WFT&D sub-group. Work is ongoing to develop associated faculty and networks of specific groups of experts. The Endoscopy Training Plan continues to be implemented and developed in line with the action plan and 10 pathways for education are in scope to support the Endoscopy recovery plan.

The preferred option for the Welsh Institute for Minimal Access Therapy has been agreed with Cardiff University and a business case has been submitted to Welsh Government for consideration.

In the Quarter the National Endoscopy Programme appointed a workforce lead and work is ongoing to agree the accountability and responsibility for future work as part of our IMTP planning.

	<b>Objective 4.4d: Major Trauma</b>
--	-------------------------------------

This work is in progress, the Major Trauma Network members have been advised to ensure the education requirements are included in the respective Integrated Medium Term Plans which will be completed later in the year.

We are also examining the feasibility of a system of 'assured learning' (kite mark) to assist in underpinning staff development and rotational opportunities within the network.

	<b>Objective 4.4e: Urgent &amp; Emergency Care</b>
--	----------------------------------------------------

The structure of the Six Goals National Programme recently launched by Welsh Government is still being finalised. However a first meeting of the National Programme Board took place in Q2 and HEIW is leading the Workforce, Training and Development Enabling Sub-Group of the national programme.

A Workforce Enabling Group workshop was held in early Quarter 3 to agree the immediate priorities for the next six months, following engagement with SROs and policy leads. A paper had been previously with an update from the scoping exercise to identify roles and training which already exist to the support the pathway.

A task and finish group has been established to develop accredited education resources to support Urgent Care Practitioner Competency Framework.

We have also been working in collaboration with Welsh Ambulance to develop an accredited induction and education pathway for both clinical and non-clinical staff. Early discussions have also taken place regarding the re-establishing of a Flow Academy in Wales.

Milestone delays

- *Recruit Research Fellows*
- *Identify training already available to support staff development e.g. in relation to First Contact Practitioners.*
- *Establish a working group to review and adapt road map for First Contact Practitioners.*

English Catherine  
11/24/2021 14:21:18

Recruitment of Research Fellows has not been progressed due to outside the remit of HEIW in regard to the national programme at the present time, and this deliverable is closed.

Work has been put on hold regarding First Contact Practitioners as developing the Advanced Paramedic Practitioner workforce is a higher priority within the national programme.

	<b>Objective 4.4f: Critical Care</b>
--	--------------------------------------

During the quarter work commenced to develop the draft workforce model. The delivery of a pull down menu will not be able to be developed until work is completed to develop the model.

The Workforce Strategy & Planning Team supported the NHS Wales Collaborative to undertake a workshop on 30th September, which enabled the capture of workforce information that will contribute to the development of the workforce model.

Workforce recommendations for Critical Care were included in the Education and Training Plan submitted to Welsh Government in July (these included recommendations for additional medical trainees). HEIW continued to participate in the meetings with HEE who are looking at developing critical care education.

Two Critical Care Transformation Managers will commence employment at the beginning of October and will undertake work in support of the development of the workforce model and education development.

**Objective 4.5:** *Support the implementation of national policy and professional frameworks and legislation related to the health professional workforce including: Optometry, Allied Health Professionals, Healthcare Sciences, the Nurse Staffing Act, nursing standards, Learning Disabilities and maternity services.*

	<b>Objective 4.5a: Optometry</b>
--	----------------------------------

During the Quarter, following work undertaken previously, a CPD interprofessional event (with pre-registration students and pharmacy) has been undertaken utilising agreed new standards and framework for quality monitoring.

	<b>Objective 4.5b: Allied Health Professionals (AHP's)</b>
--	------------------------------------------------------------

During the Quarter we were delighted to welcome our first Welsh Leadership Fellows. Building on our first engagement event at the end of Quarter 1 which was attended by over 150 delegates, the second has been held in October 2021 with further events planned up to the end of Quarter 4 2023. There are now 340 members in the AHP Leadership networks in Gwella.

English  
11/24/2021 14:21:18

During the Quarter, a communications and engagement plan was completed and approved, and a subsequent action plan is in development. Furthermore, equality and inclusion, accessibility and welsh language requirements have been embedded onto the relevant pages of the HEIW website. An equality impact assessment will also be completed during Quarter 3 following confirmation of priority projects.

An options appraisal for rehabilitation / workforce capacity and planning has been prepared for decision-making at the end of Quarter 2 and will be progressed following approval. We have also undertaken baseline assessments for consultant and advanced practice following programme stakeholder mapping and engagement with key groups and ESR data.

	<b>Objective 4.5c: Healthcare Scientists (HCS)</b>
--	----------------------------------------------------

During the Quarter a Task and Finish Group to support the development of a Healthcare Science Support Worker paper has begun, this will be reported to the new Healthcare Science Programme Board.

Furthermore, we held our second webinar on Healthcare Science in conjunction with the Welsh Government.

The NHS Wales COVID-19 Innovation and Transformation Study Report was published in July 2021 with significant content regarding Healthcare Science and how healthcare scientists have delivered services differently.

In support of our work to expand on the practical skills for Professional Education and Learning (PSEL), and to support the delivery of dedicated healthcare science leadership programmes a survey was completed by PSEL participants and a further workshop facilitated to begin development of bespoke Healthcare Science leadership programme. The group also committed to being champions for leadership in healthcare science, and have engaged with a network set up on Gwella.

Milestone Delays

- *Successful appointment of up to two healthcare scientists into the Welsh Clinical Leadership Training Fellowship.*

A paper is in preparation for consideration by the Executive Team regarding the inclusion of healthcare scientists into the Welsh Clinical Leadership Training Fellowship in future cohorts.

	<b>Objective 4.5d: Nurse Staffing Act</b>
--	-------------------------------------------

Milestone Delays

- *Deliver range of supportive interventions to prepare Health Boards for extension of the 2<sup>nd</sup> duty of the Act to paediatrics.*
- *Conduct initial (1st phase) testing of draft Welsh Levels of Care for Health visiting.*
- *Analyse the findings of bi-annual audit for adult medical and surgical inpatient areas.*
- *Conduct initial testing of draft Welsh Levels of Care for Mental Health inpatients.*
- *Conduct initial testing of Quality indicators for District Nursing.*

English Catherine  
11/24/2021 14:21:18

There has been a delay in finalising draft interim nurse staffing principles for Health Visiting due to skill mix issues and a letter has been issued by the Chief Nursing Officer. Draft principles are being finalised prior to Health Boards conducting impact assessments. Pilot testing (phase 1) of draft Welsh Levels of Care for Health Visiting has been delayed and is due to be undertaken in Quarter 3.

As a result of the need to reset the remit of mental health workstream pilot testing of draft Welsh Levels of Care for Mental Health inpatients delayed to Quarter 4 alongside the testing of quality indicators for district nursing.

Due to lack of IT support unable to analyse the findings of bi-annual audit for adult medical and surgical inpatient areas during the quarter and alternatives are being considered to allow analysis to be undertaken in upcoming quarters.

	<b>Objective 4.5e: Nursing Standards</b>
--	------------------------------------------

All Welsh Approved Education Institutions (AEI's) have been approved by the NMC to run their Return to Practice programmes which have been benchmarked against future nurse proficiencies and non-medical prescribing programmes.

In addition, monthly reporting on the implementation and benchmarking of the NMC Nursing and Midwifery Standards has been provided to key stakeholders as well as regular reporting of Once for Wales developments to the quarterly All Wales Pre-registration Nursing and Midwifery Group.

	<b>Objective 4.5f: Learning Disabilities</b>
--	----------------------------------------------

The deliverable to develop an All-Wales foundation/mandatory learning offer for Learning Disability services has now been taken forward by Improvement Cymru following a commission from Welsh Government to develop foundation training resources. HEIW will not be progressing this further during 2021/22 and it is closed.

	<b>Objective 4.5g: Maternity Services</b>
--	-------------------------------------------

During the Quarter, there has continued to be ongoing engagement with the New-born and Infant Physical Examination Programme Cymru (NIPEC) Steering group  
In addition, we have worked closely with Welsh Risk Pool to establish a platform and content for foetal monitoring interactive training.

#### Milestone Delays

- *Identify national priorities for educational service needs and learning opportunities within the maternity workforce.*
- *Review and publish data interpretations*

To identify national priorities for learning opportunities and educational service needs, links have been made with the Maternity and Neonatal Network working groups to review

opportunities and data and this is scheduled for Quarter 3. Furthermore, a leadership course for aspiring consultant midwives has been put in place and is due to commence in Quarter 3.

	<b>Objective 4.6:</b> <i>Develop the post-registration support, education and training pathways to improve the transition of health care professionals from education into the workforce.</i>
--	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

#### Milestone Delays

- *Establish steering group with key leads in HEIW and workforce and education.*
- *Develop networks with service and education providers to enable communication channels.*
- *Establish current range of post-registration training pathways available in HEIW and elsewhere in Wales.*
- *Scope need for additional training pathways and resource available/ consider expansion of existing programmes*
- *Identify key areas to prioritise based on service and workforce need.*
- *Develop plans to establish the return on investment of training programmes, particularly advanced practice/ extended skills.*

There is no progress to date on delivery owing to lack of capacity of the SRO due to delayed backfill arrangements in the team.

A meeting is scheduled early in Quarter 3 with cross professional colleague to commence collation of relevant information.

### Strategic Aim 5 - To be an exemplar employer and a great place to work

4	Off track for delivery at the end of the Quarter but will be able to recover
4	Complete or on track to deliver at the end of the Quarter.

	<b>Objective 5.1:</b> <i>Finalise and implement the People and Organisational Development (OD) Strategy</i>
--	-------------------------------------------------------------------------------------------------------------

Work to finalise the draft People and OD Strategy has progressed with the aim of final ratification in Quarter 3. However, work that will be encompassed within the strategy is already being planned and undertaken and which includes a key objective of greater engagement with the sessional and other remote workers associated with HEIW.

During the Quarter our learning and development plan was agreed including an aligned training plan and we have also established a reference group including partners from across NHS Wales to embed organisational values in recruitment, career progression and capability. A paper on succession planning has been reviewed by the Executive Team and work will begin on an internal programme.

	<b>Objective 5.2:</b> <i>Lead, develop and embed a range of actions to support workforce and workplace wellbeing and excellent colleague experience within HEIW</i>
--	---------------------------------------------------------------------------------------------------------------------------------------------------------------------

Engagement and consultation on the HEIW Health and Wellbeing Strategy is embedded into the wellbeing framework, national approach. The HEIW strategy will reflect this framework. Engagement commenced March 2020 through the HEIW wellbeing network members and the staff conference 2020.

A calendar of wellbeing events has been developed and is in place. This includes a communication plan for HEIW's intranet front page articles and information is regularly shared. Regular HEIW staff experience surveys are now in place, this includes, Health Needs Assessments, Working from home surveys and Culture Surveys.

	<b>Objective 5.3:</b> <i>Implement and embed the Welsh Language Framework within HEIW</i>
--	-------------------------------------------------------------------------------------------

Milestone Delays

- *New Language Scheme launched.*
- *Recruit second Apprenticeship cohort.*

During the Quarter our Welsh Language Scheme was approved by the Welsh Language Commissioner and will be launched in Quarter 3.

Recruitment has also commenced for our Second Apprenticeship cohort which will be finalised in upcoming quarters.

	<b>Objective 5.4:</b> <i>Implement and embed HEIW's Strategic Equality Plan and continue partnership working across the public sector.</i>
--	--------------------------------------------------------------------------------------------------------------------------------------------

During the Quarter, HEIW has been awarded Level 2 Disability Confident Employer status and furthermore our Stonewall Diversity Champion membership was renewed alongside maintaining other accreditation pledges.

Additionally, we delivered Trans Health and Deaf Pride Cymru masterclasses as part of virtual pride NHS Wales week and Equality, Diversity and Inclusion masterclasses. Directorate Strategic Equality plan action plans were signed off by the Deputy CEO and will be monitored quarterly. The EDI policy review has been moved to Q4 to allow the new Head of OD and Inclusion to start in post and the Inclusion Team to be appointed.

Milestone Delays

- *Review the equality, diversity and inclusion policies.*

Our review of policies has been pushed forward to Q4 to allow for organisational changes to be finalised and allow for appropriate review.

	<b>Objective 5.5:</b> <i>Implement organisational changes to meet the requirements regarding biodiversity and climate change</i>
--	----------------------------------------------------------------------------------------------------------------------------------

There is heightened interest in the decarbonisation agenda as Welsh Government set up the Decarbonisation Board and NHS Wales organisations are determining their plans in line with the NHS Wales Decarbonisation Strategic Delivery Plan, published in March 2021.

Our internal strategy was approved by the Board in July and the stakeholder group is in the process of developing an 18-month action plan as a first step in implementing the strategy.

This increased interest is putting some pressure on the existing structure in HEIW to be able to respond in a timely manner and apply an agreed organisational approach to the system role articulated in the national action plan. A paper on this is due to be presented to the Executive team in November for discussion and agreement. This paper will also consider the wider agenda on Sustainable Healthcare and the opportunities within the organisation's remit to contribute to this exciting agenda.

The stakeholder group has continued to implement its engagement and communications plan and to undertake and share research within the stakeholder group and to the wider organisation.

Additional recycling options have been put in place for staff for bathroom waste packaging and a report and plan has been received for options to develop the grounds of Ty Dysgu to maintain and enhance biodiversity. The stakeholder group is now representative of all directorates in HEIW.

### Milestone Delays

- *Recruit and Induct New Starter*
- *Develop and approve organisational targets against the 2019/20 baseline.*

As reported in Q1, support will be managed via new roles in the new Planning and Performance structure, and these are still being recruited.

Due to capacity issues in the contributing teams, there has been no further work on baselining measures and developing and approving organisational targets. A piece of work is being undertaken in Q3, using cost as a proxy measure. Unlike the other NHS organisations, HEIW was not included in the national work by the Carbon Trust to determine organisational carbon emissions which underpinned the NHS Wales decarbonisation plan. Options are being considered in how to progress this in the remainder of the financial year.

	<b>Objective 5.6:</b> <i>Embed multi-disciplinary Quality Improvement (QI) capacity and capability within HEIW.</i>
--	---------------------------------------------------------------------------------------------------------------------

Gwella has been developed as the platform of choice and now includes areas for potential project sharing and networks for specialities has also been developed.

QI project support for HEIW interns was delivered in Q2 delivered 6 July 2021, and a further 19 HEIW staff trained across 3 workshops. Further training and project support sessions are to be scheduled for 21/22.

### Milestone Delays

- *Appoint relevant staff to support quality improvement.*

The improvement practitioner role is being job matched prior to commencing the recruitment process and should be resolved in Quarter 3.

Englied Catherine  
11/24/2021 14:21:18

	<b>Objective 5.7:</b> <i>Develop the capacity and capability for evaluation, innovation and research.</i>
--	-----------------------------------------------------------------------------------------------------------

A baseline skills audit has been analysed and the scoping of training requirements for HEIW staff has commenced.

Gwella has been identified as a project sharing platform for ERIIC activity. Priority activity included gaining access to ethical opinions and this has been achieved.

The research governance group has been established and a governance framework developed.

Milestone Delays

- *Submission of business case to support evaluation, research and innovation staff and non-staff infrastructure.*
- *Development of tendering specification for procurement of external evaluation expertise*

A preliminary meeting with the finance team took place during Q1 to outline the approach to undertaking external evaluation within this financial year which will facilitate the development of a business case and tendering specification in support of the work which is to be progressed in Q2. Procurement of resources has been delayed due to uncertainty of projects and procurement.

	<b>Objective 5.8:</b> <i>Reduce the organisational risks regarding cyber security.</i>
--	----------------------------------------------------------------------------------------

Activities to support the delivery of the cyber security work implementation plan are underway. The Cybersecurity Analyst is now in post and will help with the tactical delivery and implementation to support the rollout of HEIW's cyber security programme. A new band 7 cyber security role has been approved by the Executive Team.

Cyber security progress is monitored regularly by a number of special interest groups including the IGIM and Audit and Assurance Committee.

Cyber security risks are reviewed by the Digital Management Team on a quarterly basis to ensure appropriate oversight, review and emerging risk identification. Adopting a lifecycle approach to managing cyber security risks will ensure that cyber security risks are appropriately evaluated, and controls & measures are assessed to ensure they remain appropriate and fit for purpose.

Phishing advice and guidance has been published on the HEIW Intranet. This activity will be combined with the rollout of HEIW's cyber security awareness plan which has been approved by the Executive Team.

Milestone Delays

*Board / Executive Management Cyber Awareness Training.*

*Topic specific cyber security incident exercise and document outcomes.*

*1. Host a series of topic specific cyber security workshops for HEIW employees (over a period of 3-5 days – open and interactive forum).*

## 2. Plan external penetration test.

The Board / Executive Cyber Security Awareness Training has not been completed to date. Planning is underway to define an awareness programme which captures the requirements set out in the National Cyber Security Centre's (NCSC) Board Toolkit and we hope to complete awareness training in early 2022.

The completion of cyber security incident exercises is subject to the approval of the Cyber Incident Response Guidelines and Plan and the formation of HEIW's local cyber incident response team (CIRT). HEIW's Cyber Incident Response Guidelines have been approved by the Executive Team. Permanent members of the CIRT have been identified and a copy of the Cyber Incident Response Plan has been disseminated to permanent members of the CIRT for review.

This hosting of cyber workshops has not been carried out but will be combined with the rollout of HEIW's cyber security awareness plan which has been approved by the Executive Team.

A penetration test has not been carried out during the quarter but will be undertaken during Quarter 4.

### Strategic Aim 6 - To be recognised as an excellent partner, influencer & leader

1	Off track for delivery at the end of the Quarter and is unlikely to recover
2	Off track for delivery at the end of the Quarter but will be able to recover
1	Complete or on track to deliver at the end of the Quarter.

	<b>Objective 6.1:</b> <i>Refresh and relaunch the HEIW Communications and Engagement Strategy</i>
--	---------------------------------------------------------------------------------------------------

Due to capacity issues, the original milestones to support the delivery of the objective have been revised and agreed with the Executive team to be progressed in Quarter 3 and which align with the additional strategic objective in 6.2. In line with revised milestones to take forward this objective IT is intended for delivery in Q1 2022-23.

Work is underway to review and update the central spreadsheet of all HEIW core communications and engagement activities. This will directly feed into and support the revised communications and engagement strategy.

	<b>Objective 6.2:</b> <i>Support the development of effective communication and engagement through an organisational network analysis (ONA).</i>
--	--------------------------------------------------------------------------------------------------------------------------------------------------

The revised deliverables and milestones in relation to this objective have been approved by the Executive team. As a research project, this revised objective will now incorporate a number of the milestones which were previously part of strategic Objective 6.1, including evaluation.

Work is underway with the procurement team to identify and commission a supplier to carry out research into the engagement reach of HEIW. We are in the process of mapping and compiling under-represented groups in order to start reaching out to these groups. When the

new Head of Organisation Development and Inclusion is in post, we will be working on a joint piece of work aligning the Strategic Equality Plan with communications and engagement.

	<b>Objective 6.3:</b> <i>Scope and agree our future single digital platform.</i>
--	----------------------------------------------------------------------------------

Good progress has been made during the Quarter with the Intrepid functionality review via team workshops. Working closely with expert partner RedCortex, the team has finalised the Azure hosting architecture (including prototypes) and governance ahead of starting the migration activity to cloud. This will form the foundation stage of the single platform approach. Discussions have been held on implementations and lessons learnt with other UK nations with plans to arrange formal demonstrations in Quarter 4.

	<b>Objective 6.4:</b> <i>Establish and permanently host the Office of Chief Digital Officer (OCDO) on behalf of Welsh Government</i>
--	--------------------------------------------------------------------------------------------------------------------------------------

Milestone Delays

- *Assessment centre and interview of CDO*
- *Further drafting of job descriptions, job evaluation and recruitment of senior posts of OCDO structure*

Following the initial process to recruit to the Chief Digital Officer (CDO), which did not result in an appointment, discussions are ongoing with Welsh Government Ministers to appoint an interim CDO. The HEIW OCDO project team is currently undertaking a NHS procurement process to appoint a new head hunter.

The recruitment campaign will be launched in January 2022. The HEIW and WG OCDO project teams are continuing with the drafting of the four senior roles in the new structure with input from stakeholders across NHS Wales and Welsh Government. These roles will be ready for advertising in November/December 2021.

Accommodation for the OCDO has been identified within space office space in the DHCW offices in Cardiff. Agreements are currently being drafted and awaiting official confirmation of breakdown of costs for the usage of this office space.

## SECTION 2: ORGANISATIONAL PERFORMANCE

### Education and Training Activity: Commissioned Places

While we continue to test existing data across all professions against the proposed education/training pipeline model, the following definitions are used in our performance reporting:

- Recruitment rate – number of learners/trainees recruited to a commissioned place/training programme prior to those learners/trainees taking up the place (as a percentage of the total places available).
- Fill rate – number of learners/trainees who started in a commissioned place or on a training programme (as a percentage of the total places available).

#### Medical

The recruitment data provided this quarter concludes the reporting for the August 2021 intake of junior doctors. Up until the programme start date a small amount of change both in terms of acceptances and resignations occurs and, whilst the global figures have not changed since the Q1 report, at speciality level there has been a small deviation with some specialties gaining and others losing appointees.

Three separate recruitment rounds took place for the August 2021 intake:

- Foundation Recruitment – entry to the 2-year Foundation Programme (not included on dashboard)
- Specialty Recruitment Round 1 – entry to Core/Specialty training usually at ST1 level plus various Sub-Specialty Programmes
- Specialty Recruitment Round 2 – entry to higher Specialty training at ST3/ST4 level

Foundation trainees for August 2021 were recruited to Foundation School from March and allocated to F1 programmes from April 2021. A total of 381 places were advertised (an additional 30 places compared to 2020) and, following a series of recruitment rounds, 398 trainees were allocated to Wales. However, ultimately 31 trainees withdrew between allocation to Foundation School and commencing work. As a result, 367 trainees started in August 2021, leaving 14 unfilled posts - a fill rate of 96.3%. The outstanding vacancies will be returned to the Health Boards for local recruitment to meet service delivery needs.

For Specialty (excluding GP) Training posts commencing in August 2021, the final position for recruitment Rounds 1 and 2 saw us achieving a recruitment rate of 93% (400 of 429 posts advertised), shown on the Dashboard. This is an improvement on the same point last year, when the recruitment rate was 91% (384 of 420 posts advertised).

Of the 400 trainees who accepted a post in Specialty Training, 386 commenced their programme on the specialty rotation date. There were 14 deferrals processed for varying reasons including statutory reasons (i.e., maternity and sickness absence) and COVID related issues preventing individuals taking up training on time as scheduled. These deferrals vary in duration from 6 weeks to 12 months.

In previous years there has been a requirement to host a Round 1 Re-advert to recruit to outstanding vacancies following the completion of Round 1. However, due to a high number of applications and a high number of appointable applicants for all specialties it was agreed

across the UK there was no requirement for Round 1 Re Advert and therefore this was cancelled.

Some specialties (Stroke Medicine, Higher Psychiatry specialties, Genitourinary Medicine and Rehabilitation Medicine) remain challenging to fill and this is reflected across the UK. We are attempting to recruit to these vacancies again through Recruitment Round 3 which takes place over the Autumn with start dates in February 2022.

The 2022 Education and Training Plan recommended an increase in training posts for Child and Adolescent Psychiatry and whilst there are clear workforce requirements for this expansion, it should be noted that the current programme has not been filled (2 vacancies remain) and, given previous historical recruitment trends, the likelihood of filling these vacancies plus expansion posts in 2022 is low.

### Primary Care

Reporting on R1 recruitment for posts commencing in August 2021 is now complete. A total of 161 vacancies were advertised with a recruitment rate of 100% at this stage of the process. The annual recruitment rate is subject to change as a result of the Round 2 (R2) recruitment stage, which will be complete in early November for posts to start in February 2022.

As in 2020/21, the assumption in 2021/22 is to recruit to the baseline of 160 GP trainee places, with an option to over-recruit up to a maximum of 200 places if suitable candidates are available. In 2020-21, the final recruitment rate was 125% as all 200 places were recruited against the initial 160 baseline.

The Application window for R2 posts commencing in February 2022 opened on July 27<sup>th</sup> 2021. We advertised a total of 23 vacancies. Offers are currently being made to successful candidates who have until the 27<sup>th</sup> of October 2021 to accept their offers.

We continue to build capacity for GP training in each Scheme in Wales, with another 3 modules of the GP Prospective Trainers Course started in September 2021. The number of new trainers and new practices that successfully complete the approval process will be reported in the Q3 report in March 2022.

### Dental

The overall recruitment rate for Dental is 98%. In Dental Foundation Training (DFT), 67 posts were available for the 2021/22 cohort and submitted to the National Recruitment Office and all 67 posts were filled at the end of August. The excellent fill rate is due to significant additional work by the Deanery and nationally to expedite the recruitment processes to mitigate the effects of the pandemic on undergraduate education.

In Dental Core Training (DCT), as a result of the national recruitment process that concluded in June 2021, we have the following:

- DCT1 - All posts have been filled with official trainees, giving a recruitment rate of 100% for DCT1 for 2021/22. There are 31 posts including 3 new General Dental Services Core Trainee (GDSCT) posts and 1 former Clinical Fellow post converted to DCT1.
- DCT2 – There are 26 official DCT2 trainees, 6 locally appointed trainees (LATs) and 2 posts are vacant. The recruitment rate is 94%.
- DCT3 – There are 8 official DCT3 trainees, 1 LAT and no vacancies. The recruitment rate is 100%.

English Catherine  
11/24/2021 14:21:18

Again, despite the effects of the pandemic on dental services, the fill rates are very good in Core Training.

Changes between Q1 and Q2 are due to late withdrawals of candidates and the subsequent reappointment of postholders/changes to posts following local advertisement and interview.

This year, despite the National Recruitment Office insisting that candidates be specific at preferencing stage, there were a record number of withdrawals across the UK after the allocation of posts. This resulted in more pressure to fill posts via local recruitment. It is unknown why there has been an increase in the number of unfilled posts in the current year but it appears that the COVID pandemic has led to potential trainees wishing to remain close to home and existing support networks.

In Wales, there were 3 trainees that were appointed via national recruitment, but who then withdrew (2 in DCT2 and 1 in DCT3). The 2 remaining unfilled posts in DCT2 will now go through further rounds of local recruitment.

When posts are not filled via national recruitment, there is less chance of the posts being filled with official trainees (i.e., trainees following the DCT curriculum) and more locally appointed trainees occupying posts simply to cover service provision. This is because time is restricted and official trainees need to complete a minimum length of service to comply with curriculum requirements, so, the longer the advertising and appointment processes take, the less time and less chance there is for an official trainee to take the post.

In Dental Specialty Training (DST), where recruitment takes place sporadically throughout the year as vacancies arise, of a total of 24 posts, 22 posts were filled. The 2 vacant posts will be recruited to early in 2022, pending confirmation of funding. The fill rate is 91.6%.

There were no DST trainees in a Period of Grace (PoG) at the end of Q2 (although 3 did move into a PoG at the start of Q3).

The change in post numbers from 25 in Q1 to 24 in Q2 is due to:

- 1 less post in Dental Public Health (DPH), funded by Cardiff University; the trainee completed in August 2021, and there is no funding for a replacement identified yet
- 1 less post in Oral Surgery; the trainee completed in July 2021, and there is no funding for a replacement identified yet
- 1 extra post in Orthodontics; this is a Cardiff University Academic Post-CCST post, which commenced in September 2021

The 2 vacant posts are in Special Care Dentistry (SCD) (1 North and 1 South), and discussions are ongoing to confirm the funding in order to replace the 2 trainees who completed in July and August.

## Pharmacy

As in 2020-21, the Pharmacy recruitment rate shown on the Dashboard relates to Trainee Pharmacists (formerly Pre-Registration Foundation Pharmacists) for the 2021/22 cohort only. There is no recruitment activity to report for Pre-Registration Pharmacy Technicians or Diploma posts (see detail below).

*Trainee Pharmacists (exiting cohort: started August 2020 and completing from July 2021)*

Of the 132 that joined the programme in August 2020, 119 have completed the programme, 2 have left and 11 remain in post. Of those still in post, one is completing a 12-month programme as a 'late starter', one is on statutory leave, one has deferred to the 2021-22 cohort and there are 8 extensions. Each individual extension is likely to have occurred anyway, but Covid may have slightly increased the duration of some of the extensions.

Trainee pharmacists in Wales had a higher registration assessment pass rate than other UK nations undertaking the GPC assessment:

- 88.3% pass rate Wales (n=113)
- 86.7% pass rate Scotland (n=226)
- 80.8% pass rate England (n=2552)

The Benchmarking section of the dashboard shows the pass rate for registration assessments in the 2020/21 cohort in Wales against the UK average. This was 100% of HEIW multi-sector and 100% of hospital trainee pharmacists that undertook the assessment (a total of 31 trainees). Other trainees were on community-only programmes or Health Board-run multi-sector programmes.

*Trainee Pharmacists (current cohort: started August 2021 and completing July 2022)*

As reported in Q1, the initial recruitment number was 124 of 160 places, giving a recruitment rate of 78%. Following 10 withdrawals, there are currently 115 trainees enrolled on the programme, including the one additional deferral reported above, which joined this cohort. A delayed start has been granted for 4 of these trainees due to their individual circumstances.

The 10 withdrawals since recruitment is, however, less than the previous year (22). These are due to a combination of factors including university exam failures and some impacts of the pandemic, including reluctance to relocate after university to commence training. It is also possible that students may receive an additional offer (of a more personally suitable location closer to home) in England, outside of the Oriel process, which may also lead to withdrawals.

*Pre-Registration Pharmacy Technicians (PRPTs) (2019/21 cohort)*

Of the 42 trainees recruited, 35 have now completed the programme and are eligible to register with GPhC. There were 7 leavers, including one terminated for dishonesty.

The NHS procurement process to secure a course provider concludes in October. Employers in Wales are prepared to commence recruitment locally as soon as the successful course provider is confirmed, and the course entry requirements become known. The current focus for all stakeholders is the 1<sup>st</sup> February course enrolment date.

*Diploma Pharmacists 2019-2021 ('exiting/completing' cohort: started September 2019 and completing from August 2021)*

Of the 39 pharmacists that started the programme there were 2 leavers and 32 have completed the programme. Of the 5 remaining 'in-programme', 2 Interruption of Studies were arranged, and 3 individuals were required to re-sit assignments which, due to COVID, were not completed in time for consideration by the Board of Examiners. These may result in completion awards this academic year.

*Diploma pharmacists 2020-22 (Current 2<sup>nd</sup> years)*

Of the 39 enrolled, all remain on the programme following one person returning from an interruption of studies.

England, Northern  
11/24/2021 11:21:18

### *Diploma pharmacists 2021-23 (Current 1<sup>st</sup> years)*

All 40 commissions have been appointed to and the pharmacists have enrolled in learning with Cardiff University.

### **Health Professional Education**

The all-Wales pre-registration healthcare professional education procurement exercise was concluded in July which was the most complex education commissioning procurement process we have undertaken, worth in excess of £10bn over the next 10 years. The Education and Training Plan 2022-23 was approved by the Board for submission to Welsh Government.

Fill rates have been collated from all universities relating to the September 2021 recruitment round. At the end of Q2, the Health Professional fill rate across all programmes for Wales is 99.4%. This is the highest overall fill rate that September intakes have achieved in the last 10 years. This may be a positive effect of the pandemic on interest in NHS careers.

Whilst this is excellent performance, against increasing targets, it must be caveated as the 2021/22 annual fill rates will not be finalised until both nursing cohorts (September 2021 and January to March 2022) are recruited. Historically, it has been more difficult to recruit in the January to March period, with the 2020/21 academic year unusually highly affected due to the December Covid lockdown affecting students' decisions to commence training in early 2021.

However, from recent contract business meetings with universities, they have already recruited to at least 70% of places for the January to March 2022 intakes and are confident of recruiting to all or most places. The Education, Commissioning and Quality Team are monitoring this position closely with the Universities and some "re-allocation of places" may be needed to ensure that overall fill rates are maximised.

Of the largest 21 pre-registration health professional programmes, 15 have achieved a 100% fill rate. However, these include adult and child nursing that could be subsequently affected by the January to March 2022 intakes.

Another 3 programmes - Mental Health Nursing, Physician Associates (PA) and Healthcare Sciences (HCS) - are above 97.5%. On the dashboard, the Healthcare Scientists fill rate covers four categories including Healthcare Science itself and, as a group, these programmes show 100% fill rate, while Healthcare Science is at 98.6%. Whilst the PA and HCS figures are final, Mental Health Nursing may be affected by the January to March intakes.

Dietetics, where 58 out of 60 students were recruited, has achieved a fill rate of 96.7%. Sixty is the highest number of Dietician students commissioned and 58 is the highest number ever recruited in Wales. A second Dietetics course in Wales is starting in 2022, in North Wales. This should assist with filling all places as more students from North Wales are provided a better opportunity to access this profession.

Operating Department Practice (ODP) education, where 46 of the 49 commissions were recruited, has achieved a fill rate of 93.7%. This is the highest number of ODP students recruited onto the programme since it moved from a diploma to a degree programme 6 years ago. This programme will be diversified in 2022 with 3 providers instead of the sole current provider. Again, as with Dietetics, this should afford more opportunities to widen participation in this course and to support the recovery of planned care services.

The Learning Disability (LD) Nursing field has historically struggled, not just in Wales but UK wide to attract sufficient numbers to fill commissioned places. Currently, 36 of 51 places have been filled, providing a fill rate of just 71%. However, there is a January to March intake (26 places) so this could alter. Universities are working hard to improve uptake in this field of

nursing. If commissioning levels reach 80% in this field it will be the highest in Wales for 10 years.

## Continuing Professional Development (CPD) Course Activity

### Dental

Term one study days resumed in September for the new cohort of the Dental training schemes (Dental Foundation, Dental Core and the Dental Therapy) with a blended format of face-to-face and online training.

The Dental team continues to deliver CPD courses online (29) with some essential clinical skills training for the profession taking place face to face (18). Face-to-face training included delivery on four-handed dentistry and rubber dam, which provides dental teams with the essential skills necessary to reduce infection control risk in treating patients and supports a more efficient way of operating in delivery of care to patients. In total 47 CPD courses were delivered between July and September, training 1,073 dental professionals.

The section set up the All-Wales Dental Nurse Study Club in July. Dental Nurses make up most registrants in Wales and are an integral part of the dental workforce. They are key to delivering the ambitions set out in the Oral & Dental Services Response to A Healthier Wales. This study club will provide a forum for Dental Nurses to share their experiences and good practice, as well as learning with and from each other on subjects that support their development and lifelong learning.

Dental Quality Improvement (QI) Educators continue to deliver Quality Improvement Study Clubs for the 7 Health Boards within Wales, with 4 taking place during this period. Completion of QI projects and audits by the profession continue, with 174 dental professionals registering.

The section continues to identify education to help teams develop and encourage a more collaborative approach to patients being able to manage and improve their own oral health, as well as prepare dental teams for general dental service contract reform. For example, online workshops on ACORN (Assessment of Clinical Oral Risks & Needs), eDEN (electronic dashboard for dental providers in Wales), shared decision making, solution focused questioning techniques and patient behaviour change in oral health settings have all been provided to the profession.

### Revalidation Support Unit (RSU)

During Q2 the RSU continued to provide CPD for GPs and primary care health providers virtually, expanding and enhancing online CPD provision.

Five webinars were delivered in Q2, bringing the total number of events delivered this year to 14. Feedback on content and delivery is consistently positive. Key topics in Q2 include Respiratory Life After COVID, Advance Care Planning and Safeguarding.

We have added a further 2 videos to our open access service (CPD On Demand) to enable viewers to watch a recorded learning event from our virtual delivery programme at their convenience. A total of 19 recordings are available and were viewed 411 times in Q2.

Four new modules are under development to be added to our library of 40 free online modules on the GP CPD website.

The activity above is reflected in the number of page hits to the GP CPD website as detailed in the performance dashboard (7905 July, 6791 August and 8193 September).

RSU delivers the 3D (Discovering, Developing and Delivering in Healthcare) educational programme. The programme is designed to address the educational requirements of clinicians in all parts of the NHS in Wales who wish to extend their abilities in engaging with and influencing the service improvement agenda.

Key activity this quarter includes:

- Appointment and induction of our new 3D Programme Director, Dr Laura Mackenzie, who replaces Dr Stephen Hailey (co-creator of the programme)
- Completion of the recruitment process for the 2021/22 cohort - 54 applications were received and 20 accepted onto the multi-professional programme (5 GPs, 11 Secondary Care Doctors, 2 Pharmacists and 2 Dentists)
- The first module of 2021/22 was held via Gwella on 22 September.

### Pharmacy

The focus in Q2 has been on general housekeeping, website and event process reviews alongside planning the programme for early 2022.

Significant time has been taken up with the provision of webinar transcripts, checking for accuracy and Welsh translation to be compliant with Welsh language standards and website accessibility. Discussions are underway regarding Welsh language requirements for the delivery of CPD, with the Welsh language team developing a proposal for an appropriate infrastructure and associated funding.

Two webinars were delivered:

- *Acne and Rosacea: an overview of the management within primary care and community pharmacy* (50 registrants)
- *Red Whale Mental Health – taking care of YOURSELF and your PATIENTS* (96 registrants) - this was initially provided in April 2021 but has been revisited with an interactive event in September. The aim is to maximise key outcomes from the previous webinars whether currently attended or not. Initial feedback is positive and demonstrates the benefits of the partnership approach HEIW has with Red Whale to maximise access and use of existing resources.

Our eLearning resources continue to be available for learners to access as necessary and our ongoing QA process continues including all recorded webinar events.

For COVID-19 resources, the medicines administration module for support staff workforce in social care settings has now been completed by 1685 individuals.

The CPD+ programmes “Introduction to Healthcare Leadership” and “Introduction to Healthcare Education” continue to be delivered virtually. Cohorts are now enrolled, and delivery has commenced for Autumn 2021.

The Practice Based Small Group Learning (PBSGL) opportunity for existing groups set up and funded via the Pharmacy budget will continue until March 2022, after which time all groups will revert to the process in place and budget that sits with the Primary Care Workforce team within the Nursing Directorate. Out of the 65 members that were active members in early 2020, 49 continue to be active, i.e., 75%, which is a good achievement in the current climate. There

will be further marketing to promote this opportunity and CPD provision will go out as soon as available to provide a consistent message from HEIW.

### Professional Support Unit (PSU)

PSU online webinars continue to be popular. In Q2 we delivered a total of 23 webinars to 900 attendees (9 webinars with associated CPD points were delivered to 115 attendees). New dates from September 2021 to July 2022 have been circulated to faculty and trainees and advertised by the HEIW Communications Team.

## Quality and Outcomes

### Quality Management

#### Medicine

A blended approach to Targeted Visits has been introduced in Q2 with some being undertaken online via Microsoft Teams and others being arranged on site. Where site visits are undertaken, arrangements have been made to enable those who cannot be physically present to join online. The Quality Unit will monitor progress with the pandemic during the winter months to continually review the viability of this arrangement.

Visit activity during Q2 was low with just two visits being undertaken (Care of the Elderly, University Hospital Llandough and Emergency Medicine, Wrexham Maelor), both of which had good evidence of progress being made. Reduced visit activity is normal for the time of year as quality management activity is focussed on scrutiny of the GMC National Training Surveys. This process has been completed with all results being reviewed and revised risk reports generated and disseminated to all Local Education Providers and training programmes across Wales. In addition, a revised schedule of areas requiring review through a visit has been developed.

The number of areas under Enhanced Monitoring status remains at five. A summary of the areas in Enhanced Monitoring with the GMC is provided in Table 1 and progress is continuing to be monitored. The Quality Unit's recent request to de-escalate Obstetrics and Gynaecology at the Princess of Wales Hospital has been approved by the GMC and the Health Board has been notified of this outcome. As indicated in the Q1 report, a further visit to Ophthalmology at the Royal Glamorgan Hospital in June highlighted concerns over progress with implications for patient safety. As such, the GMC has agreed with the Quality Unit's recommendation to place this department into Enhanced Monitoring. Ongoing collaboration with the Health Board will continue and a further visit to review progress is being arranged.

Following publication of the GMC National Training Survey results, early contact was made with those areas for which the results indicated that there may be concerns over progress. These areas included Medicine at Wrexham Maelor Hospital and Trauma and Orthopaedics at Morriston Hospital. Given that the COVID pandemic has had a particular impact on medicine and surgery across Wales there is the potential that these results are a reflection the status of these areas as they emerged from the second wave of the pandemic. Feedback from Wrexham Maelor suggests that there is still a good level of oversight locally with improvement activity ongoing. The picture for Trauma and Orthopaedics at Morriston Hospital is less clear and as such further contact has been made with a request for a specific update through the risk process. Targeted Visits to all areas in Enhanced Monitoring are being arranged.

**Table 1: Enhanced Monitoring Areas**

LEP	Site	Specialty
Betsi Cadwaladr UHB	Wrexham Maelor Hospital	Medicine
Cwm Taf Morgannwg UHB	Prince Charles & Royal Glamorgan Hospitals	Obstetrics & Gynaecology
	Royal Glamorgan Hospital	Ophthalmology
Swansea Bay UHB	Morriston Hospital	Emergency Medicine
		Trauma & Orthopaedics

The most significant and complex concern being managed by the Quality Unit is the impact that the service reconfiguration model within Aneurin Bevan University Health Board is having on education and training with implications for patient safety. The Quality Unit has engaged with the Health Board around the concerns raised through HEIW Open as well as other sources such as free text comments reported through the GMC National Training Surveys. Although there are significant concerns the threshold has not yet been met for Enhanced Monitoring as we have active engagement with the Health Board and are in the early stages of developing plans.

Following the recent RCP report, the Quality Unit has agreed a strategy with the Health Board that will include targeted visits aimed at reviewing and, if necessary, improving the quality of postgraduate training. In addition, a Postgraduate Medical Education and Training Oversight Group has been established. A specific Terms of Reference for this group has been developed with a key focus on direct collaboration with the Medical Director around the concerns and Health Board strategies to address them. In addition to the Oversight Group, specific visits are being undertaken in Q3 to all four acute sites with a focus on medicine and surgery. A review of Paediatrics at The Grange University Hospital will also be arranged.

### Health Professional Education

In addition to the student, practice assessor and placement education facilitator interviews conducted by the ECQ team, the Higher Education Funding Council for Wales (HEFCW) has recently supplied a summary of the latest National Student Survey (NSS) scores for each commissioned course within each University. This information is currently being collated into a database and performance dashboard which will be complete by the Q3 report.

The raw data has been analysed and concerns have been fed back to each University. Each University has submitted an action plan, identifying areas of under-performance and actions to mitigate the issues. These were due by the end of October and will be reported in the Q3 performance report.

Similar action plans have been received from Universities relating to the issues and comments raised by students, practice educators and practice education facilitators. Again, the deadline for return of these plans was the end of October and these will be analysed in detail and reported in the Q3 performance report.

On analysing the data there was particular concern surrounding the midwifery programme in one University. Therefore, this has been "exception reported" and a separate report has been prepared pertaining to this course. The University has acknowledged all the issues, plus those

raised by HEIW from their stakeholder interviews and engagements and they have developed a robust plan to improve the course. A range of mitigating actions have been put in place to monitor and report on this specific issue, including focused, midwifery-specific student engagement interviews, and focused meetings with Health Boards, practice assessors and Practice Education Facilitators to discuss specific issues and areas of concern.

The Head of Pre-Registration Education will lead on this work supported by both the Head of Placement Experience and Improvement and the Head of Nursing and Midwifery Transformation. The Head of Pre-Registration is also the nominated member of the ECQ Team sitting on the University's Implementation Board. Therefore, this will form an important part of ensuring the new contract addresses these issues and is fit for purpose. Regular updates will be provided to the Nursing and Health Professional Senior Leadership Team and once progress has been monitored and the targeted engagement has taken place a full report will be submitted to the HEIW Executive Team.

The next round of quality meetings is scheduled for December 2021 and January 2022.

### GMC Training Survey Results

The GMC National Training Surveys were undertaken between 20<sup>th</sup> April and 25<sup>th</sup> May 2021 with a shorter completion window than usual. However, despite this, HEIW's response rates were still strong with an 85.39% response rate for the trainee survey and a 51.7% response rate for the trainer survey, both significantly higher than the UK average response rates.

**Table 2: National Training Surveys UK Response Rates**

	UK	Wales	England	Scotland	Northern Ireland
Trainee Response Rate	76%	85%	76%	69%	87%
Trainer Response Rate	32%	52%	32%	20%	43%

From the GMC National Training Survey 2021 Results (key themes report), July 2021

Whilst the survey included some specific questions to understand the impact of the COVID-19 pandemic, there was a return to the more routine question areas, the results of which are more helpful for quality management purposes. These results have been published on the GMC's online reporting tool with a key themes report for Wales being produced by the Quality Unit. Details of some of the key messages within this report are provided below.

- Overall, the survey results are broadly in line with the rest of the UK. Trainees in Wales continue to report high levels of satisfaction with good levels of clinical supervision.
- The results for medicine and surgery report the greatest number of adverse results which will require greater exploration. This is likely to be in part due to the impact of the COVID-19 pandemic in these areas.

In recent years, Obstetrics and Gynaecology and Emergency Medicine have been a focus of activity for the Quality Unit. However, the 2021 results indicate that there are

English Catherine  
11/24/2021 14:21:18

signs of improvement in these areas with some parts of Wales receiving particularly high scores in 2021.

- Whilst the UK score for induction is in line with the rest of the UK, the results suggest that there is scope for improvement in this area with a particular focus upon induction quality and departmental induction given the link with patient safety.
- The majority of trainees report that their training is providing them with sufficient experience to support their continued progression.
- A significant majority of trainers report that they enjoy their training role and that their roles were clearly defined.
- Generally, trainers reported that they feel supported in their training role. However, this is an area for which ongoing work will be required to sustain or improve the feedback.
- Wellbeing has been a particular theme in both the trainee and trainer survey with reported increases in burnout levels of up to 8% in some areas. This UK trend has been replicated within Wales which indicates that responding to the pandemic has had a significant impact upon trainee and trainer wellbeing. The trainee results suggest that the most significant impact has been on foundation trainees. From a trainer perspective, the 2019 survey results reported that trainers within General Practice, Emergency Medicine and Intensive Care Medicine had the highest levels of burnout reported. This has been replicated in 2021, apart from Intensive Care Medicine whose reported level of burnout has decreased from high to moderate. However, it is important to note that decrease in burnout levels for Intensive Care Medicine may be a reflection of the way the specialty has been supported from other areas during the pandemic.

### Annual Review of Competence Progression (ARCP)

The ARCP data for Medicine is presented for the period 5<sup>th</sup> August 2020 to 3<sup>rd</sup> August 2021, in line with the annual GMC validation process.

Dental ARCP data is now presented separately on the performance dashboard as Dental does not follow similar validation protocols to Medical and this allows for quarterly reporting.

#### Medical

For the period 5<sup>th</sup> August 2020 to 3<sup>rd</sup> August 2021, an additional 394 (13%) ARCPs were held compared to the same period last year (206 in Secondary Care, 132 in GP and 56 in Foundation). A total of 2434 (73%) completed their programmes (the same proportion as last year). Overall, there have been fewer COVID-related outcomes awarded this year compared to last year – a reduction of 19% (275 compared to 328) – but there were a small number awarded in Foundation (6) compared to zero last year. Where development is required for reasons not directly related to COVID (Outcomes 3 and 4), numbers have increased this year compared to last year, but as a proportion of the total this remains broadly in line with last year.

The impact of COVID on postgraduate medical training is ongoing and cumulative. Numerous mitigations have been introduced to enable progression including revised progression decision aids and COVID specific ARCP outcomes to identify those most affected. Postgraduate medical trainees provide service whilst training towards independent practice. They have therefore been a key component to supporting the response to the pandemic and may have been redeployed to provide COVID specific care but away from their 'parent' specialty training post.

COVID-related outcomes:

- Approximately 10% of all trainees have been awarded an outcome 10.1 - this means they can progress to next stage of training but they have missed certain competencies because of COVID which will still need to be acquired. This is a slight reduction compared to last year but it does create an additional burden on those trainees and their trainers and further disruption is likely to require extensions to their training.
- Approximately 2% of trainees were awarded outcome 10.2 which means that they have already hit the point where they require extension to training because of COVID related disruption. This represents an increase compared to last year and illustrates the cumulative impact on requirement for extensions to training.

Currently there is no redeployment of trainees within Wales but access to the necessary training opportunities remains limited for some specialties because of sickness rates, reduced services and difficulties in fully incorporating training into service recovery. Surgical and craft specialties remain the greatest concern in the context of this cumulative risk.

Trauma and orthopaedics is emerging as a significant risk as all elective orthopaedic surgery was suspended for several months and in some areas continues to be well below usual activity levels. Whilst the service explores ways to increase throughput the focus is often on maximising consultant time and less thought is given to training because the latter can be a constraint on throughput as operations/procedures take longer.

A further mapping exercise is currently being undertaken for all surgical specialties to understand the latest position in regards to trainee progression and predict impact for 1-2 years ahead. There is a risk in specialties like orthopaedics that there will be a slowing down of the trainee CCT output which will impact on capacity to recruit.

The recent GMC national trainee and trainer survey identified that;

- Self-reported burnout is a significant issue (25-30%) in trainers and trainees. Foundation and emergency medicine trainees reported highest levels.
- Staff sickness and absence is having a major impact on recovery of training as well as service provision.
- Trainers are reporting challenges supporting training and frustration at increasing requests for placements of students.

The national agreed approaches to curriculum derogations and recruitment processes are still in place to mitigate the impact of Covid on trainee progression. Local approaches focus on working closely with training faculty, providers and trainees to identify risk at specialty and individual trainee level enabling catch up where required. There is also a lot of focus on embedding new ways of working.

In addition, revised redeployment guidance has been issued to protect those trainees most severely affected up to this point. This now applies to generic NHS/winter pressures and not just COVID-related issues.

The ARCP data for Medicine is presented for the period 5<sup>th</sup> August 2020 to 3<sup>rd</sup> August 2021, in line with the annual GMC validation process. The period August 2021 to August 2022 will be presented in the 2022/23 Q2 report in November 2022.

Dental ARCP data is now presented separately on the performance dashboard as Dental does not follow similar validation protocols to Medical and this allows for quarterly reporting.

## Dental

In Dental Foundation Training (DFT), FRCPs (full Review of Competency Progression) took place in July 2021 for the 2020/21 cohort of trainees. There were 63 Outcome 6s (whole cohort).

In Dental Core Training (DCT), FRCPs took place in July 2021 for the 2020/21 cohort of trainees. There were 62 Outcome 1s and one Outcome 2.

COVID outcomes were not available for DFT and DCT FRCPs, with the decision made at the Dental Foundation Training Associate Dean Group (DFTAG) and at the Dental Core Training Associate Dean Group (DCTAG). This was a UK-wide decision (Wales, England and NI but not Scotland). At that time, it was felt that COVID restrictions had eased sufficiently to enable trainees to gain the necessary clinical skills and competencies to be able to gain satisfactory completion.

In Dental Specialty Training (DST):

- 1 FRCP was held in July for Special Care Dentistry held in July (Outcome 6)
- 8 FRCPs were held in September for Orthodontics (3 x Outcome 6s, 1 x Outcome 4, 4 x Outcome 1)
- 2 IRCPs (Interim Review of Competency Progression) were held in September for Restorative Dentistry (2 x Outcome 1).

Covid outcomes were available for DST, but there were none awarded in the period.

Dental training was severely impacted during the pandemic with cessation of most routine dental activity for a period of several months. The formal ARCP outcomes for Dentistry were reported in the Q1 Board report.

Whilst dental services have resumed with appropriate safeguards the volume of activity remains significantly impacted with ongoing concerns about how this is affecting dental trainees. There are also significant numbers of cancelled appointments and theatre lists and this is likely to increase over winter months.

Building on the previously reported ARCP outcomes, the Deanery team is mapping progression at individual trainee level to understand the potential impact and competency requirements to enable tailored approach where feasible.

## Professional Support Unit (PSU)

At the end of Q2, the PSU were supporting 369 trainees (1% increase on Q1) with 26% receiving additional psychological support.

In 2020, the PSU saw fewer new cases due to trainees focusing on pandemic service provision. In Q2 this year, figures are slightly higher than pre-COVID, with an increase in additional support due to complexity, burnout and moral injury.

In Q2 we have had 99 new cases with 52% being via self-referral. This is an increase of 27% in new cases compared to Q1 (78). In Q1, 45% were via self-referral.

We are continuing to see a high demand for support related to COVID-19 pandemic issues: of the 369 cases, 57% (210) of the referrals were due to health reasons (including COVID).

While this matches the position in Q1, it remains a marked increase on the historical rate of 29% of referrals being due to health.

The contract for the temporary Case Manager and Administration Support Officer has been extended until 31 March 2022. This additional post has had a positive impact on waiting times, with the PSU currently able to offer appointments within 10 working days (in line with our KPIs). This is a major improvement for non-urgent referrals from waiting times of 6-8 weeks in Q4 last year.

PSU continues to work across HEIW and impact on NHS Wales:

- In support of the Differential Attainment (DA) Board, to contribute and lead on streams within the DA agenda.
- Instigated the production of a 'Welcome to Wales' e-book (a helpful guide for those new to Wales) and working collaboratively with the Train-Work-Live Team.
- 31 members are currently receiving Wales Asylum Seeking and Refugee Group (WARD) support and are working through the path to GMC registration; 2 existing members commenced their first NHS placements as doctors in the Supernumerary F1 level posts (SBUHB and ABUHB).

### Trainee Progression Governance (TPG)

In Q2 there were 4 reviews. Two of these were to appeal an Outcome 2 and these cannot go to Independent Hearing. The remaining 2 reviews were to appeal an Outcome 4, and both of these have gone to Independent Hearing. The first of these will take place in October 2021, and the second is with the Postgraduate Dean and the date is to be confirmed.

There were 35 adverse outcomes reported in Q2. The number of reviews and Independent Hearings has not come as a surprise as Q2 represents a peak in the numbers of ARCPs being conducted. The number of appeals seen in Q2 in 2021 is less than 2020, which was 5 and has decreased to 4. This is a positive as there are less trainees disagreeing with their ARCP outcomes. Any link to additional training provided to educational supervisors via the recently developed e-module on report writing will be explored.

### Medical Appraisal and Revalidation

There continues to be substantial uptake in appraisal as reflected in the dashboard data, which provides a summary of the number of appraisals completed on both MARS and the Primary Care instance of MARS, for the period 1 April – 30 September 2021 (2839). It should be noted that the appraisal completed data is based on the date the appraisal summary is agreed, not the date of the meeting.

This data is not comparable with last year due to the temporary suspension of medical appraisal during the first two quarters, and the option of an 'approved missed' appraisal during the second two quarters of that year.

Virtual appraisal continues to be an acceptable option until the end of 2021 with 93% of appraisals in primary care taking place virtually in Q2, compared to 43% of appraisals in all other sectors. The RSU will be undertaking an evaluation in Q3 and Q4 to explore the experience and quality of virtual appraisal.

Additional key activity in Q2 includes:

- Launch of our 'Introduction to Coaching Skills in Appraisal' module in July
- Completion of the 2020/21 Revalidation Progress Report process, where Designated Bodies submit an annual self-assessment against agreed quality standards
- New guidance for Appraisees and Appraisers on discussing low volume of work at appraisal produced
- Wales Revalidation Appraisal Group meeting held 16 Sept with a focus on the return to appraisal

MARS is part of a suite of online resources that also includes the **Orbit360™** system, a multi-source feedback system linked to MARS and launched last year to support doctors in Wales with gathering patient and colleague feedback. As at end Q2, 3030 users have now registered with the system, an increase of 1001 users from April 2021.

### Corporate Performance

#### HEIW Performance Metrics

##### Workforce Movement

The HEIW headcount increased to 505 by the end of Q2, an increase of 28 (5.8%) within the quarter. Primarily this reflects the recruitment of 21 Graduate Management Trainees who have subsequently been seconded to placements in NHS organisations throughout NHS Wales and including HEIW. In addition, there have been new posts in areas including Digital, Simulation and Clinical Skills Support, and Programme Management support to the AHP Transformation team. All new staff continue to be successfully onboarded and inducted whilst working from home, with positive feedback from our new employees.

##### Turnover

The 12-month rolling turnover rate for HEIW at the end of Q2 was 10.5%, which represents a very slight increase from the Q1 figure of 8.56%. There is no set target for turnover and the current rates remain at a healthy level balancing the support of business continuity and organisational memory whilst also bringing in new thinking and new ideas. There are no obvious hot spots where turnover is a major concern.

##### Sickness

HEIW's rolling 12-month sickness rate was 2.2%. This is marginally higher than the Q1 figure when it stood at 1.9%. This is not a significant increase and sickness levels continue to remain substantially below the NHS Wales target of 4.1%.

The ratio between short- and long-term sickness remains relatively constant at around 26%:74% respectively. This means that most days lost due to sickness are related to long-term episodes for a small number of staff. The largest number of days are for reasons of anxiety and stress but again these relate to a very small number of cases and can be reasons which are home or work related. All long-term cases are known and are being sensitively managed with support from the People Team.

## Personal Appraisal Development Review (PADR)

Personal Appraisal Development Review (PADR) forms part of contractual arrangements for staff and is one of the key performance indicators (KPIs) in the NHS Wales Delivery Framework. The target rate for PADR/Appraisal is 85% as recorded on the ESR system. This recognises that factors such as long-term sickness, maternity leave and career breaks would mean that 100% compliance is difficult to achieve. New starters are excluded from PADR compliance figures for the first 3 months in post.

The overall compliance level for HEIW core staff (excluding clinical staff who work 3 sessions or less) remains unchanged from Q1 at 70%. Further detail of HEIW compliance rates is shown in the table below. The compliance rates for the Nursing Directorate have dipped from 75% at the end of Q2 and a deep dive has identified a large gap between completed PADRs and PADRs recorded on ESR. A number of actions have been put into place to address this issue and rectify the current recorded compliance figures.

It is not possible to provide a comparison against October 2020 for Digital, Finance or Planning, Performance and Corporate Services (PPCS). The Digital and PPCS directorates did not exist as separate directorates previously and data for Corporate Services has moved between Finance and PPCS on two occasions since October 2018.

### PADR Completion Rates by Directorate at 30 September 2021

### Statutory & Mandatory Compliance

The NHS Wales delivery Framework requires 85% compliance at a minimum level in the 10 UK Core Skills Framework for NHS Staff, hosted on the ESR system. Most of these learning modules require a 3-year refresher period, although specific modules may differ in this. New starters are excluded from this report for the first 3 months in post.

The HEIW compliance rate for core staff at the end of Q2 was 86%. This represents a further increase on the Q1 figure and has now exceeded the target rate of 85%. Whilst it remains the responsibility of individual staff and managers to ensure that they achieve compliance in

statutory/mandatory training requirements, the People Team and the wider Workforce and OD teams will continue to support and encourage staff in this process.

As with the PADR data and for the same reasons, it is not possible to provide a comparison for the Digital, Finance and Planning, Performance and Corporate Services directorates.

### Statutory & Mandatory Training Rates by Directorate at 30 September 2021

The sessional clinical staff who work for 3 sessions or less are not included in the above figures as their primary employment is predominantly with other employers. They are however still required to undertake a lighter version of appraisal with HEIW to both monitor performance and objectives and to identify relevant training needs. Similarly, with Statutory and Mandatory training where their prime employment is elsewhere, they can provide confirmation of having undertaken the relevant training with their prime employer. For information, currently recorded compliance figures are included within the dashboard. However, it is noted that as part of the implementation of the People and OD Strategy the engagement of sessional and other remote workers will be a key strategic element, part of which will encompass pragmatic and effective ways of addressing PADR and Statutory and Mandatory Training compliance.

### Equality Data

Compliance in recording equality data is 70% at the end of Q2, compared to 68% at the end of Q1 indicating a continuing positive trend of improvement.

### Welsh Language

Compliance in recording Welsh language data has improved slightly in Q2, with the rate increasing to 35%, compared to 34% in Q1.

In Q2, we translated nearly 1.5 million words, taking the total at the mid-year point to 2.5 million words. We expect to exceed 5 million words in 2021/22.

English Catherine  
11/24/2021 14:21:18

## Learning and Development and Staff Events

During Q2, a Learning and Development plan was compiled and approved by the Executive Team. An approach to Project Management has been approved where we are currently working with providers to develop Project Managers using the Prince II Agile methodology. All internal training events are being reviewed and a monthly calendar of events, including a revised induction, has been published on the Learning and Development webpage. All training events will be held on a hybrid basis to assist colleagues who prefer classroom-based training delivery.

The next virtual staff event will take place on Monday 15<sup>th</sup> November with a focus on our collaboration across the NHS in Wales. This will be followed by a Christmas themed staff event in December. It is anticipated that we will be able to host more staff events in person during 2022/23 including a potential Staff Awards event.

## Online communication/engagement

Social media engagement continues to increase showing that we continue to attract new followers. Our Welsh Facebook page has slowly shown an increase in the number of interactions on our posts and several posts on our Welsh twitter have had higher than average engagement.

Following the launch of the new HEIW website in April we are starting to undertake user testing on several areas to help us to continue to improve the site. Website data shows increased page views against the same period last year.

The team have also been busy raising awareness of HEIW successes, which contribute directly to our brand and establishing us as experts and influencers. Successes include press releases, web pages and social media on:

- Pre-Registration Pharmacists top UK rates this year in the GPhC registration 2021 assessment
- Healthcare students and trainees encouraged to get COVID-19 and flu jabs
- Second duty of the Nurse Staffing Levels (Wales) Act 2016 extended to paediatric inpatient wards

The team have also supported dental, medical and pharmacy training events and webinars and reviews of apprenticeship frameworks on Perioperative Support, Maternity and Paediatric Support and Medicines Administration.

## Finance

Due to a number of processing delays in NWSSP the Public Sector Payment Policy (PSP) performance during quarter 2 is lower than in Q1, although the target was still achieved with a cumulative position of 96.6% to the end of September.

HEIW is reporting an underspend of £394k against profiled budgets as at 30th September 2021. The underspend position in Pay budgets is due to a number of vacancies within the establishment. The underspends in Non-Pay budgets are as a result of reduced face to face training and education activity due to the COVID-19 lockdown restrictions. The overspend on Commissioning budgets is as a result an emerging overspend within GP training as a result

of numbers in training and protected salaries offset by known under recruitment of trainees to programmes in Pharmacy, Dental Foundation training and the Medical training grades.

Agency spend is incurred as a result of filling some of the vacant posts in the agreed HEIW structure with agency staff until recruitment processes enable substantive appointments. The cumulative agency costs to the end of September 2021 are 2.2% of total pay costs.

### **Freedom of Information (FOI) Requests**

HEIW received 3 FOI requests in Q2 of 2021/22 and 1 request for an Internal Review. HEIW has closed 11 FOI requests during 2021/22 and answered 10 (91%) of these requests on time (within 20 working days). One FOI received during August was delayed due to the volume of data requested. The Internal Review received during September remains live and within time.

### **Health and Safety**

There were two health and safety accidents, or incidents reported/recorded in Q2. Both were recorded in Datix and investigated to completion.

The COVID risk assessment was reviewed; the current operating model will remain until at least January 2022 in line with the latest government guidelines to work from home where possible and to enable ongoing social distancing in buildings.

Some additional accessibility works have been undertaken in Ty Dysgu:

- The pathway adjacent to the disabled car parking bays has been widened for wheelchair/walker access. This has resulted in the loss of one disabled parking bay, which has been repurposed into a cycle bay. This will be monitored when staff return to the office and an additional disabled parking bay may need to be installed.
- The side of the door opening on the disabled toilet doors has been swapped so that they do not open onto the stairs, which heightened the perception of falling downstairs.

These works were in response to feedback from staff, demonstrating HEIW's commitment to inclusivity and equality.

## **ADRODDIAD Y CYFARWYDDWR CYLLID**

### **1. CYFLWYNIAD**

Mae'r adroddiad yn nodi'r sefyllfa ariannol fel yr adroddwyd ar ddiwedd mis Hydref 2021, yn erbyn cyllidebau wedi'u diweddarau. Mae'r cyllidebau dirprwyedig wedi deillio o Gynllun Adnoddau 2021-22 a luniwyd o Gynllun Blynyddol 2021-22 a gymeradwywyd gan Fwrdd AaGIC a'r llythyr Dyrannu Adnoddau a dderbyniwyd gan Lywodraeth Cymru. Mae sefyllfa ariannol AaGIC fel yr oedd ym Mis 7 yn nodi tanwariant o £838,852, a rhoddwyd gwybod i Lywodraeth Cymru am y sefyllfa hon yn unol â gofynion y ffurflen fonitro a gyflwynwyd.

### **2. CEFNDIR**

Mae'r adroddiad hwn yn rhoi'r wybodaeth ddiweddaraf am y sefyllfa ariannol ar 31ain hydref 2021 ac mae'r adroddiad yn nodi'r rhesymau am unrhyw amrywiad ariannol yn erbyn y cyllidebau a bennwyd. Mae diweddariadau i gynllun ariannol y flwyddyn gyfredol wedi cael eu trafod a'u cytuno â'r Tîm Gweithredol a'r Bwrdd fel rhan o'r Cynllun Adnoddau ac maent wedi cael eu hadlewyrchu yn y sefyllfa a adroddwyd ers mis 2. Mae'r rhain yn cynnwys ailddyrannu cyllid i gydbwyso ymrwymadau'r cynllun ariannol. Mae'r Cyfarwyddwr Cyllid a'i dîm yn bwriadu cynnal ymarferion 'Archwiliad Trylwyr' i'r sefyllfa ariannol bob chwarter. Mae'r rhaglen o ymarferion 'Archwiliadau Trylwyr' yn cael eu cynnal, ac mae'r tîm Gweithredol yn cael gwybod am unrhyw gyfleoedd nad ydynt yn rhai rheolaidd sy'n codi.

### **3. Y CYNNIG**

Gofynnir i'r Bwrdd nodi sefyllfa ariannol AaGIC yn ystod Mis 7, ac ystyried yr esboniadau cryno o'r amrywiadau allweddol a ddisgrifir ar gyfer pob Cyfarwyddiaeth, a'r camau gweithredu sy'n cael eu datblygu er mwyn mantoli'r gyllideb ar ddiwedd y flwyddyn.

### **4. MATERION LLYWODRAETHU A RISG**

Mae dyletswydd ariannol statudol ar AaGIC i fantoli'r gyllideb ar ddiwedd y flwyddyn, a bydd Llywodraeth Cymru yn monitro'r sefyllfa a adroddir o ran y ddyletswydd hon, ac yn erbyn cynllun ariannol y flwyddyn gyfredol a gyflwynwyd yng Nghynllun Blynyddol 2021-22.

### **5. GOBLYGIADAU ARIANNOL**

#### **5.1 Sefyllfa Ariannol Refeniw ym Mis 7**

Mae AaGIC yn nodi tanwariant o £838,852 yn erbyn cyllidebau wedi'u proffilio ar 31ain Hydref 2021. Mae'r tanwariant yn y cyllidebau Cyflogau yn ganlyniad i swyddi gwag yn y sefydliad. Dylid nodi bod rhywfaint o ad-drefnu cyllidebau i gydbwyso'r cynllun ariannol wedi digwydd ar ddechrau'r flwyddyn. Mae'r cynllun ariannol yn cynnwys dyraniadau disgwylidig gan Llywodraeth Cymru, fel y nodir yn y Cynllun Adnoddau, sydd yn dilyn ailasesu gofyniad yn ystod y flwyddyn yn dod i gyfanswm o £2.576m. Mae Llywodraeth Cymru wedi anfon gohebiaeth yn ystod y mis yn cadarnhau bod

dyraniad ychwanegol o £1.502m wedi'i gytuno a bydd y dyraniad yn cael ei weithredu ym mis wyth.

Mae'r tanwariant mewn cyllidebau heb fod yn ymwneud â chyflog yn ganlyniad i lai o hyfforddiant wyneb yn wyneb a gweithgarwch addysg yn deillio o gyfyngiadau symud COVID-19, ac mae cyllidebau heb fod yn ymwneud a chyflog hefyd wedi cael eu had-drefnu i gydbwysu'r cynllun ariannol. Mae'r tanwariant ar gyllidebau Comisiynu yn ganlyniad i danrecriwtio myfyrwyr ar gyrsiau a hyfforddeion Gweithwyr Gofal Iechyd Proffesiynol mewn rhaglenni ym maes Fferylliaeth, Deintyddol, hyfforddiant Sefydliad Meddygon Iau a'r graddau hyfforddiant Meddygol. Mae'r tanwariant yn cael ei wrthbwysu'n rhannol gan hawliadau teithio a chynhaliadau gan Fyfyrwyr Gofal Iechyd Proffesiynol, cynnydd yn nhaliadau'r DSA a chynnydd yn y gwariant ar gostau hyfforddi meddygon teulu sy'n gysylltiedig ag estyniadau a chyflogau wedi'u gwarchod.

Rhoddwyd gwybod am sefyllfa ariannol mis 7 i Lywodraeth Cymru ar ddiwrnod 5, a thrwy'r ffurflen fonitro a gyflwynwyd ar ddiwrnod 9, yn unol ag amserlen adrodd ofynnol Cylchlythyr Iechyd Cymru. Mae'r Ffurflen Fonitro a gyflwynwyd i Lywodraeth Cymru wedi'i chynnwys yn Atodiad 2.

Mae'r tabl isod yn dangos yr amrywiant lefel uchel ar gyllidebau dirprwyedig y Cyfarwyddwyr Gweithredol.

Mae'r dadansoddiad sydd wedi'i atodi yn Atodiad 1 yn nodi'r prif resymau am y tanwariant, gan y Gyfarwyddiaeth. Y prif resymau dros yr amrywiadau o ran tanwario yw swyddi gwag yn erbyn lefelau staffio y cyllidebwyd ar eu cyfer mewn Cyllidebau Cyflogau, costau is gweithgareddau cefnogi addysg a hyfforddiant a threuliau teithio staff is mewn cyllidebau nad ydynt yn ymwneud a chyflogau.

Fel ym mis 7 yn dilyn y broses chwarterol o ymarferion archwiliadau trylwyr, rhagwelwyd tanwariant o £3.1m.

Disgwylir y bydd AaGIC yn llwyddo i sicrhau cydbwysedd ariannol cyffredinol ar ddiwedd y flwyddyn drwy gymryd y camau canlynol.

Ymrwymadau ychwanegol mewnol ar gyfer gwariant nad yw'n rheolaidd cyn 31<sup>ain</sup> Mawrth, amcangyfrifir bod y rheini y cytunwyd arnynt ar hyn o bryd yn £412k. Bydd rhagor o gyfleoedd ar gyfer buddsoddiad heb fod yn rheolaidd i gefnogi amcanion AaGIC yn cael eu harchwilio a'u cynyddu.

Bwriedir hefyd cynnig cyfle i Brifysgolion sy'n contractio gael mynediad at gronfa atodol o hyd at £1.5m i gyd. Dylid defnyddio hyn i alluogi myfyrwyr sy'n cael eu haddysgu yng Nghymru i gael mynediad at gyfleusterau modern sy'n eu paratoi ar gyfer gyrfa yng Nghymru ar ôl graddio. Bydd yn bwysig sicrhau bod themâu allweddol y contractau yn cael eu gwreiddio mewn rhaglenni addysg, a dylai ffocws unrhyw gais gan Brifysgol gynnwys un neu ragor o'r canlynol:

- Y sgiliau digidol presennol ac yn y dyfodol sydd eu hangen gan y gweithlu iechyd a gofal a'u hymgorffori mewn rhaglenni addysg. Mae adolygiad Topol (2019) yn gwneud nifer o argymhellion ar gyfer paratoi gweithlu gofal iechyd y dyfodol – "O fewn pum mlynedd, sicrhau bod yr addysg a'r hyfforddiant ar gyfer gweithwyr y dyfodol yn eu harfogi i gyflawni eu potensial llawn fel staff yn y GIG gyda gwell technoleg."
- Rhaid i weithwyr gofal iechyd proffesiynol y dyfodol ddeall posibiliadau technolegau gofal iechyd digidol ynghyd â'r ystyriaethau moesegol a'r ystyriaethau o ran diogelwch cleifion
- Gwnewch yn siŵr fod myfyrwyr yn meithrin lefel briodol o lythrennedd digidol ar ddechrau eu hastudiaethau ar gyfer eu darpar lwybr gyrfaol
- Buddsoddi mewn VR i wella sgiliau a chyfleoedd dysgu myfyrwyr

- Ehangu cyfleusterau dysgu drwy efelychu
- Cynyddu a chryfhau lleoliadau mewn gofal Sylfaenol, Cymdeithasol a Chymunedol
- Cefnogi myfyrwyr o gefndiroedd difreintiedig
- Ehangu mynediad at addysg

Bydd ffocws ar ddysgu rhyngbroffesiynol ond hefyd ar sut y gellir cyflawni hyn i gefnogi a pharatoi myfyrwyr ar gyfer ymarfer mewn amgylchedd tîm amlddisgyblaethol.

Bydd panel arfarnu yn cael ei sefydlu a fydd yn cynnwys staff o'r Tîm Comisiynu Addysg, y Gyfarwyddiaeth Ddigidol a Chyllid a Thîm Efelychu AaGIC.

Bydd dyrannu cyllid i brifysgolion yn dilyn proses drylwyr yn erbyn set o feini prawf y cytunwyd arnynt. Mae maen prawf tryloyw a theg wedi cael ei roi ar waith. Mae'r amodau cyllido cadarn hyn yn rhagnodol er mwyn bodloni unrhyw broses archwilio a chraffu allanol.

Mae'r broses wedi'i rhannu'n 2 brotocol mesur,

1. **Meini prawf craidd** – rhaid cyflawni pob un. Mae'r hanfodion sylfaenol hyn yn rhai y mae'n rhaid glynu wrthynt heb fethu.

Na	Meini prawf craidd – Rhaid cyflawni pob un
1.	Bydd cyllid ond yn cael ei roi drwy ddull heb fod yn un rheolaidd
2.	Ni fydd y comisiynydd yn cytuno ar unrhyw gostau rheolaidd fel rhan o'r cynnig. Rhaid i'r Brifysgol dalu unrhyw gostau rheolaidd sy'n gysylltiedig â dyfarniad cyllid nad yw'n rheolaidd
3.	Nodi a yw'r cynnig yn un mae modd ei rannu - hy mae modd dyfarnu elfennau o'r cynnig yn ogystal â'r cyllid llawn
4.	Rhaid i'r cynnig gael ei gyflwyno ar y templed AaGIC sy'n cael ei ddarparu a'i lofnodi gan Bennaeth yr Ysgol
5.	Rhaid defnyddio'r cyllid yn y flwyddyn ariannol y cafodd ei ddyfarnu
6.	Rhaid darparu amserlenni costau manwl gyda'r cynnig

2. **Meini prawf budd i fyfyrwyr** – Amcanion lle ceir budd mesuradwy clir ac wedi'i ddiffinio i'r myfyrwyr, rhaid cyflawni o leiaf un yn gynhwysfawr yn ystod y cyfnod cyflwyno.

Na	Meini prawf budd i fyfyrwyr - rhaid cyflawni 1 neu fwy
1.	Rhoddir blaenoriaeth i gynigion sydd o fudd i fwy nag un grŵp o fyfyrwyr – rhaid cynnwys cyfeiriadau at ddarpariaeth addysg amlddisgyblaethol

2.	Rhoddir blaenoriaeth i gynigion sy'n croesi gyda Gofal Sylfaenol ac sy'n datblygu cysylltiadau / perthnasoedd / cyfleoedd lleoliad gyda Gofal Sylfaenol a Gofal Cymdeithasol
3.	Rhoddir blaenoriaeth i gynigion sy'n ehangu mynediad, ac sy'n darparu dulliau darparu hyblyg
4.	<p>Rhaid gallu mesur y budd i'r myfyrwyr. Lle bo'n briodol, rhaid dangos gwerth ar draws:</p> <ul style="list-style-type: none"> <li>○ Llwybrau myfyrwyr</li> <li>○ Dysgu ar y cyd</li> <li>○ Cydweithio â'r Gwasanaeth</li> <li>○ Arbedion effeithlonrwydd ariannol</li> <li>○ Arbedion effeithlonrwydd busnes</li> <li>○ Profiadau myfyrwyr</li> <li>○ Cysylltiadau â Gofal Sylfaenol</li> </ul>

Hefyd,

- Bydd prifysgolion yn cael gwybod yn benodol na fydd AaGIC yn ariannu unrhyw gostau rheolaidd o ganlyniad uniongyrchol i gais llwyddiannus am grant heb fod yn rheolaidd.
- Bydd AaGIC angen cadarnhad gan Gyfarwyddwr Cyllid y Brifysgol y bydd yr holl gyllid a dderbynnir yn cael ei wario'n llawn erbyn 31<sup>ain</sup> Mawrth 2022.

Drwy ddeialog reolaidd barhaus gyda chydweithwyr Cyllid Llywodraeth Cymru, byddwn yn cynnal ymwybyddiaeth o'r sefyllfa a'r cynlluniau a ragwelir a bydd adnoddau nad oes disgwyl iddynt gael eu defnyddio yn cael eu cynnig a'u dychwelyd i Lywodraeth Cymru os bydd angen i sicrhau bod y defnydd gorau o adnoddau'n cael ei wneud ar gyfer GIG Cymru.

## 5.2 Cyllid Comisiynu

Dylid nodi bod cyllidebau Comisiynu yn seiliedig ar y carfannau presennol o fyfyrwyr yn y system a nifer y myfyrwyr a gomisiynwyd ar gyfer 21/22.

## 5.3 Gwariant Cyfalaf

Mae gan AaGIC ddyraniad cyfalaf o £100k ar gyfer 2021/22. Cafodd £15k o gyfarpar ei dderbyn a'i dalu amdano yn ystod mis Gorffennaf 2021. O ganlyniad i dwf AaGIC, mae'n ofynnol caffael asedau TG ychwanegol. Mae cynnig a fydd yn defnyddio'r rhan fwyaf o'r dyraniad sy'n weddill yn cael ei baratoi ar hyn o bryd i'w ystyried gan y Tîm Gweithredol.

Yn ystod mis Hydref, uwchraddiwyd system ariannol Oracle ar draws GIG Cymru. Casglwyd cyllid ychwanegol yn ystod y mis i ddod â dyddiad talu unrhyw anfonebau

a gymeradwywyd ar y system ymlaen rhag ofn y byddai problemau neu oedi gyda'r uwchraddio. Roedd gwerth anfonebau heb eu talu ar y system yn llai na'r disgwyl, ac felly £2.5m oedd balans y banc ar ddiwedd y mis.

## 5.5. Polisi Taliadau'r Sector Cyhoeddus

Disgwylir i holl gyrff y GIG fodloni Polisi Taliadau'r Sector Cyhoeddus, sy'n golygu ei bod yn rhaid i bob sefydliad dalu 95% o'r holl anfonebau nad ydynt yn rhai GIG cyn pen 30 diwrnod (yn ôl nifer). Ar gyfer y cyfnod rhwng mis Ebrill a mis Hydref 2021, roedd AaGIC wedi talu 96.91% o anfonebau heb fod yn rhai'r GIG ac 87.67% o anfonebau'r GIG o fewn 30 diwrnod.

## REPORT OF THE DIRECTOR OF FINANCE

The following analysis of the key underspends, by Directorate, is provided below: -

### 1. Board and Executives

- An underspend of £23,695 as a result of vacancies in the Welsh Translation Team and vacant IM and receptionist posts. These are offset in part by agency cover in the PA team.
- An overspend on Non-Pay of £25,264 is due to an increase in demand and cost in respect of translation services offset by lower than budgeted travel, catering, room hire and training expenses due to the Covid-19 pandemic and lockdown.

### 2. Finance.

- The pay budgets show an underspend of £23,650 due to vacancies at band 3 and 5, the band 5 vacancy is currently covered by an agency member of staff, and recharge of support costs for the OCDO.
- There is a favourable variance of £5,369 in Non-Pay that is predominantly related to lower than anticipated travel and subsistence costs and lower than budgeted bank charges.

### 3. Planning, Performance and Corporate Services

- The Pay budgets are underspent at month 7 by £12,227 as a result of 2 wte vacant posts, offset by agency spend as posts are filled by agency workers.
- There is an underspend of £42,243 against non-pay budgets as a result of savings in utilities costs and other variable costs associated with Ty Dysgu because of the home working model.

### 4. Digital and IT

- There is an overspend against the pay budgets set of £9,809 as a result spend on agency staff to support the team due to 5 vacancies long term sickness. Appointments have been made to four posts with start dates agreed.
- There is an underspend against non-pay budgets of £12,990 due to VAT savings on Intrepid licences and reduced travel because of the COVID-19 pandemic offset in part by an increase in Microsoft EA licence numbers above plan.

English Catherine  
11/24/2021 14:21:18

## 5. Medical and Pharmacy

- There is an adverse variance of £58,958 against the other income target as a result of lower than anticipated income from revalidation and CPD courses for Dentists and GPs.
- The underspend on pay of £21,353 is as a result of a number of administration and clerical vacancies across a range of teams which are partly offset by agency costs. The reduction in pay underspend in comparison to previous months is due to the transfer of responsibility for budgets and spend in respect of the clinical leadership fellows to the Workforce Directorate.
- Non-pay budgets are underspent by £264,987 as a result of reduced training and travel expenses amounting to £155,325, catering and room hire by £24,501 and other costs including printing and stationery and licences due to a reduction in activity due to the pandemic. There is also a £34,953 underspend as a result of lower than budgeted recharges from Health Boards for TPD payments and faculty leads, £28,014 as a VAT reclaim on library services, and £20,095 underspend due to a SAS tutor vacancy in ABUHB.
- Commissioning budgets are underspent by £84,318 year to date. The underspend is predominantly due to under-recruitment to training grade posts amounting to £286,338 and £637,510 of underspend in Pharmacy budgets. There is also an underspend in the GP Induction and Returners budget amounting to £20,182. These underspends are offset by an overspend in the GP training programme budget, which amounts to £937,466 because of additional numbers in the programme, extensions granted to training and the costs of protected salaries and higher increments.

## 6. Nursing

- An underspend of £172,154 has been reported against Pay budgets at month 7 because of a delay in appointing to the Head of Placement post, and the Professional standards role and a further 9 wte posts that are vacant or have been vacant during the year.
- Non-Pay budgets are mainly provided for Commissioning expenditure on education and training contracts, student salary and bursary costs along with disability payments, training, travel and subsistence and expenses.
- It should be noted that the Commissioning budget is based on the existing student cohort in the system and the commissioned student numbers for 21/22. An underspend position is reported at month 7 of £155,588 and is related to the following factors:
  - DSA costs and student travel costs remain high due in part to extensions agreed as a result of delays in placement activity due to COVID 19.
  - In respect of student bursary extensions have been agreed for some HEIs to meet requirements for additional time to complete

English, Catherine  
11/24/2021 14:21:18

courses but numbers taking the bursary have decreased creating an underspend.

- The spend on contracts with HEIs has been updated for the latest information for the new academic year and any variation from the planning assumptions in respect of attrition is reflected in the position. This is creating an underspend as at month 7 due to the year 2 and 3 returning students, the full impact of the new academic year and recruitment will not be known until the end of the 10 week cooling off period.
- The other non-pay budgets are related to travel and subsistence and other expenses of the Nursing team which are of minimal value and an underspend of £8,610 is reported in month 7 predominantly due to reduced travel costs and a credit note in respect of 20/21 expenditure.

## 7. Human Resources and Organisation Development

- There are 13 wte vacancies within the core budgets of the Directorate contributing to the £130,833 underspend in month 7. There has also been a transfer of responsibility, budgets and spend for clinical leadership fellows into the Directorate in month. Due to vacancies within the fellows programme this has increased the pay underspend significantly. The vacancies are at various stages in the recruitment process, and one will remain vacant until the secondments to establish the OCDO team ends.
- A Non-Pay overspend variance of £25,159 as a result of organisational development and leadership expenditure whereby it is our assumption that these costs will be funded by additional allocation from WG. The overspend is offset in part by limited travel and the inability to hold in person staff conferences due to the pandemic.

# Structured Assessment 2021 (Phase Two) – Corporate Governance and Financial Management Arrangements: Health Education and Improvement Wales

Audit year: 2021

Date issued: October 2021

Document reference: 2659A2021-22

English Catherine  
11/24/2021 14:21:18

This document has been prepared for the internal use of Health Education and Improvement Wales as part of work performed in accordance with statutory functions.

The Auditor General has a wide range of audit and related functions, including auditing the accounts of Welsh NHS bodies, and reporting to the Senedd on the economy, efficiency, and effectiveness with which those organisations have used their resources. The Auditor General undertakes his work using staff and other resources provided by the Wales Audit Office, which is a statutory board established for that purpose and to monitor and advise the Auditor General.

Audit Wales is the non-statutory collective name for the Auditor General for Wales and the Wales Audit Office, which are separate legal entities each with their own legal functions as described above. Audit Wales is not a legal entity and itself does not have any functions.

# Summary report

## About this report

- 1 This report sets out the findings from phase two of the Auditor General's 2021 structured assessment work at Health Education and Improvement Wales (HEIW). Our structured assessment work is designed to help discharge the Auditor General's statutory requirement to be satisfied that NHS bodies have made proper arrangements to secure economy, efficiency, and effectiveness in their use of resources under section 61 of the Public Audit (Wales) Act 2004. Our 2021 structured assessment phase one report considered HEIW's operational planning arrangements and how these are helping to lay the foundations for effective recovery.
- 2 The COVID-19 pandemic required NHS bodies to quickly adapt their corporate governance and decision-making arrangements to ensure timely action was taken to respond to the surge in emergency COVID-19 demand and to ensure the safety of staff and patients. Our 2020 structured assessment report considered HEIW's revised governance arrangements and was published in October 2020.
- 3 NHS bodies have continued to respond to the ongoing challenges presented by COVID-19, whilst also starting to take forward plans for resetting and recovering services affected by the pandemic. Our 2021 structured assessment work, therefore, was designed in the context of the ongoing response to the pandemic thus ensuring a suitably pragmatic approach to help the Auditor General discharge his statutory responsibilities whilst minimising the impact on NHS bodies as they continued to respond to COVID-19.
- 4 Phase two of our 2021 structured assessment has considered how corporate governance and financial management arrangements have adapted over the last 12 months. The key focus of the work has been on the corporate arrangements for ensuring that resources are used efficiently, effectively, and economically. We have also considered how business deferred in 2020 has been reinstated and how learning from the pandemic is shaping future arrangements for ensuring good governance and delivering value for money. We have also sought to gain an overview of the Board's scrutiny of the development and delivery of HEIW's 2021-22 Annual Plan.
- 5 We have provided updates on progress against any areas for improvement and recommendations identified in previous structured assessment reports.

## Key messages

- 6 Overall, we found that **HEIW is well governed with clear, effective arrangements to manage its finances.**
- 7 HEIW continues to have good arrangements to conduct Board and committee business effectively and is proactively managing current and future independent member vacancies. HEIW has good systems of assurance. Arrangements to

manage risk and audit recommendations are strong. And the organisation is taking steps to improve its quality management processes relating to training and education. The 2021-22 Annual Plan received appropriate Board approvals and reflected Welsh Government feedback, and the organisation continues to balance supporting NHS-wide recovery whilst delivering education and training.

- 8 HEIW manages its financial resources well and has good arrangements to monitor and report its financial activity. The organisation met its financial duties at the end of 2020-21 and has a clear financial plan for 2021-22. HEIW continues to have strong and transparent systems of financial control to monitor financial activity and prevent and respond to fraud. Financial monitoring and reporting is clear and timely, but there is opportunity to analyse and report on cost benefits, outcomes, and impact of spend.

# Detailed report

## Governance arrangements

- 9 Our structured assessment work considered HEIW's governance arrangements while continuing to respond to the challenges presented by the pandemic.
- 10 We found that **HEIW continues to have effective Board and committee arrangements and good systems of assurance and is improving its training and education quality management arrangements.**

## Conducting business effectively

- 11 We found that **HEIW has effective Board and committee arrangements and is proactively managing current and future independent member vacancies.**
- 12 The COVID-19 pandemic continues to place restrictions on public meetings, but as reported in our 2020 Structured Assessment, HEIW has maintained public access to Board business. Board and committee meetings continue to be held virtually, with Board meetings live streamed. Positively, in July 2021, HEIW also started to live stream Board committee meetings. Members of the public can join the live webcast or recordings are available on HEIW's YouTube channel after the meeting. HEIW reported that virtual working has increased levels of public engagement, for example 70 people registered to dial into this year's Annual General Meeting, and all attendees were encouraged to ask questions.
- 13 Our observations of Board and committee meetings found that meetings are well managed by chairs who are now more experienced at chairing virtual meetings. Members and attendees are now familiar with virtual meeting etiquette which ensures meetings run smoothly. Meeting agendas are appropriate, balanced and allow good time for discussion. HEIW has an experienced Board, and all members continue to engage and fully participate in meetings. There is a healthy relationship between executive and independent members, with the latter providing healthy challenge, whilst also offering encouragement. Meetings are well supported by the corporate governance team, two IT officers and a Welsh language officer. HEIW's register of interest for the Board is up to date and published on its website.
- 14 HEIW continues to have clear standards for managing Board and committee papers, such as publishing papers in advance of meetings and preparing minutes soon after meetings take place. These standards are complied with most of the time. Meeting papers are circulated seven days in advance, which independent members generally felt left enough time to review the papers. However, some independent members felt the papers could be more concise, this is something HEIW is working to improve. Last year, HEIW started to publish short meeting summaries and unconfirmed minutes within 14 days of the meeting. Overall, these arrangements have continued, however, since Board meetings are live streamed and recording made available, the Board meeting summaries are no longer necessary, so HEIW has stopped producing them. HEIW continues to produce high quality meeting papers, with good coverage of strategic, governance,

performance, and assurance matters. To improve standards further, in March 2021 the Board secretary ran a corporate governance training course for the Senior Leadership Team and delivered a session on writing papers for the Board and committees.

- 15 The Board remains committed to learning and improvement. The Board and its committees continue to conduct effectiveness reviews, this year most took place in quarter four. Each Board and committee member completed an individual effectiveness survey, and the results informed improvement plans. Generally, independent members felt their learning and development is well supported. For example, they have an annual appraisal, bi-monthly Board development sessions, which they have a say in shaping, ad-hoc training such as recent training on whistleblowing procedures and can request training. But some members felt that the programme of regular training needs further development to also include personal development in areas where individual independent members are required to provide specialist expertise.
- 16 HEIW has a relatively stable independent member cohort, however it has been holding a vacancy since March 2021. Recruitment was delayed because of the Senedd elections but has now restarted. In the interim, duties have been spilt amongst existing members. HEIW will recruit two independent members as the Vice Chair will retire at the end of January 2022. From next year, HEIW will need to replace one independent member per year as individuals' terms come to an end. HEIW should ensure it is well prepared by ensuring it has a comprehensive induction and training programme in place for independent members.
- 17 HEIW has a full complement executive team, having made three executive level appointments over the last 18 months: the Director of Nursing and Health Professional Education, Director of Planning, Performance and Corporate Services and the Director of Digital Development<sup>1</sup>. Of the three new appointments, two are secondments meaning that of the eight executive directors, four are secondees. In addition, the Director of Finance is due to leave at the end of December 2021. In May 2021, Audit and Assurance Committee members raised concerns about the number of seconded senior members of staff and reference is also made in the annual governance statement. Unless managed well this could be destabilising for the Executive Team. HEIW explained that whilst it is taking steps to reduce the number of secondees, it sees secondments as beneficial to the organisation by bringing in external perspectives, and beneficial to the secondee by offering a development opportunity. Actions are in hand to replace the temporary Director of Finance role with a permanent appointment.
- 18 Last year, in response to the pandemic, HEIW made very few changes to its governance arrangements, largely maintaining business as usual, so has not had to reinstate any processes and procedures. The Crisis Management Team was

<sup>1</sup> The Director of Planning, Performance and Corporate Services and the Director of Digital Development are members of the Executive Team but are not Board members.

established in March 2020 to focus on HEIW's operational response. Over the course of the year, the team was stood down or met less frequently to reflect need. At the time of writing this report, the team had just been reinstated as COVID-19 case numbers were rising.

- 19 During 2021, HEIW has been planning for a significant addition to its remit. From April 2022, HEIW will be hosting the Office of the Chief Digital Officer for Health and Care<sup>2</sup>. Under these arrangements, HEIW will provide core corporate governance services to the Chief Digital Officer and their office of behalf of Welsh Government. These services include corporate governance, workforce and organisational development, financial management support, procurement, information technology and Welsh language services. In June 2021, HEIW established a project team to oversee the set-up of the Office of the Chief Digital Officer, this includes recruiting a Chief Digital Officer and about 30 staff. A programme project board has also been set up with Welsh Government. To ensure independent members feel informed about this development, the Board received an update at its July 2021 meeting and members have also received separate informal briefings. Until the hosting arrangement goes live, it is difficult to say what impact it will have on HEIW's resources. This is something HEIW will need to keep under review.

## Planning for recovery<sup>3</sup>

- 20 We found that **the Annual Plan received appropriate Board approvals and reflected Welsh Government feedback. The organisation continues to balance supporting NHS-wide recovery whilst delivering education and training.**
- 21 The Board discussed the draft 2021-22 Annual Plan at its March 2021 meeting and approved it for submission to Welsh Government for feedback. Welsh Government's feedback on the draft was largely positive. It noted that the plan was ambitious, there was a strong focus on reducing inequalities and there was alignment between strategic objectives and the workforce strategy. Welsh Government also highlighted some areas that could be strengthened, such as reflecting HEIW's ongoing national role in workforce recovery and planning and engagement with stakeholders to ensure alignment with, and across, the health system. The final Annual Plan, including additions to address Welsh Government

<sup>2</sup> A new entity within NHS Wales, with a 'whole system' remit to support digital transformation across health and care in Wales.

<sup>3</sup> NHS bodies are required to submit a three-year Integrated Medium-Term Plan (IMTP) to the Welsh Government on an annual basis. The IMTP process for 2020-23 was paused by the Welsh Government in March 2020, to allow NHS bodies to focus on responding to the COVID-19 pandemic. Instead, health bodies were required to submit quarterly plans during 2020-21 as well as prepare an annual plan for 2021-22 by 31 March 2021. Our 2021 structured assessment phase one report considered HEIW's operational planning arrangements.

feedback was approved by the Board in June 2021 and submitted to Welsh Government within the required timeframe. As with HEIW's 2020-21 quarterly plans, the Annual Plan set out the organisation's aims for supporting wider NHS Wales COVID-19 recovery along-side ensuring the delivery of training and education.

- 22 Our phase one Structured Assessment found that HEIW has effective arrangements to oversee delivery of its operational plans, which reflected its recently approved Performance Framework. The Performance Framework outlines a quarterly cycle of Board reporting. As expected, in September 2021, the Board received the quarter one integrated performance report which includes an update on progress against milestones outlined in the Annual Plan. As at quarter one, HEIW had made good progress against most of the 59 milestones; 33 were complete or on track (green), 23 were off track but recoverable within the quarter (amber) and 3 were off track and not recoverable within the quarter (red).

## Systems of assurance

- 23 We found that **HEIW has good arrangements to manage risk and audit recommendations and is improving quality management processes to provide assurance on the quality of its training and education.**

## Managing risk

- 24 We found that **HEIW has continued to improve its risk management arrangements and maintained oversight of strategic and operational risks.**
- 25 HEIW's Board Assurance Framework (BAF) documents the organisation's strategic risks and control mechanisms. It reflects the six strategic aims set out in its 2021-22 Annual Plan and 2020-23 integrated medium-term plan (IMTP). It identifies seven strategic risks which reflect the challenge posed by the on-going pandemic as well as non-COVID risks. The BAF is reviewed annually by the Board and Audit and Assurance Committee. The Board reviews and approves its risk appetite annually, the last time being in January 2021. No significant changes were made.
- 26 In 2019, we found that whilst HEIW had developed its BAF, it needed to better map assurance and controls to support the BAF. It is pleasing to see that in July 2021 the Audit and Assurance Committee received the BAF Strategic Risks Control Framework. The document clearly identifies and maps the controls and key sources of assurance against HEIW's strategic risks. At the Audit and Assurance Committee it was suggested that identified gaps in assurance should be considered by the committee whilst the gaps in assurance are closed. The document forms part of the BAF so will be reviewed regularly by the Audit and Assurance Committee.
- 27 Last year we found that the Audit and Assurance Committee scrutinises the corporate risk register at its in-committee sessions. For transparency, we recommended that unless risks are of a sensitive nature, the corporate risk register

should be considered at the public Audit and Assurance Committee session, this is now a regular occurrence. We consider this recommendation closed. The corporate risk register is reviewed at each Audit and Assurance Committee and annually by the Board. The document has a clear format, detailing the risk reference, date added, risk appetite for each risk, mitigating actions, inherent and residual risk, RAG status and progress. Changes to risk scores are detailed in the cover paper. It is encouraging to note that in April 2021 internal audit issued a 'substantial assurance' report on its follow-up review of risk management, an improvement on its previous 'reasonable assurance' rating.

## Quality and safety assurance

- 28 We found that **HEIW understands the importance of strong quality governance and is taking the necessary steps to enhance and improve systems and processes.**
- 29 Whilst HEIW does not deliver patient facing services, it recognises the importance of delivering good quality training for the safety of its students and NHS patients. Last year we found that HEIW maintained oversight of the quality and safety of its training throughout the pandemic. This year, HEIW is working to improve its quality assurance processes for training and education. It recognised processes for training in areas such as medicine are mature and well established, but less so for the training of other health professionals. As such HEIW is in the process of developing a quality framework which will span all professions. The advantage of this approach is that it will standardise quality management processes, ensure consistent terminology and allow information to be shared more effectively. This is a positive development, though early days. The Education Commissioning and Quality (ECQ) Committee received initial proposals in September 2021.
- 30 ECQ Committee continues to provide quality assurance to the Board. Last year we questioned whether quarterly meetings were adequate both for regular business and at times of crisis when quality and safety issues are critical. Since then, the ECQ Committee has established two sub-groups: the Internal Multi-Professional Education Group (IMPEG) and the External Education Group (EEG). To date the sub-groups have met twice each. Initial feedback suggests that the IMPEG is working well but the EEG might be more effective as a stakeholder review group. This proposal is due to be discussed by the Board in November 2021.
- 31 HEIW intended to produce an Annual Quality Statement (AQS) for 2020-21, but Welsh Government advised the organisation not to produce a separate statement. Instead, in 2020-21 the quality statement was incorporated in the Annual Governance Report. This is likely to be the case for 2021-22 as well.
- 32 In January 2021, the Board approved HEIW's complaints policy, which is tailored from the standard all-Wales complaints policy to reflect HEIW's role as an education and training provider. Welsh Government is keen for the all-Wales putting things right and duty of candour policies to apply to HEIW. Both are geared towards patient facing services, so any guidance will need to be adapted to bear

relevance to HEIW's remit. HEIW is currently liaising with Welsh Government to understand its expectations.

## Tracking progress against audit and review recommendations

- 33 We found that **HEIW continues to have robust arrangements for tracking the progress of audit recommendations.**
- 34 HEIW continues to have robust arrangements for tracking audit recommendations. The audit recommendations tracker is reviewed at each Audit and Assurance Committee and provides a progress update against internal and external audit recommendations. The tracker uses a RAG system to highlight which recommendations are overdue, not due yet and complete. The Committee agrees whether it is content that the action taken against green (complete) recommendations is sufficient so that they can be taken off the register. A cover sheet accompanying the tracker gives an overview position.
- 35 The organisation has one outstanding Structured Assessment recommendation from 2019. This relates to developing and reporting IT key performance indicators (KPIs) for scrutiny and challenge. Progress reported to the October 2021 Audit and Assurance Committee stated that monthly performance meetings are scheduled to review performance and develop KPIs. At the same meeting, it was confirmed that HEIW's Digital Strategy will be a deliverable for 2022-23, meaning our recommendation related to developing and approving a digital and IT strategy is complete.

## Managing financial resources

- 36 Our work considered HEIW's financial performance, financial controls and arrangements for monitoring and reporting financial performance.
- 37 We found that **HEIW manages its financial resources well and has good arrangements to monitor and report its financial activity.**

## Achieving key financial objectives

- 38 We found that **HEIW achieved its financial duty for 2020-21 and has a clear financial plan for 2021-22.**
- 39 HEIW met its first financial duty to ensure that it did not exceed the aggregate of funding allotted to it for the financial year. It achieved an underspend of £95,000 against its revenue resource limit of £234.8 million and an underspend of £21,000 against its capital resource limit of £105,000.
- 40 HEIW's first IMTP (2020-23) was deemed approvable by Welsh Government, but in Spring 2020 the IMTP process was paused because of the pandemic. A temporary quarterly planning arrangement was put in place for all NHS bodies for 2020-21, with their 2019-20 planning duty running on into 2020-21. HEIW was

therefore not subject to a second financial duty for 2020-21 there being no extant administrative duty in place.

- 41 Like other health bodies, COVID-19 is having an impact on HEIW's expenditure and service delivery. At the end of month 5, the organisation reported a £311,545 underspend against its profiled budget. This is mainly due to lockdown restrictions reducing face to face training and the holding of some vacancies. However, HEIW is forecasting a break-even position at year-end 2021-22. HEIW is not required to deliver a cost improvement plan.
- 42 Encouragingly, HEIW's Annual Plan clearly sets out its financial approach and includes a five-year financial plan, running from 2021-22 to 2025-26. As required by Welsh Government, the Annual Plan is accompanied by the relevant minimum data sets.

## Financial controls

- 43 We found that **HEIW continues to have strong and transparent systems of financial control to monitor financial activity and prevent and respond to fraud.**
- 44 HEIW has robust financial systems and controls, which have not changed significantly since last year. The organisation has reviewed and amended its standing orders (SO) and standing financial instructions (SFI) to reflect the model SO and SFIs issued by Welsh Government, both documents were approved by the Audit and Assurance Committee in July 2021. The Committee also reviewed and approved proposed changes to the delegated financial limits.
- 45 The organisation is transparent about counter-fraud and procurement compliance, with the Audit and Assurance Committee receiving updates at most meetings. In May 2021, the Board received the procurement compliance annual report, covering April 2020 to March 2021. The compliance report details what type of action was taken, for example single quotation actions, single tender action or contract extension, and the reason it was taken. The explanations provided are clear and provide enough detail to understand the rationale.
- 46 In January 2021, HEIW received a reasonable assurance internal audit report on financial systems. The review covered the asset register, cash management, general ledger, income and debtors and manual payments. The review made seven recommendations, with only one high priority relating to ensuring that HEIW keeps an inventory list for all its assets, and each has a named asset manager.

## Monitoring and reporting

- 47 We found that **HEIW's financial monitoring and reporting continues to be clear and regular, but there is an opportunity to include analysis on cost benefits, outcomes, and impact of spend.**
- 48 The Board continues to receive timely monthly financial reports, either through Board meetings or circulated separately in months between Board meetings. The monthly financial report gives a clear overview of the latest financial position, covering the revenue financial position, commissioning funding, capital expenditure, balance sheet and performance against the public sector payment policy. A more detailed supporting report provides analysis of variation by directorate. In addition to the finance report, the Board receives a copy of the monthly monitoring report as submitted to Welsh Government, which aligns with the finance report. Independent members were very complementary about the financial information they receive but felt that reporting could be further matured by including analysis on cost benefits, outcomes, and impact of spend.
- 49 In June 2021, the Audit and Assurance Committee received the annual Audit of Accounts Report which found no significant issues.

## HEIW Structured Assessment (Phase 2) – Clearance comments log

Ref	HEIW comment	AW response
Para 14	I have in fact delivered a session on writing reports to members of the SLT. Please update the para at it states there are plans to do so.	Noted. Sentence updated to read: To improve standards further, in March 2021 the Board secretary ran a corporate governance training course for the Senior Leadership Team and delivered a session on writing papers for the Board and committees.
Para 17	Please note that the Director of Planning and Director of Digital are not full Exec Directors. They are members of the Executive Team but are not Board members (we would need to change the regs relating to HEIW to increase the number of Exec Directors. There is a full explanation of the situation in the annual report. Happy to discuss should you have any queries.	Noted. I have added a footnote to the bottom of page 7, which reads: The Director of Planning, Performance and Corporate Services and the Director of Digital Development are members of the Executive Team but are not Board members.
Para 27	We would rather not change the CRR to record the direction of the risk as this is already included in the cover paper and feels like an unnecessary duplication.  Further note: I would rather not have to make another amendment and add another step to the CRR. Please note that unlike other HB and Trust we do not have a full time individual working on risk. Despite this we have a process that works well and received substantial assurance from Internal Audit last year. As the point is (as you acknowledge in the SA) covered in the cover paper I am afraid that I will not be supporting the recommendation.	Noted. This is not a formal recommendation, it is a suggestion for improvement, but I understand your explanation and I'm happy to remove it from the report, especially since HEIW received substantial assurance on risk management. Just to explain my thinking, on HEIW's CRR the RAG column says 'RAG and trend' so I've always expected a direction of travel arrow, maybe other readers might think the same.  I have deleted the sentences relating to trend/direction of travel. Sentence now reads: Changes to risk scores are detailed in the cover paper.
Para 30	Please note there will be a paper at Nov Board proposing to replace the EAG with a Stakeholder Review Group.	Noted. Sentence updated to read: Initial feedback suggests that the IMPEG is working well but the EEG might be more effective as a stakeholder review

		group. This proposal is due to be discussed by the Board in November 2021.
Para 31	Please note the Quality elements were included in our AGS statement as we received guidance from WG not to produce a separate annual quality statement. Suggest the para should be amended to confirm we are following WG guidance. I understand that WG are issuing the same guidance this year.	Noted. I have amended the paragraph, it now reads: HEIW intended to produce an Annual Quality Statement (AQS) for 2020-21, but Welsh Government advised the organisation not to produce a separate statement. Instead, in 2020-21 the quality statement was incorporated in the Annual Governance Report. This is likely to be the case for 2021-22 as well.
Para 35	Please note that the recommendation in respect of the Digital Strategy was removed from the Audit Tracker at October's Audit Committee in accordance with the recommendation from the ET. The Digital Strategy will be a deliverable for 22-23. this will ensure that the WG digital strategy for the NHS and the data strategy for the National Data Resources are published first and that HEIW's strategy will align with these documents.	Noted. I have amended the paragraph, it now reads: The organisation has one outstanding Structured Assessment recommendation from 2019. This relates to developing and reporting IT key performance indicators (KPIs) for scrutiny and challenge. Progress reported to the October 2021 Audit and Assurance Committee stated that monthly performance meetings are scheduled to review performance and develop KPIs. At the same meeting, it was confirmed that HEIW's Digital Strategy will be a deliverable for 2022-23, meaning our recommendation related to developing and approving a digital and IT strategy is complete.

# CYNLLUN CYDRADDOLDEB STRATEGOL AaGIC FLWYDDYN YN DDIWEDDARACH

## 1. CEFNDIR A CHYFLWYNO

Ar 1 Hydref 2020, cyhoeddodd AaGIC ei Gynllun Cydraddoldeb Strategol cyntaf sy'n cynnwys pum amcan strategol y byddai'r sefydliad yn mesur ei hun yn eu herbyn dros y pedair blynedd nesaf. Yn ystod y cyfnod rhwng mis Hydref a mis Mehefin 2021, datblygodd timau ar draws y sefydliad eu cynlluniau gweithredu cyfarwyddiaeth, gan gyflwyno camau gweithredu blwyddyn 1 yn ein cynllun blynyddol ar gyfer 2021-22 (amcan strategol 5.4).

Mae ein hamcanion Cydraddoldeb Strategol a'n cynllun gweithredu ar gyfer 2020-24 wedi creu map i gryfhau ein dull gweithredu o ran hyrwyddo cydraddoldeb, dileu gwahaniaethu a meithrin cysylltiadau da rhwng y rheini sy'n rhannu nodwedd warchodedig a'r rheini nad ydynt. Datblygwyd ein hamcanion ar y cyd mewn partneriaeth â sefydliadau eraill yn y sector cyhoeddus ac maent yn cynnwys:

- **Amcan 1** Cynyddu amrywiaeth a chynhwysiant y gweithlu
- **Amcan 2** Mynd i'r afael â bylchau cyflog
- **Amcan 3** Ymgysylltu â'r gymuned
- **Amcan 4** Sicrhau bod cydraddoldeb yn rhan annatod o'r ffordd rydym yn caffael ac yn comisiynu gwasanaethau a nwyddau
- **Amcan 5** Sicrhau bod y gwasanaeth a ddarperir yn adlewyrchu anghenion unigolion

Roedd yr amcanion hyn yn sail i ddatblygiad [Cynllun Cydraddoldeb Strategol AaGIC](#).

Bydd y Tîm Gweithredol yn ymwybodol bod y trefniadau llywodraethu ar gyfer y portffolio Cydraddoldeb, Amrywiaeth a Chynhwysiant wedi cael eu hailwampio yn ystod y flwyddyn ddiwethaf yn dilyn adolygiad o lywodraethu pob grŵp sefydlog yn AaGIC. Mae'r trefniadau newydd yn rhoi eglurder i gyfrifoldebau ac yn darparu ffordd i'r arweinwyr Gweithredol gael sicrwydd o gynnydd yn erbyn yr ystod o weithgareddau Cydraddoldeb, Amrywiaeth a Chynhwysiant. Un o brif swyddogaethau'r Grŵp Llywio Cydraddoldeb, Amrywiaeth a Chynhwysiant newydd a gaiff ei gadeirio ar y cyd gan y Cyfarwyddwr Meddygol a'r Dirprwy Brif Weithredwr a Chyfarwyddwr y Gweithlu, gydag aelodaeth fach, gan gynnwys unigolion a enwebir fel cynrychiolwyr y Gyfarwyddiaeth, fydd goruchwyllo'r gwaith o gyflwyno'r Cynllun Cydraddoldeb Strategol. Bydd y Grŵp yn cael ei gefnogi gan rwydwaith Cydraddoldeb, Amrywiaeth a Chynhwysiant gydag aelodaeth eang o bob rhan o AaGIC, gan gynnwys fel arsylwyr, Cadeirydd ein Bwrdd a Hyrwyddwr y Bwrdd ar gyfer Cydraddoldeb, Amrywiaeth a Chynhwysiant.

## 2. CYNNYDD GWEITHREDU

Ar ôl cyhoeddi cynllun strategol AaGIC y llynedd, gwnaed ymdrech sylweddol i godi ymwybyddiaeth o'r cynllun, cefnogi'r gwaith o ddatblygu cynlluniau gweithredu'r gyfarwyddiaeth a sicrhau bod y trefniadau llywodraethu'n addas i'r diben. Mae'r prif lwyddiannau ers cyhoeddi'r Cynllun Cydraddoldeb Strategol yn cynnwys:

- ✓ Adroddiad [Bwlch cyflog rhwng y rhywiau](#) AaGIC a gyhoeddwyd ym mis Hydref 2021

English Catherine

- ✓ Sicrhau buddsoddiad a chapasiti i gyflawni'n gryfach gan benodi Pennaeth Datblygu Sefydliadol a Chynhwysiant newydd (bydd yn dechrau yn y swydd ar 1<sup>af</sup> Rhagfyr 2021)
- ✓ Adolygu a newid trefniadau llywodraethu: sefydlu grŵp llywio Cydraddoldeb, Amrywiaeth a Chynhwysiant trosfwaol newydd AaGIC, gyda ffocws y rhwydwaith Cydraddoldeb, Amrywiaeth a Chynhwysiant yn cael ei newid i gynnwys gwahoddiadau agored i bob cyfarwyddiaeth a chynrychiolaeth ehangach
- ✓ Cylch gorchwyl wedi'i ddiweddarau ar gyfer Rhwydwaith Hyrwyddwyr Cynhwysiant AaGIC, sy'n cynnwys cymorth gan gymheiriaid a chyfrifoldeb dros ddatblygu Calendr digwyddiadau Cynhwysiant AaGIC
- ✓ Sefydlu tudalennau [cynhwysiant](#) ac [asesiad o'r effaith ar gydraddoldeb](#) AaGIC wedi'u sefydlu ar SharePoint
- ✓ Enillodd AaGIC statws Lefel 2 Cyflogwr Hyderus o ran Anabledd ar 28<sup>ain</sup> Medi 21
- ✓ Lansiodd [Careersville](#) ar 21 Hydref i archwilio a hyrwyddo gwahanol yrfaedd ym maes ieuchyd
- ✓ Lansiodd [Egwyddorion Arweinyddiaeth Dosturiol](#) ar gyfer ieuchyd a gofal cymdeithasol yng Nghymru, gydag amrywiaeth o [adnoddau rhwyngweithiol](#), pecynnau cymorth, gweminarau, podlediadau ac astudiaethau achos
- ✓ Dosbarthiadau meistr Cydraddoldeb, Amrywiaeth a Chynhwysiant wedi'u darparu i staff AaGIC ac wedi'u cynnwys fel rhan o'r rhaglen arweinyddiaeth weithredol uchelgeisiol 'Arwain gyda Thosturi'
- ✓ Roedd AaGIC mewn partneriaeth â Chyngor Celfyddydau Cymru ac Y Lab (Prifysgol Caerdydd a Nesta) wedi llwyddo i gwblhau'r prosiect [Harp Seed Black Voices](#)
- ✓ Cafodd hygyrchedd gwefan AaGIC ei brofi, cafodd gwelliannau eu gwneud a chafodd datganiad hygyrchedd ei ddiweddarau i adlewyrchu'r statws hwn. Mae hyfforddiant ar ddatblygu ar greu adnoddau hygyrch hefyd wedi cael ei gynnig ar gyfer staff sy'n ysgrifennu cynnwys.

Mae rhagor o fanylion ar gael yn Atodiad 1. Ceir trosolwg o'r cynnydd yn erbyn amcan strategol 5.4 yn atodiad 2.

#### 4. Y CAMAU NESAF

Mae'r portffolio cydraddoldeb, amrywiaeth a chynhwysiant wedi cael ei ymgorffori yn y Tîm Arweinyddiaeth a Dilyniant. Bydd gwaith monitro, tracio ac adrodd yn erbyn cynlluniau cydraddoldeb strategol y gyfarwyddiaeth yn cael ei wneud drwy'r grŵp llywio Cydraddoldeb, Amrywiaeth a Chynhwysiant, ei dracio drwy gynllun y rhaglen Dysgu a Sgiliau a'i ddarparu i'r Tîm Cynllunio bob chwarter yn unol â chylch adrodd chwarterol amcan strategol y Cynllun Tymor Canolig Integredig.

Bydd trafodaethau ar yr hyn sydd i'w gyflawni ym mlwyddyn 2 yn dechrau gyda Chyfarwyddiaethau unigol ym mis Ionawr.

## APPENDIX 1 HEIW STRATEGIC EQUALITY PLAN HIGHLIGHT ACHIEVEMENTS

The following key achievements for Year 1 of our strategic action plan are highlighted below against each of the actions. The full HEIW Year 1 SEP Action Plan is provided in Appendix 1 and outlines the progress made by each of the HEIW Directorates against their specific actions.

### **1. Promote a culture of inclusivity and compassion, reflective of our values and behaviours**

- ✓ An overarching HEIW EDI steering group has been established, and the EDI network refocused to include open invites for all directorates to attend with a change to the terms of reference to improve compliance with governance requirements and clearly identify executive accountabilities
- ✓ The Inclusion Champions network is established and will focus on the 'Inclusion Calendar' and activity to support
- ✓ The Compassionate Leadership Principles for Health and Social Care in Wales was launched and comprised a range of interactive resources, toolkits, webinars, podcasts and case studies

### **2. Embed Compassionate Leadership Principles and Behaviours into everything we do**

- ✓ An 'introduction to compassionate leadership' programme was developed and attended by over a third of HEIW employees
- ✓ Compassionate leadership methodology and principles embedded into HEIW QI, leadership, clinical frameworks and undergraduate education
- ✓ HEIW supported the publication of 'Compassionate Leadership: Sustaining wisdom, humanity and presence in health and social care' by Professor Michael West

### **3. Create opportunities to implement programmes of work that directly address Differential Attainment across our staff, students and trainees**

- ✓ Made in Wales' Framework established
- ✓ Development and launch of 'Careersville', an interactive digital resource to attract and develop our NHS Wales workforce

### **4. Create clear and timely mechanisms for service users to share their experiences and positively influence change**

- ✓ 21 networks and communities of practice established on Gwella to engage, consult, review and share experiences

Forums, consultations and pulse surveys undertaken to amplify voice and engagement

English, Catherine  
11/24/2021 14:21:18

- ✓ Evaluation of workshops, webinars etc. undertaken to take action and improve based on service user feedback
5. **Take an intersectional approach to understanding equality, diversity and inclusivity impacts when planning our work and services**
    - ✓ Equality Impact Assessment training and coaching provided
    - ✓ Priority on the collection of Equality, Diversity and Inclusion data to improve services is being embedded throughout a range of systems, including Gwella
  6. **Ensure our digital learning platforms, materials and communication methods are developed with equality, diversity and accessibility at the forefront of planning, delivery and governance**
    - ✓ Accessibility standards being progressed for Gwella and part of tender for Y Ty Dysgu and Verto the new HEIW planning system
    - ✓ Accessibility statements present on Gwella, which has been developed as a bilingual system to meet welsh language standards
  7. **Build on the wellbeing opportunities for staff that supports their physical, emotional and digital wellbeing**
    - ✓ Mental Health Workforce Plan developed and implemented
    - ✓ Tailored support provided by PSU to enable progression in training that include coaching, programme support, webinars workshops and signposting for new trainees
    - ✓ Development and signposting to a wide range of wellbeing resources
    - ✓ Use of pulse surveys to inform policy and operating models such as home working
  8. **Clear evidence and measure of direct input and impact on service users including patients, staff, (medical and non-medical) students, trainees and SAS doctors**
    - ✓ Service user feedback used in annual quality contract meetings
    - ✓ Service user feedback is being used as annual quality contract meetings PSU working closely with Wales charity displaced people in action (DPIA) and health boards to identify suitable for WARD members
  9. **Develop mechanisms for delivering and deliver 1<sup>st</sup> whole organisation annual learning programme celebrating diversity and the opportunities challenges offers us to grow in our journey for full inclusion**
    - ✓ Unconscious bias and cultural competence built into work-based learning qualifications

English Catherine  
11/24/2021 14:21:18

- ✓ Research undertaken into unconscious bias approaches to explore how to create lasting systematic change

**10. Develop, deliver and evaluate learning and development programmes which raise awareness of equality, inclusion, well-being and Welsh Language within our workforce and for our Board.**

- ✓ A series of inclusion, diversity and inclusion interventions built into the aspiring executive master class series and executive development programme
- ✓ A range of webinars are available on the Gwella Leadership Portal
- ✓ Board Development session undertaken October 21 with interaction presentation and Q&A with Abu Bakr

**11. We will promote wider participation and access to education, training and careers for individuals from underrepresented groups to help break through the pay and progression barriers and address inequalities in the wider system**

- ✓ Promotion of work-based learning, apprenticeships and the 'made in Wales' Framework
- ✓ Target communications and engagement to ensure under representative individuals are reached
- ✓ Development of 'access' programmes and career pathways

**12. Create opportunities for leadership and graduate schemes to be co-produced to foster confidence of inclusivity rather than tokenism**

- ✓ Review undertaken of the Graduate Management recruitment process to learn lessons and inform processes going forward
- ✓ Improved collection of dental trainee data
- ✓ Establishment of a national talent management programme to develop a process that is transparent and inclusive to commence early 2022

**13. As an exemplar employer, review our local recruitment & selection processes, procedures and practices to attract individuals from diverse backgrounds, cultures and identities.**

- ✓ EDI training built into all HEIW recruitment training
- ✓ Audits undertaken by the People & OD to monitor compliance

**14. Deliver on accreditation pledges: Stonewall; time to change; Disability Confident**

English Catherine  
11/24/2021 14:21:18

- ✓ HEIW gained Level 2 status Disability Confident Employer September 21
- ✓ Diversity champion Stonewall membership for HEIW was renewed September 21

## ADOLYGIAD BLYNYDDOL O FFRAMWAITH SICRWYDD Y BWRDD

### 1. CYFLWYNIAD

Diben yr adroddiad hwn yw rhoi diweddariad blynyddol i'r Bwrdd mewn perthynas â Fframwaith Sicrwydd y Bwrdd (BAF) a cheisio cymeradwyaeth y Bwrdd i'r fersiwn sydd wedi'i diweddaru, sy'n cynnwys Fframwaith Rheoli Risgiau Strategol AaGIC.

### 2. CEFNDIR

Mae'r BAF yn amlinellu sut mae'r Bwrdd yn nodi ac yn deall y prif risgiau i gyflawni ei amcanion strategol ac yn derbyn sicrwydd bod rheolaethau addas ar waith i reoli'r risgiau hyn. Mae'r BAF hefyd yn galluogi asesiad o'r risg(au) i gyflawni'r amcanion yn seiliedig ar gryfder y rheolaethau a'r sicrwydd sydd ar waith.

Mae BAF AaGIC wedi bod yn weithredol ers mis Medi 2019, pan gafodd ei gymeradwyo gan y Bwrdd.

### 3. CYNNIG

Ym mis Ionawr, cymeradwyodd y Bwrdd goddefiant risg a pharodrwydd i gymryd risg y sefydliad ac ym mis Gorffennaf cymeradwyodd y Fframwaith Rheoli Risg Strategol. Mae'r Fframwaith Rheoli Risg Strategol yn nodi ac yn mapio'r rheolaethau a'r ffynonellau sicrwydd allweddol yn erbyn risgiau strategol AaGIC. Mae Amcanion Strategol AaGIC hefyd wedi'u hymgorffori yn y BAF. Mae'r BAF wedi'i ddiweddaru, sy'n ymgorffori'r Fframwaith Rheoli Risg Strategol, i'w weld yn Atodiad 1.

Mae'r Gofrestr Risg Gorfforaethol yn canolbwyntio ar amcanion allweddol AaGIC ac yn nodi'r prif risgiau a'r rheolaethau allweddol. O ystyried hyn, y Gofrestr Risg Gorfforaethol (CRG) yw'r cyfrwng ar gyfer rhoi sicrwydd rheolaidd ar y BAF. Dros y flwyddyn ddiwethaf, mae'r CRG wedi cael ei adolygu gan y Tîm Gweithredol a'r Uwch Dîm Arwain unwaith y mis. Mae'r AAC wedi adolygu'r CRG bob chwarter, tra bod y Bwrdd wedi adolygu'r gofrestr bob chwe mis.

Mae amserlen flynyddol BAF AaGIC fel a ganlyn, a chynigir bod y dull hwn yn parhau dros y flwyddyn nesaf:

Gweithredu	Arweinydd Gweithredol	Dyddiad
Poblogaeth y CRR – dogfen fyw	Ysgrifennydd y Bwrdd	Parhaus
Adolygiad o BAF gan y Bwrdd a'r Pwyllgor Archwilio a Sicrwydd	Ysgrifennydd y Bwrdd	Unwaith y flwyddyn

Adolygiad o'r Fframwaith Rheoli Risg Strategol	Ysgrifennydd y Bwrdd	Unwaith y flwyddyn
CRR wedi'i gynnwys ar agenda'r Bwrdd ar gyfer nodi		
Adolygiad o'r CRRr gan y Bwrdd	Ysgrifennydd y Bwrdd	Ddwywaith y flwyddyn
Adolygiad o'r CRR gan y Pwyllgor Archwilio a Sicrwydd	Bwrdd Ysgrifennydd	Chwarterol

#### 4. MATERION LLYWODRAETHU A RISG

Mae'n hanfodol bod fframwaith effeithiol ac effeithlon ar waith i roi stiwardiaeth sefydliadol ddigonol, barhaus a dibynadwy a rheoli'r prif risgiau i lwyddiant sefydliadol a darparu gwasanaethau cyhoeddus gwell, a cost-effeithiol.

#### 5. GOBLYGIADAU ARIANNOL

Dim goblygiadau ariannol uniongyrchol yn codi o'r adroddiad hwn. Mae'r BAF yn elfen graidd o strwythur llywodraethu corfforaethol AaGIC.

#### 6. ARGYMHELLIAD

Gofynnir i'r Bwrdd:

# **BOARD ASSURANCE FRAMEWORK**

## **2021-22**

### **Introduction**

All NHS organisations in Wales are required to demonstrate good governance and ensure they are operating robust systems and processes to support this. Boards need to be confident that the systems and processes are operating in a way that is effective and is driving the delivery of objectives by focusing on minimising risk. They need to prove that they have identified their objectives and managed the principal risks to achieving them. The Board Assurance Framework will allow the Board to satisfy this requirement.

It is the responsibility of the Board to:

- Determine and clearly articulate its objectives;
- Identify the principal risks that threaten the achievement of these objectives;
- Agree the key strategic and operational plans that will deliver those objectives and which encompass the controls and actions in place to manage the identified risks;
- Monitor delivery through robust performance and assurance measurements;
- Ensure that plans are in place to take corrective action where they are not assured that objectives will be fully delivered; and
- Engage with and listen to staff.

These requirements form the basis of the Assurance Framework.

### **The Assurance Cycle**

The Board will undertake an annual self-assessment of its performance through completing a self-assessment questionnaire and a Board maturity matrix. The process identifies areas where the Board requires additional focus and informs the development of the forward work programme for the Board Development Sessions.

The assurance system is designed to ensure that the Board can make an annual assessment. The outcome of this self-assessment is also a fundamental component of the Annual Governance Statement (AGS) which is published each year as part of the annual report and accounts.

Each of the steps on the assurance cycle can be explained as follows:

### **Priorities for action**

The first step in developing a Board Assurance Framework is for the Board to identify the organisation's aims and objectives against which the Board requires assurance. It is necessary for Boards to focus on those that are crucial to the achievement of its overall vision and ambitions.

The strategic aims of HEIW are:

<b>Strategic Objective 1 . To lead the planning, development and wellbeing of a competent, sustainable and flexible workforce to support the delivery of ‘ A Healthier Wales’.</b>
<b>Strategic Objective 2 – To improve the quality and accessibility of education and training for all healthcare staff ensuring that it meets future needs.</b>
<b>Strategic Objective 3. To work with partners to influence cultural change within NHS Wales through building compassionate and collective leadership capacity at all levels.</b>
<b>Strategic Objective 4. To develop the workforce to support the delivery of safety and quality.</b>
<b>Strategic Objective 5. To be an exemplar employer and to be a great place to work.</b>
<b>Strategic Objective 6. To be recognised as an excellent partner, influencer and leader.</b>

These strategic aims are incorporated within HEIW’s Plan 2021-22.

## Risks

Risks which may stop the organisation from achieving its aims need to be identified and set out. Risks are defined as those that threaten the achievement of the organisation’s priorities. It is essential that the Board identifies and oversees the main risks rather than reacting to the consequences of risk exposure. The identification of main risks should be repeated at all levels within the organisation. The Board should ensure it assesses risks as part of the decision-making process.

The organisation has a Strategic Risks Control Framework, which identifies and maps the controls and key sources of assurance against HEIW’s Strategic Risks. This is detailed in Appendix 1 below.

The organisation also has a Corporate Risk Register which details the top high level risks for the organisation on an operational basis.

## **Controls**

Key controls are defined as those controls and systems in place to assist in securing the delivery of the Board's strategic objectives. As part of the assurance process, the Board, through its Committees where appropriate, will need to assess whether current controls are adequate to provide assurance compared with the level of risk; controls must be proportionate to the risks identified.

There is not necessarily a 1:1 relationship between risks and controls. Often there may need to be multiple controls in place to mitigate against a particular risk. Some controls will also manage more than one risk. There is not always a neat framework for this, and even if controls are in place, consideration needs to be given as to how effective they are.

Examples of key controls are:

- Schemes of delegation
- Policies and procedures
- Performance data
- Financial Management information

## **Assurance**

Assurance provides Board members with the evidence that HEIW is operating effectively, achieving desired outcomes, delivering on its strategic vision, meeting its strategic objectives through effective risk management in a manner which upholds the Citizen Centred Principles and is in accordance with all statutory requirements.

The organisation uses several methods to obtain assurance through internal and external sources.

Internal assurance methods include:

- the Performance Report;
- internal audit reports;
- counter-fraud reports;
- serious incident reports; and
- the Annual Governance Statement.

A key vehicle for receiving external assurance will be through the work undertaken by the Audit Wales, which will be used to inform the annual governance and accountability review. A fuller, more comprehensive list of areas where assurance will be obtained is included in Figure 1

A further source for receiving external assurance is ensuring that external reports are reviewed to ensure that lessons are learnt and embedded within HEIW's policies and procedures.

## **Reporting**

A framework is in place for reporting key information to the Board and Committees. There is a plan of business to be reported to the Board and Committees, and the Corporate Risk Register allows the Board to identify what risks need to be reported upon.

HEIW's Performance Report will provide the Board and Executive Team with a high-level summary of performance, particularly in relation to the organisation's priorities for action.

HEIW is also required to produce public disclosure statements as part of the assurance system. The Board Assurance system, as described in this paper, will culminate in the production of the Annual Governance Statement.

These public disclosure documents, together with the Financial Statements and Remuneration Report and other specific disclosures required by the Companies Act, would form the "Chapters" to the Annual Report.

## **Role of Board Committees**

The Board may and, where directed by Welsh Ministers must appoint Committees of the Board either to undertake specific functions on the Board's behalf or to provide advice and assurance to the Board in the exercise of its functions.

### **Audit and Assurance Committee**

The Board's Audit and Assurance Committee advises and assures the Board and Accountable Officer on whether effective arrangements are in place to support them in their decision making and in discharging their accountabilities for securing the achievement of HEIW's objectives, in accordance with the standards of good governance determined for the NHS in Wales.

### **Education Commissioning and Quality Committee**

The Board's Education Commissioning and Quality Committee advises and assures the Board in respect of the Commissioning of Education and the Quality of Education.

### **Remuneration and Terms of Service Committee**

The Board's Remuneration and Terms of Service Committee is responsible for providing advice and assurance to the Board on remuneration and terms of service for the Chief Executive, Executive Directors and other senior staff within the framework set by the Welsh Government. It also provides assurance to the Board in relation to HEIW's arrangements for the remuneration and terms of service, including contractual arrangements, for all staff, in accordance with the requirements and standards determined for the NHS in Wales.

### HEIW Strategic Risks Control Framework 2021/22

#### Strategic Risk1

<b>Strategic Risk 1:</b> Workforce skills and expertise given the specialist nature of organisation. There is a risk that HEIW may find itself without the workforce with the requisite skills it requires to deliver on its Strategic Objectives. This could be caused by a lack of staff with relevant skills in the external market or education system or internally due to a lack of staff skills, career mobility, succession planning and skills management, or due to undesirable employee attrition and sickness absence of key individuals.				
<b>Executive Lead:</b> Julie Rogers		<b>Assuring Committee:</b> Audit and Assurance Committee		
<b>Key Controls</b> - these are the mechanisms in place to ensure management of the appropriate risk.	<b>Form of Assurance</b> - these are the mechanisms to provide evidence that the organisation is operationally effective in relation to the specific risk.	<b>Gaps in Control</b> - areas where controls mechanisms highlight issues of concern.	<b>Gaps in Assurance-</b> areas where scrutiny mechanisms do not provide adequate assurance.	<b>Agreed Action Plan</b> - Actions to correct shortcomings in control and assurance.
<p>Each line manager needs to identify specific skills needed for the role when recruiting, replacing, or modifying.</p> <p>Ensure that training is in place where required.</p>	<p>HEIW is a relatively small organisation within NHS Wales, recruitment is monitored through NHS Wales Shared Services Partnership (NWSSP) returns and also by the People &amp; Organisational Development Team.</p> <p>Issues are escalated to the Executive Team where appropriate; quarterly recruitment reports are also provided to the Executive Team.</p> <p>Regular monitoring and reporting of workforce Key Performance Indicators including sickness and turnover.</p>	<p>There is no systematic reporting of training other than in relation to statutory and mandatory targets. Wider training overview is to be added to quarterly reporting.</p>	<p>This is subject to a manager's knowledge and expertise.</p>	<p>The HEIW People &amp; Organisational Development Strategy will include analysis of roles and the shape of workforce as well as actions around recruitment, retention, and succession planning, and workforce development.</p>

English Catherine

## Strategic Risk 2

<b>Strategic Risk 2: Capacity to deliver a growing range of functions and responsibilities.</b> The risk of lack of capacity may be caused by a lack of sufficient workforce capacity to deliver the growing functions of the organisation, which could be a result of insufficient planning and an over reliance on existing ways of working, not embracing innovation, new ways of working and not investing in appropriate technology.				
<b>Executive Lead:</b> Julie Rogers		<b>Assuring Committee:</b> Audit and Assurance Committee		
<b>Key Controls</b> - these are the mechanisms in place to ensure management of the appropriate risk.	<b>Form of Assurance</b> - these are the mechanisms to provide evidence that the organisation is operationally effective in relation to the specific risk.	<b>Gaps in Control</b> - areas where controls mechanisms highlight issues of concern.	<b>Gaps in Assurance</b> - areas where scrutiny mechanisms do not provide adequate assurance.	<b>Agreed Action Plan</b> - Actions to correct shortcomings in control and assurance.
<p>The Organisation's capacity review is undertaken alongside the development of the Annual Plan/Integrated Medium Term Plans.</p> <p>The corporate infrastructure is revisited when new projects or programmes are introduced/being considered.</p> <p>Ensuring that staff have access to appropriate training to meet the growing needs of the organisation.</p>	<p>The Executive Team receiving and considering the capacity review outcomes.</p> <p>Regular updates to the Senior Leadership Team and the Executive Team on rightsizing projects.</p>	Training to be added to regular workforce reporting.	Challenge of influencing staff to embrace new technology and ways of working – and avoid a culture where the expectation is that the solution will always be additionality/more staff.	<p>Rightsizing review and paper signed off by Executive Team. Group established and will deliver agreed actions.</p> <p>HEIW digital literacy will be a strand of the People &amp; Organisational Development Strategy.</p>

English Catherine

### Strategic Risk 3

<b>Strategic Risk 3: Cultural change required to deliver an integrated, multi professional approach.</b> There is a risk that HEIW could fail to develop a positive organisational culture which enables, encourages and develops staff engagement in embracing the multi professional approach. This could be caused by an over reliance on existing ways of working or a lack of time and attention focused on Organisational Development and a failure to embed Compassionate Leadership principles.				
<b>Executive Lead:</b> Alex Howells		<b>Assuring Committee:</b> Audit and Assurance Committee		
<b>Key Controls</b> – these are the mechanisms in place to ensure management of the appropriate risk.	<b>Form of Assurance</b> - these are the mechanisms to provide evidence that the organisation is operationally effective in relation to the specific risk.	<b>Gaps in Control</b> - areas where controls mechanisms highlight issues of concern.	<b>Gaps in Assurance</b> - areas where scrutiny mechanisms do not provide adequate assurance.	<b>Agreed Action Plan</b> - Actions to correct shortcomings in control and assurance.
Establishment of cross cutting priorities as part of the Annual Plan that take multi professional rather than uni professional approaches in many areas e.g. leadership, simulation, primary care, mental health, clinical pathways group and require matrix working across professional areas and organisational boundaries.	Performance management reports on key objectives within the Annual Plan and across the range of activities under the remit of HEIW across all professions.	Some gaps in performance management resulting from some teams still not understanding requirement for them to report on their activities as part of HEIW.		Ongoing development of performance management framework across HEIW. Development programme for the Senior Leadership Team.
Mid and end of year review process with individual Directorates and teams.	Mid and end of year review meetings and notes.	Mid and end of year reviews identify that in some areas there has been less of a multi professional focus, and the pandemic has resulted in a reversion to the previous organisational silos.		Revise template used for mid-year reviews to focus more on this issue.
Implementation of the People and Organisational Development Strategy and roll out of Compassionate Leadership modules.	Internal audit reports and staff surveys.	People and Organisational Development Strategy not yet finalised.		Finalise People and Organisational Development Strategy.

All staff meetings and conferences to bring whole workforce together across organisational boundaries to share developments and good practice	Staff surveys.	Questions on multi professional working could be strengthened.		Review questions for staff questionnaire.

## Strategic Risk 4

<b>Strategic Risk 4: Effective engagement to ensure that we are influencing and shaping the agenda as system leader and can deliver our plans.</b> Acting as a system leader will require effective horizon scanning and insight into the NHS system and workforce trends and clear communication and engagement for coalition building to encourage system change. The risk of failing to influence the agenda as system leader could be caused by a failure to communicate and engage effectively with stakeholders within health and social care.				
<b>Executive Lead:</b> Nicola Johnson		<b>Assuring Committee:</b> Audit and Assurance Committee		
<b>Key Controls</b> - these are the mechanisms in place to ensure the management of the appropriate risk.	<b>Form of Assurance</b> - these are the mechanisms to provide evidence that the organisation is operationally effective in relation to the specific risk.	<b>Gaps in Control</b> - areas where controls mechanisms highlight issues of concern.	<b>Gaps in Assurance</b> - areas where scrutiny mechanisms do not provide adequate assurance.	<b>Agreed Action Plan</b> - Actions to correct shortcomings in control and assurance.
Communication and Engagement Strategy.	Through reports outlining steps taken to communicate and support system leadership.	Can't guarantee that stakeholders will engage with HEIW as system leader.	Need of a stakeholder survey to measure levels of engagement.	Stakeholder survey (*) to measure impact of HEIW as System Leader.
Annual Plan/ Integrated Medium Term Plan (IMTP).	The annual rolling process to develop the plan includes an annual engagement phase with key stakeholders across health, social care, government, regulators, trades unions and others. The aim is to maximise stakeholder engagement with the Annual Plan/IMTP through involving them in the process of developing the document.	As above.	oes the NHS Wales Planning Framework require NHS organisations to engage sufficiently with HEIW on workforce matters.	Ensure that the need to engage with HEIW is reiterated in the NHS Wales Planning Framework.
Executive membership of NHS Peer Network Groups, 'hosting' of Team Wales and membership of other national programme boards.	Active influencing through Team Wales and Peer Network Groups and membership of national programmes.	Need to measure the impact.	Need of a stakeholder survey to measure levels of engagement.	Stakeholder survey (*) to measure impact of HEIW as System Leader.  *same Stakeholder survey as referenced for strategic risk 5.

## Strategic Risk 5

<b>Strategic Risk 5: Effective engagement with our partners to ensure the delivery of shared objectives and aims.</b> The successful implementation of HEIW's aims and objectives in several areas will rely on engagement and co-operation with our partners in health, social care and education. The risk of failing to deliver in these areas could be caused by insufficient capacity, not engaging with partners effectively or a failure to achieve buy in from our partners.				
<b>Executive Lead:</b> Alex Howells		<b>Assuring Committee:</b> Audit and Assurance Committee		
<b>Key Controls</b> - these are the mechanisms in place to ensure the management of the appropriate risk.	<b>Form of Assurance-</b> these are the mechanisms to provide evidence that the organisation is operationally effective in relation to the specific risk.	<b>Gaps in Control</b> - areas where controls mechanisms highlight issues of concern.	<b>Gaps in Assurance-</b> areas where scrutiny mechanisms do not provide adequate assurance.	<b>Agreed Action Plan</b> - Actions to correct shortcomings in control and assurance.
Communication and Engagement Strategy.	Through reports outlining progress on implementing the strategy and communication activities such as stakeholder bulletins.  Internal audit report.	No issues highlighted in internal audit.	Lack of a Stakeholder survey.	Stakeholder survey to measure impact of HEIW as System Leader.  Update on comms and engagement strategy implementation.

English Catherine

## Strategic Risk 6

<b>Strategic Risk 6: Volatility of HEIW's financial position including the reliance on commissioning plans, student choices and associated budgets.</b> This could be exacerbated by the increasing financial challenges faced by government and our education providers particularly post COVID, leading to a reduction in our flexibility to respond to developments.				
<b>Executive Lead:</b> Eifion Williams		<b>Assuring Committee:</b> Audit and Assurance Committee		
<b>Key Controls</b> - these are the mechanisms in place to ensure the management of the appropriate risk.	<b>Form of Assurance-</b> these are the mechanisms to provide evidence that the organisation is operationally effective in relation to the specific risk.	<b>Gaps in Control</b> - areas where controls mechanisms highlight issues of concern.	<b>Gaps in Assurance-</b> areas where scrutiny mechanisms do not provide adequate assurance.	<b>Agreed Action Plan</b> - Actions to correct shortcomings in control and assurance.
Through contracts and through ensuring that the estimation process in respect of finances is cautious and conservative and takes into account the particular difficulties in forecasting the number of self funders.	Ensure the contracts are executed and are in place. Approval of the Financial Plan and the underlying assumptions are understood. Regular reporting of monitoring provisions through the Financial Board Report.	It is not possible for HEIW to control actual recruitment figures as this is undertaken by the education providers. It is also for students to determine individually whether they wish to take up the bursary.	Timing of the information is skewed towards the second half of the year. This is because students primarily choose place in August. They then have three months to decide whether to choose to self-fund or fund through the bursary. Given this the information is not available until at least December.	Regular dialogue and meetings between HEIW and the Education Providers.  Regular dialogue and meetings between Welsh Government and Welsh Government Finance.

## Strategic Risk 7

<b>Strategic Risk 7: Workforce intelligence and Data.</b> The risk that the quality of workforce intelligence captured and reported within the NHS does not support accurate decision making and planning for the NHS's future workforce requirements. This could lead to both overcapacity and under capacity within the workforce.				
<b>Executive Lead:</b> Julie Rogers		<b>Assuring Committee:</b> Audit and Assurance Committee		
<b>Key Controls</b> - these are the mechanisms in place to ensure the management of the appropriate risk.	<b>Form of Assurance</b> - these are the mechanisms to provide evidence that the organisation is operationally effective in relation to the specific risk.	<b>Gaps in Control</b> - areas where controls mechanisms highlight issues of concern.	<b>Gaps in Assurance</b> - areas where scrutiny mechanisms do not provide adequate assurance.	<b>Agreed Action Plan</b> - Actions to correct shortcomings in control and assurance.
Annual Plan objective. Ensure vision for new Centre of Excellence is articulated and shared.  Ensure benefits are described.  Through securing sign up from NHS partners.	Evidence of working in partnership with Health Boards and Trusts as well as NHS Wales Shared Services Partnership and other Special Health Authorities to take them with us.  Regular updates on project development.	We do not have control over the data that we receive from Health Boards and Trusts via the Electronic Staff Survey (ESR).	Depends on the willingness of other NHS organisations to share their data as well as the views of the Data Controller.	Annual Plan includes work to develop the HEIW vision for Centre of Excellence on workforce intelligence and analytics.  This will flush out some of the risks, issues and potential solutions, creating a new partnership agreement and delivering better access to data which will feed workforce intelligence.

## Policy Statement

Health Education Improvement Wales (HEIW) recognises that no organisation can operate in a risk free environment. Risk however is not something to be feared, rather if it is understood and managed properly it can benefit the organisation, its staff and key stakeholders. The purpose of this Policy is to lay the foundations for an effective risk management system.

HEIW will manage risks at all levels. Strategic risks will be identified by the Board and managed by the Executive Team, whereas operational risks will be identified and managed at the most appropriate level. The organisation will maintain a risk management system which will enable and empower staff to identify, assess, manage and where appropriate exploit risks to the benefit of HEIW.

## Policy Commitment

HEIW is committed to the effective management of risk throughout the organisation, and will develop and maintain the appropriate systems to allow such management. The organisation will lay out clearly the roles and responsibilities of all staff when it comes to the management of risk. All staff are required to understand their role and responsibilities and to comply with the requirements of both this policy and all relevant processes.

All staff will be expected to use the appropriate corporate systems for risk management. At the time of developing this policy HEIW's risks are managed through the use of risk registers (for operational risk) and the Board Assurance Framework for strategic risks. Health and safety risks are however, managed through Datix.

All Senior staff and managers are required to attend mandatory training in Corporate Risk Management.

## Introduction

This policy introduces the HEIW position and expectations in relation to risk management. The document outlines the roles and responsibilities of staff and how they will be trained, and describes the way HEIW categorises risk and the risk architecture of the organisation.

## Section 1 – General

### 1.1 Scope

This is a Policy which is intended to cover the identification, assessment and management of risk in all forms. The policy and associated procedures relating to risk and will apply to all staff, contractors and visitors.<sup>1</sup>

---

<sup>1</sup> In the interests of brevity, the term 'staff' is used throughout this document to refer to staff, contractors, agency staff, trainees, volunteers, and secondees and visitors.

## **1.2 Aim**

The aim of this document is to outline the high level arrangements within which HEIW will achieve a holistic and effective approach to risk management.

## **1.3 Objectives**

This policy will:

- Detail the specific roles and responsibilities for those staff who are charged with the management of risk;
- List the specific policies which HEIW will publish to ensure that all staff understand what is required of them;
- Outline the training requirements for staff;
- Explain the arrangements for complying with all relevant legislation.

## **1.4 Strategic Context**

HEIW is required annually to produce an Interim Medium Term Plan (IMTP), which details what the organisation plans to do over the coming years. The plan sets out the organisational priorities and sets strategic objectives. In order to deliver these objectives, it is necessary to understand the environment in which we operate, and to have clear visibility on what might get in the way of our delivering them. This is why an effective Risk Management System is necessary.

Risk Management starts at the top of the organisation, with the Board setting our direction and our risk appetite, and then permeates down through every level.

## **1.5 Roles and Responsibilities**

### **1.5.1 HEIW Board**

The role of the Board is to govern HEIW effectively. For the Board to discharge its responsibilities, it needs to receive assurances that the organisation is effectively managing its risks to ensure delivery of its mission and objectives. One of the principle assurance tools for the Board is the Board Assurance Framework (BAF).

The Board will receive the BAF once per year for the purpose of scrutiny and challenge. Through the scheme of delegation, the Audit and Assurance Committee meetings will also receive the BAF once per year.

The Corporate Risk Register is focussed on HEIW's key objectives and identifies the principal risk and key controls. Given this the Corporate Risk Register shall be the vehicle for providing regular assurance for the BAF. The Corporate Risk Register shall be reviewed by the Board twice a year and by the Audit and Assurance Committee on a quarterly basis.

### **1.5.2 Chief Executive**

The Chief Executive is the responsible officer for HEIW and is accountable for ensuring that HEIW can discharge its legal duty for all aspects of risk. As the accountable officer,

the Chief Executive has overall responsibility for maintaining a sound system of internal control, as described in the annual governance statement. Operationally, the Chief Executive has designated responsibility for implementation of this policy to the Board Secretary.

### **1.5.3 Board Secretary**

Is responsible for:

- operational implementation of the risk management policy;
- as the Senior Information Risk Owner (SIRO), ultimate responsibility lies here for information risk management;
- development of policies and procedures relating to the above;
- development and ongoing review of the Board Assurance Framework;
- ensuring that the Board and its Committees receive the appropriate reports and assurance for consideration.

### **1.5.4 Executive Directors**

Are responsible for:

- the management of risk both collectively as the Executive Team and at a Directorate level for the risks specifically relating to their directorate;
- assuming ownership of risks assigned to them in either the Board Assurance Framework or the Corporate Risk Register and reporting as required to the Executive Team and the Board and its committees on the management of that risk;
- appointing of enough resource for their Directorate to enable effective management of their risks;
- the individual Directorate Risk Register.

### **1.5.5 Deputy Chief Executive / Director of Workforce and Organisational Development**

In addition to the Executive Director responsibility is also responsible for:

- Executive Team level management of risk in relation to both Health and Safety and Business Continuity.

### **1.5.6 Directorate Managers**

Directorate Managers are responsible for:

- assuming ownership of risks which are assigned to them in the Directorate Risk Registers and reporting as required to their Executive Director on the management of that risk;
- supporting their Directorate risk owners in the management of risk;
- ensuring that new risks are assigned an owner, correctly articulated and assessed by their owner.

English Catherine  
11/24/2021 14:21:18

### **1.5.7 All staff**

All HEIW staff are responsible for identifying and reporting anything which they believe could present a risk to our business functions or people.

## **1.6 Allocation of Responsibility for a Risk**

Executive Directors shall take responsibility for managing risks within their Directorates. Where a risk arises from a project, programme or matter undertaken on a cross-Directorate basis the risk will be allocated to the Executive Lead as detailed within the IMTP.

### **1.7 Training**

#### **Level 1 – Staff Required to Report Risks**

Whilst there are many different training requirements for specific aspects of risk management (e.g. Health and Safety, Fire, Information Governance), there is no mandatory training requirement for Risk Management in the broader context. All staff who need to report a risk are signposted to a short self-directed study package which will cover the basics of identifying, articulating and reporting risks.

#### **Level 2 – Risk Owners**

Face to face training will be delivered to Risk Owners and is aimed at Executive Directors, other members of the senior leadership team and managers who need to understand the implications of risk ownership, risk appetite, risk decision making and the escalation of risk.

#### **Level 3 – SIRO and other specialist roles**

This will be bespoke training required for those charged with managing the Risk Management System.

## **Section 2 – Categories of Risk**

### **2.1 Strategic Risk**

These are the highest level risks that could threaten the organisation's ability to deliver on the strategic priorities, as laid out in the Integrated Medium Term Plan (IMTP). Strategic Risks are identified at Board level during the annual development of the IMTP. All strategic objectives are assigned an Executive Lead within the IMTP. This person will review their strategic risks and associated action plans on a regular basis and provide updates to both the Executive Team and the Board.

### **2.2 Corporate Risk**

Corporate Risk in all its forms is subject of this policy.

The term Corporate Risk is used in HEIW to encompass all of the operational risks that pose a direct risk to the day to day business of the organisation, or could lead to Directorates failing to meet their objectives. This can include:

- Operational Risk
- Project / Programme Risk
- Educational Risk
- Financial Risk
- Public Relations Risk

All these risks will be captured and managed through risk registers and a system of policies and procedures.

### **2.3 Health and Safety Risk**

Health and Safety Risk is subject to a specific policy.

Health and Safety is a complex area of legislation one requirement of which is for the organisation to have a Health and Safety Policy. Senior management of Health and Safety Risk is the responsibility of the Director of Workforce and Organisational Development.

### **2.4 Information Risk**

Information Risk is subject to a specific policy.

Information Risk Management is an integral element of good Information Governance. It encompasses numerous disciplines, including use of IT systems, management of paper records, cyber security and physical security of our facilities. Information Risk Management is the responsibility of the SIRO.

### **2.5 Service or Business Continuity Risk**

Business Continuity Risk is subject to a specific policy.

Business Continuity risks are those derived from those possible events which threaten the organisation's ability to deliver its key products and services.

Most Business Continuity risks will tend to be high impact / low likelihood events.

Business Continuity Risk Management is the responsibility of the Director of Workforce and Organisational Development.

### **2.6 Fraud Risk**

~~To ensure enough focus is given to counter-fraud, and the steps taken to mitigate the risk of the same, it is a requirement that Fraud be a standard item on each Directorate Risk Register.~~

The Local Counter Fraud Service (LCFS) must be notified of any identified fraud risks promptly.

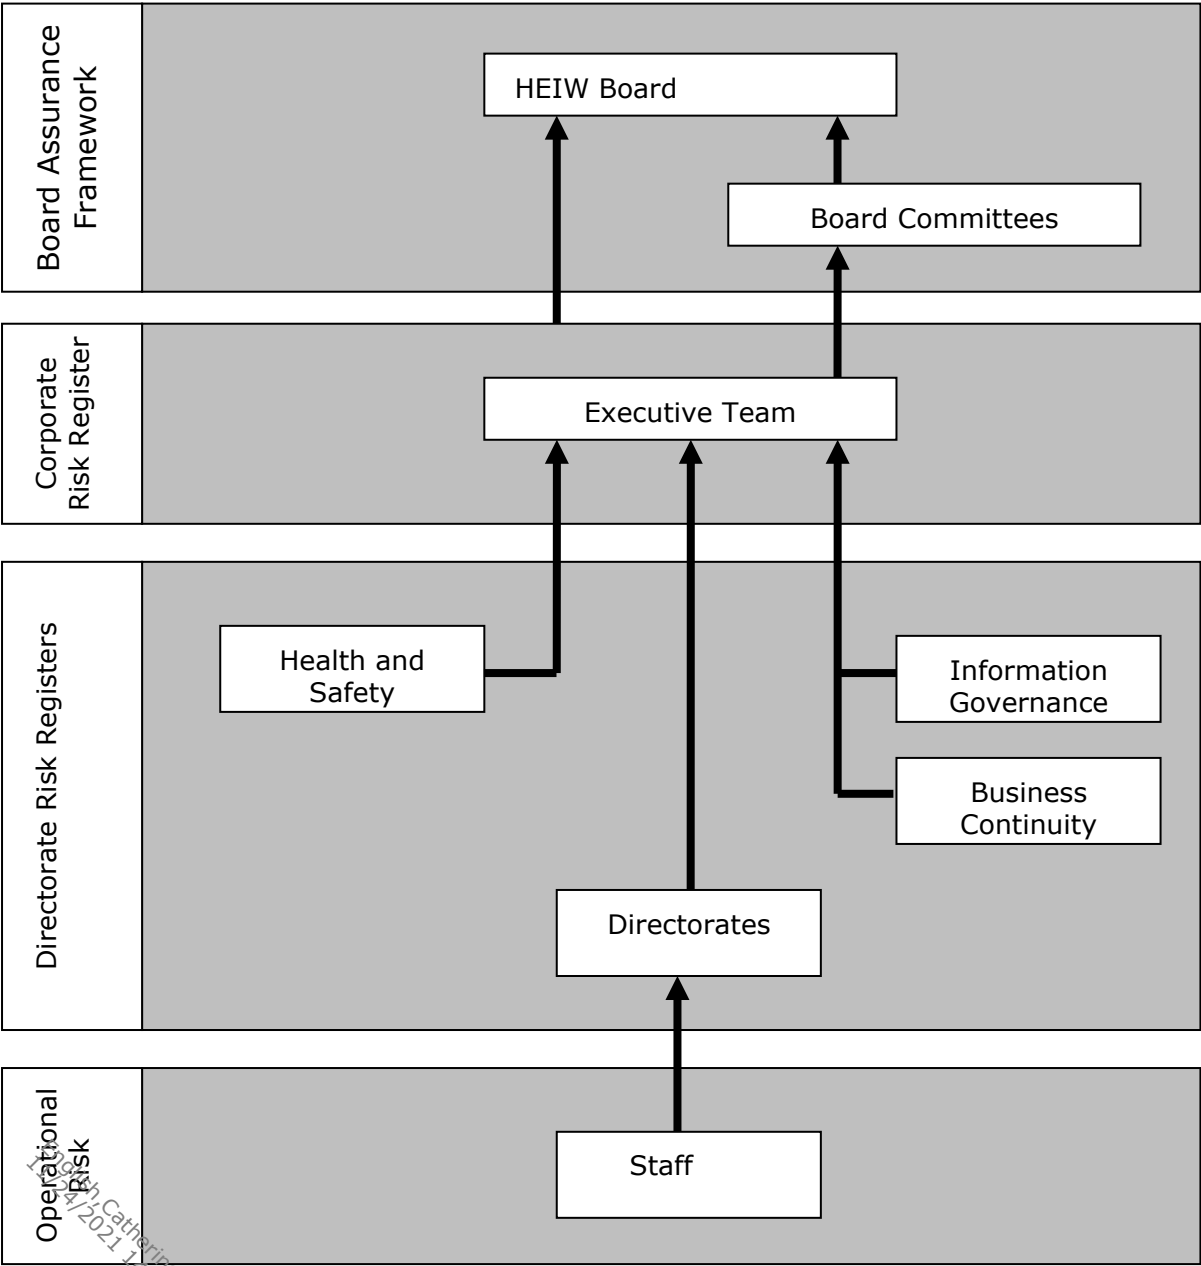

Section 3 – Management of Risk

Introduction

This section gives an overview of how risk is managed throughout HEIW.

3.1 Risk Architecture

The risk architecture is the structure within which an organisation manages risk. The risk architecture within HEIW is shown below.

### **3.2 Risk Appetite**

HEIW's risk appetite is set on an annual basis by the Board, when the decisions are being made around the organisation's strategic priorities for the following year. The purpose of setting the risk appetite is to ensure that all staff throughout HEIW are aware of it and understand the amount of risk to which the organisation is prepared to be exposed whilst going about their day to day business. HEIW's Risk Appetite levels are detailed in Annex 1.

### **3.3 Identification and Capturing of Risks**

All staff should be aware of the potential for risks to emerge which may affect the business and all staff should be prepared to identify and report risks as appropriate. When a possible risk is identified, staff should normally discuss it first with their line manager. This is to avoid duplication of effort, as sometimes risks are identified which are already being managed but have perhaps been articulated differently.

Once it is confirmed that a new risk has been identified, the details should be correctly identified and assessed.

The risk will then be transferred to one of a series of risk registers, depending on the seriousness of the risk. Generally, risk should be managed at the lowest level possible, proportionate to the level of exposure to which the risk.

### **3.4 Risk Registers**

A Risk Register is simply a visual representation of the identified risks, together with an assessment of their severity, the risk management measures in place, the control environment and any further actions which are planned or required. The register is a snapshot of the risk information at the moment it is taken.

HEIW's risk registers will utilise the risk assessment, risk appetite and scoring method outlined in Annex 1. HEIW's template risk register is attached at Annex 2. All HEIW Directorate Risk Registers shall use the template attached at Annex 2. All HEIW programme and project risk register will use this template as the basis for their risk register.

### **3.5 Ongoing Risk Management**

Once a risk has been properly identified, articulated and assessed it can then be managed.

### **3.6 Escalation**

As previously stated, to be effective, risk needs to be managed at the lowest appropriate level. A risk that is deemed sufficiently material by its lead Director may be escalated onto the Directorate Risk Register. A risk will be escalated from the Directorate Register to the Corporate Risk Register when the Directorate either have concerns about their capacity or authority to manage the risk, or they do not have the resources (e.g. budget, staff etc) to manage it, risk requires c or it is deemed to represent a significant public relations risk.

Not having capacity or authority to manage a risk should not be viewed as a lack of capability, but rather a recognition that a risk is either so severe that it needs to be managed

at a higher level, or possibly that it transcends more than one area of business or Directorate. It is anticipated, although this is not a binding requirement, that such a risk when being escalated onto the Corporate Risk Register will have a minimum risk score of 14.

In the event of a requirement to escalate a risk, from the Directorate Risk Register to the Corporate Risk Register, the matter will require the approval of the Executive Team.

### **3.7 Removal**

The removal of a risk from the Corporate Risk Register shall require the approval of the Audit and Assurance Committee.

Risk should not be removed from the system until such time as the risk has been eliminated. Risks may reduce in their importance over time, and so may be de-escalated down to an appropriate level of management.

Annex 1

Risk Assessment and Scoring

In order to effectively assess a risk, it is necessary to consider two factors: Likelihood and Impact.

HEIW utilises a common form of risk scoring referred to as a 5x5 risk matrix. Likelihood and Impact are assessed on a scale of 1 to 5, and then the two scores are multiplied together to arrive at the final risk score.

As scoring is a subjective process guidance is provided through the tables below.

Risk Scoring Matrix

Level	Colour	Score Range
Low		1-6
Moderate		7-14
High		15-25

LIKELIHOOD	Probable	5	10	15	20	25
	Likely	4	8	12	16	20
	Possible	3	6	9	12	15
	Unlikely	2	4	6	8	10
	Rare	1	2	3	4	5
		Negligible	Minor	Moderate	Major	Critical

### ***Risk Appetite Levels***

Appetite Level	Described as:	What this means
None	Avoidance of risk and uncertainty is a key organisational objective.	Avoidance of loss is key objective, play safe, avoidance of developments. Priority for tight controls and oversight.
Low	Minimal, or as little as reasonably possible, is preferred for ultra-safe delivery options that have a low degree of inherent risk and only for limited reward potential.	Prepared to accept the possibility of very limited financial loss if essential. Win any challenges re compliance. Innovations avoided unless essential.
Moderate	Cautious is preferred for safe delivery options that have low degree of inherent risk and may only have limited potential for reward.	Prepare to accept some possibility of some financial loss. Limited tolerance for sticking neck out. Tendency to stick with status quo, innovation in practice avoided unless really necessary
High	Open and willing to consider all potential delivery options and choose while also providing an acceptable level of reward (and Value for Money).	Prepared to invest for return & minimise the possibility of financial loss. Value and benefits considered. Gains outweigh adverse consequences. Innovation supported.
Very High	Seek and be eager to be innovative and too chose options offering potentially higher business rewards (despite greater inherent risk). Or also described as mature and confident in setting high levels of risk appetite because controls, forwards scanning and responsiveness systems are robust.	Investing for best possible return & acceptance of possibility of financial loss. Chances of losing any challenge are real and consequences would be significant. Desire to break the mould. High levels of devolved authority – management by trust not control.

## **Y DIWEDDARAF AM Y GYMRAEG**

### **1. CYFLWYNIAD**

Pwrpas yr adroddiad hwn yw cadarnhau ardystiad Cynllun Iaith Gymraeg 2021-23 (CIG) AaGIC gan Gomisiynydd y Gymraeg a bod y ddogfen wedi'i chyhoeddi ar wefan AaGIC.

### **2. CEFNDIR**

Tua diwedd 2019, cynghorodd Swyddfa Comisiynydd y Gymraeg na fyddai Llywodraeth Cymru yn cadarnhau'r Safonau Cymraeg cymwys ar gyfer AaGIC yn y dyfodol rhagweladwy. Gyda hyn mewn golwg, mae Comisiynydd y Gymraeg wedi gofyn i AaGIC baratoi Cynllun Iaith Statudol - fel y nodir o dan Ddeddf wreiddiol (1993).

Yn dilyn proses ymgynghori gyhoeddus, cymeradwyodd y Bwrdd gyflwyno'r CIG drafft i Gomisiynydd yr Iaith Gymraeg er cymeradwyaeth yn ei gyfarfod ym mis Mawrth.

### **3. CYNNIG**

Cymeradwyodd Comisiynydd y Gymraeg yn ffurfiol CIG AaGIC ar 4 Hydref (Atodiad 1). Yn unol â chyfarwyddyd y Comisiynydd ac yn unol â gofynion Deddf Cymraeg, mae'r CIG wedi'i gyhoeddi ar wefan AaGIC.

Bydd y CIG yn disodli Polisi Iaith Cymraeg presennol AaGIC. Mae'r ddwy ddogfen yn seiliedig ar Safonau'r Iaith Gymraeg.

Mae'r Bwrdd wedi derbyn diweddariadau o'r blaen mewn perthynas â'r cynnydd a wnaed mewn perthynas ag ymgorffori'r Polisi Cymraeg. Wrth symud ymlaen, bydd y Bwrdd nawr yn derbyn diweddariadau mewn perthynas â'r cynnydd a wnaed mewn perthynas â'r Cynllun Cymraeg newydd.

### **4. MATERION LLYWODRAETHU A RISG**

Gall peidio â chydymffurfio ag unrhyw un o rwymedigaethau'r Gymraeg arwain at Amser rheoli (sylweddol) yn cael ei gymryd i ateb ymchwiliad gan Gomisiynydd y Gymraeg, a difrod i enw da.

# FOREWORD

Here is our Welsh Language Scheme. When reading this document, please bear in mind at all times that HEIW starts from the position that being able to offer services bilingually leads to better clinical outcomes. This is the driving force behind both our scheme, and in everything we do at HEIW to ensure that patients in Wales will be better able to receive care in their preferred language – English or Welsh.

The principle behind almost 30 years of Welsh language legislation in Wales is that the English and Welsh languages are treated on a basis of equality – this underpins our Welsh language scheme, but more importantly, the patients' experience within Wales, allowing them to feel most comfortable and respected when they are receiving healthcare, is what drives this scheme.

These are our aspirations – and we feel sure that by adopting the principles and actions laid out in this Scheme HEIW will help to improve the patient experience of the healthcare system in Wales.

**Dr Chris Jones**  
**Chair, HEIW**

HEIW starts from a position that it wants to become a bilingual organisation.

We start from a strong place – in the first two years of operating, we feel that we have made significant strides towards this goal. Over 15% of our core staff have voluntarily been taking Welsh lessons in that time, thus improving our internal capacity to deliver services bilingually. The opportunity to learn through the medium of Welsh, and the importance of being aware of the clinical benefits of a bilingual service have been strong themes in the preparation of learning opportunities for the students and staff of the NHS in Wales; our new learning portal (named “Y Tŷ Dysgu”), builds upon these aspirations; all of our policies are “sense checked” for the impact they have on the Welsh language, and wherever practical, we try to strengthen the positive impact on the language as we introduce new policies; all of our websites and an increasing amount of our public facing communications happen bilingually – something that until now we have been under no obligation to do. A bilingual approach to our work is becoming the norm within the organisation.

We have done all of this, and more, because we believe strongly that a bilingual nation needs bilingual organizations to maximise its effectiveness and efficiency. A healthcare service is ultimately about a positive experience and a good outcome for the individual in receipt of that service. An increasing amount of individuals within the Welsh healthcare system will achieve better outcomes by receiving care through the language of their choice. This is the driving aspiration behind our scheme.

**Alex Howells,**  
**Chief Executive, HEIW**

# INTRODUCTION

## Our organisation

HEIW was established on 1 October 2018, as the eleventh member of the NHS Wales following the combination of three legacy organisations; Wales Deanery, Wales Centre for Professional Pharmacy Education (WCPPE) and Workforce and Education Development Service (WEDS).

We have a leading role in the education, training, development, and shaping of the healthcare workforce in Wales, supporting high-quality care for the people of Wales.

Our key functions include:

- working closely with partners and key stakeholders, and planning ahead to ensure the health and care workforce meets the needs of the NHS and people of Wales, now and in the future;
- being a reputable source of information and intelligence on the Welsh health and care workforce;
- commissioning, designing, and delivering high-quality, value for money education and training, in line with standards;
- using education, training, and development to encourage and facilitate career progression;
- supporting education, training, and service regulation by playing a key role in representing Wales, and working closely with regulators;
- developing the healthcare leaders of today and the future;
- providing opportunities for the health and care workforce to develop new skills;
- promoting health and care careers in Wales, and Wales as a place to live;
- supporting the professional workforce and organisation development profession with Wales;
- continuously improving what we do and how we do it.

As an organisation, we are based at Tŷ Dysgu, Nantgarw, a leased building from Rhondda Cynon Taf Council, which provides the managerial and administrative hub for over 200 staff and a selection of meeting spaces to undertake business. We also lease a small office space in North Wales.

## HEIW and the Welsh language

### Main aims

HEIW wants to become a bilingual organisation, both in the way it conducts its internal business and in the way it interacts with its stakeholders. Already, after less than 2 years of existence, here are some of the things we are doing internally to this end:

- we produce all of our Open Board and Committee Cover papers in Welsh
- we encourage the use of Welsh in our public meetings by providing a simultaneous translationservice
- we have invested in our simultaneous translation equipment, and are training more and more staff to use it. We have used this equipment to provide translation service in large public meetings of up to 400 attendees – but are also using it increasingly in smaller meetings, interviews and workshops of between two - eight people
- our Integrated Medium Term Plan (IMTP), which forms part of the Welsh Government's National Integrated Medium Term Plan, commits us to delivering on a number of objectives which are aimed to foster the Welsh language both internally and externally. We report monthly on progress against this plan, and are called to account against it by Welsh Government. Our current IMTP can be found here; <https://heiw.nhs.wales/corporate/key-documents/>
- in the first year of our existence, almost 40 members of staff enrolled in Welsh lessons at various levels. In our second year, this number increased.

In our externally facing activities, the following highlights are to be noted from our first two years of Operation:

- public presentations are bilingual in as much as is practical – slide headings, agendas for meetings, oral greetings at the least, and whole presentations where feasible, are presented bilingually; simultaneous translation is increasingly being offered at meetings we host all across Wales
- the Welsh language runs as a common thread throughout our draft Workforce Strategy for Health and Social Care – currently awaiting formal approval from Welsh Government
- the Welsh language is playing an increased role in the Commissioning Process for Healthcare Education – language awareness is being made compulsory for all students, and enhanced learning opportunities for all students will also become a formal part of their education in Wales
- we are forging an extremely constructive dialogue with the Coleg Cymraeg Cenedlaethol in the strategic development of the Welsh language in Higher Education learning activities throughout Wales
- during the Course of 2021/ 22 we will be piloting and developing a couple of highly innovative qualifications (with other Health Board partners) aimed both at recruiting Welsh speakers into the Health and Social Care workforce, and developing the existing language skills of those already working with us
- these qualifications will aid us in the recruitment of Welsh speakers into the workforce in Wales -a point reinforced by the recent creation and recruitment of a Welsh speaking Careers and Outreach Officer to HEIW who will concentrate specifically on the career opportunities within Health and Social Care which require varying amounts of Welsh language skills.

These are just some of the initiatives already achieved and underway within HEIW which reinforce our stated aim of being a bilingual organisation.

## Purpose of the Scheme

As a body committed to improving the provision of health education in Wales, we recognize the growing importance of the Welsh language in ensuring better clinical outcomes, and this is the main motivating factor behind our desire to optimize the quality and quantity of the Welsh language services we are able to offer.

HEIW has adopted the principle established in the Welsh Language Act 1993 that, in the conduct of public business in Wales, the Welsh and English languages should be treated on a basis of equality.

This statutory Welsh language scheme describes how we will give effect to this principle and sets out how we will provide our services to the public in Wales in Welsh.

The Scheme carries the full authority, support and approval of our Board and Executive.

---

## Scope of the Scheme

### Delivering services to the public

The Scheme mainly covers the activities and services that we provide to the public in Wales.

The term 'public' means individuals, legal persons and corporate bodies. It includes the public as a whole, or a section of the public, as well as individual members of the public<sup>1</sup>.

The term includes voluntary organisations and charities as well as public bodies such as local authorities and local health boards. Directors and others representing limited companies are also within the meaning of the term 'public'.

Apart from those named above, it does not, however, include persons who are acting in a capacity which is representative of the Crown, Government or State. Consequently, persons who fulfil official functions of a public nature, even though they are legal persons, do not come within the meaning of the word 'public' when they are fulfilling those official functions.

### Delivering services to persons

HEIW has also committed to provide a level of Welsh language service equivalent to the Welsh language standards imposed on similar public organisations in Wales. As such, our Scheme also extends to committing to provide some activities and services in Welsh to 'persons'.

The term 'person' has a broader meaning than the term 'public'. In this scheme, references to 'persons' include a body of persons corporate or unincorporate<sup>2</sup>. The term includes entities such as individuals, corporate bodies, associations, companies, partnerships, trusts and public authorities.

## Policy-making

The scheme explains how we will consider the effects of our policy decisions on the Welsh language.

## Internal operations

<sup>1</sup> In this scheme, an 'individual' means a member of the public

<sup>2</sup> The term "person" is interpreted in accordance with Schedule 1 of the Interpretation Act 1978  
[https://www.legislation.gov.uk/ukpga/1978/30/pdfs/ukpga\\_19780030\\_en.pdf](https://www.legislation.gov.uk/ukpga/1978/30/pdfs/ukpga_19780030_en.pdf)

This Scheme also explains how we will consider and use the Welsh language internally and outlines the activities and services we provide to our staff in Welsh. It also explains how we will administer and monitor our Scheme.

**Action plan**

An action plan outlining how we will implement the commitments in our Scheme, and by when, can be found in Appendix 1.

**Welsh Language Measure (Wales) Measure 2011**

The Welsh Language (Wales) Measure 2011 establishes the principle that:

- in Wales, the Welsh language should be treated no less favourably than the English language, and
- that persons in Wales should be able to live their lives through the medium of the Welsh language if they choose to do so.

**Welsh language Commissioner**

The Measure transfers the functions of the Welsh Language Act 1993, which relate to Welsh language schemes to the Welsh Language Commissioner.

The Commissioner’s principal aim is to promote and facilitate the use of the Welsh language. The Commissioner is responsible for regulating the implementation of our scheme in accordance with the Commissioner’s Regulatory Framework.

**Welsh language standards**

The Measure makes provision for the specification of standards of conduct in relation to the Welsh language (‘standards’). Over time, standards will replace the system of Welsh language schemes provided for by the Welsh Language Act 1993.

As yet, Welsh Ministers have not yet prescribed regulations in relation to the conduct of HEIW, which would enable us to comply with Welsh language standards. We will continue to pursue constructive dialogue with Welsh Ministers with a view to them enabling us to come under the standards regime in the near future.

Until such standards come into force for HEIW, we will continue to implement a Welsh language scheme and amend our existing scheme every three years in order to strengthen its provisions.

**Official status of the Welsh language**

The Measure also gives legal force to the official status of the Welsh language. This scheme is a statement of our recognition of this legal status.

**Freedom to use the Welsh language**

The Measure also establishes the legal freedom of individuals in Wales wishing to use the Welsh language to do so with another individual. HEIW commits to ensuring that it does not interfere with an individual’s right (including staff) to use the Welsh language with someone else.

## **Well-being of Future Generations Act (Wales)**

One of the seven wellbeing goals in the Wellbeing of Future Generations Act (Wales) (2015) is; A Wales of vibrant culture and thriving Welsh language. Our aspirations in this plan mirror the aspirations of this important piece of legislation – our aim throughout this plan and in our everyday actions as a completely bilingual organization is to ensure that the Welsh language thrives.

## **Welsh Government Policies and Initiatives**

Other Welsh Government initiatives, specifically “A Healthier Wales” and “More Than Just Words”, are also reflected and supported in this Scheme.

## **Our Welsh language provision**

### **Standards of quality**

Services provided in Welsh and English will be of equal quality and are provided within the same timescale.

Any form of contact with the public in Wales which is not specifically dealt with by this scheme will be undertaken in a manner which is consistent with the general principles of this Scheme.

### **1. Written correspondence – including letters and e-mails**

If we receive correspondence from a person in Welsh, we will reply in Welsh (if an answer is required), unless the person has indicated that there is no need to reply in Welsh.

When we initiate correspondence with a person, the correspondence will be bilingual (unless we are aware of their language choice). Any follow-up correspondence will be issued according to the person's initial language choice.

When we send the same correspondence to several persons, including standard or circular correspondence, we will send a Welsh language version of the correspondence at the same time as we send any English language version.

If we don't know whether a person wishes to receive correspondence from us in Welsh, when we correspond with that person, we will provide a Welsh language version of the correspondence.

If we produce a Welsh language version and a corresponding English language version of correspondence, we will not treat the Welsh language version less favourably than the English language version. For example, if the English version is signed, or if contact details are provided on the English version, then the Welsh version will be treated in the same way. We will also ensure that we use Welsh language postal addresses when sending letters in Welsh.

We welcome correspondence in Welsh or English, including supplementary materials such as forms, information leaflets and so forth. Our target time for replying to correspondence is the same in both Welsh and English.

We will state -

- a. in correspondence, and
- b. in publications and notices that invite persons to respond to us or to correspond with us, that we welcome receiving correspondence in Welsh, that we will respond to correspondence in Welsh, and that corresponding in Welsh will not lead to delay.

We will provide -

- a. wording or a logo for our staff to include in e-mail signatures which will enable them to indicate whether they speak Welsh fluently or whether they are learning the language, and
- b. wording for our employees which will enable them to include a Welsh language version of their contact details in e-mail messages, and to provide a Welsh language version of any message which informs others that they are unavailable to respond to email messages.

## **2. Telephone calls**

---

### **Telephone calls made to our main contact number and to any helplines or call centres**

When a person contacts us on our main telephone number (or numbers), or on any helpline numbers or call centre numbers we will greet the person in Welsh. Our current practice is that our main public phone line is manned by a bilingual receptionist who answers with a bilingual greeting.

We will inform the person that a Welsh language service is available.

We will deal with the call in Welsh if that is the person's wish until such point as -

- a. it is necessary to transfer the call to a member of staff who does not speak Welsh who can provide a service on a specific subject matter; and
- b. no Welsh speaking member of staff is available to provide a service on that specific subject matter.

When we advertise telephone numbers, helpline numbers or call centre services, we will not treat the Welsh language less favourably than the English language.

If we offer a Welsh language service on our main telephone number (or numbers), on any helpline numbers or call centre numbers, the telephone number for the Welsh language service will be the same as for the corresponding English language service.

When we publish our main telephone number, or any helpline numbers or call centre service numbers, we will state (in Welsh) that we welcome calls in Welsh.

If we have performance indicators for dealing with telephone calls, we will ensure that those performance indicators do not treat telephone calls made in Welsh any less favourably than calls made in English.

Our main telephone call answering service (or services) will inform persons calling, in Welsh, that they can leave a message in Welsh.

When there is no Welsh language service available on our main telephone number (or numbers), or on any helpline numbers or call centre numbers, we will inform persons calling, in Welsh (by way of an automated message or otherwise), when a Welsh language service will be available. For example, if there is no Welsh speaker available who would be qualified to deal with the caller's specific enquiry, the caller will be given the choice of a Welsh speaker phoning back as soon as possible, continuing the call in English, or submitting a written query in Welsh.

### **Telephone calls made to departments and to members of our staff**

If a person contacts one of our departments on a direct line telephone number (including on staff members' direct line numbers), and that person wishes to receive a service in Welsh, we will deal with the call in Welsh until such point as -

- a. it is necessary to transfer the call to a member of staff who does not speak Welsh who can provide a service on a specific subject matter; and
- b. no Welsh speaking member of staff is available to provide a service on that specific subject matter.

When a person contacts us on a direct line number (whether on a department's direct line number or on the direct line number of a member of staff), we will ensure that, when greeting the person, the Welsh language is not treated less favourably than the English language.

### **Telephone calls initiated by us**

When we telephone an individual ("A") for the first time we will ask A whether A wishes to receive telephone calls from us in Welsh, and if A responds to say that A wishes to receive telephone calls in Welsh we will keep a record of that wish, and conduct telephone calls made to A from then onwards in Welsh.

### **Dealing with telephone calls using an automated system**

Any automated telephone systems that we have will provide the complete automated service in Welsh.

## **3. Holding meetings that are not open to the general public**

### **Meetings between us and one other invited person**

If we invite one person only to a meeting -

- a. we will ask the person whether he or she wishes to use the Welsh language at the meeting, and inform the person that we will conduct the meeting in Welsh or, if necessary, provide a translation service from Welsh to English for that purpose, and
- b. if the person has informed us that he or she wishes to use the Welsh language at the meeting, we will conduct the meeting in Welsh or, if necessary, arrange for a simultaneous or consecutive translation service from Welsh to English to be available at the meeting.

### **Meetings between us and more than one invited person**

If we invite more than one person to a meeting, we will ask each person whether they wish to use the Welsh language at the meeting.

If at least 10% (but less than 100%) of the persons invited have informed us that they wish to use the Welsh language at the meeting, we will arrange for a simultaneous or consecutive translation service from Welsh to English to be available at the meeting. If all of the persons invited have informed us that they wish to use the Welsh language at the meeting, we will conduct the meeting in Welsh or, if necessary, arrange for a simultaneous or consecutive translation service from Welsh to English to be available at the meeting.

#### 4. Public Meetings

If we arrange a meeting that is open to the public and at which public participation is allowed, we will state on any material advertising it, and on any invitation to it, that anyone attending is welcome to use the Welsh language at the meeting.

When we send invitations to a meeting that we arrange which is open to the public and at which public participation is allowed, we will send the invitations in Welsh.

If we invite persons to speak at a meeting that we arrange which is open to the public and at which public participation is allowed, we will -

- a. ask each person invited to speak whether he or she wishes to use the Welsh language, and
- b. if that person (or at least one of those persons) has informed us that he or she wishes to use the Welsh language at the meeting, provide a simultaneous or consecutive translation service from Welsh to English for that purpose (unless we conduct the meeting in Welsh without a translation service).

If we arrange a meeting that is open to the public and at which public participation is allowed, we will ensure that a simultaneous translation service from Welsh to English is available at the meeting, and we will orally inform those present in Welsh -

- a. that they are welcome to use the Welsh language, and
- b. that a simultaneous translation service is available.

If we produce and display any written material at a meeting that we arrange which is open to the public, we will ensure that the material is displayed in Welsh, and we will not treat any Welsh language text less favourably than the English language text. This includes ensuring that we

provide agendas, papers and other information bilingually . We will also publish minutes or papers produced following these meetings bilingually.

**5. Public events**

---

If we organise a public event, or fund at least 50% of a public event, we will ensure that, in promoting the event, the Welsh language is treated no less favourably than the English language (for example, in the way the event is advertised or publicised).

If we organise a public event, or fund at least 50% of a public event, we will ensure that the Welsh language is treated no less favourably than the English language at the event (for example, in relation to services offered to persons attending the event, in relation to signs we produce and display at the event and in relation to audio announcements made at the event).

**6. Public lectures**

---

When public lecture are held, we will ensure that a simultaneous translation service from Welsh to English is available for the purpose of any questions asked by the audience duringor after the lecture where -

- a. the subject matter of the public lecture suggests that such a service should be provided, or
- b. the anticipated audience and their expectation suggests that such a service should be provided.

When we arrange a public lecture and we provide a simultaneous translation service, we will orally inform those present in Welsh that they are welcome to use the Welsh language.

**7. Publicity and advertising material**

---

Any publicity or advertising material that we produce must be produced in Welsh, and if we produce the material in Welsh and in English, we will not treat the Welsh language version lessfavourably than we treat the English language version.

**8. Displaying material in public**

---

Any material that we produce and display in publicwill be displayed in Welsh, and we will not treat any Welsh language version of the material less favourably than the English language version.

## 9. Documents and forms

---

Both our IMTP and our EqIA (Equalities Impact Assessment) processes ensure that any document and form we produce will be produced bilingually as default.

As a minimum, any document and form that we produce for public use will be produced in Welsh.

If we produce a document or a form bilingually we will -

- a. not treat any Welsh language version less favourably than we treat the English language version (whether separate versions or not);
- b. not differentiate between the Welsh and English version in relation to any requirements that are relevant to the document or form (for example in relation to any deadline for submitting the form, or in relation to the time allowed to respond to the content of the document or form); and
- c. ensure that the English language version clearly states that the document or form is also available in Welsh

When we issue any statement to the press we will issue it in Welsh and, if there is a Welsh language version and an English language version of a statement, we will issue both versions at the same time.

## 10. Our websites & online resources

---

We will ensure that -

- a. the text of each page of our website is available in Welsh,
- b. every Welsh language page on our website is fully functional, and
- c. the Welsh language is not treated less favourably than the English language on our website.

This includes ensuring that any future content or developments to HEIW's main website, and current microsites, should be implemented bilingually. It also means that any online service we provide for the public will be available bilingually.

If we have a Welsh language web page that corresponds to an English language web page, we will state clearly on the English language web page that the page is also available in Welsh, and we will provide a direct link to the Welsh page on the corresponding English page. Our main website, <https://heiw.nhs.wales/> has been developed bilingually with the ability to toggle directly between languages.

We will provide the interface and menus on every page of our website in Welsh.

When designing new websites, or developing our existing websites, we will take into account the Welsh Language Commissioner's guidance Technology, Websites and Software: Welsh Language Considerations and Welsh Government's Welsh Language Technology Action Plan.

## 11. Apps

---

All apps that we publish will function fully in Welsh, and the Welsh language will be treated no less favourably than the English language in relation to that app.

## 12. Social media

---

When we use social media on our corporate and departmental accounts we will not treat the Welsh language less favourably than the English language.

If a person contacts us by social media in Welsh, we will reply in Welsh (if an answer is required).

## 13. Signage and notices

---

When we -

- a. erect a new sign or renew a sign (including temporary signs); or
- b. publish or display a notice; any text displayed on the sign or notice will be displayed in Welsh (whether on the same sign or notice as you display corresponding English language text or on a separate sign or notice);
- c. and if the same text is displayed in Welsh and in English, we will not treat the Welsh language text less favourably than the English language text.

Although bilingual signs are the preferred option, separate Welsh and English signs will, if issued, be equal in terms of size, quality, legibility and prominence.

When we -

- a. erect a new sign or renew a sign (including temporary signs); or
- b. publish or display a notice; which conveys the same information in Welsh and in English, the Welsh language text will be positioned so that it is likely to be read first.

We will ensure that the Welsh language text on signs and notices is accurate in terms of meaning and expression. An approved translator will proofread all bilingual and separate Welsh version signage in order to ensure consistency in the standard of Welsh.

## 14. Reception services

---

Any reception service we make available in English at our reception will also be available in Welsh, and any person who requires a Welsh language reception service at our reception will not be treated less favourably than a person who requires an English language reception service.

We will ensure that staff at the reception who are able to provide a Welsh language reception service wear a badge to convey that. Currently, our reception is manned by a bilingual receptionist, who wears a badge and lanyard to convey they are able to provide a Welsh language reception service.

We will display a sign in our reception which states (in Welsh) that persons are welcome to use the Welsh language at the reception.

## 15. Grants

---

Any documents that we publish which relate to applications for a grant will be published in Welsh, and we will not treat a Welsh language version of such documents less favourably than an English language version.

When we invite applications for a grant, we will -

- a. state in the invitation that applications may be submitted in Welsh and that any application submitted in Welsh will be treated no less favourably than an application submitted in English; and
- b. not treat applications for a grant submitted in Welsh less favourably than applications submitted in English (including, amongst other matters, in relation to the closing date for receiving applications and in relation to the timescale for informing applicants of decisions).

When we inform an applicant of our decision in relation to an application for a grant, we will do so in Welsh if the application was submitted in Welsh.

## **16. Invitation to tender**

---

Any invitations to tender for a contract that we publish will be published in Welsh if the subject matter of the contract suggests that it should be produced in Welsh, and we will not treat a Welsh language version of any invitation less favourably than an English language version.

When we publish invitations to tender for a contract, we will -

- a. state in the invitation that tenders may be submitted in Welsh, and that a tender submitted in Welsh will be treated no less favourably than a tender submitted in English, and
- b. not treat a tender for a contract submitted in Welsh less favourably than a tender submitted in English (including, amongst other matters, in relation to the closing date for receiving tenders, and in relation to the timescale for informing tenderers of decisions).

When we inform a tenderer of our decision in relation to a tender, we will do so in Welsh if the tender was submitted in Welsh.

## **17. Promoting Welsh language services**

---

HEIW will promote through website and staff emails any Welsh language services that we provide and will advertise those services in Welsh.

When a service that is provided in Welsh corresponds to a service provided in English, any publicity or document that is produced, or website that is published, which refers to the English service will also state that a corresponding service is available in Welsh.

The EqIA, as mentioned above, ensures that the dynamic is to prove that an opt out of bilingual services is required, not a justification to “opt in”.

We will -

- a. make available to members of staff who are able to speak Welsh a badge for them to wear to convey that; and
- b. promote the wearing of the badge to members of staff.

English Catherine  
11/24/2021 14:21:18

## 18. Corporate identity

---

When we form, revise or present our corporate identity, we will not treat the Welsh language less favourably than the English language.

HEIW will adopt a fully bilingual corporate identity. This includes HEIW's name, its address, logo, visual identity, corporate slogan and any other standard information that is to be used on:

- letter headed paper, fax paper, compliment slips, e-mail signatures
- all promotional / advertising material (i.e. flyers, posters, leaflets etc.) in the public domain.

## 19. Education courses

---

If we offer an education course to one or more individuals, we will -

- a. undertake an assessment of the need for that course to be offered in Welsh;
- b. offer that course in Welsh if the assessment indicated that the course needs to be offered in Welsh.

In addition, as our Education courses are replaced through the re-commissioning processes, we will work with third party delivery partners to maximise the opportunities to introduce more Welsh learning opportunities for students.

When we develop or revise a course (or any component of a course) we will consider -

- a. what effects, if any (and whether positive or negative), that course would have on -
  - i. opportunities for persons to use the Welsh language, and
  - ii. treating the Welsh language no less favourably than the English language
- b. how that course would have positive effects, or increased positive effects, on -
  - i. opportunities for persons to use the Welsh language, and
  - ii. treating the Welsh language no less favourably than the English language;
- c. how that course would not have adverse effects, or so that it would have decreased adverse effects on -
  - i. opportunities for persons to use the Welsh language, and
  - ii. treating the Welsh language no less favourably than the English language.

## 20. Submission of written work

---

We will inform our students that any written work submitted to us as part of an assessment or examination may be submitted in Welsh, and that work submitted to us in Welsh will be treated no less favourably than written work submitted to us in English as part of that assessment or examination.

We will not treat any written work submitted to us in Welsh as part of an assessment or examination less favourably than written work submitted to us in English as part of that assessment or examination.

Students will be supported and encouraged to submit assignments in Welsh. When requested assignment briefs will be translated and students will be able to be assessed through the medium of Welsh. If the course team/school do not have the services of a Welsh speaking lecturer the HEIW will consider translating the assignment from Welsh to English.

## 21. Public address systems

---

When we announce a recorded message over a public address system, we will make that announcement in Welsh and, if the announcement is made in Welsh and in English, the announcement will be made in Welsh first.

## 22. Policy makers

---

When we formulate a new policy, or review or revise an existing policy, we will:

- consider what effects, if any (whether positive or adverse), the policy decision would have on -
  - a. opportunities for persons to use the Welsh language, and
  - b. treating the Welsh language no less favourably than the English language.
- consider how the policy could be formulated (or how an existing policy could be changed) so that the policy decision would have positive effects, or increased positive effects, on -
  - a. opportunities for persons to use the Welsh language, and
  - b. treating the Welsh language no less favourably than the English language.
- consider how the policy could be formulated (or how an existing policy could be changed) so that the policy decision would not have adverse effects, or so that it would have decreased adverse effects, on -
  - a. opportunities for persons to use the Welsh language, and
  - b. treating the Welsh language no less favourably than the English language.

When we publish a consultation document which relates to a policy decision, the document will:

- consider, and seek views on, the effects (whether positive or adverse) that the policy decision under consideration would have on -
  - a. opportunities for persons to use the Welsh language, and
  - b. treating the Welsh language no less favourably than the English language.
- consider, and seek views on, how the policy under consideration could be formulated or revised so that it would have positive effects, or increased positive effects, on -
  - a. opportunities for persons to use the Welsh language, and
  - b. treating the Welsh language no less favourably than the English language.
- consider, and seek views on, how the policy under consideration could be formulated or revised so that it would not have adverse effects, or so that it would have decreased adverse effects, on -
  - a. opportunities for persons to use the Welsh language, and
  - b. treating the Welsh language no less favourably than the English language.

When we commission or undertake research that is intended to assist us to make a policy decision, we will -

- ensure that the research considers what effects, if any (and whether positive or adverse), the policy decision under consideration would have on -
  - a. opportunities for persons to use the Welsh language, and
  - b. treating the Welsh language no less favourably than the English language.
- ensure that the research considers how the policy decision under consideration could be made so that it would have positive effects, or so that it would have increased positive effects, on -
  - a. opportunities for persons to use the Welsh language, and
  - b. treating the Welsh language no less favourably than the English language.

- ensure that the research considers how the policy decision under consideration could be made so that it would not have adverse effects, or so that it would have decreased adverse effects, on -
  - a. opportunities for persons to use the Welsh language, and
  - b. treating the Welsh language no less favourably than the English language.

Our current practice is to assess the potential effects of our policy decisions on the Welsh language as part of a combined impact assessment, where specific questions will be asked on opportunities to use the Welsh language and ensuring that it is treated no less favourably than English.

We will ensure that new primary and secondary legislation, policies and codes of practice support the use of Welsh and ask staff to consider the Welsh language from the outset/start of any process

All policies are developed through our public facing IMTP process, backed up by our EqlA's. Therefore, we offer complete transparency in the way that the Welsh language is considered, included and most importantly actively supported both in the development and delivery of policies. Our current IMTP can be found at <https://heiw.nhs.wales/corporate/key-documents/>.

### 23. Use of Welsh internally

---

We will develop a policy on using Welsh internally for the purpose of promoting and facilitating the use of the language, and we will publish that policy on our intranet.

When we offer a new post to an individual, we will ask that individual whether he or she wishes for the contract of employment or contract for services to be provided in Welsh; and if that is the individual's wish we will provide the contract in Welsh.

Each employee will be asked whether they wish to receive any of the following in Welsh, and if that is the employee's wish, we will provide it in Welsh:

- correspondence that relates to their employment
- documents that outline any training needs or requirements
- documents that outline their performance objectives
- documents that outline or record their career plan
- forms that record and authorise annual leave
- forms that record and authorise absences from work
- forms that record and authorise flexible working hours.

All the following will be published in Welsh:

- policy relating to behaviour in the workplace
- policy relating to health and well-being at work
- policy relating to salaries or workplace benefits
- policy relating to performance management
- policy relating to absence from work
- policy relating to working conditions
- policy relating to work patterns.

## 24. Staff complaints and disciplinary procedures

---

### Complaints

We will allow and state in any document that we have that sets out our procedures for making complaints that each member of staff may -

- a. make a complaint to us in Welsh, and
- b. respond to a complaint made about him or about her in Welsh; and we will also inform each member of staff of that right.

If we receive a complaint from a member of staff or a complaint about a member of staff, and a meeting is required with that member of staff, we will -

- a. offer to conduct the meeting in Welsh or, if necessary, provide a translation service from Welsh to English for that purpose; and
- b. if the member of staff wishes for the meeting to be conducted in Welsh, conduct the meeting in Welsh or, if necessary, with the assistance of a simultaneous or consecutive translation service from Welsh to English.

When we inform a member of staff ("A") of a decision we have reached in relation to a complaint made by A, or in relation to a complaint made about A, we will do so in Welsh if A -

- a. made the complaint in Welsh,
- b. responded in Welsh to a complaint about A,
- c. asked for a meeting about the complaint to be conducted in Welsh, or
- ch. asked to use the Welsh language at a meeting about the complaint.

### Disciplinary meetings

We will -

- a. allow and state in any document that we have which sets out our arrangements for disciplining staff that any member of staff may respond in Welsh to any allegations made against him or against her, and
- b. if we commence a disciplinary procedure in relation to a member of staff, inform that member of staff of that right.

If we organise a meeting with a member of staff regarding a disciplinary matter that relates to his or to her conduct we will -

- a. offer to conduct the meeting in Welsh or, if necessary, provide a translation service from Welsh to English for that purpose; and
- b. if the member of staff wishes for the meeting to be conducted in Welsh, conduct the meeting in Welsh, or if necessary with the assistance of a simultaneous or consecutive translation service from Welsh to English.

When we inform a member of staff ("A") of a decision we have reached following a disciplinary procedure, we will do so in Welsh if A -

- a. responded to allegations made against A in Welsh,
- b. asked for a meeting regarding the disciplinary procedure to be conducted in Welsh, or
- c. asked to use the Welsh language at a meeting regarding the disciplinary procedure.

## 25. Computer software

---

All staff computers are provided with computer software for checking spelling and grammar in Welsh, and Welsh language interfaces for software (where an interface exists) is provided.

## 26. Intranet

---

We will ensure that -

- a. the text of each page of our intranet is available in Welsh,
- b. every Welsh language page on our intranet is fully functional, and
- c. the Welsh language is treated no less favourably than the English language on our intranet.

If we have a Welsh language page on our intranet that corresponds to an English language page, we will state clearly on the English language page that the page is also available in Welsh, and must provide a direct link to the Welsh language page on the corresponding English language page.

We will designate and maintain a page (or pages) on our intranet which provides services and support material to promote the Welsh language and to assist our staff to use the Welsh language.

We will provide the interface and menus on our intranet pages in Welsh.

## 27. Assessing staff Welsh Language skills

---

Through ESR, and the recruitment process, the Welsh language skills of our employees are assessed.

## 28. Staff training

---

We will provide opportunities for training in Welsh in the following areas, if we provide such training in English -

- a. recruitment and interviewing;
- b. performance management;
- c. complaints and disciplinary procedures;
- ch. Induction;
- d. dealing with the public; and
- dd. health and safety.

We will provide opportunities for training in Welsh on using Welsh effectively in—

- a. meetings;
- b. interviews, and
- c. complaints and disciplinary procedures.

We will provide training courses so that our employees can develop -

- a. awareness of the Welsh language (including awareness of its history and its role in Welsh culture)
- b. an understanding of the duty to operate in accordance with our Welsh language scheme; and
- c. an understanding of how the Welsh language can be used in the workplace.

When we provide information to new employees (for example by means of an induction process), we will provide information for the purpose of raising their awareness of the Welsh language.

## **29. Improving staff Welsh language skills**

---

We will provide opportunities during working hours -

- a. for our employees to receive basic Welsh language lessons, and
- b. for employees who manage others to receive training on using the Welsh language in their role as managers.

We will provide opportunities for employees who have completed basic Welsh language training to receive further training, free of charge, to develop their language skills.

We will also provide opportunities for employees to receive training, free of charge, to improve their Welsh language skills.

Staff and members of the HEIW will be encouraged to learn Welsh and to improve their Welsh language ability (speaking and writing). We will support them in this, both financially and in allocating time. Courses have been arranged by the Welsh Language Services Team and will be offered at various levels.

All of our staff will have the opportunity to benefit from the following provisions

- Welsh language classes at various, appropriate levels.
- Welsh language online modules developed and delivered by Welsh Government's Work Welsh initiative
- other provision offered by Welsh Government's Work Welsh initiative, as time and resources allow
- internal Welsh learners chat/ interest group
- signposting to effective channels (such as Say Something in Welsh and Duolingo)
- inform staff about opportunities to socialise in Welsh outside of work.

## **30. Recruitment and workforce planning**

---

When we assess the requirements for a new or vacant post, we will assess the need for Welsh language skills, and categorise it as a post where one or more of the following apply –

- a. Welsh language skills are essential;
- b. Welsh language skills need to be learnt when appointed to the post;
- c. Welsh language skills are desirable; or
- ch Welsh language skills are not necessary.

If we have categorised a post as one where Welsh language skills are essential, desirable or need to be learnt we will -

- a. specify that when advertising the post, and
- b. advertise the post in Welsh.

When we advertise a post, we will state that applications may be submitted in Welsh, and that an application submitted in Welsh will not be treated less favourably than an application submitted in English.

If we publish -

- a. application forms for posts;
- b. material that explains our procedure for applying for posts;
- c. information about our interview process, or about other assessment methods when applying for posts; or
- ch. job descriptions; we will publish them in Welsh; and we will ensure that the Welsh language versions of the documents are treated no less favourably than any English language versions of those documents.

We will not treat an application for a post made in Welsh less favourably than we treat an application made in English (including, amongst other matters, in relation to the closing date we set for receiving applications and in relation to any timescale for informing applicants of decisions).

We will ensure that our application forms for posts provide a space for applicants to indicate that they wish an interview or other method of assessment in Welsh and if an applicant so wishes, we will conduct any interview or other method of assessment in Welsh, or, if necessary, provide a simultaneous or consecutive translation service from Welsh to English for that purpose.

When we inform an applicant of our decision in relation to an application for a post, we will do so in Welsh if the application was made in Welsh.

### **31. Workplace signage**

---

When we -

- a. erect a new sign or renew a sign in our workplace (including temporary signs), or
- b. publish or display a notice in our workplace;  
any text displayed on the sign or notice will be displayed in Welsh (whether on the same sign or notice as the corresponding English language text or on a separate sign or notice), and if the same text is displayed in Welsh and in English, we will not treat the Welsh language text less favourably than the English language text.

When we -

- a. erect a new sign or renew a sign in our workplace (including temporary signs); or
- b. publish or display a notice in our workplace;  
which conveys the same information in Welsh and in English, the Welsh language text will be positioned so that it is likely to be read first.

We will ensure that the Welsh language text on signs and notices displayed in our workplace is accurate in terms of meaning and expression.

### **32. Workplace recorded announcements**

---

When we make a recorded announcement in the workplace using audio equipment, that announcement will be made in Welsh, and if the announcement is made in Welsh and in English, the announcement will be made in Welsh first.

English Catherine  
11/24/2021 14:21:18

### **33. Record keeping and administrative activities**

---

We will keep a record, in relation to each financial year, of the number of complaints we receive relating to the implementation of our Welsh language scheme.

We will keep a record (following assessments of our employees' Welsh language skills), of the number of employees who have Welsh language skills at the end of each financial year and, where we have that information, we will keep a record of the skill level of those employees.

We will keep a record, in relation to each financial year, of the number of new and vacant posts which were categorised as posts where -

- a. Welsh language skills are essential;
- b. Welsh language skills need to be learnt when appointed to the post;
- c. Welsh language skills are desirable; or
- ch. Welsh language skills are not necessary.

We will ensure that our Welsh language scheme and action plan for implementing our Scheme is available in a prominent place on our website.

We will produce a report (an "annual report"), in Welsh, in relation to each financial year, which deals with the way in which we have implemented our Welsh language scheme commitments with which we were under a duty to comply with during that year.

The annual report will include the following information (where relevant) -

- a. the number of complaints that we received during the year in question which related to the implementation of our Welsh language scheme;
- b. the number of employees who have Welsh language skills at the end of the year in question
- c. the number of new and vacant posts that we advertised during the year which were categorised as posts where -
  - i. Welsh language skills were essential;
  - ii. Welsh language skills needed to be learnt when appointed to the post;
  - iii. Welsh language skills were desirable; or
  - iv. Welsh language skills were not necessary.

We will publish the annual report no later than 6 months following the end of the financial year to which the report relates.

We will ensure that a current copy of our annual report is available on our website.

We will provide the Welsh Language Commissioner (if requested by the Commissioner) with any information which relates to our implementation of our Welsh language scheme.

### **34. Responsibilities within HEIW for Implementing the Scheme and Reparation Routes**

---

Managers will be responsible for implementing those aspects of the Scheme relevant to their work.

We will appoint a senior member of staff to coordinate the work required to deliver, monitor and review this Scheme.

35. Monitoring our Scheme

The implementation and progress of our Scheme will be monitored annually.

The senior member of staff appointed to coordinate the work required to deliver, monitor and review this Scheme will report to senior management on that progress on an annual basis.

We will report to the Welsh Language Commissioner on an annual basis and as requested, outlining progress in delivering this Scheme and our action plan.

36. Reviewing and amending our Scheme

Our Scheme will be completely reviewed and re-published 3 years following its approval. Any changes to the scheme will be referred to the Welsh Language Commissioner for approval and put for formal adoption to the HEIW Board.

No changes will be made to this Scheme without the Welsh Language Commissioner’s approval.

37. Services carried out on our behalf by third parties

Any arrangements or agreements we make with third parties will be consistent with the relevant parts of this Scheme where those agreements or arrangements relate to the provision of services to the public in Wales.

If a third party provides a service on our behalf, the service provided to the consumer in question will be of the same standard in terms of the Welsh language as any service provided directly by us. The third party’s ability to adhere to this principle will be ensured before awarding a contract, whilst establishing the contract and when monitoring the contract.

38. Complaints in relation to our Welsh language scheme

- We will -
- a. ensure that we have a complaints procedure that deals with how we intend to deal with complaints relating to the implementation of our Welsh language scheme commitments, and
  - b. publish a document that records that procedure on our website.

In the first instance, any complaints regarding this scheme should be directed to; The Welsh Language Services Manager, Huw Owen (HEIW) <a href="mailto:Huw.owen5@wales.nhs.uk">Huw.owen5@wales.nhs.uk</a> 0330 058 5005	Any subsequent complaints should be directed to; The Board Secretary, Dafydd Bebb <a href="mailto:Dafydd.bebb@wales.nhs.uk">Dafydd.bebb@wales.nhs.uk</a>
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------

If the complainant is not satisfied with how we have dealt with the complaint, complaints can be referred to the Welsh Language Commissioner’s Office. Information on this procedure can be found on the Commissioner’s website. We will cooperate with the Commissioner to resolve complaints – and during any investigations held under Section 17 of the Welsh Language Act 1993.

## **Information Governance and Information Management Group (IGIMG)**

### **Terms of Reference**

#### **1. Purpose**

The Information Governance and Information Management Group (IGIMG) is accountable to the Audit and Assurance Committee as a subgroup. Its purpose is to support and drive the broader Information Governance agenda and provide the Audit & Assurance Committee with the assurance that effective Information Governance best practice mechanisms are in place within the organisation.

Information Governance is about ensuring that organisations collect, use and store information in lawful ways. This includes carrying out Data Protection Impact Assessments (DPIAs) where new processing occurs and implementing appropriate documentation where information is shared with other organisations. Information Governance works to ensure HEIW is compliant with relevant legislation such as the Data Protection Act 2018 by ensuring the organisation has relevant policies and procedures in place, including requirements such as the use of privacy notices and investigation of data breaches.

IGIMG papers and reports will be reviewed by the HEIW Executive Team prior to submission to the IGIMG.

#### **2. Remit**

Key responsibilities of the IGIMG:

- To provide assurance that an appropriate and comprehensive information governance framework and systems are in place and being developed throughout the organisation in line with national standards;
- To develop the Information Governance Strategy, policies and guidance material and monitor compliance;
- To support the monitoring of the organisations Information Governance work programme;
- To monitor compliance and effectiveness of Information Governance and Information Security training in the organisation taken by staff as necessary to support their role;
- To receive lessons learnt from Information Governance and Cyber incidents to ensure the risk of future incidents is mitigated;
- Reviewing and monitoring recommendations relating to Information Governance and Information Management aspects arising from internal and external audit reports.
- Receiving key performance reports including on mandatory IG training, National Intelligent Integrated Auditing Solution (NIIAS), IG incidents, Freedom of Information Act (FOIA) requests and Subject Access Requests (SARs)
- Receiving reports on the Information Asset Register progress to ensure that it is robust

- Receiving reports on HEIW's information-sharing activities and make recommendations or take appropriate actions accordingly
- Ensuring Service Directorates' participation in the IG annual programme of work, including consultation and responsibility in the development and implementation of standards to achieve compliance.
- Providing oversight for the Cyber Security Programme, Strategy and Work Implementation Plan;
- Promoting a culture of cyber security awareness throughout HEIW;
- Reviewing the results arising from cyber security risk assessments and the status of risk treatment plans;
- Examining opportunities to continually improve the cyber security programme;
- Providing regular management reports regarding the status of cyber security to the Executive Team;
- Supporting the Senior Information Risk Officer.
- Providing a forum for the Data Protection Officer to monitor compliance with data protection legislation
- Providing briefing reports on IG issues to the Audit Committee
- Liaising with other HEIW committees and working groups in order to promote/address IG issues

### 3. Membership

Membership of the IGIMG will normally comprise of the following members; however other individuals with the relevant expertise may be asked to join the group.

## ASSURANCE REPORT

### NHS WALES SHARED SERVICES PARTNERSHIP COMMITTEE

Reporting Committee	Shared Service Partnership Committee
<b>Chaired by</b>	Mrs Margaret Foster, Chair
<b>Lead Executive</b>	Mr Neil Frow, Managing Director, NWSSP
<b>Author and contact details.</b>	Peter Stephenson, Head of Finance and Business Development
<b>Date of meeting</b>	23 September 2021

#### **Summary of key matters including achievements and progress considered by the Committee and any related decisions made.**

##### **Primary Care Programme**

Andrew Evans, Director of Primary Care Services, presented a deep dive on the development of the NWSSP response to the National Primary Care Programme. In particular he explained how NWSSP holds a substantial amount of data drawn from the large range of products and services that NWSSP deliver to the Primary Care Sector. These services vary between transactional (e.g. GP Payments), professional (e.g. Legal advice), and technical strategic (e.g. Estates Strategy advice). He explained that the team were currently working with Health Boards and DHCW to ensure that the team could move from data warehousing to data management helping to provide better links between data and outcomes. To take this agenda forward, and to better co-ordinate the services provided, NWSSP would look to establish a Steering Group.

##### **Managing Director Update**

The Managing Director presented his report, which included the following updates on key issues:

- Members of the NWSSP SLG met with Welsh Government at the end of July as part of the formal JET process. In particular NWSSP were able to highlight the influence and contribution they have had on *A Healthier Wales* and how NWSSP will play their part in supporting the Health Boards and Trusts as they plan to recover and continue to respond to the pandemic. The Welsh Government team reflected on NWSSP performance during the last 12 months and were pleased that NWSSP were able to reach out beyond traditional boundaries in a supportive manner with a clear focus on problem solving. In particular they highlighted not only 'what' had been achieved but the consistent 'can do' attitude, positive behaviours, and high levels of competency of our staff across a wide range of services.
- The Committee Members noted that NWSSP recently reached the milestone

of 1bn items of PPE supplied to NHS Wales, and the Social Care and wider Primary Care sectors. A revised PPE strategy has been developed with a requirement to reduce stockholdings of the main items of PPE to a minimum of 16 weeks as requested by Welsh Government. Further work is being undertaken on storage requirement options over the next few months.

- The Temporary Medicines Unit was recently subject to a MHRA inspection which resulted in a very positive outcome with only minor issues identified. A further inspection will be undertaken towards the end of the year to support the granting of a Special Licence. The team continue to work on the development of alternative products which should improve quality, produce time savings within Health Boards, with increased value-for-money. However, for the time being, the priority and key focus remains on supporting the Vaccination Programme.
- The process for appointment of a new NWSSP Chair is well underway with several very strong candidates who took part in Stakeholder Panels recently. It is expected that the recruitment process will be completed by the early part of October.

## Items Requiring SSPC Approval/Endorsement

### IMTP

The Committee Members received an update from the Director of Planning with regard to the development of the IMTP for 2022-2025. In particular the following cross-cutting themes have been identified to underpin the delivery of the Ministerial Priorities, and also the wider Programme for Government:

1. Customer focus and end user experience;
2. Primary care delivery and advisory role;
3. Progress towards WBFG Act five ways of working;
4. Improve NWSSP engagement with and contribution to the Foundational economy in Wales;
5. Patient journey – promoting the impact of what NWSSP does;
6. Make maximum progress towards decarbonisation and addressing the climate emergency; and
7. A motivated and sustainable workforce; supporting their wellbeing.

The overarching NWSSP Strategy Map has also been updated to:

- Incorporate foundational economy and decarbonisation more clearly across the objectives and overarching goals;
- Reflect equality and inclusion within the underpinning text of NWSSP core values;
- Include reference to wider social value within the VFM objective; and Demonstrate our commitment to Welsh Language more visibly.

The Committee Members noted the further opportunity to develop the Strategy Map during 2022 once the new SSPC Chair is in post and in readiness for the 2023-2026 IMTP process. This would also allow more time for greater clarity on

recovery plans and content of the IMTPs of our customers and wider partners to emerge.

The Director of Planning agreed to arrange 1:1 discussions with all SSPC Committee Members during October and November as part of the IMTP development process. It was noted that this worked well last year. The Committee agreed to receive an indicative IMTP presentation with key messages at the November SSPC meeting.

The Committee **APPROVED** the planned approach.

### **Laundry Services - Glangwili Laundry Transfer**

The Committee received a paper outlining the guiding principles and critical success factors against which the agreed transfer of the Glangwili Laundry will be completed. It is proposed that all applicable assets and liabilities will transfer from Hywel Dda to NWSSP with effect from October 1, 2021. It is not envisaged that land and buildings will transfer, and the laundry staff will remain employed by the Health Board.

The Committee **ENDORSED** the transfer which will also be considered at the September Hywel Dda Board meeting.

### **PPE Long-Term Plan**

The Committee reviewed the long-term plan for the procurement and supply of PPE. Until the end of June 2021, NWSSP were holding 24 weeks' stock of PPE but this has since been reduced to a minimum of 16 weeks at the request of Welsh Government. Members noted that Welsh Government have requested NWSSP to continue to supply PPE to both Health and Social Care staff until the pandemic is deemed to be over. It was noted that the plan requires significant expenditure to be incurred on PPE over the next three years. The forecast expenditure is based on a number of assumptions that will need to be kept under review. An overarching Procurement Framework contract has now been deployed that seeks to substantially increase local purchasing, sustainability and reduce the reliance on international suppliers.

The Committee **ENDORSED** the submission of the Plan to the Health & Social Care PPE Procurement and Supply Group (comprising representatives from Welsh Government, Social Services and NWSSP) for approval.

## **Finance, Workforce, Programme and Governance Updates**

**Project Management Office Update** – The Committee reviewed and noted the programme and projects monthly summary report, which highlighted the team's current progress and position on the schemes being managed.

**Finance Report** – The Committee reviewed the finance report and noted that there was a year-to-date underspend of £2.235m. The underspend was attributable to delays in appointing to vacancies as well as an increase in Legal &

Risk Services income. NWSSP senior leadership team have agreed £1.7m of non-recurrent re-investments within the divisions to accelerate the delivery of benefits and efficiencies. NWSSP are proposing to declare an additional £1.25m distribution to NHS Wales and Welsh Government in 2021/22. The forecast outturn remains at break even and NWSSP is on track to meet all other financial targets. In terms of the Welsh Risk Pool, the DEL expenditure is forecast to be in line with budget and the costs to be funded under the Risk Share Agreement remain at £16.5m.

**Oracle Upgrade** - Committee members were provided with an update on the Oracle Upgrade project following the Strategy and Development Board (STRAD) meeting on the 10<sup>th</sup> September 2021 at which it was agreed that NWSSP would continue to plan on the basis of undertaking the upgrade on 19<sup>th</sup> October 2021. The revised agreed downtime window is 4.30pm 14<sup>th</sup> October - 7am 19<sup>th</sup> October with a number of checkpoint updates planned over the weekend where the STRAD Board will be updated on progress via the MS Team channel.

**People & OD Update** – In-month sickness levels remain very low at just over 2% compared to a target of 3.3% with the cumulative figure just below target at 2.94%. As at the end of August, headcount was 4299, which is a 5% increase on the figure for July. The change is primarily driven by the addition of new services, particularly the Single Lead Employer, but also in the Medical Examiner Service. A continued focus is needed to improve the levels of PADR compliance which has fallen slightly.

**Corporate Risk Register** – there remain one red risk on the register, relating to the replacement of the NHAIS system. A new risk has been added relating to the need to upgrade the CLERIC system which is used by HCS to schedule and plan all deliveries.

## Papers for Information

The following papers were received for information:

## COFRESTR RISG GORFFORAETHOL

### 1. CYFLWYNIAD

Gofynnir i'r Bwrdd nodi'r sefyllfa bresennol o ran y CRG (Atodiad 1) fel yr amlinellir yn yr adroddiad hwn.

### 2. ASESIAID

Ar hyn o bryd mae **9** risg ar y CRG, ac fe aseswyd y risgiau hyn fel a ganlyn: **1** risg statws 'Coch', **8** risg statws 'Ambr' ac **1** risg statws 'Gwyrdd'. Heblaw am baragraff 2.1, sy'n rhoi'r wybodaeth ddiweddaraf am y Risg Goch, mae'r wybodaeth isod yn tynnu sylw at y newidiadau i'r CRG ers yr adroddiad diwethaf.

#### 2.1. Risgiau Coch

- **Risg 8** – Os nad yw AaGIC yn sicrhau bod pob cam rhesymol yn cael ei gymryd mewn perthynas â seiberddiogelwch, gall fod yn agored i dor diogelwch data, dirwyon posibl gan Swyddfa'r Comisiynydd Gwybodaeth a chyhoeddusrwydd gwael.

**Lliniaru:** Mae hyn yn gofyn am weithredu argymhellion a amlygir yn Adroddiad Asesu Seiberddiogelwch AaGIC. Y Cynllun Gweithredu Seiberddiogelwch i'w ddrafftio a'i weithredu.

**Cynnydd:** Mae'r argymhellion yn adroddiad Asesiad Seiberddiogelwch AaGIC wedi'u gweithredu neu'n cael eu gweithredu. Mae gweithgareddau i gefnogi'r gwaith o gyflawni'r cynllun seiberddiogelwch ar y gweill.

**Datblygiadau diweddar:** Mae gweithgareddau i gefnogi'r gwaith o gyflawni'r cynllun seiberddiogelwch ar y gweill.

- Mae gweithgareddau cefnogi i gyflawni'r Cynllun Ymwybyddiaeth Seiberddiogelwch ar y gweill.

## Risk Appetite Levels

Appetite Level	Described as:	What this means
<b>None</b>	Avoidance of risk and uncertainty is a key organisational objective.	Avoidance of loss is key objective, play safe, avoidance of developments. Priority for tight controls and oversight.
<b>Low</b>	Minimal, or as little as reasonably possible, is preferred for ultra-safe delivery options that have a low degree of inherent risk and only for limited reward potential.	Prepared to accept the possibility of very limited financial loss if essential. Win any challenges re compliance. Innovations avoided unless essential.
<b>Moderate</b>	Cautious is preferred for safe delivery options that have low degree of inherent risk and may only have limited potential for reward.	Prepare to accept some possibility of some financial loss. Limited tolerance for sticking neck out. Tendency to stick with status quo, innovation in practice avoided unless really necessary
<b>High</b>	Open and willing to consider all potential delivery options and choose while also providing an acceptable level of reward (and Value for Money).	Prepared to invest for return & minimise the possibility of financial loss. Value and benefits considered. Gains outweigh adverse consequences. Innovation supported.
<b>Very High</b>	Seek and be eager to be innovative and too chose options offering potentially higher business rewards (despite greater inherent risk). Or also described as mature and confident in setting high levels of risk appetite because controls, forwards scanning, and responsiveness systems are robust.	Investing for best possible return & acceptance of possibility of financial loss. Chances of losing any challenge are real and consequences would be significant. Desire to break the mould. High levels of devolved authority – management by trust, not control.
